

APA Citation Style

The information on this handout is derived from the 6th edition of the *Publication Manual of the American Psychological Association*.

Internal Citation

For more examples, see the *APA Publication Manual*, 6th edition, p. 177.

Author's Name in Text:

Miele (1993) found that the "the 'placebo effect,' which had been verified in previous studies, disappeared when [only the first group's] behaviors were studied in this manner."

Author's Name in Reference:

She stated, "The 'placebo effect,' . . . disappeared when behaviors were studied in this manner" (Miele, 1993), but she did not clarify which behaviors were studied.

References

The References list should appear as a separate page at the end of the paper, numbered as though it were a page in the paper. Double-space between and within entries. Entries should be alphabetized by first word of entry. Second and subsequent lines in each entry should be indented five spaces.
