Section I: Mission & Definitions
Code of Student Community Standards

Section I: Mission & Definitions

Educational Mission
Ferris State University exists to afford quality educational programs and experiences for the benefit of the students and communities it serves. In order to operate effectively, the University community requires a system of order in which its members, including the faculty, students, administration, and staff, support the educational functions and objectives of the University. It is the responsibility of each member of the University to promote standards of personal integrity that are in harmony with the educational mission of the institution.

Rights & Freedoms
As a member of the University community, students are expected to respect and value the rights of others, support the academic environment, and encourage the proper use of University facilities. Students are expected to observe national, state, and local laws as well as University rules, regulations, and policies. However, in developing this policy, the University wishes to reaffirm its traditional support of freedom of speech, freedom of inquiry, and freedom to dissent.

Code of Student Community Standards
The Code of Student Community Standards, the “Code” which is the official policy of the University, is comprised of principles and policies on Student Rights, Student Dignity, Misconduct, Victims’ Rights, Alcohol and Other Drug Policies, Disciplinary Procedures, and other principles and procedures.

Implementation
The 2019-2020 Code of Student Community Standards was implemented on August 20, 2019.

Definition of Terms in the Code
For the purposes of this code, the following definitions shall apply.

1. The term “University” means Ferris State University.

2. The term “student” includes the following:
   a. A person who has been notified of their acceptance for admission to Ferris State University, who is admitted and enrolled in any credit-bearing course or program in any school or division of Ferris State University, or who is a continuing student between academic periods.
   b. A person who resides in Ferris State University housing, whether or not that person is enrolled in any school or division of Ferris State University.
   c. A person was enrolled at the University at the time of the incident, but has since withdrawn while disciplinary matters are pending.

3. The term “faculty member” means any person hired by the University to conduct classroom responsibilities.

4. The term “Director of Student Conduct” means the Director and all designees as assigned, including Conduct Case Manager & the University Committee on Discipline. The Director of Student Conduct has experience and extensive training on issues related to dating violence, domestic violence, sexual assault, and stalking as well as the procedures for conducting investigation and hearing processes that protect the safety of the complainants and promote accountability.
5. The term “Vice President for Student Affairs” means the Vice President and all appropriate designees as assigned.

6. The terms “University official” or “staff member” includes any person employed by the University, performing assigned administrative, professional, or para-professional responsibilities.

7. The term “Responsible Employee” includes anyone at Ferris State University who has the authority to address harassment, has the duty to report harassment or other student or employee misconduct to appropriate school officials; and/or anyone at Ferris State University who may be an individual whom a student could reasonably believe has such authority or responsibility as a Responsible Employee.

Although the term complainant is used throughout the Code, the University recognizes it is not a term that is all-encompassing of individual’s experiences, particularly when an act of violence is involved.

12. 13. The term “Advisor” is defined as any individual chosen by the complainant or respondent to provide support before, during and after the conduct conference process. Time Limitations
1. Time limitations that are specified in the following sections of this code may be extended for a reasonable period of time if an extension is justified by good cause under the totality of circumstances.
   a. A respondent in a conduct conference may make a request for an extension of a specific time limitation.
   b. A request for an extension must be submitted in writing to the Office of Student Conduct.

2. If a time limitation is not specified for a particular action under this code, the action must be taken or conducted promptly or within a reasonable period of time as determined from a consideration of the totality of the circumstances.
   a. A respondent in a conduct conference may make an appropriate objection concerning the promptness or reasonableness of the time within which an action is taken or a proceeding is conducted.

2. All the rights guaranteed by the Constitution and laws of the United States and the State of Michigan.

3. Freedom from discrimination or harassment on the basis of race, sex, age, religion, national origin, disability, sexual orientation, or gender identity under federal and state laws. ## Student Responsibilities

**Free Inquiry and Expression**

Ferris State University, like all academic institutions, exists for the advancement of knowledge, the pursuit of truth, the development of students, and the promotion of the general well-being of society. Free inquiry and free expression are indispensable to the attainment of these goals. Students are expected to exercise their freedom to learn with responsibility and to respect the general conditions that maintain such freedom. Enjoyment of the freedoms described here depends in part on a student maintaining effective communication with the University.

**Maintaining Local and Permanent Address**

Ferris State University expects all students to maintain a current local and permanent address. Addresses may be updated at the Timme Center for Student Services.

**Responsibility to Regularly Check & Respond to University Notices via Email**

It is the student’s responsibility to regularly check their Ferris State University email and respond to University notice appropriately. The University has developed general regulations concerning student conduct, which safeguard the right of every individual student to exercise fully the freedom to learn without undue interference.
Section II: University Disciplinary Procedures
Due Process & Equal Protection

Ferris State University’s procedures for imposing administrative and educational sanctions are designed to:

1. Include a presumption that the respondent is not responsible for the alleged conduct until a determination regarding responsibility is made through a conduct conference or University Committee on Discipline,
2. Provide students the guarantees of due process and procedural fairness,
3. Ensure equal protection for all students,
4. And provide for the imposition of similar sanctions for similar acts of misconduct.

At the same time, the procedures reflect the need to be concerned about the individual student involved in a particular case. The procedures therefore provide that the imposition of disciplinary sanctions must also be based upon a consideration of all the circumstances in a particular case, including a student’s prior record of misconduct, if any.

Jurisdiction

On and Off Campus. The Ferris State University Code of Student Community Standards shall apply to conduct that occurs on Ferris State University property, at Ferris State University sponsored activities, and to off campus conduct that adversely affects the health and safety of the Ferris State University community and/or the pursuit of its objectives.

From Admission to Graduation. Each student shall be responsible for their conduct from the time of their admission at Ferris State University through the actual awarding of a degree, even though conduct may occur before classes begin or after classes end, as well as during the academic year and during periods between terms of actual enrollment, and even if the conduct is not discovered until after a degree is awarded.

After Withdrawal if Incident Occurred While Student. Additionally, the Code shall apply to a student’s conduct even if the student withdraws from school while a disciplinary matter is pending. The Director of Student Conduct shall decide whether the Code shall be applied to conduct occurring off campus, on a case by case basis, at their sole discretion.

Registered Student Organizations. Individuals who are a part of an RSO which violates university policy may be held responsible for their own individual conduct. Information regarding policies and procedures applying to Registered Student Organizations (RSO) may be found in the Registered Student Organization Handbook published by the Center for Leadership, Activities and Career Services (CLACS). Any individual involved with an RSO is encouraged to read the RSO Handbook.

Disciplinary Procedures for Individual Misconduct

Applicability of Procedures

a. Disciplinary proceedings for acts of individual misconduct are governed by the following procedures.

b. Disciplinary proceedings for an act of individual misconduct that is committed simultaneously with an act of academic misconduct are governed by the following procedures unless the
The disciplinary procedures in this section do not supersede proceedings involving the alleged violation of campus motor vehicle and Housing and Residence Life contractual provisions, though violations of related policies may be referred for disciplinary action. The procedures likewise do not govern proceedings involving the university’s use of “registration holds” to collect money from students.

Amnesty
For complainants and witnesses
Ferris State University encourages the reporting of prohibited conduct under this policy. It is in the best interest of this community that as many individuals as possible choose to report to University officials, and that witnesses come forward to share what they know. To encourage reporting, individuals who in good faith report conduct prohibited by this policy, either as a complainant or a witness, will not be subject to disciplinary action by the University for their own personal consumption of alcohol, drugs, or other minor policy violations at or near the time of the incident, provided that any such violations did not and do not place the health or safety of any other person at risk.

For medical emergencies
In instances in which a student calls Public Safety, contacts a Housing staff, or another health and safety entity for assistance with an alcohol or other drug related emergency, the individual calling, those present in the immediate vicinity or the student in need of assistance, will not be subject to disciplinary action by the University for their own personal consumption of alcohol, drugs, or other minor policy violations at or near the time of the incident. In order to qualify for medical amnesty, medical attention must be received at the time of the incident.

Abuse of amnesty requests can result in a decision by the Director of Student Conduct not to extend amnesty.

Initiation of Proceedings
a. A report that a student has committed an act of individual misconduct may be filed by any person.

b. A report that a student has committed an act of individual misconduct must be submitted in writing to the Director of Student Conduct or appropriate designees.

c. After reviewing a complaint, the Director of Student Conduct has the discretion to decide whether disciplinary proceedings should be instituted.

d. If the Director of Student Conduct decides to initiate proceedings, the case will be assigned to a Conduct Case Manager or University Committee on Discipline.

e. A student may request that the case be or not be assigned to a specific Conduct Case Manager or committee member, with the understanding that the Director of Student Conduct has complete discretion over the eventual assignment.

f. Due process will be afforded to all Ferris State University students when charged with violating University regulations or policies.

Notice of Conduct Conference
a. The Director of Student Conduct shall send notice of the conduct conference to the student’s Ferris email account. In rare circumstances the Director may also send notice of the conduct conference to the student’s local or permanent address as it appears in the official records of the University to be delivered by U.S. postal service or campus mail. The University

---

4 For more information, please see Appendix C: What is Proper Due Process
considers it a student's responsibility to check their Ferris email regularly and respond to disciplinary notification in a timely manner no later than the date requested in the notification.

b. The notice shall inform the student of the following:

1. The opportunity to read all written reports and findings from any investigation regarding the circumstances and allegations of the case.

2. The opportunity to attend a conduct conference. A student’s conduct conference shall be scheduled minimally three days after the date of the notice. However, a student may waive their right to this three day provision. For conduct conferences scheduled with a University Committee on Discipline (UCD), the conduct conference shall be scheduled minimally five days after the date of notice.

3. The opportunity to give a response to the reports and to offer any additional information which might help in the resolution of the case.

4. The opportunity, during the conduct conference, to review all information and ask questions (or choose NOT to ask questions) related to the case information that may adversely affect the student.

5. The opportunity to present witnesses who may substantiate information related to the incident. A list of witnesses must be submitted no later than one business day before the conduct conference. The Director of Student Conduct, Conduct Case Manager or UCD Chair reserves the right to limit the number of witnesses based on the relevancy to the facts of the case. Character witnesses are generally not considered relevant.

6. The opportunity to have an advisor present during the conduct conference; the advisor may not participate in presenting the case, question witnesses, or make statements during the conduct conference.

7. Lastly, a student is not required to attend their conduct conference or answer any questions asked during the conduct conference; the choice to remain silent will not be taken as an admission of responsibility. However, a decision will be made in the student's absence and based on information available at the scheduled time of the conduct conference.

Conduct Conference

A conduct conference shall be conducted before a Conduct Case Manager at the discretion of the Director of Student Conduct, or their designee. Alternatively, in certain circumstances a University Committee on Discipline may be used.

a. Conduct conferences are closed to the public.  

b. A Conduct Case Manager is generally an employee of the University who has received training to act in such capacity.

c. In certain circumstances a second conduct officer may be used because of their expertise or ability to provide insight.

d. The Conduct Case Manager shall maintain necessary order and shall make all rulings necessary for a fair, orderly, and expeditious conduct conference.

e. The Conduct Case Manager may question any witnesses.

---

5 The NCHERM Group Model Code Project, 2013.
f. When it appears necessary to avoid undue hardship, the Conduct Case Manager may, at their discretion, grant a reasonable postponement of the conduct conference, especially in circumstances where additional immediate support services are required (i.e. medical or mental health/emotional support).

g. The decision of the Conduct Case Manager shall be based upon matters presented and introduced at the conduct conference and must be based upon a preponderance of the evidence (A determination whether the violation was more likely to have occurred than not).

h. The Conduct Case Manager shall make a finding as to whether the student has committed only the violation(s) as charged based on a preponderance of the evidence. If the Conduct Case Manager or committee reaches a finding of “responsible”, the Conduct Case Manager or committee shall, after review of any disciplinary record the student may have, require one or a combination of the disciplinary sanctions (Administrative and Educational) enumerated under this code.

i. A student will receive written notice of a decision and any applicable sanctions within a reasonable time frame. Cases requiring additional investigation may require additional time.

j. If the student fails to attend their conduct conference after proper notification by the Office of Student Conduct, the conduct conference will proceed and a decision may be made in their absence. Or if the accused student withdraws from the institution prior to the adjudication of their case and the former student chooses not to appear, the conduct conference will proceed and a decision may be made in their absence. A representative may not appear in lieu of the respondent.

