

HVACR Engineering Technology & Energy Management Summer Academy 2021

The HVACR Summer Academy is a FREE one-day on-campus event designed to increase interest in career paths for 10-12th grade students. The day will feature hands-on activities and interaction with current Ferris HVACR students and faculty members. There will be an opportunity for parents to receive assistance with application procedures.

Mark your calendar for one day of career exploration:

TBA · Big Rapids, Michigan

Time: 9:00 am to 6:00 pm

Place: The Granger Center

- Discover how our unique talents and interests can lead to an exciting engineering career in HVACR!
 - Make new friends with current college students and fellow participants!
 - Experience HVACR engineering through fun, hands-on activities!
 - Apply your imagination and creativity to hands-on projects.
 - Experience how engineering technology makes a difference and how you can make a difference too!
 - Lunch will be provided for participating students at The Rock from 12 pm- 1 pm.
 - Parents may attend an information session on application and visit workshop.
- Please reach out to: Jill Trinklein (231) 591-2695 to confirm attendance.

Be inspired to pursue the best program in the country.
