Student Employee Evaluation

I. OVERVIEW: The performance evaluation is an integral part of every employment position. When thoughtful time is invested in the process, evaluations are a valuable tool: 1) in developing the student employee, 2) for the supervisor to provide and receive feedback, and 3) to assist in strengthening the employment environment.

Not only is the evaluation important to the current employment position, but also for future career positions. Every position in the job market has some form of performance evaluation. Employers have performance expectations that need to be met by their employees. It is crucial that an understanding of this process is started early in a student's employment career. By utilizing performance evaluations, students gain an understanding and exposure to what will be expected in the work place after college.

Please share the evaluation with your student employee, requesting her/him to complete it first. Then schedule a time to review and discuss the evaluation.
