## Declaration of Intent and Purpose

---

Next to the authorization of a Public School Academy (PSA), the oversight, evaluation, and reauthorization of that Academy are the most important tasks a State authorizer performs. The Ferris State University Charter Schools Office accomplishes this responsibility in two stages:

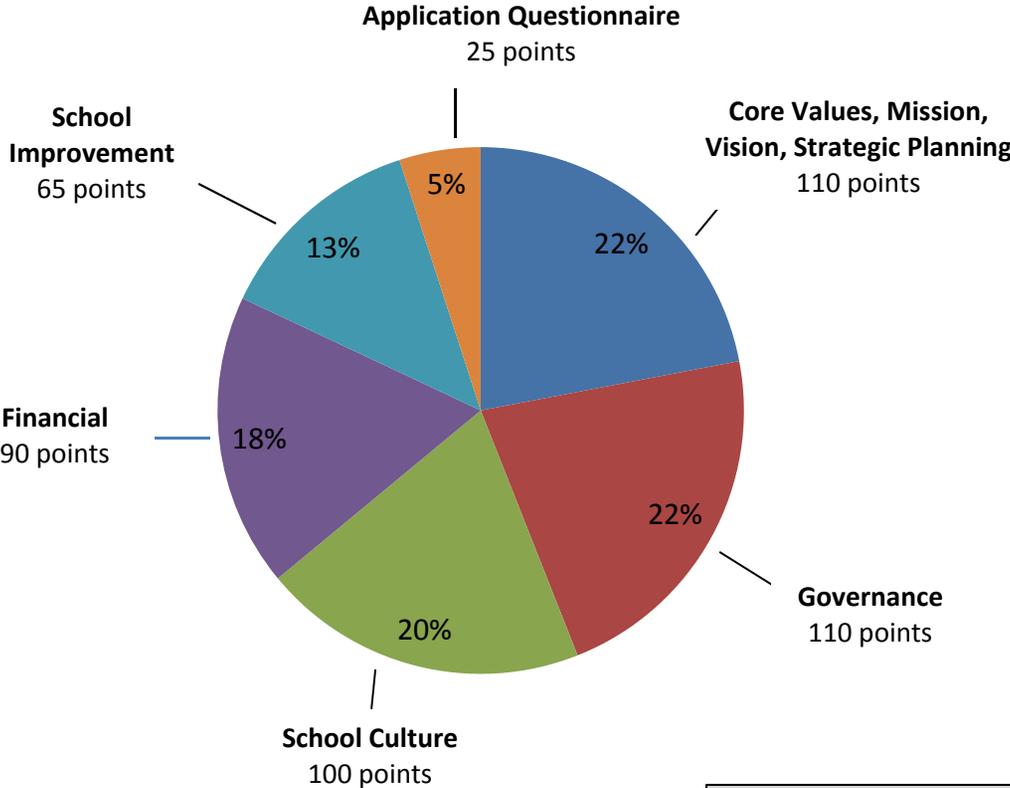

1. **Annual Academic Performance Report.** All FSU-authorized academies receive an *Annual Academic Performance Report* in August. This report is a comprehensive analysis of the academy's progress towards their contractual educational goals and contains extensive information about student performance levels on a wide variety of measures.
2. **Mid-Contract Review or Reauthorization Review.** All FSU-authorized academies undergo two team visitation reviews during each contractual period as per contractual requirement. The first, the *Mid-Contract Review*, takes place at the mid-way point of the contractual period. The second, the *Reauthorization Review*, is held in the fall of the last academic year of the charter school contract. Both Reviews are significant events in the life cycle of a PSA. The Mid-Contract Review and the Reauthorization Review cover aspects of academy performance separate from academic performance reported in the Annual Academic Performance report such as: Governance, Financial Viability, and Strategic Planning.

While both stages of an Academy's evaluation are significant, the CSO emphasizes that the Annual Academic Performance Report and an Academy's progress toward their contractual educational goals are the *most important factor* in determining recommendations to the FSU Board of Trustees regarding Reauthorization.