**University Committee on Discipline**

A University Committee on Discipline shall be convened at the discretion of the Director of Student Conduct, or their designee. The majority of conduct conferences are conducted by an individual Conduct Case Manager rather than a University Committee on Discipline (UCD). A Conduct Case Manager will follow the same conduct conference procedures as a UCD in a condensed and non-scripted format as described below.

a. A University Committee on Discipline (UCD) committee shall consist of three members, including one student, one faculty member, and one staff member, with the committee selecting either the faculty or staff member to preside as the committee chair.

b. If any member of a UCD committee is unable to be present or should request to be excused from serving for any good cause, another committee member shall be selected from the UCD committee list. If necessary, the conduct conference may be rescheduled at the discretion of the Director of Student Conduct.

c. The UCD presiding chair, in consultation with any other members, shall maintain necessary order and shall make all rulings necessary for the fair, orderly, and expeditious conduct conference. The Conduct Case Manager or committee may question all witnesses. When it appears necessary to avoid undue hardship, the Conduct Case Manager may, at their discretion, grant a reasonable continuance of the conduct conference.

d. At a University Committee on Discipline conduct conference, the Director of Student Conduct and the respondent may present and question witnesses, present other evidence, and question other witnesses. The respondent may respond to the charges but shall not be ordered to respond, nor shall failure to respond be considered an admission of responsibility.

e. The Conduct Case Manager or committee shall make a finding as to whether the student has committed only the violation(s) as charged. If the Conduct Case Manager or committee finds that the student has committed the violation(s), the Conduct Case Manager or committee shall, after review of any previous disciplinary record, require one or a combination of the disciplinary sanctions (Administrative and Educational) enumerated under this code.
f. The decision of the UCD committee shall be based solely upon matters presented and introduced at the conduct conference and must be based upon a preponderance of the evidence (A determination whether the violation was more like to have occurred than not). A committee decision for each charge shall be made by majority vote.

g. Within a reasonable time frame after the conclusion of the conduct conference, the Office of Student Conduct shall render a written decision and outline any sanctions imposed.

h. The decision of the University Committee on Discipline will serve as a recommendation to be approved and implemented by the Dean of Student Life or their designee.

i. If the student fails to attend the UCD conduct conference after proper notification by the Office of Student Conduct, the conduct conference will proceed and a decision may be made in their absence. Or if the accused student withdraws from the institution prior to the adjudication of their case and the former student chooses not to appear, the conduct conference will proceed and a decision may be made in their absence. A representative may not appear in lieu of the charged student.

j. When an extension of time appears necessary to avoid undue hardship, the conduct case manager or committee may extend the time to enable a student to respond to the allegation and prepare a response.

**Rights of the Respondent**

In the interest of providing a fair and equitable process Ferris State University has policies established to ensure the rights of the respondent/alleged. For cases involving Title IX allegations of sexual violence these policies mirror the rights afforded to the complainant (See Code of Student Community Standards: Section III).

The University has established the following applicable rights for the respondent:

a. The right to be advised of proper channels for support and appropriate resolution.

b. The right of the respondent to have an advisor accompany them throughout disciplinary proceedings. An advisor is any individual chosen by the complainant or respondent to provide support before, during and after the conduct conference process. This person may be an attorney, but at no point may this individual represent in place of the individual they are present to support.

c. The right of the respondent to determine their level of involvement in the conduct conference process. However, it is always preferable that the respondent be present during the conduct conference process.

d. The right to challenge any individual serving as a Conduct Case Manager or University Committee on Discipline on the basis of bias.

e. The right not to have irrelevant past conduct discussed during the conduct conference and only considered as part of the sanctioning process, where appropriate.

f. The right to review all reports and relevant information that is to be considered during the conduct conference or conduct conference process. Evidence will be available to the complainant, when required by law.

g. The opportunity to present witnesses who may substantiate information related to the incident. A list of witnesses must be submitted no later than one business day before the conduct conference. The Director of Student Conduct, Conduct Case Manager, or UCD Chair reserves the right to limit the number of witnesses based on the relevancy to the facts of the case. Character witnesses are generally not considered relevant.
h. The right to receive written notice of a decision and any applicable sanctions within a reasonable time frame. Written notice of a decision will be sent concurrently to the complainant, when required by law.

i. The opportunity to submit an appeal, subject to the conditions of the appeal process, by the deadline date stated in the written outcome of the conduct conference. The respondent will also be apprised that, when required by law the complainant may appeal the initial decision.

j. The right to be treated with dignity and respect throughout the process.

Notice of Decision & Opportunity for Appeal
a. The respondent will receive written notification of the decision of the conduct conference or UCD conduct conference within a reasonable time frame.

b. The respondent, if found responsible, will have the opportunity to submit an appeal, subject to the conditions of the appeal process, within seven (7) calendar days of receiving the written decision letter provided to the student via Ferris State University student email.

c. For cases involving Title IX sexual violence and others required by law, the complainant will also have the opportunity to submit an appeal, subject to the conditions of the appeal process, within seven (7) calendar days of receiving the written decision.

d. All appeals must be submitted in writing to the Office of Student Conduct in Birkam 214, or electronically by following the instructions provided on the decision letter received by the respondent or complainant.

Compliance Letters
The University is committed to maintaining a healthy and safe environment in our residential communities while respecting and preserving individual rights. Compliance letters are typically sent to student(s) in situations where items or circumstances observed in an on campus residence, fail to comply with Housing and Residence Life policies. Compliance Letters are not commonly used when the item or circumstance pose an active and/or imminent risk to the residential or campus community.

a. A compliance letter shall be emailed to the student’s Ferris email account and include the concern(s) observed in the room and the date they need to be resolved by.

b. If the concern(s) are addressed by the date specified, and this is verified by a University official, no further action is taken and disciplinary proceedings are not initiated.

c. Disciplinary proceedings may be initiated if the concern(s) are not addressed in their entirety by the date specified.

Disciplinary Records
All conduct records are maintained by the University for at least seven (7) years from the time of their creation except those that result in suspension or dismissal, which are maintained indefinitely.\(^6\)

\(^6\) The NCHERM Group Model Code Project, 2013.
Sanctions
The Director of Student Conduct or their designee is authorized to impose any one or a combination of the following administrative and educational sanctions for behavior found to be in violation of the Code of Student Community Standards.

The University may impose other sanctions singularly or in combination with any of those listed below. The University recognizes two kinds of sanctions: administrative and educational, and they are often combined in an effort to hold students accountable while also providing resources to aid in a student's success.

Administrative Sanctions
1. Administrative Warning
   An administrative warning is an official written warning issued by the University. This warning is meant to inform the student that they have been found in violation of the University policy and that they should understand that future violations could result in further sanctions. With an administrative warning, a student should have a clear understanding of the University's expectations for their future behavior.

2. Disciplinary Probation
   Probation is intended to convey to the student that their conduct is unacceptable by University standards. Disciplinary probation is intended to convey to the student that their behavior has seriously impacted the community and should further violations occur, they may face suspension or dismissal from the University.

3. Disciplinary Probation Career
   Disciplinary probation career is the highest administrative sanction a student may be issued and still actively attend the University. Disciplinary probation career will result in probation for the duration of the student's academic career. Further violation of University policies at any point during the probationary period will be viewed not only as a violation based upon the act itself, but also as a violation of the probation. This shall result in further action up to, and including, suspension or dismissal from the University.

4. Suspension
   A student may be prohibited from participating in all aspects of University life for a specified period of time, usually a semester or a full academic year. When a student is suspended from the University, the suspension applies to all campuses of the University and prohibits that student from entering the grounds of all University campuses. When the term of the suspension has ended, the student may apply for readmission. Should a student choose to reapply and be readmitted to the University, the student would be placed on Disciplinary Probation for the remainder of their academic career at Ferris. In situations that a student has a disability, the University’s section 504/Title II coordinator and other appropriate persons knowledgeable about the student’s condition will be involved when that student seeks a return to the University.

   A Conduct Case Manager or UCD panel may, in limited cases, decide to defer suspension until the end of the academic term when appropriate.

5. Dismissal
   A student may be prohibited from participating in all aspects of the University permanently. When a student is dismissed from the University, the dismissal applies to all campuses and prohibits that student from entering the grounds of all University campuses. Furthermore, the student may not petition the University for readmission.

Further Information on Suspension or Dismissal
For those individuals who are either suspended or dismissed from Ferris, an AW (Administrative Withdraw) will be placed on the student's transcript if the suspension or dismissal is effective prior to the deadline for withdrawal from classes published by the University. This means that no grades A through F will be issued for that semester in which the student was suspended or dismissed. If the suspension or dismissal is effective after the deadline for withdrawal an AWF
(Administrative Withdraw Fail) will be assigned in the same manner as other students who withdraw after the deadline. That is, after the withdrawal deadline, a suspended or dismissed student would receive a grade of F for the semester in which they were suspended or dismissed.

**Effective Enforcement of Administrative Sanctions**

Administrative sanctions do not become final until the opportunity to appeal has passed (7 calendar days after notification). Students who choose to appeal suspension or dismissal decisions may continue to go to class and engage in customary University activities until an appeal decision is made, unless there is an interim suspension already in force through the Dean of Student Life Office or is otherwise stipulated through the conduct process.

**Educational Sanctions**

Education and Safety are the two primary priorities for the Office of Student Conduct. To accomplish these goals, the Office of Student Conduct provides opportunities for students to reflect on and learn from their past experiences. Educational sanctions include, but are not limited to the following:

1. **CREW Alcohol Check-In**
   This in-person program is provided by Ten16 Recovery Networks’ FS/CREW office on campus. The goal of the CREW Alcohol Check-In is to have a judgement free conversation regarding a student's alcohol usage, and its impact on their success as a student. Students only attend one program session that lasts approximately 30 minutes. There is a **$100 programming fee** for this in-person program.

2. **CREW Marijuana Check-In**
   This in-person program is provided by Ten16 Recovery Networks’ FS/CREW office on campus. The goal of the CREW Alcohol Check-In is to have a judgement free conversation regarding a student's marijuana and/or THC usage, and its impact on their success as a student. Students only attend one program session that lasts approximately 30 minutes. There is a **$100 programming fee** for this in-person program.

3. **Nicotine 101**
   Nicotine 101 is an online nicotine education course that strives to provide tools for students to make healthy choices about tobacco use. Students will explore their personal use of nicotine and associated behaviors and learn which diseases are associated with tobacco use. This course aims to address the behaviors of those who use nicotine and to provide valuable information on long-term use and adverse health effects. Presented in a motivational interviewing style, it empowers students to make their own decisions about nicotine use. There is an **$80 programming fee** for this on-line program.

4. **AOD Wellness Program**
   This program is for students who have run into recurrent and/or serious difficulty related to alcohol and other drugs on or off campus. The AOD Wellness Program consists of two sessions that are both 50 minutes. The program gives students the opportunity to consider their own ideals and goals around alcohol and other drugs (AOD) There is a **$200 programming fee** for this in-person program.

5. **Prime for Life**
   This program is for students to learn a set of practical strategies that reduce negative consequences of alcohol and other drug use. The Prime for Life program is in collaboration with the Mecosta County Ten16 Recovery Network. There is a **$200 programming fee** for the cost of administering this program.

6. **Community Service**
   The student may have the opportunity to choose the type of service they would like to perform and have the opportunity to work with staff at the Volunteer Center to find service opportunities that are meaningful to them, or they may perform service through in-hall service.

7. **Educational and Career Counseling Referral**
A student may be in the disciplinary process as a result of academic and personal challenges. Through a discussion with their conduct case manager, it may be determined that the student may benefit from participating in a two-part strategies program with an Educational Counselor.

8. **Individual Counseling Assessment**
   In limited circumstances a student may be sanctioned to visit with Ferris State University’s Personal Counseling Center for an individual assessment. Generally, students will not be sanctioned to “counseling” as that process requires an individual willing to participate to produce positive outcomes. However, students are often strongly encouraged to seek out support and a referral for voluntary counseling support may be made. These situations are handled confidentially.

9. **Mediation**
   Mediation is an opportunity to appropriately resolve differences with another individual or individuals through the assistance of a trained, unbiased, third-party facilitator. A student or student organization(s) may be encouraged or required to attend mediation in lieu of formal adjudication or as a result of formal adjudication.

10. **Reflection Paper**
    A student may be required to write a paper on a given topic(s) assigned by their conduct case manager. Reflection papers are typically designed to provide further opportunities for students to reflect on the incident they met about and to explore alternative behaviors in the future.

11. **Restitution**
    A student may be required to pay the costs for the replacement or repair of any University property damaged by the student (not typically applied for off-campus conduct as restitution is often required through any court proceeding).

12. **Transfer to a Different Housing Unit**
    An on-campus student may be required to transfer to a different residence hall or apartment when there exists a need to ensure the safety or the security of a specific person(s) or location where it does not warrant removal from Housing.

13. **Housing Contract Termination**
    An on-campus student may lose their housing contract due to the severity of the incident and/or community impact. Decisions regarding removal from housing will be made in consultation with Housing & Residence Life.

14. **Parental/Guardian Notification**
    A letter may be sent home to the parents or guardians of any student found in violation of an alcohol or drug policy violation. The intent of this letter is to ensure that the student, parent, and institution are able to work in partnership to foster student success. This letter informs the parent or guardian that a student’s relationship with the University is tenuous and may be severed if the student’s behavior is not altered.

**Parental/Guardian Notification**
As allowed under exception from the Family Education Right to Privacy Act (FERPA) a letter may be sent home to the parents or guardians of any student, under 21, found in violation of any alcohol or drug violation.

