BOT POLICY

Sec. 6-001 (1) Part-Time Employee. An individual who is hired to work a regular schedule of not more than 28 hours in a work week.

HR PROCEDURES/DESCRIPTION/DEFINITIONS

I. Work Hours

- A. Part-time employees may work a maximum of 28 hours per week for the University. Note: If a part-time employee is working for more than one University department, the combined hours worked may not exceed 28 hours per week.
- B. With prior approval from Human Resources (HR), a part-time employee may be scheduled to work more than 28 hours per week for a temporary period of time. The part-time employee must be agreeable to work the increased hours. The department must send a request to work more than 28 hours per week to HR prior to the schedule change. The request must include:

1. The reason for the need for increased hours, and
2. The specific dates the employee will work more than 28 hours per week.

HR will notify the department of their decision.

- C. Although not required by law, University practice is to allow for an unpaid lunch break for part-time employees who work an 8 hour day. Work schedules will vary by department, but an unpaid lunch break must be at least 30 minutes in length and the part-time employee must be relieved from his/her desk or work area for the lunch break.

II. Pay

- A. Part-time employees may receive pay increases no more frequently than once a year, and at a percentage rate no higher than increases given to current University non-bargaining unit, full-time employees. Exceptions to the frequency and amount of increase will be considered for such reasons as equity, merit or change in the level of responsibilities. An exception must first be approved by HR and then by the divisional vice president. The exception request must include:

1. The date and amount of the pay increase, and
2. Detailed justification why the part-time employee should receive a higher percentage increase and/or receive the increase outside of the year requirement.

- B. Pay for part-time positions should reflect factors such as levels of responsibility of the position and the education, experience, skills, abilities, etc. required to perform those responsibilities. A pay rate is not determined by the qualifications the employee may have, but the qualification required to perform the position's responsibilities.

- C. Pay ranges for the various part-time position types/titles are listed below. This table serves as a guide in determining the appropriate salary.
