The "Class Summary" shows the students their progress by term and cumulative. This is a good tool to help the student track their progress and to let the advisor know if the student is on track with GPA and credit completion which impacts things like financial aid and athletic eligibility. The table below describes the information that is displayed.

History

Term Attempted	Total credits attempted for one term	**Cumulative Attempted**	Total credits attempted, for all terms
Term Earned	Number of credits actually "earned" in one term. Student attempted 12 credits, only passed 9 credit, this would be 9.	**Cumulative Earned**	Total number of credits actually "earned", for all terms.
Term Quality Points	The credits earned times the point value of the grades received for one term Ex: Student earned an A in a 3 credit class, you would multiply the points (4) times the credits (3) and that is 12 quality points. Earning a C- in a 2 credit class would be 1.7*2=3.4 quality points	**Cumulative GPA Quality Points**	The total credits earned times the total point value of the grades received, for all terms
Term Graded Attempted	Same as "Term Attempted" minus classes not receiving a grade. (credit/no credit)	**Cumulative Graded Attempted**	Same as "Cumulative Attempted" minus classes not receiving a grade, for all terms. (credit/no credit)
Term GPA	The "term quality points" divided by the "term graded attempted"	**Cumulative GPA**	The total of all quality points divided by the total of all quality hours, for all terms