The intent of this letter is to ensure that the student, parent/guardian, and institution are able to work in partnership regarding individual student success. The parental/guardian notification letter informs the parent or guardian that a student’s relationship with the University is tenuous and may be severed if the student’s behavior is not altered.
Failure to Comply with Sanction Registration Hold
Students who have failed to complete their assigned sanction(s) by the assigned deadline may receive notice of failure to comply. This communication will serve as notification that a registration hold may be placed on their account pending completion of assigned sanction. The registration hold may not be lifted until the student has successfully completed their outstanding assigned sanction(s).

Students sanctioned to an in person program through FS/CREW who schedule, but do not attend their appointment, may be referred back to the Office of Student Conduct for failing to comply with a University sanction. This may result in a registration hold being placed on the students account and/or being reassessed the programing fee.

Housing Contract Termination
An on-campus student may be removed from University Housing, rescinding the student’s contract with Housing. A student removed from University Housing may be banned from entering any University Housing facilities.

Appeal Procedures
A student found responsible through the conduct process may appeal the outcome of the conduct conference by submitting a written appeal within seven (7) calendar days of receiving notification of the decision. The written appeal must include: the grounds for appeal and the remedy that the person appealing is requesting. Only the student may submit an appeal on their behalf. Appeals submitted by any other party will not be considered.

- Appeals of Suspension or Dismissal: Reviewed by the Vice President of Student Affairs or their designee.
- Appeals of LESS than Suspension or Dismissal: Reviewed by the Dean of Student Life or their designee.
- All appeals should be directed to the Office of Student Conduct for administration.

Criteria for Appeal
The appeal must be filed in writing by the appeal deadline date stated in the written outcome of the conduct conference. Appeals must meet one of the following criteria:

a. Failure by the conduct case manager or committee to afford the student due process, or a procedural error in the conduct conference which may have been substantial enough to change the case outcome; and/or

b. The discovery of substantive new evidence which was unknown to the conduct case manager at the time of the conduct conference that could have a significant effect on the case outcome.

c. The severity of the sanction (ONLY in cases that result in suspension or dismissal from the University).

Procedure for When an Appeal is Received
a. An appellate officer or board shall review appeals as designated by the Vice President for Student Affairs or designee.

b. Upon review of the written appeal material, the appellate officer or board may recommend one of the following options for approval by the Vice President for Student Affairs or their designee.

c. If the grounds for appeal have been sufficiently satisfied and the appeal is accepted, one of the following will occur:
1. The case shall be remanded back to the original Conduct Case Manager or committee with specific instructions to correct a procedural error and reconsider the case.

2. The case shall be remanded back to the Office of Student Conduct for a new conduct conference before a different Conduct Case Manager or committee; or

3. The sanction may be modified.

d. If the grounds for appeal have not been sufficiently satisfied, the original decision is upheld and sanctions are enforced.

e. Each student shall be limited to one appeal and shall not be entitled to appeal their case from one appellate officer to another. The decision of the appellate officer shall be final.

f. In cases where suspension or dismissal is applied, if a student has submitted an appeal, they may continue to go to class and engage in customary University activities (unless otherwise stipulated, typically by order of an interim suspension instituted by the Office of the Dean of Student Life) until an appeal decision is made.

**Interim Measures**

a. **Authority for Interim Measures:** The Dean of Student Life or their designee may act immediately without following the conduct process procedures established by the University and impose interim measures if it is determined that (a) the student engaged, or threatens to engage in behavior which constitutes a direct threat to others, (b) the student has caused or likely will cause significant property damage, or (c) the student’s behavior has or likely will significantly disturb normal university operations and/or the education process. This may include an interim suspension, which is a temporary and immediate suspension pending a student’s conduct conference.

The Office of Housing and Residence Life, may act immediately to remove an individual from their housing location when deemed necessary to safeguard the community.

b. **Direct Threat**

In determining whether an individual poses an imminent danger or a direct threat to the health or safety of others, the University will make an individualized assessment, based on reasonable judgment that relies on current medical knowledge or on the best available objective evidence, to ascertain: the nature, duration, and severity of the risk; the probability that the potential injury will actually occur; and whether reasonable modifications of policies, practices, or procedures will mitigate the risk without fundamentally altering the nature of the service, program or activity. Absent exigent circumstances creating an imminent risk of harm, the assessment will be made prior to a decision to remove a student based on the threat they pose to others.

In situations that the Dean of Student Life or their designee is aware that a student has a disability, the University’s section 504/Title II coordinator and other appropriate persons knowledgeable about the student’s condition will be involved where students are removed or seek a return to the University.

c. **Notice of Interim Suspension:** A student who is issued an interim suspension and excluded from the University shall be required to leave the property of the University immediately and shall be notified that they will thereafter be treated as a trespasser if they return to University property without proper authorization. Written notice will be sent to the student informing the student of the following:
1. That the student has been issued an interim suspension from the University;

2. That the student has been excluded from being on University property;

3. That the student will be considered a trespasser if he or she returns to University property without proper authorization;

4. The reasons for the interim suspension from the University and the exclusion from University property;

5. Instructions on how to appeal the interim suspension; and

6. That the Director of Student Conduct will be initiating disciplinary action against the student.

d. **Disciplinary Process after Interim Suspension:** The Director of Student Conduct shall initiate the disciplinary process for a student who has been issued an interim suspension and excluded from the University. The disciplinary process is the formal set of procedures the University has in place for allegations of student misconduct and occurs after the interim suspension has been issued and reviewed. The notification for the conduct conference will be issued separately of the interim suspension and exclusion from University property.

   1. The student shall thereafter be permitted to enter the University campus only for the limited purpose of participating in the disciplinary proceedings conducted under this section.

   2. The Director of Student Conduct may require that the student be escorted to and from the disciplinary proceedings by members of the University police department.

   3. Every attempt will be made to act expeditiously with the disciplinary proceedings. Typically, proceedings are held within 30 days absent exigent circumstances.

e. **Appeal of Interim Suspension.** Within seven (7) days after a student has been notified of the interim suspension and exclusion from University property, the student may request an interim suspension review meeting to determine whether the interim suspension should continue or whether the student should be reinstated and allowed to return to University property, pending their conduct conference. Exceptions to this timeline may be made in circumstances where a student is unable to respond (i.e. incarceration).

   1. The request must be submitted in writing to the Vice President for Student Affairs or their designee.

   2. Appeals must meet one of the following criteria:

      a. The reliability of the information concerning the student’s alleged misconduct including the matter of their identity,

      b. Whether the conduct and surrounding circumstances reasonably indicate that the continued presence of the student on University premises poses a direct threat to other people, or property.

   3. The Vice President for Student Affairs or their designee shall select an appeals officer or committee as provided by University policy.

   4. The designated appeals officer or committee shall hold a review meeting within seven (7) days after the University receives the appeal.
a. At the review meeting the respondent has the right to have an advisor accompany them throughout disciplinary proceedings. An advisor is any individual chosen by the complainant or respondent to provide support before, during and after the conduct conference process. This person may be an attorney, but at no point may this individual represent in place of the individual they are present to support.

5. The appeals officer or committee will review the information upon which the interim action was based and recommend any further action.

6. If a student’s conduct conference is scheduled before an appeal decision is made on their interim suspension, the decision of the conduct conference will supersede the interim suspension appeal.

7. The student shall be permitted to enter the University campus for the limited purpose of this meeting in accordance with the provisions in this code.

8. The appeals officer or committee will make a recommendation to the Vice President for Student Affairs or their designee.

9. The Vice President for Student Affairs or their designee will consider the recommendation of the appeals officer or committee but is not bound by the recommendation. The Vice President for Student Affairs or their designee shall thereafter notify the student that the student is reinstated or that the interim suspension and temporary exclusion are to be continued pending the outcome of the disciplinary proceedings. This communication will occur within five (5) days of the review meeting.

Gender-based Discrimination Law

Title IX Prohibition of Gender-based Discrimination
Title IX of the Education Amendment of 1972 prohibits discrimination based on gender. Sexual violence in all its forms is harassment based on gender and a violation of federal law under Title IX. The University has adopted specific procedures for ending discrimination, preventing its recurrence, and seeking to remedy the effects of the discrimination.

Michigan Law on Sexual Violence
Sexual assault is a violation of Michigan Law and may result in criminal charges and sanctions being pursued against the perpetrator in addition to sanctions imposed under the University conduct process.

Ferris State University Non-Discrimination Grievance Procedure
Ferris State University takes seriously its responsibility to provide an educational environment free from unlawful discrimination. To that end the University has established policies prohibiting discriminatory conduct within the University community. The Policy on Non-Discrimination expressly prohibits unlawful discrimination in connection with any aspect of Ferris State University’s educational programs or opportunities, services to the public, or employment. The Employee and Student Dignity Policy expressly prohibits harassment and disrespectful conduct within the University community. The University has also established equal opportunity policies pertaining to employment, education, and services to the public, nondiscrimination policies for persons with disabilities and policies prohibiting sexual violence, dating violence, domestic violence, stalking, harassment, assault, and other forms of misconduct.

The process outlined in the Code of Student Community Standards mirrors that of the Ferris State University Non-Discrimination Grievance Procedure. Should changes be made to the Ferris State University Non-Discrimination Grievance Procedure, those changes will supersede all prior reporting and investigatory protocols pertaining to matters of discrimination within the University community.

Ferris Prohibition Statement on Relationship Violence and Sexual Misconduct

Prohibition Statement
Ferris State University does not tolerate relationship violence or sexual misconduct in any form with a connection to the University, including domestic violence, dating violence, stalking, sexual harassment, and sexual violence/assault. Relationship violence and sexual misconduct are violations of the dignity and respect policies, as well as other policies and criminal law, and the University will strongly pursue disciplinary action and sanctions against all employee and student perpetrators, up to and including termination of employment or dismissal from the University.

Employee and Student Dignity
The University expects all students and employees to conduct themselves with dignity and respect for students, employees and others. It is each individual’s responsibility to behave in a civil manner and to make responsible choices about the manner in which they conduct themselves.

Harassment of any kind, including sexual or racial harassment, is not acceptable at the University. The University does not condone or allow harassment of others, whether engaged in by students, employees, or by vendors of others doing business with the University.

Harassment is the creation of a hostile or intimidating environment in which verbal or physical conduct, because of its severity or persistence, is likely to significantly interfere with an individual’s work or education, or adversely affect a person’s living conditions. It is the responsibility of the President, or his/her designee, to establish and administer University policy to support this principle.

Definitions of Sexual Violence & Consent

University Definitions of Consent and Sexual Violence

Sexual Violence
Sexual Violence is a term covering various forms of nonconsensual sexual activity and contact. The University recognizes a number of different acts that fall into the category of sexual violence; including, rape, fondling, sexual assault, sexual battery, and sexual abuse. All acts of sexual violence are prohibited under Title IX gender discrimination law and by Ferris State University.

Nonconsensual Sexual Activity: Sexual activity includes penetration, no matter how slight, of the vagina or anus with any body part or object, or oral penetration by a sex organ of another person, without consent. Consent, as well as the terms force, coercion, and incapacitation are further defined below.

Nonconsensual Sexual Contact: Sexual contact includes: (a) intentional touching of the breasts, buttocks, groin, or genitals, whether clothed or unclothed, or intentionally touching another with any of these body parts; or (b) making an individual touch another person or themselves with or on any of these body parts, without consent. Consent, as well as the terms force, coercion, and incapacitation are further defined below.

Consent
Lack of consent is a critical factor in determining whether sexual misconduct has occurred. Consent is the voluntary agreement to engage in sexual activity/contact. Consent to engage in sexual activity must demonstrate that it meets the following four components; (1) informed, (2) freely and actively given, (3) mutually understandable words or actions, (4) indicating a clear agreement to engage in sexual contact of any kind. It is the responsibility of the person who wants to engage in sexual activity to make sure that they have received consent from any person(s) involved. If an individual initiating sexual activity is not sure if they have received consent, they have an obligation to seek additional clarification.
Informed:
- Consent includes each person(s) having a clear and mutual understanding of the nature and scope of the sexual activity;
- Consent to one form of sexual activity does not constitute consent to all forms of sexual activity;
- Informed consent cannot be given by a minor (anyone under age 16).

Freely and Actively Given
- Consent cannot be given by an incapacitated person(s) (see definition of incapacitation below);
- Consent cannot be achieved through force (see definition of force below), threat, deception, intimidation or coercion (see definition of coercion below).
- Consent cannot be assumed or implied by a current or previous dating or sexual relationship.

Mutually Understandable Words or Actions
- Consent consists of clear communication (words or actions) that indicates each person(s) unambiguous willingness to engage in sexual activity from the beginning to end of each instance of sexual activity and for each form of sexual contact;
- Consent cannot be assumed or implied by silence, passivity, the lack of an objection. A person who does not physically resist or verbally refuse sexual activity is not necessarily giving consent.

Indicating a Clear Agreement to Engage in Sexual Contact
- Consent can be withdrawn at any time through clear communication (words or actions) that indicates each person(s) is no longer willing to engage in sexual activity.
- In the absence of a clear agreement to engage in sexual contact, consent does not exist.

