

North Central Michigan College Transfer Guide

The Radiography program at Ferris is one of the largest and best-known programs in the country. The program is accredited by the [Joint Review Committee on Education in Radiologic Technology](#). Ferris graduates are highly sought after employees in hospitals, doctors' offices, forensic medicine and other health care organizations. Graduates of the program are eligible to take the national certifying examination of the [American Registry of Radiologic Technologists](#).

Students enter the program in the fall semester and spend the first three semesters on the Big Rapids campus. Studies during this period include general education and technical courses. Ample laboratory periods provide an opportunity to apply the theory and principles learned in the lecture sessions. During the final three semesters students work with patients in an off-campus clinical education center. These sites are located throughout the state in hospitals affiliated with the University to provide clinical experience and continued academic instruction.

or	or	or	
SOC 171	SOCY 121	Intro Sociology	
OAS 116	COHP 100*	Medical Terminology	3

Asterisk (*) courses above indicate course qualifications required to apply to the professional/clinical sequence. For important program qualifying information, see www.ferris.edu/chp, select **Radiography** and then choose **Application for Professional Sequence** in the right column. Also, see the **RADI Curriculum Guide** and **Ferris Catalog Page** links in this same right column.

Students transferring to Ferris with the Michigan Transfer Agreement (MTA) and entering a degree program will have met a 30-hour block of lower-level general education courses. However, this does not exempt students from completing program specific prerequisites or higher-level general education course requirements. Students should contact their advisor regarding classes that meet the MTA.

North Central Michigan College
Transfer Guide

General Admission Criteria

Students must be admitted to the University. To be qualified to the professional sequence of the program, an overall GPA of 2.5 must be maintained; and the student must have earned a grade of B- or higher in BIOL 109 and MATH 115 (or a Math ACT sub score of 24 or higher), a grade of C or higher in Medical Terminology, and a grade of C- or higher in ENGL 150 within two attempts including W grades.

To assure students of a quality technical education in classroom/lab and clinical practice, enrollment is limited. Students who meet or will have met the program's qualification criteria by the end of Fall semester are required to apply to the program's professional sequence between January 15 and January 30 of the year prior to the August professional sequence entry. Admission will be based upon date of qualification.

Delivery Locations

This degree is offered at the Big Rapids Campus. Please note that select courses may be delivered online and/or in a mixed delivery format.

Transfer Student Orientation

All new students to Ferris State University are required to complete an orientation. Orientation for incoming freshmen is a one-day session that occurs on campus and includes class registration. Eligible transfer students have the option of completing an online orientation or attending an on campus session.

Advising Notes

It is recommended that potential students meet with an advisor to review the degree, course schedule, and have any questions answered prior to completing an application. **Students who are completing the MTA may have different general education course requirements for the particular degree selected. Meeting with a Ferris advisor prior to the selection of any electives or general education classes shown above could reduce the chance of completing a course that will not apply toward the selected degree.** Once admitted, students must continue to meet with an advisor as they work towards graduation.

Online Learning

Orientation is required for students who register for an online *course* or are completing an online *degree*. Students must demonstrate competency in FerrisConnect skills by taking a tutorial and quiz; or, for students who have already taken and passed online courses, they can submit a waiver request. Students should check with the department that offers the class to determine its particular needs and/or the Ferris advisor regarding registration for online course work.

Michigan Transfer Agreement (MTA)

Ferris participates in the Michigan Transfer Agreement (MTA). This agreement will facilitate the transfer of general education requirements from one Michigan institution to another. Students may complete the MTA as part of a degree program or as a stand-alone package. The MTA consists of a minimum of 30 general education credit hours as identified by the college or university.

Disclaimer

This is a guide for students who plan to transfer to Ferris State University. This guide is not intended to be a contract with Ferris. The information on this guide is subject to change. Students should contact their community college or Ferris to keep informed of changes. Final responsibility for verifying all transfer information lies with the student. Please refer to the effective and/or revised date on the bottom of the guide.
