HVACR INDUSTRY & FRIENDS GOLF OUTING

The HVACR program is excited to offer an opportunity to bring together advisory, industry and students for a fun day of golf at the third annual HVACR Industry & Friends Golf Outing.

Your support of our golf outing is extremely important to the program's continued success. The involvement and dedication of Ferris HVACR industry and friends has allowed the program to reach out and touch students from across the country and our world.

As well, the program is working harder to continue the outstanding success of placement of HVACR students in full time positions and summer internships during tough times. All of the proceeds from this yearly outing will go directly to a scholarship fund for students in the HVACR programs.

We appreciate all of your support and look forward to your participation in the second annual Ferris HVACR Industry & Friends Golf Outing.

Joe Pacella
Associate Professor
LEED AP
