

Appendix B

Exposure Determination by Job Classification

All of the following job classifications require Staff and Student Employees to perform procedures or occupation-related tasks that involve exposure, or the potential for exposure, to blood or other potentially infectious material, or that involve a potential for spills or splashes of blood or other potentially infectious material, are included in this exposure determination.

Department/Program	Position	Activity with Potential Exposure
Michigan College of Optometry	Doctors, Faculty, Staff, Student Employees	Clinical Patient Care and Teaching
Michigan College of Optometry - Surgery	Doctors, Faculty, Staff, Student Employees	Instruction and supervision of students involved in patient care, and biohazardous waste generated from surgery
Michigan College of Optometry - AP	Doctors, Faculty, Staff, Student Employees	Cadavers and fixed tissue
Michigan College of Optometry - Research	Doctors, Faculty, Staff, Student Employees	Research involving human blood OPIM, cadavers, or fixed tissue

The following body fluids are not expected to be infectious sources of bloodborne pathogens unless they are visibly contaminated with blood:

- Urine
- Feces
- Vomit
- Tears
- Sweat
- Sputum
- Nasal Secretions

Faculty, Staff and Student Employees who do not perform the activities listed above where there is potential exposure are classified as Category B.