The term “Coercion” includes intimidation, deception, and/or express or implied threats of physical, reputational, academic, financial, or emotional harm or restraint, that would reasonably place an individual in fear of immediate or future harm and that is used to persuade or compel someone to engage in sexual activity or exploitation. This includes threatening to “out” someone based on sexual orientation, gender identity and/or gender expression.

The term “Force” is the use or threat of physical violence and/or strength or intimidation to overcome an individual’s freedom of will to choose whether to participate in sexual activity. Force is not limited to physical violence, but also includes threats, intimidation, abuse of power, duress or any combination of these behaviors. When determining whether or not force was involved, there is no requirement that a Complainant resist the sexual advance or request. However, resistance by the Complainant will be viewed as a clear demonstration of non-consent.

The term “Incapacitation” is a state where an individual cannot make an informed and rational decision to consent to engage in sexual activity because the individual lacks conscious knowledge of the nature of the act (e.g., to understand the “who, what, where, when, why or how” of the sexual interaction) and/or is physically or mentally helpless. An individual is also considered incapacitated, and therefore unable to give consent, when asleep, unconscious, or otherwise unaware that sexual activity is occurring.

Incapacitation can only be found when the respondent knew or should have known that the complainant was incapacitated when viewed from the position of a sober, reasonable person. One’s own intoxication is not an excuse for failure to recognize another person’s incapacitation.

Incapacitation may result from the use of alcohol and/or other drugs; however, consumption of alcohol or other drugs, inebriation, or intoxication alone are insufficient to establish incapacitation. Incapacitation is beyond mere drunkenness or intoxication. The impact of alcohol or drugs varies from person to person, and evaluating incapacitation requires an assessment of how consumption of alcohol and/or drugs impacts an individual’s:
- Decision-making ability
- Awareness of consequences
• Ability to make informed judgments
• Capacity to appreciate the nature of circumstances of the act.

Reporting, Confidentiality & Privacy Policies

Reporting Requirements Under Title IX
The University has designated that anyone at Ferris State University who has the authority to address harassment, has the duty to report harassment or other student or employee misconduct to appropriate school officials; and/or anyone at Ferris State University who may be an individual whom a student could reasonably believe has such authority or responsibility as a Responsible Employee. Responsible Employees who become aware either through direct disclosure, or through the application of reasonable care of an act of discrimination, will report the matter to the appropriate University official. Responsible Employees may also have crime reporting requirements pursuant to Clery, state mandatory reporting laws, or other University policy.

When receiving notice of a concern for harassment, Responsible Employees shall remind complainants of the availability of resources for confidential reporting and support within the University community, while advising complainants of their obligations as Responsible Employees for notifying the University of any complaints received. Responsible Employees shall neither encourage nor discourage use of confidential reporting resources. Responsible employees shall provide complainants and other affected parties with information about confidential reporting resources, respecting the decisions of those individuals regarding their use of confidential resources and/or participation in University investigations.7

Reporting Requirements Under the Clery Act
Who on campus is required to Report?
The following, in addition to the Ferris State University department of Public Safety, have been designated as “Mandated Reporting Officials” for sexual violence: All Deans, Directors, Department heads and chairs, The Office of Student Conduct, any Vice President or Vice President Office and Academic Affairs administrators. All coaches, Advisors of student organizations, University Center or extra-curricular activities’ advisors or directors, all residence hall staff, and all employee supervisors are also reporting officials.

Confidential Support Options
Ferris State University encourages survivors of sexual violence to seek support and talk to someone about what occurred. Confidential support and assistance related to concerns for discriminatory conduct are available to Ferris State University students. The Personal Counseling Center on the main campus or Big Rapids campus and the KCAD Director of Counseling in Grand Rapids are confidential resources available to assist complainants, respondents, and others affected by discriminatory conduct occurring within the University community. Licensed counselors in these offices are able to provide students’ confidential support, except in instances where there is an imminent threat of further harm or danger to the University community for which they have a duty to warn University administration and/or law enforcement authorities.

The Personal Counseling Centers are located at 1019 Campus Drive, Big Rapids, MI 49307, phone (231) 591-5968; and inside the Activities and Resource Center on the first floor of the 17 Fountain Building on the KCAD Campus, phone (616) 451-2787(ext. 1136).

Reporting Options that Maintain Privacy
Any responsible employee who has the authority to confront and address sexual violence must report all information provided to them to the Title IX coordinator (see contact information below). When reporting to any responsible employee there should be an assurance that the highest degree of privacy will be maintained. ONLY those responsible for directly responding to the incident will be notified.

Reporting the Incident to Law Enforcement

7 Ferris State University Non-Discrimination Grievance Procedure
All complainants of sexual violence will be made aware of their right to report the incident to law enforcement. The complainants will be informed, at the time of the report, of all options available for resolution of their complaint through both criminal and university processes.

**Interim Measures**
When the University knows or reasonably should know of conduct alleged to violate non-discrimination policies, it will take appropriate, immediate steps to investigate or otherwise determine what occurred. As determined necessary to assist and/or protect parties during the investigation process, the University will take interim measures designed to assure safety, support, and equity to individuals involved in matters addressed under these procedures.

For students, interim measures may include arranging for changes in class schedules or living arrangements, issuing no-contact and/or non-trespass orders, obtaining counseling, modifying test schedules and/or other class requirements temporarily, arranging for alternative forms of access to University services and/or facilities, or other forms of remission deemed appropriate. For employees, interim measures may include temporary reassignments, administrative leaves, issuing no-contact and/or non-trespass orders, arranging for changes in class schedules and/or other working conditions, obtaining counseling or arranging for alternative forms of access to University services and/or facilities. For other University community members, interim measures may include issuing no-contact and/or non-trespass orders, arranging for alternate forms of access to University services and/or facilities, or provision of other forms of remission determined necessary to the University’s facilitation of a prompt and equitable investigation. The University will provide, in writing, notification to parties affected by discrimination information about community services available to provide counseling, health, mental health, victim advocacy, legal assistance, visa and immigration assistance, student financial aid, and other related services. Notice shall also be provided to individuals affected by discrimination of options for requesting assistance or change to academic, living, or working conditions, as well as transportation services and protective measures or accommodations. A copy of these procedures, including notification of the rights articulated therein, shall be provided to complainants, respondents, and others affected by discrimination within the University community.

Interim measures are provided at the discretion of the University and may be initiated, altered, or revoked at any time. In all cases, the University will notify affected parties of their rights under applicable state and federal laws, including Title IX and those statutes referenced and identify resources available to provide assistance on and off campus.  

**Investigation Procedures**
The University takes all complaints of discriminatory conduct seriously and is committed to prompt, thorough, and appropriate review of allegations made or known to the administration. Individuals who believe that they have been the complainants of conduct prohibited by the University’s non-discrimination policies or who believe that they have witnessed or otherwise have information about such conduct should promptly report complaints to the University as described in Section II of this procedure.

---

8 Ferris State University Non-Discrimination Grievance Procedure
Notice of conduct alleged to violate University policy may be reported at any time. As timely reporting of incidents allows for thorough and accurate University review, it is expected that concerns and complaints of conduct alleged to violate University policies be reported within a proximate time of the occurrence of the alleged conduct or the date upon which the alleged conduct became known to the reporting party. Timeliness for reporting a complaint can vary according to the circumstances alleged. Untimely notice to the University of complaints may limit the ability of the University to gather relevant evidence and/or effectively remediate those circumstances. Complainants and other University community members with knowledge of discriminatory conduct are encouraged to notify appropriate University administrators.

As used in this procedure, the term “investigation” refers to the process that the University uses to review and respond to conduct alleged to violate its non-discrimination policies. This includes the fact finding process and any hearing or other decision-making process the University uses to determine: (1) whether or not conduct in violation of University policy occurred; and (2) if the conduct occurred, what actions the University will take to respond, remediate, eliminate, and prevent recurrence of prohibited conduct within the University community, which may include imposing disciplinary or corrective action and/or provision of remedies to affected parties and/or the University community. University investigations are conducted in accord with provisions of applicable collective bargaining agreements and in compliance with applicable state and federal laws.

In all cases, the University’s investigation will be thorough, reliable, impartial, and prompt. The investigation will include the opportunity for affected parties to provide statements, identify witnesses, and produce evidence. Complainant(s) and respondent(s) shall have the same opportunities to participate in the investigatory process and will be notified, in writing, of the outcome of the complaint and any appeal(s). The University will notify the complainant(s), respondent(s), and other affected parties of resources available to provide academic and personal support available on and off campus, including counseling services, academic advising, and resources for pursuing complaint resolution.

When investigating a complaint or other allegation of conduct under this procedure, the University will appropriately coordinate with any other ongoing University or criminal investigations of the incident/matter. The University recognizes its obligation to promptly and thoroughly review allegations of conduct under these procedures and at no time shall investigations conducted under these procedures be unreasonably impeded, disrupted, or delayed by any other investigatory processes occurring with regard to the matters alleged.

Upon receipt of a complaint, University administrators defined in Section II of this procedure, or their designee, may conduct a preliminary review of the complaint to determine that this procedure is appropriate for addressing the matter, or to otherwise determine whether a formal investigation is warranted. As appropriate, the University may utilize an ad hoc or standing team/committee to assure that appropriate services and education are provided to the parties and broader University community. Where the University determines that an allegation of conduct in violation of University policy requires investigation, the University will assign an investigator to review the matter. Investigators will work with complaint coordinators identified in Section II of these procedures to conduct the investigatory processes, provision of support services, and remediation of conduct found to violate University policy.

Assigned investigators shall begin investigation promptly upon receiving notice of a complaint. At the start of the investigatory process, the investigator shall determine from the allegations made and/or other available evidence, the information necessary to an appropriate review of the alleged policy violation(s). Investigations of allegations of discriminatory conduct may include review of related physical evidence and/or materials, review of electronic transmissions, records, and/or other documentation, interviews, and other fact finding activities which would assist the investigator to determine whether a violation of University policy occurred. The investigator shall interview individuals involved, witnesses, and any other persons determined to have relevant knowledge of the circumstances and/or deemed necessary to the completion of a thorough and accurate investigation. The right to be accompanied by a non-participatory advisor or other representative shall be applied equally for complainants and respondents. Parties interviewed by the investigator shall be invited to provide written statements and/or other relevant documentation for consideration of the investigator. Except for circumstances where the University determines that informal resolution may be appropriate and the parties have agreed to participate in such a process as explained below, the investigator shall not concurrently interview the complainant(s) and respondent(s), and/or require the parties to meet to discuss, mediate, and/or otherwise resolve the complaint. The University will respect determinations made by the complainant(s) and respondent(s)
regarding their level of participation in an investigation. However, parties shall be advised that non-participation in the investigatory process shall not preclude the University from appropriate remediation of complaints, including completion of its fact finding and engagement in corrective or disciplinary action determined appropriate.

The investigator may require the provision of additional records, documentation, and/or other materials necessary to the review of the conduct alleged. University community members are expected to comply with reasonable investigator requests for records, documentation, and/or other materials and to cooperate in the investigatory process, including the timely arrangement of meetings, evidence production, and following of investigator directives. An adverse inference, factual finding, and/or appropriate corrective or disciplinary action may be taken against University community members who disrupt, obstruct, and/or otherwise fail to cooperate in University investigatory processes. In conducting the investigation, the investigator may consider, among other things: the severity, pervasiveness, and chronology of alleged conduct, the relationship, if any, existing between parties prior to and after the alleged conduct, patterns of conduct complained of, consent and co-involvement of parties, effects of drug or alcohol use, effect of intervening measures taken by the University, credibility, truthfulness, and cooperation of University community members, and other factors deemed relevant to the investigator’s findings and conclusions.

The investigator will make every attempt to complete the investigation in a timely manner. Where parties, witnesses, and evidence needed by the investigator are readily available for review, the investigator will attempt to conclude the investigatory process within a reasonable timeframe after the investigator receives the complaint. The University strives to complete investigations within a 60 calendar day window only when parties, witnesses, and all evidence needed by the investigator are readily available for review. Where parties, witnesses, and/or evidence needed by the investigator is delayed, temporarily unavailable, and/or otherwise withheld, the investigator may extend the timeframe of the investigatory process as necessary to complete a thorough and appropriate review of the matter. This timeframe does not include any appeal processes or dates by which support services, educational responses, and/or final corrective or disciplinary actions or other dispositions must be completed.

