## PREFACE

The Productivity Report is produced each summer by the Ferris State University Office of Institutional Research and Testing. All information provided in this publication is drawn from existing University data systems. **NOTE:** Beginning with **2012-2013 data the Productivity Report was NEW.** The structure and feel are the same, the data is the same, but it is now run directly from the BANNER system with the Web Focus reporting tool. For this reason there is currently only four (4) years of data represented in the report. Over the next year it will build into a five (5) year report as in the past. For previous year's data please refer to the hard copy Productivity Reports or access an electronic copy on the Web at <http://www.ferris.edu/HTMLS/admission/testing/resources/productivity/homepage.htm>. Any person having questions, suggestions, or requests for more detailed information should contact the Office of Institutional Research and Testing at extension 3800.

Readers should note that in the tables of this report, the whole may not equal the sum of the parts because of rounding. Data has been summed and then rounded.

This report details productivity trends at FSU over the past year. The report shows data for Summer 2012 through Spring 2016. Data is shown in detail by university (page 1), by college (page 2 through 3), by department (pages 4 through 9), and by course prefix (pages 10 through 36). Summary information for the current year shows SCH/FTEF in ranked order by college (page 38), by department (pages 39 through 41) and by course prefix (pages 42 through 52).

### EXPLANATION OF TERMS:

**Student Credit Hours (SCH)** - SCH is the product of the credit value of a course and the number of students enrolled in the course on the official fourth day of classes for that semester. For example, a 4 credit course section containing 50 students on the fourth day of classes would generate 200 student credit hours.

**Full-Time Equated Faculty (FTEF)** - A faculty member working full-time for fall and spring semester (fall semester 1 FTEF + spring semester 1 FTEF = Average F + W 1 FTEF). Overloads and part-time faculty produce a fraction of an FTEF. **No sabbatical or release-time FTEF are included in this report.** When student credit hours are produced by administrators, ROTC personnel, etc., zeros are shown in the corresponding full time equated faculty columns and are not included in the ranked listings.

**SCH/FTEF** - A measure of productivity. This gives the average number of student credit hours generated per full-time equated faculty member. When SCH is divided by zero FTEF (zero results in cases were administrators, ROTC personnel, etc., are teaching courses) the SCH/FTEF columns contain blanks.

**NOTE: If there are not SCH's and/or FTEFs in both the Fall and the Spring Term Columns there will be blanks in the SCH/FTEF column and there will not be data in the ranked listings. Also note that if there is a department and/or college name change the data will appear with the correct name and correct term.** Please contact the Office of Institutional Research and Testing if you have any questions.

As shown on page 1, during the Fall and Spring semester of the 2015-16 school year, Ferris State University had 704.25 full-time equated **teaching** faculty. A total of 321,421.50 student credit hours were produced, for an average of 456.41 student credit hours produced per FTEF. The same comparisons have been made for specific terms, by college, department and course prefix.

(The SCH and FTEF FSU totals shown in this report are the same totals submitted to the State of Michigan through the HEIDI system.)
