TracDat is the University's official record that documents the effectiveness of our educational programs by recording the measures and results of assessments designed to determine our achievement of intended course, program, and university-level learning outcomes. These records may be viewed by external stakeholders, such as accrediting teams, and must be verifiable. By taking a user role within the TracDat system, you agree to assure that all information entered can be verified for accountability purposes and that it is an accurate representation of the findings of assessment.

I understand the provisions described in the Guidelines above, and accept personal responsibility for complying with them:
