Ten Years of Top American Society of Heating, Refrigeration, and Air Conditioning Engineers (ASHRAE) Honors

For a record eleventh consecutive year, a team from Ferris State University earned top honors in the annual Student Competition, sponsored by the American Society of Heating, Refrigeration, and Air Conditioning Engineers (ASHRAE). Bachelor of Science degree students Matthew Klock, David Roberts, Craig Morrison, and Kyle Morrison placed third in the system selection portion of the international ASHRAE design competition last year. Associate Professor **Doug Zentz**, commented, “This competition measures our program against other institutions that teach HVACR system selection and design. With this year’s third in selection, Ferris State University has enhanced its already amazing record.”
