### **Ten Years of Top American Society of Heating, Refrigeration, and Air Conditioning Engineers (ASHRAE) Honors**

For a record tenth year in a row, two teams from Ferris earned top honors in the annual Student Competition, sponsored by the American Society of Heating, Refrigeration, and Air Conditioning Engineers (ASHRAE). Bachelor of Science degree students Jeremy Saddison, Gary Schrader, Ryan Larson, and Chad Gydenson placed first in the design portion of the international ASHRAE design competition this year. Students, Charlie Wade, Cameron Sherwood, Scott VanVossen, Lucky Chandana and Tim Scott also took home second place in the system selection portion. Comments Assistant Professor **Doug Zentz**, “This competition measures the program against other institutions that teach HVACR system selection and design. With this year’s first in design and second in selection, Ferris State University has enhanced its already amazing record.”