In most cases, the investigator will formally review complaints and other allegations for conduct alleged to violate University policy (Formal investigation and review is required for all complaints of sex discrimination, sexual violence, sexual assault, sexual harassment, domestic violence, dating violence, stalking, and other allegations of conduct of a violent or threatening nature occurring within the University community). In circumstances where there is little dispute about the facts and/or circumstances related to a complaint and the alleged conduct did not severely impact a party or the broader University community, matters may be resolved informally, outside of this investigatory process. In such cases, the complaint coordinators of this procedure and/or assigned investigator will work with the parties to resolve the issue in a mutually agreeable manner, assuring that the conduct complained of does not persist, its effects have been remediated, and the risk of retaliation, hostility, and/or other adverse impact within the University community resulting from this concern is mitigated. The investigator is responsible for assuring due process. In all cases, the University’s investigation shall be prompt, fair, and impartial. The investigation shall culminate in the investigator’s finding of related facts and conclusions regarding questions of policy violation. In cases involving student respondents, the investigator will defer to the Office of Student Conduct for a determination if there is a violation of policy. University officials who are involved in the discrimination grievance process shall promptly disclose any potential conflict of interest they might have in a particular case to the investigator and Director of Equal Opportunity/Staff Attorney.9

Confidentiality of the Investigation Process
The University recognizes that, to the extent possible, confidentiality of investigatory process and investigation materials is of benefit to the institution’s fact finding efforts; to the reduction of trauma, hostility, and/or discomfort of parties continuing their engagement with the University; and to continuation of University business. During the investigation, the University shall maintain confidentiality of the process, to the extent possible, by limiting its disclosure of complaint information to parties necessary to the effective review and/or remediation. The University shall also ask that the complainant(s), respondent(s), witnesses, and other University community members with knowledge of the matter refrain from unnecessary disclosure of investigatory details and/or other complaint-related information.

9 Ferris State University Non-Discrimination Grievance Procedure
Restraint of disclosure regarding details of the University's investigation provides the best opportunity for the University to obtain accurate, unbiased, uninfluenced recollections of events and/or otherwise known information from parties, witnesses, and others with knowledge of the matter. The University recognizes, however, the right of community members to discuss matters of public or personal concern, particularly as it may relate to receipt of external support or complaint resolution assistance by the parties. University community members are expected to use prudent judgment regarding disclosure of complaint and/or investigation information. Disclosure of complaint and/or investigation information for the purpose of influencing and/or obstructing the University's investigation is prohibited and shall incur appropriate disciplinary action, up to and including expulsion, termination, and/or other restricted access to the University community.  

**Student Conduct Conferences for Sexual Misconduct**

a) If the Title IX investigation or the Office of Student Conduct determine there is insufficient information to implement a formal conduct process, both complainant and respondent will be notified. This is not a formal determination of responsibility, and does not preclude the possibility of future conduct proceedings if new relevant information is provided.

b) If it is determined there is enough information to implement a formal conduct process, the Office of Student Conduct will notify the complainant and respondent that a conduct conference is to be scheduled. The respondent will be provided at least five days to review all relevant information which will be utilized during the conduct conference.

c) Conduct conferences are closed to the public.  

d) A Conduct Case Manager is an employee of the University who has received training to act in such capacity.

e) The University may also use a secondary conduct case manager to assist in the conduct conference.

f) The Conduct Case Manager shall maintain necessary order and shall make all rulings necessary for a fair, orderly, and expeditious conduct conference.

g) When it appears necessary, the Conduct Case Manager may, at their discretion, grant a reasonable postponement and/or recess of the conduct conference.

h) The conduct conference is not intended to be a repeat of the investigation. The conduct case manager will be well-versed in the facts of the case based upon the investigation report and the parties’ responses to the investigation report, if any. A typical conduct conference may include brief opening remarks by the conduct case manager; questions posed by the conduct case manager to one or both of the parties; follow-up questions by one party to the other (typically with the respondent questioning the complainant first); questions by the conduct case manager to any witness; and follow-up questions by either party to any witness (typically with the respondent questioning the witness first). The conduct case manager officer also will afford either party an opportunity at the end of the conduct conference to offer closing remarks. A decision whether to offer closing remarks is completely voluntary.

i) Following the conduct conference, the conduct case manager (and secondary conduct case manager, if applicable) will make a determination on the level of responsibility based on the totality of information. Both complainant and respondent will receive simultaneous notification of the outcome.

j) If any party fails to attend their conduct conference after proper notification by the Office of Student Conduct, the conduct conference will proceed and a decision may be made in their absence.

absence. Failure to attend or if the accused student withdraws from the institution prior to the adjudication of their case and the former student chooses not to appear, the conduct conference will proceed and a decision may be made in his or her absence. A representative may not appear in lieu of the respondent.

**Conduct Process Outcomes**

If found responsible, the Code of Student Community Standards allows the flexibility of sanctioning to include a range from an administrative warning to permanent dismissal from the institution. In cases involving sexual violence, the University cannot tolerate violence in its community and therefore it is common for those found responsible to be separated from the University. Ultimately, the goal is to eliminate the hostile environment, address the effects of the behavior and seek to prevent any recurrence. Regardless of outcome, both complainant and respondent will be provided resources and support as appropriate.

**Sexual Misconduct Appeals Process**

a. If a determination of responsibility has been reached, BOTH complainant and respondent will have equal opportunity to appeal, subject to standard appeal eligibility requirements. Students wishing to appeal their decision should follow the instructions outlined under Appeal Procedures in Section II.

b. Both respondent and complainant will be notified that the appeal has been received, if the appeal has been accepted, and if applicable, any amendments to the charges or sanctions. Once an appeal has been processed by the appellate officer, the decision is final and there will be no further opportunity for appeal.

**Rights of the Complainant in Sexual Misconduct Cases**

Although the term complainant is used in the following, the University recognizes it is not a term that is all-encompassing of individual’s experiences, particularly when an act of violence is involved.

*The complainant may request alternative accommodations to participate at any point in the process without being required to come in contact with the respondent.

Ferris State University has policies established to preserve the rights of complainants of harassment, including complainants of relationship violence and sexual misconduct, in the disciplinary process. In addition to those listed here, complainant’s rights for sexual misconduct are listed in the Sexual Assault Policy in Section IV of the Code of Student Community Standards.

The University has established the following applicable rights for the complainant:

a. The right to be advised of proper channels for support and appropriate resolution. Additionally, the right not to be discouraged from proceeding with the appropriate conduct process.

b. The right of the complainant to have an advisor accompany them throughout disciplinary proceedings. An advisor will not represent the complainant nor will they speak during a conduct conference, other than to the individual they are there to support. An advisor may not be a witness or otherwise have any conflicting role in the process. This person may be an attorney, but at no point may this individual represent in place of the individual they are present to support.

c. The right of the complainant to determine their level of involvement in the conduct conference process. The complainant may be present during the conduct conference process. The complainant may choose to be only involved as any other witness; in which case the complainant may submit a list of questions prior to the conduct conference. If they are deemed relevant by the Conduct Case Manager or committee chair, the questions will be asked during the conduct conference.

d. The right not to have irrelevant past conduct discussed during the conduct conference.
e. The right to challenge any individual serving as a Conduct Case Manager or University Committee on Discipline on the basis of bias.

f. The right to review all case evidence/documentation that is to be admitted during the conduct conference process. Evidence/documentation will be available consistently to both the complainant and the accused. Documentation may also include an impact statement provided by the complainant which may be used in the determination of administrative and/or educational sanctions.

g. The right to be informed of the outcome of the conduct conference within constraints established under applicable confidentiality statutes. The respondent and the complainant will be notified in writing concurrently. The complainant will also be apprised that the respondent may appeal the initial decision.

h. The right to be treated with dignity and respect throughout the process.

**Rights of the Respondent in Sexual Misconduct Cases**

In the interest of providing a fair and equitable process Ferris State University has policies established to ensure the rights of the respondent/alleged. These policies mirror the rights afforded to the complainant.

The University has established the following applicable rights for the Respondent:

a. The right to be advised of proper channels for support and appropriate resolution.

b. The right of the respondent to have an advisor accompany them throughout disciplinary proceedings. An advisor is any individual chosen by the complainant or respondent to provide support before, during, and after the formal conduct process. An advisor may not be a witness or otherwise have any conflicting role in the process. This person may be an attorney, but at no point may this individual represent in place of the individual they are present to support.

c. The right of the respondent to determine their level of involvement in the conduct process. However, it is always preferable that the respondent be present during the conduct process.

d. The right to challenge any individual serving as a Conduct Case Manager or University Committee on Discipline on the basis of bias.

e. The right not to have irrelevant past conduct discussed during the conduct process and only considered as part of the sanctioning process, where appropriate.

f. The right to review all case evidence/documentation that is to be admitted during the conduct conference process. Evidence/documentation will be available consistently to both the complainant and the respondent. Documentation may also include an impact statement provided by the complainant which may be used in the determination of administrative and/or educational sanctions.

g. The respondent and complainant will be notified in writing concurrently. The respondent will also be apprised that the complainant may appeal the initial decision.

h. The right to be treated with dignity and respect throughout the process.

**Sexual Violence Education & Awareness**

Ferris State University has established a sexual violence taskforce, in part, to address sexual violence education and awareness. The University will engage the educational community to create awareness for increasing bystander intervention and other prevention strategies. The Office of Student Conduct and the Personal Counseling Center collaborate to promote awareness of sexual violence during sexual violence awareness month each April. Additionally, the University seeks to partner with its students whenever possible to promote student groups who want to engage their peers in dialogue and education around sexual violence and community prevention efforts.
Frequently Asked Questions

**Does information about a complaint remain private?**
- We seek to maintain privacy of all parties to a complaint. In some cases it may be required for the institution to make a public announcement regarding the incident WITHOUT using names or personally identifiable information. If a report/complaint is made to a responsible employee, only individuals who are tasked with responding specifically to Title IX complaints will be made aware of the incident details.

**Will my parents be contacted?**
- No, not unless you contact them yourself directly. However, students are strongly encouraged to inform their parents. University officials will contact parents when requested to do so by a student or in a life-threatening situation.

**What do I do if I am accused of sexual misconduct?**
- DO NOT contact the complainant.
- You may contact an individual who you want to serve in a support capacity through the process. This is any individual of your choosing (i.e. parent, faculty member, staff member, lawyer, etc.).
- You may contact the Office of Student Conduct to be provided more information about the conduct process in general.
- You may speak confidentially with a counselor at the Personal Counseling Center on campus.

**Will I have to pay for counseling?**
- Counseling is provided at no charge to the student (complainant & respondent) through the Personal Counseling Center at Ferris State University.

**I live on campus, can I change my housing accommodation?**
- Room changes under these circumstances are considered an emergency relocation. Accommodations can be requested confidentially through the Personal Counseling Center. Sexual violence survivors may also work through the Title IX coordinator to seek accommodations that preserve student privacy.

**Do I need an attorney?**
- This in no way constitutes legal advice. Furthermore, the formal conduct process is not a legal proceeding, but rather an educational process through the University. An attorney may serve in the capacity of an advisor for either the complainant or respondent, however they may not “represent” either at any point in the conduct process.
Section IV: General University Conduct Policies

C. General Residence Hall & East Campus Suite Policies

The following is a list of Housing policies. Knowing these policies and following them are the responsibility of each person from the time they become a resident of University Housing.

Housing/Campus Policies
Individuals/groups who fail to comply with and/or violate these policies may find themselves subject to university discipline. Students are responsible for their room and suite and any activities that occur therein, including the behavior of their guests. The assigned resident does not need to be present, actively involved, or even aware that an incident involving their guests has taken place to be held accountable for that incident.

Taking Responsibility for Confronting Noise and Disruptive Behaviors
Living in the residence halls and university suites helps solidify the educational experience and contributes to the growth of an individual. Thus, students are asked to assume initial responsibility in addressing complaints on their own.

If you have a problem with the noise/behavior of another student, you are expected to ask that student to reasonably change their behavior. If that student is uncooperative, you should then request assistance from a Housing staff member.

Disclaimer
Ferris State University reserves the right to amend or develop additional policies or procedures as necessary to ensure the promotion of safety for the community. University officials will make every attempt to communicate changes in a timely manner to those affected.

Community Standards
In order to meet the educational and social needs of students, the University has established a set of community standards for each residence community. These standards are based upon four (4) fundamental rights of all University Housing students:

- Sleep and study in one’s own living space
- Live in a clean and sanitary environment
- Have a means of addressing concerns
- Be free of fear from intimidation and physical or emotional harm

It is important to note that living on campus is a privilege, not a right. The information in this section is intended to communicate clear expectations regarding individual conduct, contractual obligations, and community responsibilities. Students may be charged with violations of these policies through the University’s student conduct process.

Housing staff members may convene community meetings periodically throughout the semester. These meetings provide important information, help students perform essential administrative tasks, and help residents learn to balance their rights, responsibilities, and privileges. Students are responsible for all information discussed at their community meetings and should contact a staff member if they are unable to attend.

1. Access Panels
Students may not open, tamper with, or otherwise manipulate pipe chase access doors and panels, or open or gain access to similar spaces of any kind.

