

Northwestern Michigan College (NMC)
 Transfer Guide

The Dental Hygiene program at Ferris is the largest in the State of Michigan and one of the largest programs in the nation. The program enjoys a reputation of educational excellence, with expert faculty recognized at the state, national and international levels within the discipline of dental hygiene for the delivery of innovative academic and continuing education. Dental hygiene is a practice area that continues to grow with the increased consumer awareness of the importance of good oral hygiene in the prevention and detection of systemic disease processes. Dental hygiene will continue to grow based on the increasing focus on preventive dental care needs of the public. Completion of the three-year Associate in applied science degree, and final written and clinical exams enables the graduate to sit for the state licensure exam. Student clinical experiences occur within the college as the students work with patients from the University, community, and local schools in the 30-seat state-of-the-art Dental Hygiene Clinic located in the College of Health Professions building.

Ferris State University and Community College – Dental Hygiene AAS - Transfer Guide

Effective Spring 2019

Ferris State University is an equal opportunity institution. For information on the University's Policy on Non-Discrimination, visit ferris.edu/non-discrimination.

Advising Notes

It is recommended that potential applicants meet with an advisor to review the degree, course schedule, and have any questions answered prior to completing an application. Students who are completing the MTA may have different general education course requirements for the particular degree selected. Meeting with a Ferris advisor prior to the selection of general education or elective course work may reduce the chance of completing a course that will not apply toward the selected degree. Once admitted, students must continue to meet with an advisor as they work toward graduation.

Transfer Student Orientation

All new students to Ferris State University are required to complete an orientation.

Reverse Transfer Agreement

The Community College and Ferris have entered into a partnership in order to work collaboratively and creatively to increase student completion of associate and bachelor degrees. The partners work together to provide a seamless transfer experience and increase student retention and completion at both the community college and Ferris.

Michigan Transfer Agreement (MTA)

Ferris participates in the Michigan Transfer Agreement (MTA). This agreement will facilitate the transfer of general education requirements from one Michigan institution to another. Students may complete the MTA as part of a degree program or as a stand-alone package. The MTA consists of a minimum of 30 general education credit hours as identified by the college or university.

Students transferring to Ferris with the Michigan Transfer Agreement (MTA) and entering a degree program will have met a 30-hour block of lower-level general education courses. However, this does not exempt students from completing program specific prerequisites or higher-level general education course requirements. Students should contact their advisor regarding classes that meet the MTA.

Students must work with their Ferris advisor to declare a Minor or Concentration and for selection of Directed Electives.
