

As the health care industry continues to grow and expand, the demand for health information technicians also increases. Employment is expected to grow faster than average through the year 2020 (Bureau of Labor Statistics 2012) because of the rapid growth in tests, treatments and procedures available. Technicians will be needed to work with computer databases and other tasks related to electronic health records. Many graduates are employed in hospitals, but job growth is projected to be greatest in physicians' offices and clinics, nursing homes and home health agencies.

The Health Information Technology (HIT) Program is also offered in Grand Rapids and the professional courses are offered in the evening. General education courses may be completed either through Ferris State University or at a local college or university and transferred to fulfill graduation requirements. A minimum of 15 credit hours must be earned at Ferris in order for the degree to be granted

At the end of the program, the student is eligible to apply to write the national certification examination to earn the designation of Registered Health Information Technician (RHIT). The Ferris HIT program is accredited by the Commission on Accreditation for Health Informatics and Information Management Education (www.cahiim.org) in collaboration with the American Health Information Management Association.

Course Requirements

Monroe County Community College			
Course	FSU Equiv.	Course Title	Cr. Hrs.
SPCH 155	COMM 105	Interpersonal Communications	3

CIS 155		Database Management Systems	
Total Monroe County Community College Credits			31-33

For further program information, see www.ferris.edu/chp, from **All Degrees** choose **Health Information Technology** and see links in the side column.

Please refer to FSU's General Education Requirements at:

<http://www.ferris.edu/htmls/academics/gened/index.htm>.

Students transferring to Ferris with the Michigan Transfer Agreement (MTA) and entering a degree program will have met a 30-hour block of lower-level general education courses. However, this does not exempt students from completing program specific prerequisites or higher-level general education course requirements. Students should contact their advisor regarding classes that meet the MTA.

Students are encouraged to work with their Ferris advisor for selection of any electives, to ensure transferability and to minimize credits taken.

Updated Fall 2017

Ferris State University is an equal opportunity institution. For information on the University's Policy on Non-Discrimination, visit ferris.edu/non-discrimination.

Ferris State University

General Admission Criteria

Applicants for admission to the Health Information Technology program must have a 2.5 GPA in high school or college work. One semester of high school biology and computer science are strongly advised.

Advising Notes

It is recommended that potential applicants meet with an advisor to review the degree, course schedule, and have any questions answered prior to completing an application. Students who are completing the MTA may have different general education course requirements for the particular degree selected. Meeting with a Ferris advisor prior to the selection of general education or elective course work may reduce the chance of completing a course that will not apply toward the selected degree. Once admitted, students must continue to meet with an advisor as they work toward graduation.

Transfer Student Orientation

All new students to Ferris State University are required to complete an orientation.

Online Learning

Select courses delivered online and/or in a mixed delivery format (i.e. a mix of online and face-to-face instruction at the Ferris Main Campus or at an off-campus location). The "Online Readiness Tutorial" is required for students who register for an online *course* or are completing an online *degree*. Students must demonstrate competency in Blackboard skills. This may be done by taking a tutorial and quiz, or, for students who have already taken and passed online courses, they can submit a waiver request. Students should check with the department that offers the class to determine its particular needs and/or the Ferris advisor regarding registration for online course work.

Reverse Transfer Agreement

The Community College and Ferris have entered into a partnership in order to work collaboratively and creatively to increase student completion of associate and bachelor degrees. The partners work together to provide a seamless transfer experience and increase student retention and completion at both the community college and Ferris.

Michigan Transfer Agreement (MTA)

Ferris participates in the Michigan Transfer Agreement (MTA). This agreement will facilitate the transfer of general education requirements from one Michigan institution to another. Students may complete the MTA as part of a degree program or as a stand-alone package. The MTA consists of a minimum of 30 general education credit hours as identified by the college or university.

Disclaimer

This is a guide for students who plan to transfer to Ferris State University. This guide is not intended to be a contract with Ferris. The information on this guide is subject to change. Students should contact their community college or Ferris to keep informed of changes. Final responsibility for verifying all transfer information lies with the student. Please refer to the effective and/or revised date on the bottom of the guide.
