

**FSU Budget Management Policy**  
**August, 2008, Revision**

Major changes made to the Budget Management Policy for the 2008 Revision

- Removed the reference to the Board of Trustees having to approve additional continuing positions. This is under the authority of the president.
- Removed the Position Vacancy Procedure that required a 10% reduction in budget for vacant positions.
- Removed the procedure that required Cabinet to discuss a recommendation to fill a position.
- Removed restriction on moving centrally funded Supplemental Faculty budget. It has become unclear as to the amount of supplemental faculty budget that is centrally funded versus funding that the college or vice president has allocated.
- Removed reference to college/units receiving a schedule of all regular and pooled positions assigned to it. This information is available in Banner.
- Other language cleanup.
