

HVACR Students Gain National Exposure and Ferris HVACR Teams Accept Awards at 2006 ASHRAE Conference in Chicago, IL

One team of Ferris State University HVACR students were awarded honors in an annual international competition sponsored by the American Society of Heating, Refrigeration and Air Conditioning Engineers in Chicago on January 21, 2006.

For a record sixth year in a row, a team from Ferris has placed in the HVACR System Design Competition. The team consisted of Mhd Issam Al-Hafaz, Eric Denslow, Daniel Jenik, Ryan McCourt, Michael Normore, Jason Slominski, and Anthony Stamatopoulos along with faculty advisor Doug Zentz. They were awarded third-place honors in the design category.

The international competition is held each year to recognize outstanding student design projects, to encourage undergraduate students to become involved in the profession, and to apply their knowledge of practical design to teamwork.
