

# Ferris State University HVACR Student ASHRAE Winning Teams

The following is a recap of the Ferris State University HVACR department student teams which have either won or placed in the ASHRAE International Student Competition since its inception (1997). This competition has two categories each year which allow the Ferris HVAC students to enter; they are the HVAC System Selection category and the HVAC System Design category. This competition is open to student groups from around the world and has been recognized as the only student global competition in HVAC and High Performance Buildings. Here are the recognized teams.
