

The Bachelor of Science Degree in Surveying Engineering is designed to meet the needs of all students in the program. The following are objectives of the program:

- Program graduates will apply communication skills, lifelong learning attitude, and the knowledge of mathematics and basic science to attain advancement within the surveying profession.
- Program graduates will exhibit creativity, leadership and team-building abilities, cultural appreciation and an understanding of global, societal, and environmental context consistent with the principles of sustainable development.
- Program graduates will be engaged in the professional practice of surveying engineering with high ethical and professional responsibilities.
- The program graduates will strive for professional licensure.

The Program is accredited by Engineering Accreditation Commission (EAC) of ABET. After acquiring qualifying work experience, graduate of this program is eligible to become a licensed professional surveyor (PS) and engineer (PE).

#### First Year Seminar Requirement - 1 Credit Required

**Program Delivery Locations and Contact Information:****Main Campus, Big Rapids****College of Engineering Technology – Engineering & Computing Technology**(231) 591-2633 | [Surveying Email](#)[Transfer Partnerships Website](#)

\*Select courses may be delivered online and/or in a mixed delivery format (i.e. a mix of online and face-to-face instruction at the Ferris Main Campus or at an off-campus location).

**General Admission Criteria****New Students**

- High School GPA of 2.75 (on a 4.0 scale)
- Math ACT 26 or (Post-2016) Math SAT 610

**Transfer Students**

- Minimum GPA of 2.0 (on a 4.0 scale)
- Placement into MATH 220
- Placement into ENGL 150

**Advising Notes**

It is recommended that potential applicants meet with an advisor to review the degree, course schedule, and have any questions answered prior to completing an application. Students who are completing the MTA may have different general education course requirements for the particular degree selected. Meeting with a Ferris advisor prior to the selection of general education or elective course work may reduce the chance of completing a course that will not apply toward the selected degree. Once admitted, students must continue to meet with an advisor as they work toward graduation.

**Transfer Student Orientation**

All new students to Ferris State University are required to complete an orientation.

**Reverse Transfer Agreement**

The Community College and Ferris have entered into a partnership in order to work collaboratively and creatively to increase student completion of associate and bachelor degrees. The partners work together to provide a seamless transfer experience and increase student retention and completion at both the community college and Ferris.

**Michigan Transfer Agreement (MTA)**

Ferris participates in the Michigan Transfer Agreement (MTA). This agreement will facilitate the transfer of general education requirements from one Michigan institution to another. Students may complete the MTA as part of a degree program or as a stand-alone package. The MTA consists of a minimum of 30 general education credit hours as identified by the college or university.

Students transferring to Ferris with the Michigan Transfer Agreement (MTA) and entering a degree program will have met a 30-hour block of lower-level general education courses. However, this does not exempt students from completing program specific prerequisites or higher-level general education course requirements. Students should contact their advisor regarding classes that meet the MTA.

Students must work with their Ferris advisor to declare a Minor or Concentration and for selection of Directed Electives.

**Disclaimer**

This is a guide for students who plan to transfer to Ferris State University. This guide is not intended to be a contract with Ferris. The information on this guide is subject to change. Students should contact their community college or Ferris to keep informed of changes. Final responsibility for verifying all transfer information lies with the student. Please refer to effective and/or revised date on the bottom of this guide.