2. Activities Resulting in Disturbance, Distress, or Damage

When individual responsibility cannot be determined, the residents of a unit, floor, or wing may become collectively responsible for restoration costs. Examples of behavior covered by this policy include, but are not limited to, damage to building, graffiti, etc.
3. **Air Conditioners**
   Air conditioners (including window and floor units) are generally not permitted. Such units may be permitted in residence halls if a medical necessity is verified by Disability Services and approval is granted by Housing and Residence Life.    a. **Candles, candle warmers, incense, or open flames**: Candles, decorative or otherwise are not permitted in any campus housing unit. Incense and other items that generate open flame are prohibited. Melted wax, burned wicks, etc., may be considered a violation of this policy. Behaviors that create or present the possibility of creating a fire such as burning candles, incense, igniting door decorations, posters or other materials regardless of intention, is considered a serious offense that could result in suspension or dismissal from the University. Candle warmers are also prohibited.
   b. **Fireworks**: All fireworks are prohibited on campus.
   c. **Flammable Materials**: Possession of materials or containers holding fluids used for igniting fires is prohibited. Prohibited fluids include, but are not limited to, charcoal lighter, gasoline, propane, and cigarette lighter refueling containers. Possession or storage of motorcycles, motor bikes, or other motorized vehicles is strictly prohibited in University Housing.
   d. **Grills and Outdoor Cooking Appliances**: Are allowed to be possessed and used by West Campus apartment residents provided they are kept outside of the apartment. All lighter fluid and other flammable materials must also remain outside of the apartment space and away from the building.

4. Room/Building Safety
   a. **Hanging Objects**: Objects hung from any ceiling, ceiling light fixture, smoke detector, or any exposed pipe are prohibited.
   b. **Obstruction of Egress**: Students are prohibited from blocking or otherwise obstructing internal or external access to room doors or windows for safety reasons and emergency evacuation needs.
c. **Obstruction of Heating/Ventilation Systems**: Students are prohibited from blocking or otherwise obstructing access to heating or ventilation systems. Furniture must be at least 12 inches away from all heaters or vents and must not block access to either heater or vents.

d. **Pipes**: Students are not permitted to tamper with or hang any items from pipes in their rooms. Stress on pipes may cause structural damage resulting in severe water leakage.

e. **Modification of Water Supply Lines**: Residents are not permitted to make any modifications to the water supply lines in any of the residential spaces. A resident, however, may request accommodations to meet their personal or religious needs by directing their request to the Director of Housing and Residence Life at westcampusapartments@ferris.edu.

f. **Propping Doors**: Residents may not prop any residence hall or suite door intended to remain closed and/or locked for safety and security reasons. Propped doors compromise the safety and security measures they are designed to meet, including fire safety.

g. **Room Door Decorations**: Students are not permitted to decorate their doors in any way (inside or out). Materials hung on the door constitute a fire hazard. Artwork on doors, such as painting, drawing, or etching will be considered destruction/damage of property.
   - Residence Hall decorations that can be affixed by masking tape will be permitted only on the concrete area surrounding the doorframe.
   - Weather stripping is not permitted.
   - Residents are responsible for any damage that may result from putting tape or other adhesives on walls or doorframes.
   - Excessive decorations, as determined by Housing staff, are not permitted, as this may constitute a fire hazard.

5. **Fire Safety**
   a. **Fire Safety and Fire Safety Equipment**
      - Fire Safety equipment is provided to help ensure everyone’s safety.Tampering with alarms, extinguishers, or smoke detectors is a violation of local, state, and federal laws, as well as a violation of University policies.
      - Students will be billed a minimum of $200 for any damages found through annual inspections of the smoke detectors.
      - Covering or otherwise obstructing a smoke detector is prohibited.
      - Any activity that could potentially compromise fire safety is a violation of policy.
      - Witholding information/evidence concerning a fire is a serious offense.

   b. **Fire Evacuation**: When fire alarms are activated, including during scheduled fire drills, all occupants must evacuate the building. Residents must wait outside the building until a member of the staff indicates they may return. Failure to evacuate during a fire alarm is a serious violation of University policy.

   c. **Smoke Detectors**: To enhance the safety and well-being of all students, the University has installed smoke detectors in each room, suite, and apartment.

   d. **Smoking**: Smoking is not permitted in University Housing. Students must stand well away (minimum of 25 feet) from all buildings while smoking outside.
Section V: Administrative Policies
Consensual relationships between university employees and students.

Consensual relationships of an amorous or sexual nature, that might be appropriate in other circumstances, are deemed inappropriate when they occur between an employee of the University and a student for whom he or she has a professional responsibility. For example, such a relationship would be inappropriate between a faculty member, administrator, supervisor, advisor, coach, or residential staff member and a student for whom they have professional responsibility. Even when both parties have consented to the development of such a relationship, the relationship can raise serious concerns about the validity of consent, conflicts of interest, and unfair treatment for others and may result in serious consequences. Employees and students of the University are expected to make responsible choices.

It is the policy of the University that any University employee, who has professional responsibility for students, shall not assume or maintain professional responsibility for any student with whom the University employee has engaged in an amorous or sexual relationship. Whether the relationship predated the assumption of professional responsibility or arose out of the professional association, the University employee shall immediately disclose the relationship to the relevant unit administrator. The unit administrator shall immediately arrange a meeting of the parties to the relationship to discuss alternative oversight of the student, and to attempt to reach cooperatively, agreement on changes that will move professional responsibility for the student to another University employee. If no agreement is reached, the unit administrator shall determine and direct the best method to deal with the situation.

Freedom on the Campus and Uniform Regulations of Campus Activity/Facility

Statement of Principles
The University recognizes, endorses, and abides by the principles of free speech that flow from the First Amendment to the United States Constitution. Protected speech cannot be completely suppressed solely because of the audiences’ approval or disapproval of its content. Yet, there is no absolute right to assemble or to make or hear a speech, at any time or place regardless of the circumstances, content of speech, purpose of assembly, or probable consequences of such meeting or speech. In addition, the First Amendment will not protect expression where reasonable content-neutral University rules and regulations have not been followed.

Rights Reserved to the University
The University reserves the right to deny permission to University organizations or units and/or community groups that may wish to sponsor lecturers, entertainers, groups, or exhibitions that may be in conflict with the University’s policies or local ordinances. The University’s Division of Student Affairs shall be responsible for administering policies and procedures to regulate campus activities and to control the use of University facilities in order to, amongst other legitimate purposes, maintain order on campus, avoid disruption of the educational mission, promote an educational atmosphere,
and promote safety and security. Such policy shall be issued by the Vice President for Student Affairs and approved by the President.

All events and activities that may be sponsored on the University campus must be pre-registered with the Center for Leadership, Activities and Career Services; and the Administration will determine if the activity or event is appropriate and in the best interests of the University. The sponsoring organization, unit, or community group is responsible to provide adequate provision for the health, safety and welfare of the general public. If the sponsoring agency fails to insure the proper behavior and conduct of its audiences, the sponsoring agency may be subject to penalty or discipline where applicable, if damages or mishap occur during the course of its sponsored activity. The University must insist on proper conduct and proper use of its facilities in accordance with University policy.

Uniform Regulation of Campus Activity and Facility Use
The University regulates and controls the use of its facilities in order to, amongst other legitimate purposes, maintain order on campus, avoid disruption of the educational mission, promote an educational atmosphere, and promote safety and security. Consistent with these purposes and the requirements of the First Amendment, campus activity and facility use are subject to the following requirements and limitations:

1. The University may place reasonable time, place, and manner restrictions on campus activity/facility use to the extent the restrictions are not based on the content of the presentation, are narrowly tailored to serve a significant institutional interest, and leave open ample alternative channels of communication. Such restrictions may relate to advance notice, security, parking, advertising, indemnification, insurance, health and safety, as well as other areas.

2. A request for a campus activity/facility use may be denied by the University, after proper inquiry, where the activity/event will constitute a clear and present danger to the University’s orderly operation because of the speaker's advocacy of such actions as:
   a. The violent overthrow of the government of the United States, the State of Michigan, or any political subdivision thereof;
   b. The willful damage to, destruction of, or seizure and subversion of the University's buildings or other property;
   c. The forcible disruption of, impairment of, or interference with, the University's regularly-scheduled classes or other educational functions;
   d. The physical harm, coercion, intimidation, or other invasion of lawful rights of the University's officials, faculty members, or students; or
   e. Other campus disorders of a violent nature.

   *For purposes of this subpart, “advocacy” means preparing the group addressed for imminent action and steeling it to such action, as opposed to the abstract espousal of the moral propriety of a course of action by resort to force; and there must be not only advocacy to action but also a reasonable apprehension of imminent danger to the essential functions and purpose of the University.*

3. Expression that does not constitute protected speech is not protected by the First Amendment and may be regulated or suppressed. Where it is patently clear, after investigation, that the activity/event will result in such unprotected expression, the University may restrict or exclude the event. Such unprotected expression includes the following (these are terms of art that must be applied according to the definitions established by the United States Supreme Court):
   a. Defamation: Oral or written falsehoods communicated to third parties that would harm the reputation of another.
b. **Fighting Words:** Insulting or fighting words – those which by their very utterance inflict injury or tend to incite an immediate breach of the peace.

c. **Obscenity:** The material in question is patently offensive, appeals to prurient interests, and taken as a whole, lacks serious literary, artistic, political or scientific value.

4. Where a request for a campus activity or facility use is denied by the University, the sponsoring organization will be given notification of the reason(s) for the denial. Any aggrieved sponsoring organization may appeal the denial in writing within five (5) working days to the Vice President for Student Affairs. If requested, the Vice President for Student Affairs, or their designee, will provide an informal hearing within three (3) working days of the filing of the appeal. No later than five (5) working days after the filing or after the hearing, whichever is later, the Vice President for Student Affairs will decide the appeal and notify the sponsoring organization of their decision and the reason(s) for that decision. The decision of the Vice President for Student Affairs is final.

**Prohibition of Certain Conduct by Campus Speakers**

A speaker must not urge the audience to take action which is prohibited by the rules of the University or which is illegal under federal or Michigan law. Advocating or urging the modification of the government of the United States or of the State of Michigan by violence or sabotage is specifically prohibited. It is the responsibility of the sponsoring student organization to inform speakers of these prohibitions.

**Sponsorship of Campus Speakers**

Sponsorship of a campus speaker must be by a student organization which has been recognized under the general regulations approved by the appropriate University authorities.

**Responsibilities of the Sponsoring Organization**

For purposes of preserving a record of all such public meetings and of coordinating them with the business of other activities taking place on University property, the sponsoring organization must (a) make all arrangements for reservation of space with the appropriate University officials, and (b) complete a form to be furnished by the appropriate University office indicating, among other things, the subject to be discussed, the names of all speakers and the time and place of the meeting, and the form is to be certified by the signature of a faculty advisor. All rules for administration of requests from recognized student organizations must conform to the requirements of this subpart. It shall be the responsibility of the institutional officer under whom the program is administered to certify that all appropriate steps have been taken before the event is officially scheduled.

**Violation of this Policy**

Any student organization violating this policy is subject only to the procedures and penalties applicable to students and student organizations that violate other University rules.

**Notification of Rights under the Family Educational Rights and Privacy Act (FERPA).**

The Family Educational Rights and Privacy Act (FERPA) affords students certain rights with respect to their education records. They are:

1. **The right to inspect and review the student’s education records within 45 days of the day the University receives a request for access.** Students should submit to the registrar, dean, head of the academic department, or other appropriate official, written requests that identify the record(s) they wish to inspect. The University official will make arrangements for access and notify the student of the time and place where the records may be inspected. If the records are not maintained by the University official to whom the request was submitted, that official shall advise the student of the correct official to whom the request should be addressed.
2. **The right to request the amendment of the student’s education records that the student believes is inaccurate or misleading or otherwise in violation of the student’s privacy rights under FERPA.** Students may ask the University to amend a record that they believe is inaccurate or misleading. They should write the University official responsible for the record, clearly identify the part of the record they want changed, and specify why it is inaccurate or misleading. If the University decides not to amend the record as requested by the student, the University will notify the student in writing of the decision and advise the student of his or her right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the student when notified of the right to a hearing.

3. **The right to provide written consent before the University disclosures of personally identifiable information from the student’s education records, except to the extent that FERPA authorizes disclosure without consent.** The University discloses education records without a student’s prior written consent under the FERPA exception for disclosure to school officials with legitimate educational interests. A school official is a person employed by the University in an administrative, supervisory, academic or research, or support staff position (including law enforcement unit personnel and health staff); a person or company with whom the University has contracted as its agent to provide a service instead of using University employees or officials (such as an attorney, auditor, collection agent, contract employee, or a clinical/internship facility); a person serving on the Board of Trustees; or a student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing their tasks. A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill their professional responsibility. Upon request, the University discloses education records without consent to officials of another school in which a student seeks or intends to enroll.

