

ARTICULATION AGREEMENT

BETWEEN

FERRIS STATE UNIVERSITY
BACHELOR OF SCIENCE DEGREE
NUCLEAR MEDICINE

AND

Macomb Community College
Associate of Applied Science Degree
Nuclear Medicine Technology

THIS ARTICULATION AGREEMENT (hereinafter "Agreement") is entered into by Ferris State University, a Michigan constitutionally-created public institution of higher education, located in Big Rapids, Michigan 49307 (hereinafter "Ferris") and Macomb Community College (hereinafter "Macomb") on this 15th day of July, 2010.

RECITALS

WHEREAS, Ferris is a Michigan public university with its main campus located in Big Rapids, Michigan, and offers the Bachelor of Science degree in Nuclear Medicine (hereinafter the "Bachelor's Program"); and,

WHEREAS, Macomb is a Michigan community college with its main campus in Warren, Michigan, and offers the Associate of Applied Science Degree in Nuclear Medicine Technology (hereinafter the "Associate's Program"); and,

WHEREAS, Macomb's Associate's Program includes courses that may be applied toward the Ferris Bachelor's Program; and,

WHEREAS, Ferris and Macomb desire to collaborate to provide opportunities for continued education to Macomb's graduates of the Associate's Program through the Ferris Bachelor's Program;

AGREEMENT

NOW THEREFORE, the parties, desiring to articulate the nature of their collaboration, hereby agree to the terms listed below.

1. Macomb students, who have completed the Associate's Program with a cumulative grade point average of 2.00 (on a 4.0 scale) or higher and successfully

completed the registry exam, may apply to the Bachelor's Program at Ferris (hereinafter, "qualified student"). If the qualified student is admitted to Ferris for the Bachelor's Program, Ferris shall permit the qualified student to transfer all credits in the Associate's Program toward the Bachelor's Program for those courses that the qualified student received a grade of C (2.00 on a 4.00 scale) or higher, and for those courses that the qualified student received a grade of Pass (hereinafter a "Pass") for a course completed on a Pass or Fail basis, provided, however, that Macomb's definition of a Pass does not include the equivalent of a grade lower than a grade of C (2.00 on a 4.00 scale). Although all courses that meet the guidelines will transfer, program specific requirements must still be met.

2. Macomb students, who have not completed the Associate's Program and/or successfully completed the registry exam and do have 48 transferrable credits (those with a 2.00 on a 4.00 scale), may be eligible to be admitted to the Pre-Nuclear Medicine Program at Ferris. Admission to the Pre-Nuclear Medicine Program may be an option to the Macomb students in order to become eligible for admission to the Bachelor's Program. The Macomb student's eligibility for admission to the Bachelor's Program and/or the Pre-Nuclear Medicine Program shall be determined through the advising process for Macomb students seeking the Bachelor's Program.

3. Ferris and Macomb establish their own admissions requirements and recognize and respect each other's autonomy in establishing such requirements. Although qualified students from Macomb may meet the academic admissions requirements for Ferris, such qualified students may not be otherwise eligible for admission to Ferris. Ferris and Macomb recognize that Ferris may refuse admission to any person who does not meet all admissions requirements set by Ferris.

4. Attached hereto, and made a part hereof, is the curriculum plan for the Bachelor's Program (hereinafter the "Articulation Guide"), setting forth the prerequisites and course equivalencies that are the subject of transfer from the Associate's Program to the Bachelor's Program. The Articulation Guide is subject to programmatic review and periodic change by Ferris and Macomb. Ferris and Macomb will communicate regularly, but not less than once every year, regarding any required programmatic changes, and shall inform each other in writing of the impact of any programmatic changes on the Articulation Guide prior to the implementation of any programmatic changes.

5. This Agreement shall be for a term of three (3) years. Ferris or Macomb may terminate this Agreement by providing the other party with written notice, by first class mail, of the termination of the Agreement. The Agreement shall terminate not less than one hundred eighty (180) days from the date of the termination notice, unless otherwise agreed in writing by the parties.

6. This Agreement is intended solely for the mutual benefit of the parties hereto, and there is no intention, express or otherwise, to create any rights or interests for any party or person other than Ferris and Macomb. Without limiting the generality of the foregoing, no rights are intended to be created for any student, qualified student, as

defined herein, parent or guardian of any student, or employer or prospective employer of any student.

7. No amendment or modification to this Agreement, including any amendment or modification of this paragraph, shall be effective unless the same is in writing and signed by the party to be charged.

IN WITNESS WHEREOF, the parties hereto have executed this Agreement as of the day and year written in the preamble to this Agreement.

ARTICULATION AGREEMENT

BETWEEN

FERRIS STATE UNIVERSITY
BACHELOR OF SCIENCE DEGREE
NUCLEAR MEDICINE

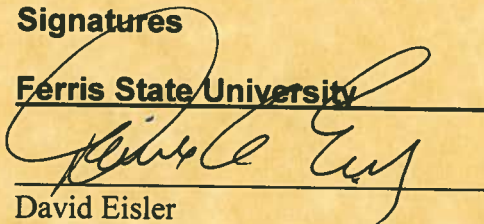

AND

Macomb Community College
Associate of Applied Science Degree
Nuclear Medicine Technology

We, the representatives of Ferris State University and Macomb Community College, agree to the terms of this agreement, which will be for a period of three (3) years, effective July 15, 2010, through July 15, 2013.
