LIVING EXPENSES

Notwithstanding the effort that many schools have made to establish cheap boarding houses, students can live in Big Rapids for as little money as in any other city in the United States. The school has no boarding houses. We place our students in first-class private families. Parents are thus given an additional security as regards the supervision that will be exercised over their sons and daughters. We use all possible diligence in looking after the habits and morals of every one entrusted to our care. We consider character the first essential to success, and parents and guardians who are anxious to place young people in

an institution that is determining to a great extent their future success, will, we are confident, give this fact due consideration.

Good board and room can be obtained in private families with roommate for \$6.00 to \$7.00 per week. Students can rent rooms and board themselves at very low rates. It should be remembered that students can live as cheaply in Big Rapids as in any other school town in the United States. If convenient, applicants should write the President concerning board, rooms, etc., at least a week before joining the school. The Ferris Institute Cafeteria serves meals at very reasonable rates. Many students board here for from fifty to seventy-five cents a day.

DIPLOMAS

Diplomas are granted at the end of June and in August to graduates of all departments of the Institute.

HIGH SCHOOL GRADUATES

Many ambitious high school graduates who are anxious to pursue a college or university course are, for the time being, barred on account of lack of funds. You are asking: "What can I do to earn money so that I may gratify my ambition?" The Ferris Institute has already answered this question to the satisfaction of thousands. Here is the answer: Master shorthand, typewriting, and the fundamentals of bookkeeping. With this equipment, you are absolutely sure of a position, at a good salary, for twelve months in the year. This is the shortest road to the realization of your ambition. Furthermore, this training is a guaranty against financial failure, whatever your vocation. It is an asset that makes the would-be dentist, doctor, lawyer, preacher, teacher, and captain of industry strong and confident. This preparation has enabled many young people to earn a salary and attend college, university, or professional school at one and the same time. Once more we say to high school graduates: We have called your attention to the short road that leads to the higher institutions of learning.
