

Northwestern Michigan College (NMC) Transfer Guide

The demand for project managers in information technology, construction, health care, finance, marketing, supply chain, manufacturing, government, and many industries are increasing. The Project Management major is for students that want to pursue a career as a Certified Project Management Professional in technical and non-technical fields. The project management courses align with best practices as defined by the Project Management Institute, which is the global standard for project management, and focuses on project scope, schedule, cost, quality, resource, communication, risk, stakeholder, and procurement management. Agile project management and Scrum are introduced as emerging methodologies. The project management courses focus on preparing students to take the CAPM, PMP, or Scrum exams, by completing a project management internship or capstone project.

Advising Notes

It is recommended that potential applicants meet with an advisor to review the degree, course schedule, and have any questions answered prior to completing an application. Students who are completing the MTA may have different general education course requirements for the particular degree selected. Meeting with a Ferris advisor prior to the selection of general education or elective course work may reduce the chance of completing a course that will not apply toward the selected degree. Once admitted, students must continue to meet with an advisor as they work toward graduation.

Transfer Student Orientation

All new students to Ferris State University are required to complete an orientation.

Reverse Transfer Agreement

The Community College and Ferris have entered into a partnership in order to work collaboratively and creatively to increase student completion of associate and bachelor degrees. The partners work together to provide a seamless transfer experience and increase student retention and completion at both the community college and Ferris.

Michigan Transfer Agreement (MTA)

Ferris participates in the Michigan Transfer Agreement (MTA). This agreement will facilitate the transfer of general education requirements from one Michigan institution to another. Students may complete the MTA as part of a degree program or as a stand-alone package. The MTA consists of a minimum of 30 general education credit hours as identified by the college or university.

Students transferring to Ferris with the Michigan Transfer Agreement (MTA) and entering a degree program will have met a 30-hour block of lower-level general education courses. However, this does not exempt students from completing program specific prerequisites or higher-level general education course requirements. Students should contact their advisor regarding classes that meet the MTA.

Students must work with their Ferris advisor to declare a Minor or Concentration and for selection of Directed Electives.