To view the FERPA waiver used by Student Conduct, please see Section VI, Appendix D: FERPA Waiver Trustees; or Section IV: Administrative Policy

4. **The right to file a complaint with the U.S. Department of Education concerning alleged failures by Ferris State University to comply with the requirements of FERPA.** The name and address of the Office that administers FERPA is:

   Family Policy Compliance Office  
   U.S. Department of Education  
   400 Maryland Avenue, S.W.  
   Washington, DC 20202-4605

As outlined by the Act, at the discretion of the University, “directory information,” as defined as academic college or program/major, addresses, admission status, athletic participation, class level, dates of attendance, degrees/honors/awards received, enrollment status, name, previous schools attended and telephone, may be released without your consent. However, you may request that all of the items identified as directory or public information be withheld and considered restricted information. To exercise this option you must file a written request at the Timme Center for Student Services. The request for non-disclosure must be filed by the end of the first week of fall term to assure information will not be published in the student directory. A request for non-disclosure will be honored by the institution and remain active until you notify the Record’s Office in writing to remove the restriction.

Ferris State University regards all student records as protected by FERPA. Parents requesting access to their child’s records (grades, billing, etc.), including minors (children under the age of 18), are encouraged to ask their son(s) and/or daughter(s) to fill out an Authorization to Disclose Information form at the first floor service counter in the Timme Center for Student Services.

Section VI: Housing Regulations, Policies & Information
What follows is a list of Housing and Residence Life regulations and standards. Knowing and following them are the responsibilities of each person from the time they become a resident of University Housing.

**Room, Suite, and Apartment Entry**

The University is committed to maintaining a healthy and safe environment, as well as respecting and preserving students’ rights to privacy. The University, however, reserves the right to make periodic administrative inspections of residence hall rooms, suites, and apartments (whether or not the residents are present). Housing staff may enter a room/apartment/suite whenever:

- There is a threat to the safety or well-being of the occupants or other residents.
- There is an issue with the physical plant requiring maintenance or repair.
- There is reasonable suspicion to believe that the occupants are violating a University rule or regulation. This includes when a resident refuses to answer the phone or door in response to a University staff member attempting to carry out their responsibilities.
- There is reason to believe that there is imminent hazard to the property.
- Disruptive noise from sound equipment is violating an individual’s right to sleep, study, etc.

Rooms/apartments/suites may be entered (during the absence of the occupant) to turn off a loud stereo, alarm clock, or similar item; shut a window; or correct any problem that interferes with the rights of other students.

The University reserves the right to inspect any room, suite or apartment, at any time, for reasons of health, safety, and welfare.

Every room and suite will be entered at the beginning of each vacation period when the halls are closed. This is to ensure that all windows are closed and locked, the curtains are closed, and general safety and security is maintained.

**Room/Apartment/Suite Checks**

Housing Staff are required to do checks on a periodic basis for the purpose of making sure no fire hazards, health and safety hazards, or violations of University rules exist. Please cooperate with the Staff in their efforts to maintain a secure housing environment.

**Room Entry – Student Locked Out Of Room**

Housing Staff are not required to key residents into their living space. It is the students’ responsibility to carry their room key with them at all times.

**Emergencies, Health, Safety, & Security**

The University is committed to maintaining a healthy and safe environment in our residential communities, while respecting and preserving individual rights to privacy. In order to manage this delicate balance, the University has developed policies and procedures with which all residents should be familiar.

The following are expectations regarding the use of personal and University facilities, as they relate to health and safety issues. The University recognizes that these policies may cause individual inconvenience. The policies are intended to protect the health and welfare of the larger community.
Confiscation
University staff reserves the right to confiscate property/equipment that potentially constitutes a threat to health and safety, and/or has contributed unnecessarily to an environmental disturbance or a violation of policy. Examples include, but are not limited to: alcohol containers, candles, incense, paraphernalia, pets, weapons/ammunition, stereos, sports equipment, etc. If it is necessary for property to be confiscated, it may or may not be returned at the time a student is able to take it home.

Extension Cords/Surge Protectors
Multiple plug bar outlets with a circuit breaker, or “surge protector” power strips are recommended for computers and other sensitive electronic equipment. The University is not responsible for electrical surges, interruptions or damage that occurs as a result.

Medical Waste
This policy applies to students who self-administer medication including, but not limited to, insulin, shots for clotting factors, etc. Students are required to dispose of all needles and syringes in a medical waste container, provided at no charge by the Birkam Health Center. The medical waste container must be returned to the Health Center by the student when it becomes full, and/or at the end of each term (whichever comes first). Students needing assistance obtaining or returning containers are encouraged to contact the Birkam Health Center.

Windows and Screens/Freezing Pipes
Pipes may freeze and break if a window is left open and/or the heat is turned off during cold weather. Residents will be held responsible for any loss or damages that result from such negligence.

Smoke Detectors
To enhance the safety and well-being of all students, the University has installed smoke detectors in each room, suite, and apartment.

Fire
When fire alarms are activated, all occupants must evacuate the building. When evacuating, occupants should take the following action:

- Turn lights on
- Close windows and doors
- Open curtains
- Wear shoes, a long coat and carry a large towel
- Lock the room door
- Walk quickly out of the building
- Remain more than 100 feet from the building

Residents must wait outside the building until a member of the staff indicates they may return. Failure to evacuate during a fire alarm is a serious violation of University policy.

Severe Weather
Understanding the terminology used in cases of inclement weather is important. Please take note of the procedures used for safety.

a. Tornado Watch - Used to alert the public to the possibility that a tornado may develop. The size of a watch area is approximately 100 miles wide and 300 miles long, over a certain area.

b. Tornado Warning – A tornado has been sighted in the area or its presence has been detected by radar.

c. Tornado Siren - The alarm for a tornado warning is a siren, which sounds intermittently for three minutes. When the all clear is announced, the same siren will be given continuously for three minutes.
d. **Tornado Safety Tips:**

- If you are in a residence hall, move into the bathroom of your suite or well away from the windows to an interior hallway. Hall Staff will keep you apprised of developments as they occur.
- If you are in a suite, move to the lowest level utilizing the center stairway and away from windows.
- If you are in West Campus Apartments, move to the basement. If you are in East or South Campus Apartments, move to the bathroom.
- Seek inside shelter, preferably in a tornado cellar, underground excavation, or a steel framed or reinforced concrete building of substantial construction.
- Stay away from windows.
- If a building is not of reinforced construction, go quickly to a nearby reinforced building or to a ravine or open ditch and lie flat.
- Avoid auditoriums and gymnasiuums or other structures with wide, free-span roofs.
- If you are in open country, move away from the tornado’s path at a right angle, and lie flat in the nearest depression, such as a ditch or ravine.
- Keep listening. Your radio and television stations will broadcast the latest tornado advisory information.

**Loft Construction & Use**

The purpose of the Loft Policy is to promote the safety of the residents who utilize lofts in the residence halls. While lofts are not necessary to arrange a comfortable room, residents may elect to use approved lofts as a means of personalizing their living environment. Refer to the Housing and Residence Life website for specific loft specifications. Lofts are not permitted in the 9th, 10th, and 11th floors of Cramer Hall, any University apartments, or East Campus Suites. Lofts will need to be removed prior to the start of exam week in the semester the student is vacating their residence hall room.

**Responsible Alcohol Usage in Cramer Hall**

Students with roommates and guests under the legal drinking age may consume and possess limited amounts of alcohol in their assigned room. Each resident of legal drinking age may possess in their assigned room: 72 ounces of beer, or 750 mL of wine, or 375 mL of liquor. In order to support legal and responsible drinking habits, the residents of legal drinking age must also adhere to the following:

- Students who choose to possess alcohol in their assigned room may not mix quantities (e.g. a resident of legal drinking age may not possesses a 12 ounce beer and 250 mL of wine).
- Students of legal drinking age may consume alcohol only in their assigned room, or in another room in Cramer Hall with an assigned resident of legal drinking age.
- Consumption of alcohol in hallways, lounges or other common areas is prohibited.
- Guests of residents that are not of legal drinking age may not consume or possess alcohol.
- Students under the legal drinking age may be present in a room where alcohol is being consumed in accordance with this policy.

**Services & Amenities**

**Computer Labs**

Residence Hall computer labs are intended for building residents only. Any unauthorized use of computer labs will result in disciplinary action. Keys for residence hall computer labs can be obtained from the front desk by providing a Student ID card. Halls have policies pertaining to the utilization of their labs. Please make yourself aware of these policies. If you experience problems in the labs, refer to the policies and procedures posted in that lab. Students must abide by the microcomputer lab policies and procedures established for the residence hall labs if they choose to use these facilities.

**Deliveries (Food, Flowers, Packages, etc.)**

Local food establishments may only deliver orders to the lobby. Room deliveries are not permitted. Flowers and packages are delivered to the front desks of the individual halls and students are notified via their mailboxes. Apartment and Suites delivery are made to the West Campus Community Center.

**Dining Centers**
Dining center access is generally available from 7:00 AM until 12:00 AM or later, in various locations on campus. Exact hours of operation are posted in each dining unit or food court. Menus and hours of operation are available on the Dining Services web home page. Students must present their Student ID to gain entry into the dining centers.

Meal Plan changes may be made during the first two weeks of classes of every semester at the Dining Services Office. A fee is assessed for all meal plan changes. The new meal plan will be prorated from the day of the change.

Take-out meals are available for students who are ill. A friend may obtain a take-out meal for the ill student by presenting their ID and the meal pass, obtained from the hall directors, to the dining center checker.

Dining Services offers nutrition and dietary counseling with a registered dietitian. Special diets can be accommodated, by making an appointment with the dietitian at 231-591-2209.

**Furniture**
University furniture assigned to the room or suite (such as desks, chairs, beds, and dressers) is the student’s responsibility. All items present at the time of check-in must be present and in original University order at checkout. The University will not store student room furniture.

**Guest/Visitors**
Non-residents of a building are not permitted to walk freely without an escort. Any guest or visitor of a resident must be escorted by their resident host. Courtesy telephones are available to guests or visitors at the front door of each building.

**Laundry Facilities**
Laundry facilities are available on a first-come, first-serve basis except where a sign-up sheet system is utilized. To ensure the safety of possessions, it is recommended that residents remain with their laundry throughout the laundering process. The University is not liable for any damaged or stolen property.

**Mail and Mailing Address**
Tampering with mail is a crime and should be reported to the Hall Director, Student Conduct, and/or FSU Department of Public Safety. Each semester, during registration, students are required to report their correct home address. Any changes in residence must be reported to the Housing and Residence Life Office within three days. All USPS packages too big for your mailbox must be picked up at the post office, West Campus Community Center or residence hall front desk accordingly.

### Housing Administration

**Closing Procedures**
Aside from the usual room and/or board charges, a student who signs a Housing and Residence Life contract may incur additional costs as well. These charges include, but are not limited to the following:

1. **Proper Checkout**
   Proper checkout procedures involve contacting a staff member 24 hours in advance for the purpose of scheduling a checkout appointment for returning the key, checking room/apartment-suite for damages and cleanliness, and signing all necessary paperwork. At that time, the student must be fully prepared to complete the checkout (space is empty, cleaned, loft is removed, key ready to turn in, etc.). Failure to follow these procedures may result in a fee being assessed for improper checkout and a key core change.

2. **Cleaning**
   As a general rule, residents are responsible for returning their living space to its original condition. The following guidelines have been established to ensure a smooth and efficient checkout, and to help residents avoid unnecessary charges:
   - Make a checkout appointment with a staff member 24 hours in advance.
- Remove all personal belongings.
- Thoroughly clean, sweep and mop the space(s). Do not sweep anything out into the hallway.
- Assemble all furniture in original, University order, with 2"-3" space between the walls and furniture so that the sides may be checked for damage.
- Clean walls.
- Thoroughly clean, sweep and mop the bathroom floor, and clean the sink, shower, mirror and toilet.
- Clean and fold the mattress cover, and place it on the end of the bed.
- Take all trash to the appropriate receptacle, and empty and wash the garbage cans.
- Return keys to the staff member while conducting the checkout appointment.

**NOTE:** Failure to comply with these guidelines may result in $100 or more cleaning fee.

3. **Room Damage and Repair**
   Residents will be provided with a Room/Apartment/Suite Inventory Sheet upon initial move in. This inventory sheet will include information about the apartment or room/rooms, furnishings and their condition prior to arrival. It is important that residents review this sheet in detail and report any discrepancies and unlisted damages to the staff. Otherwise, at the time of checkout, the resident may be held responsible for something that may not necessarily be their fault. Additionally, after annual inspections of fire detectors in each room is performed, a resident may be charged for the repair, which will be applied after a resident has checked out. Any questions should be directed to Housing staff.

When the residents check out of the apartment or room, this Inventory Sheet will be reviewed again and residents will be held responsible for any damages found.

**Billing**
Upon checkout, students who are responsible for damages to equipment or property, liable for replacement of lost items, or assessed a cleaning fee or fine, will be issued a charge slip that will serve as a bill. Charges are payable at the Timme Center for Students. Staff will not collect money. Roommates/suitemates are responsible for resolving discrepancies regarding damages and other billable items. Failure to reach agreement will result in hall staff issuing split charges to all parties involved.

