

A Special Message from the President

Office of the President
October 23, 2009

As you may have learned from an earlier announcement, the University community is suffering from the loss of a valued member of its student body. Affectionately called “Fumi” by his track and field teammates, Fumitoshi Yonemura of Novi was an accomplished student-athlete and a freshman Honors student in his Biotechnology major in the College of Arts and Sciences.

This is a very sad day for the Ferris family. I ask that you remember the Yonemura family in your thoughts and prayers.

Because the events surrounding this accident touched so many members of the extended Ferris community, I urge anyone feeling the strain of this episode to please contact the University’s Counseling Center for help and support at 591-5968.

Sincerely,

David L. Eisler
President
