**1. Proposal Summary**

Create PreMIM (PMIM) for the purpose of tracking and advising students who apply to Ferris with the intent to enter the Music Industry Management program (MIM), but either do not academically qualify for admission to a Bachelor degree program, or need to be in a two-year type program for Financial Aid purposes.

The ability to channel students within the MIM curriculum will assist in advisement accuracy (following proper curriculum sequence) and accurately depict true student enrollment numbers for the program and the Sport, Entertainment, Hospitality department.

Current practice is to admit academically ineligible students and TIP students to PBUS or GBUS. Pre category status is not a program that a student may obtain a degree in, but allows the student to receive Financial Aid while attempting to become academically eligible for a Bachelor degree program. Students are evaluated each semester and may be advised to transfer to General Business where Financial Aid remains available and a degree may be obtained. Both Pre and Gen Business students are categorized in the Management department. The intent for PMIM admission is to ensure correct advisor assignment, correct program curriculum assigned to student file, and accurate depiction of enrollment numbers for the MIM program and SEHM department while allowing the benefit of financial aid and/or academic success.

I believe we viewed it as an administration issue that should not require UCC action.

The old age memory is at work again.  
the UCC membership directed Academic Affair and admissions to go ahead and create these codes.  
There was no action by the UCC. Is that the way you remember it?