**Consolidation**
Rates are based on full normal occupancy for each individual space. Students periodically find themselves in an under-assigned room or suite with one or more empty bed(s). In order to be fair to all students, these students must choose between 1) paying for a private room or buying out the suite, 2) finding a new roommate themselves, 3) consolidating with someone in similar circumstances, or 4) accepting a new roommate with the direction of the University. Consolidation starts near the beginning of each academic period and continues throughout each semester. The rooms that become vacant through the consolidation process are available for persons preferring a single room.

If a student does not want a private room, and a roommate is not found, the student may experience the benefit of a private room temporarily without payment. Such students must leave their room arranged in such a way as to allow for a roommate to move in at any time and with little or no prior notice. If, however, a potential roommate is identified and the resident is given the option to decline to accept them, the resident will be charged for a private room on a pro-rated basis from the original date of single occupancy.

The lottery process is required when consolidation efforts by the individual residents are not successful. The Hall Director will conduct a lottery involving all “under-assigned” students. Males and females will be separated. The first person drawn will move into the room of the second person drawn. The third person drawn will be required to move into the room of the fourth, and so on. With mutual consent, the students may choose to consolidate into either room. If the students have not consolidated by 5:00 PM on the third day after the lottery, each roommate will be billed at the private room rate. The consolidation and lottery processes do not require a student to move to a different hall.
Contracts
Housing contracts are a legally binding document. The contract is for the entire term noted within.

Termination
Students that reside in campus housing must have signed a contract on file with Housing and Residence Life. For the resident/student, this contract is a signed agreement to abide by, and follow, established University policies and procedures. Therefore, the University reserves the right to terminate a student’s housing contract without refund should this agreement be violated.

Abandoned Property
If a resident vacates/abandons a Housing unit and leaves personal property in the unit, such property shall be deemed abandoned. Abandoned property may be removed and disposed of by the University. The University may, at its sole discretion, elect to remove and/or store such property at the resident’s expense for up to 30 days. Handling fees will be charged at an hourly labor rate and storage fees assessed. Resident consents to the sale/disposal of such property at the University’s discretion without legal liability.

Housing Transfer
Students may be required to move to another housing facility on campus. This may happen when circumstances do not warrant a student’s removal from campus, but suggest a new assignment may be important to promote the safety and welfare of the individual and the community. Assignment authority rests with the University.

Housing Contract Termination
The University may remove a student from campus housing for violations of University rules and regulations, health and safety violations, or if the resident is no longer enrolled. Aside from established disciplinary procedures, the Director of Housing and Residence Life may remove a student if their presence or behavior jeopardizes the rights and freedoms of others, or causes undue stress for the surrounding community. Students will generally be given no longer than 48 hours to properly complete a move. Less time may be afforded in the case of an Interim Suspension. A student has the right to a hearing following the removal. The University will take possession of the resident’s room if the contract is terminated.

Withdrawal from the University
Students who withdraw from the University are not entitled to campus housing. Students who withdraw before the completion of an academic term will have their housing contract cancelled as well. Students wishing to withdraw from the University begin the process in the office of their academic Dean. Once verified by that office, proper withdrawal from housing will be permitted.

Occupancy Standards
Two (2) students are generally assigned to each residence hall room, with the exception of Cramer Hall. Students may not put three or four beds in one room in order to use the other room in the suite as a “living room.” This is a violation of health and safety standards. Cramer Hall is the only hall designed to accommodate this living arrangement. One student is assigned to each room within an apartment or East Campus Suite. Moving beds or other furniture to create a study room is a violation of health and safety standards.

Hall and Room Assignments/Occupancy
In the spring of each academic year, returning students may have the opportunity to select a room of choice for the following year. Assignments are made on a “first come, first served” basis. It is not possible to honor all roommate requests; however, every attempt is made to do so. It is important to note that Ferris State University does not discriminate based on race, color, creed, national origin, or sexual orientation, amongst others. The University does not guarantee a choice of buildings, and assignments are ultimately determined by the University.

Students may only reside in the room to which he/she has been assigned. Occupying a room improperly is likely to result in a room change, improper checkout, and/or damage charges being
assessed. No more than two (2) students may occupy any residence hall room as sleeping quarters. Disciplinary action may also be taken.

Hall and Room Changes
It is possible to request a room change within the current building after the second week of classes. With the approval of the Hall Director, and space permitting, some room changes may be permitted. A $25 fee may be charged for each assignment change. The fee does not apply when the student is transferred for disciplinary or administrative reasons.

Students may change rooms only when authorized by the Hall Director PRIOR to the move taking place. Students who change rooms improperly are subject to disciplinary action and may be required to return to their original room.

Roommate Conflicts
When conflicts occur between roommates or suitemates, students are encouraged to resolve their disagreements themselves. If unable to reach an agreement, students are encouraged to contact their Resident Advisor to obtain assistance in resolving their differences. Hall Staff are trained in mediation techniques. The mediator may work with the roommates to draft a contract that addresses the concerns of each person. Roommate contracts require the residents to sign an agreement and abide by terms of the contract.

A mandatory follow-up meeting may be scheduled between the mediator and the roommates to ensure that the terms of the contract are followed by all involved. When roommates are unwilling to abide by the terms of their contract or when they are unwilling to enter into the mediation process, Housing and Residence Life reserves the right to make new room assignments, and/or institute disciplinary procedures.

Housing Security Programs
A primary responsibility of living in campus housing is to work toward a sense of community and responsibility for safety within on-campus housing. The Ferris community encourages its members to be alert and to personally help deter crime. The goal is to discourage potential crimes and encourage a more caring and responsible community environment.

Secure Items: ID, Room Key, Mailbox Key
All students are given access to several items that should be kept secure at all times: Student ID, room key, mailbox key or combination, laundry vending card and telephone authorization code. It is expected that the student take proper precautions to ensure the security of these items.

1. **Student ID Cards**
   - When coming to FSU for the first time, each student is issued a picture ID card (Student ID card). This ID serves as a key to access many campus services: meal plans, Dining Dollars, housing door access, library account, and more.
   - **Students are required to carry their ID card and display this card upon request by any University official. Allowing another person to use their ID, for any reason, is a violation of University policy.**
   - Fraudulent use of a Student ID will result in the immediate confiscation of the ID card by a University staff member. The cardholder is assessed a fee for any lost, stolen, or misused ID cards. Misuse of a Student ID Card will result in disciplinary action for all parties involved.
   - A lost Student ID card should be reported to the Timme Student Services Carding Office immediately, 24 hours a day, at 231-591-2901. Students accept full liability for any debit transactions posted to their account prior to notifying Timme Student Services Carding Office. There is a charge for misuse, replacement and any lost or stolen Student ID Card.

2. **Keys**
   Students are fully responsible for their room and mail keys. Replacement of a lost key is a minimum of $45. Students may possess only one room key at a time, and may not duplicate or disseminate that key. Students should carry their keys at all times. Staff are not required to key
students into their rooms. Students may not loan or give their key to another person for any reason.

Security Programs and Resources

1. Bicycle Registration
   Department of Public Safety offers free bicycle registration. Contact DPS for more information.

2. Card Access Readers
   Card Access Readers are provided in buildings. This is a security measure designed to permit resident access to perimeter doors while restricting access to non-residents. Residents are prohibited from allowing others to use their card to gain entry into a building or permitting non-residents access to the building.

3. Campus Crime Hotline
   If you have any information regarding crimes on campus, please call 231-591-5900. Anonymous tips are welcome.

4. Emergency Phones
   Emergency phones have been placed at various locations on campus and are marked by a blue light. These phones put you in immediate contact with the Department of Public Safety and automatically register your location. Calls will be answered 24 hours a day, seven days a week.

5. Foot Patrol
   The Department of Public Safety (DPS) usually provides Foot Patrol services nearly every night for the safety of the students on campus. Foot Patrol reports suspicious or disruptive activity to DPS Officers. One unit continuously patrols the grounds on campus, while the other patrols the living units.

6. Insurance & Liability
   Ferris State University does not provide health insurance for students, and is not liable for the loss of, or damage to, students' personal possessions. Students are strongly encouraged to carry private insurance on personal possessions. Such insurance is available through most homeowner's policies or individual renter's insurance policies.

7. Operation ID
   To help identify items that may be stolen (i.e., TVs, stereos, etc.), students are encouraged to engrave them with their driver's license number. Engravers are available at the Department of Public Safety.

8. Peep Holes
   Most residence doors are provided with a peephole to enable residents to identify who is at their door prior to unlocking or opening the door.

9. Safety Sticks
   Ground floor windows in residence hall rooms are secured with an additional safety stick to prevent opening from the outside.

Conduct Process vs. Court Process

What are the differences between the Ferris State University Student Disciplinary System and the Court System?

The purpose of the following is to clarify the basic differences between the Ferris State University student disciplinary system and the court system. The FSU student disciplinary system (like all college disciplinary systems) uses a different "standard of evidence" than is required by the criminal court systems. Additionally, the purposes of the systems are very different. For example:

- In the criminal court systems the standard of evidence is generally "beyond a reasonable doubt."

- In college disciplinary systems the standard of evidence is "preponderance of the evidence." In other words, is it "more likely than not" that a student violated the student code of conduct?

- Both systems must ensure that proper "due process" is followed.

- The two systems run independently of each other.

- The student disciplinary system cannot put students in jail and has no relation to the criminal court system.

- Colleges DO have the legal right and responsibility to determine if their students are responsible for violating their student code of conduct, regardless of what the court system does or does not do.

- The student disciplinary system is intended to be an educational and remedial process, while the criminal court systems are often punitive.
Conduct Process Flow Chart

Incident Occurs:
Incident report is sent to the Office of Student Conduct

Before the Conduct Conference:
- Incident report is reviewed by a case manager
- Alleged policy violations are assigned
- A conduct conference is scheduled around the student’s class schedule

A Notification Letter is emailed to the Student

At the Conduct Conference:
- Incident report is reviewed
- The student shares their perspective of the incident
- The case manager determines if any policies were violated
- If a policy was violated the case manager assigns sanctions

After the Conduct Conference:
A decision letter is emailed to the student

Decision Accepted

Sanctions Completed:
Case closed

Decision Appealed

Sanctions Not Completed:
Case closed and registration held place on student

Student Appeals:
- Student submits their appeal in writing.
- Appeal is reviewed by the designated appellate officer
- A decision or the appeal is emailed to the student
What is Proper Due Process?

Proper due process requires the following:

1. The opportunity to read all written reports and findings from any investigation regarding the circumstances and allegations of the case.

2. The opportunity to attend a conduct conference. A student’s conduct conference shall be scheduled minimally three days after the date of the notice. However, a student may waive their right to this three day provision. For conduct conferences scheduled with a University Committee on Discipline (UCD), the conduct conference shall be scheduled minimally five days after the date of notice.

3. The opportunity to give a response to the reports and to offer any additional information which might help in the resolution of the case.

4. The opportunity, during the conduct conference, to review all information and ask questions (or choose NOT to ask questions) related to the case information that may adversely affect the student.

5. The opportunity to present witnesses who may substantiate information related to the incident. The Director of Student Conduct, Conduct Case Manager or UCD Chair reserves the right to limit the number of witnesses based on the relevancy to the facts of the case. Character witnesses are generally not considered relevant.

6. The opportunity to have an advisor present during the conduct conference; the advisor may not participate in presenting the case, question witnesses, or make statements during the conduct conference.

7. Lastly, a student is not required to attend their conduct conference or answer any questions asked during the conduct conference; the choice to remain silent will not be taken as an admission of responsibility. However, a decision will be made in the student’s absence and based on information available at the scheduled time of the conduct conference.
Interim Suspension vs. Suspension

An Interim Suspension is a temporary removal of a student from campus pending the outcome of a conduct conference. Every attempt will be made to act expeditiously with the disciplinary proceedings.

A student who has been issued an interim suspension is denied access to University housing, to the campus (including classes) and to all other University activities or privileges for which the student might otherwise be eligible.

An interim suspension may be imposed by the Dean of Student Life or their designee:

a. the student engaged, or threatens to engage in behavior which constitutes a direct threat to others,

b. the student has caused or likely will cause significant property damage, or

c. the student’s behavior significantly disturbs normal university operations, or may interfere with the educational process and/or the operations of the University

Suspension is one outcome of the student conduct process. Any student who has been suspended from the University has been afforded due process including the opportunity to participate in a conduct conference to determine the appropriate consequence(s) of their behavior.

A suspension is for a specific period of time, typically a semester or a full academic year. When the term of the suspension has ended, the student may apply for readmission. If the student is readmitted, they will remain on Disciplinary Probation for the remainder of their career at Ferris. In situations that a student has a disability, the University’s section 504/Title II coordinator and other appropriate persons knowledgeable about the student’s condition will be involved when that student seeks a return to the University.

Dismissal is another possible outcome of the student conduct process. Any student who has been dismissed from the University has also been afforded due process including the opportunity to participate in a conduct conference to determine the appropriate consequence(s) of their behavior.

A student who has been dismissed from the University is not eligible for re-admission to Ferris State University. A dismissal is a permanent separation between the University and the student.
