2004W	CHEM 103															
Control group pass rate is higher than SLA but it may be due to a difference in math ACT scores and HSGPA. There was only one control section and four SLA sections. Control section also contained many upper-class students. SLA had more first year students. 3-year average SLA pass rate was 15.8% higher than the control and 17.9% higher than departmental average.																
SLA	211 212 221 222		93	67	48	72%	52%	26	28%	5	5%		2.88	18.0	19.9	18.8
Control		213	22	16	14	88%	64%	6	27%	1	5%	-16%	3.05	19.0	19.6	18.9
Non-SLA Dept. Avg.																
Non-SLA Dept. Avg. - Control																
2004W	CHEM 121															
No students failed in the SLA section but 24% withdrew. Of the withdrawn students 90% were required to earn a C- or better in their programs. All SLA ACT scores are lower than the department scores. Reading SLA Act ≈ 2 points lower. SLA sections passed 8% more students than the department sections.
