YES, MY SCHOOL PARTICIPATES— WHAT DO I DO NEXT?

Once you have determined that your center/school participates in the Ferris AAP credit program, contact your teacher or counselor to help you with the application process. To be eligible for college credit, you must follow the Ferris AAP Plan listed as follows:

1. After you have been admitted to Ferris and during the second semester of your senior year at the career center, complete the test(s) required for the Ferris AAP credits you want. Learn what test(s) are required by looking in the AAP Handbook: www.ferris.edu/admissions/articulation
2. Before your center/school lets out at the end of your senior year (May), print the AAP Application Form off the Articulation web page, complete the form, and then have your career center teacher, counselor, and/or director sign and submit it to Ferris along with your test results.
3. Complete your center's career program with a "B" average (3.0 on a 4.0 scale), sign up for Ferris Summer Orientation, and register for fall classes (June-July).

NO, MY SCHOOL DOES NOT PARTICIPATE—WHAT CAN I DO?

You can go to your career center's counselor, teacher, or director and ask them to give Ferris a call to learn how they, too, can help students turn their career tech center and/or high school credits into **COLLEGE CREDIT: 1-800-4-FERRIS.**

Follow Your Career Pathway to a
College Degree

FERRIS STATE UNIVERSITY offers college credit to students who have attended a career technical center program or other high school career program that participates in the Statewide Articulated Advanced Placement Credit program at Ferris (the Ferris AAP credit program).

WHAT IS ARTICULATED ADVANCED PLACEMENT CREDIT AT FERRIS?

AAP credit is Ferris college credit that is awarded to eligible career technical education students who have demonstrated specific skill levels by successfully completing a testing process. Based on the test results, career education students may be awarded Ferris college credit for the skills they've learned and developed through certain programs at the career center and/or high school career program.

DOES MY CENTER PARTICIPATE IN THE FERRIS AAP PROGRAM?

If your career technical center or high school career program participates in the Statewide Articulated Advanced Placement Credit program, you may be eligible to turn your high school credits into college credit. Check the listing of participating career centers in this brochure.

Any questions you have about the Ferris AAP credit program, contact:

FERRIS STATE UNIVERSITY

Articulation Office

1201 South State Street, CSS 310
