

Grand Rapids Community College (GRCC) Transfer Guide

The social work curriculum includes a strong liberal arts foundation, consisting of courses in communication, biology, natural sciences, math, history, politics, psychology and sociology. These general education courses are integrated with the social work foundation curriculum that develops knowledge, skills and values relating to interviewing, problem solving, social research, and understanding the complexities of social welfare policies and services. Social work majors complete 600 hours of field instruction in two different social work agencies. The first field placement requires 120 hours and is scheduled in the summer between the student's first and second years in the program. It is usually completed in the student's hometown. The second field placement requires 480 hours over the senior year and is usually located in the region surrounding Ferris. Social workers at both the Baccalaureate and Master's level are licensed in the State of Michigan.

The Ferris Social Work program has been fully accredited by the Council on Social Work Education since 1989.

Advising Notes

It is recommended that potential applicants meet with an advisor to review the degree, course schedule, and have any questions answered prior to completing an application. Students who are completing the MTA may have different general education course requirements for the particular degree selected. Meeting with a Ferris advisor prior to the selection of general education or elective course work may reduce the chance of completing a course that will not apply toward the selected degree. Once admitted, students must continue to meet with an advisor as they work toward graduation.

Transfer Student Orientation

All new students to Ferris State University are required to complete an orientation.

Reverse Transfer Agreement

The Community College and Ferris have entered into a partnership in order to work collaboratively and creatively to increase student completion of associate and bachelor degrees. The partners work together to provide a seamless transfer experience and increase student retention and completion at both the community college and Ferris.

Michigan Transfer Agreement (MTA)

Ferris participates in the Michigan Transfer Agreement (MTA). This agreement will facilitate the transfer of general education requirements from one Michigan institution to another. Students may complete the MTA as part of a degree program or as a stand-alone package. The MTA consists of a minimum of 30 general education credit hours as identified by the college or university.

Students transferring to Ferris with the Michigan Transfer Agreement (MTA) and entering a degree program will have met a 30-hour block of lower-level general education courses. However, this does not exempt students from completing program specific prerequisites or higher-level general education course requirements. Students should contact their advisor regarding classes that meet the MTA.

Students must work with their Ferris advisor to declare a Minor or Concentration and for selection of Directed Electives.