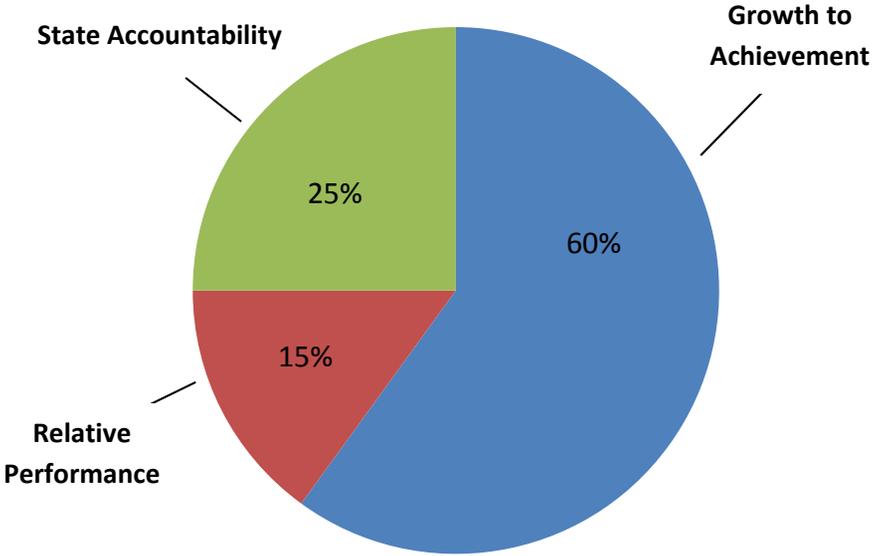

This report was prepared by a Visitation Team comprised of CSO members. The Team may also have included one or more outside reviewers hired for this specific review. All attempts have been made to make the report as factual as possible based on data, interviews, observations, and documentation provided by the Academy and/or gathered by the interviewers. *All data contained in this report are deemed as **accurate as possible** by the Charter Schools Office at the time this report was prepared. # Bridge Academy Reauthorization Review

## December 9-10, 2013

### Executive Summary

Board of Directors:

On behalf of the Ferris State University Charter Schools Office (FSU-CSO) Reauthorization Review Team, I am pleased to forward this Executive Summary. The team and I wish to express our sincere gratitude for the hospitality shown to us by the school administration, staff, students, and Board of Directors. We thoroughly enjoyed our visit, and we gained a greater understanding of both Bridge Academy West and Bridge Academy East.

The team is pleased to notify the Bridge Academy Board of Directors, administration, and staff that the Academy and staff achieved 396.41 points out of a possible 500 points on the Reauthorization Review point tally sheet. By earning 396.41 points out of a possible 500, you earned the ranking of Meets Standards. The evaluation criteria, which included analysis of core values, governance, school culture, financial viability, school improvement, and the application questionnaire, did not include the Annual Academic Performance Audit review of academic performance. As you know, the Annual Academic Audit was distributed this past August 2013, and Bridge Academy was identified as Needing Improvement in the area of Academic Achievement.

Highlights of our visit included:

- 1) It was clear to the FSU-CSO visitation team that Bridge Academy is an integral part of the community.
- 2) The parents deeply appreciate the staff and administration at Bridge Academy.
- 3) Your Academy is providing a safe and nurturing environment for all your students. The students and parents not only feel physically safe in and around the schools, they feel “culturally” safe.
- 4) The leadership team and interviewed Board of Directors members demonstrated the commitment necessary to lead an academy striving for high academic success.
- 5) The students are very happy at Bridge Academy, and they believe it is a good school.
- 6) The administrators at Bridge West and Bridge East are very well thought of by the majority of staff, students, and parents.

Although the FSU-CSO Reauthorization Review Team identified numerous positive attributes at your Academy, we also identified areas of concern. These areas of concern include:

- 1) Although the Board has started the Strategic Plan process, there is not a Strategic Plan in place. Considering your 2012-13 deficit budget and decreasing enrollment at Bridge West, it is very important that the Board and school community address major issues strategically.
- 2) The continual turnover of staff is a major issue at both Bridge West and Bridge East. The issue of staff retention was raised as a point of concern by most of the interviewed groups, including students. In fact, one of the interviewed groups mentioned that the students have created a game called “who is leaving next.”
- 3) Although budget constraints are a reality, many of the paraprofessionals believe their pay cut and hourly reduction cuts were unfair. The reality of this perception, whether real or not, has created negative feelings within the paraprofessional community.
- 4) Improper student behavior (at Bridge West) was raised by numerous interviewed groups. This issue (again, whether real or perceived) needs to be addressed.
- 5) There is a perception (again, whether real or perceived) that all the teachers do not try to understand the culture of the Bridge Academy community.
- 6) The number of students who are in need of an ESL program appears to be increasing. Continuing to address this growing problem should be part of your strategic plan initiatives.

In closing, as chairperson of the Ferris State University Charter Schools Office Reauthorization Review Team, I want to thank you for your gracious hospitality. In addition, I want to thank Mr. Wheeler and the administration team for their help facilitating our visit. It was a pleasure to meet and interact with the dedicated staff and administration at Bridge Academy.

Sincerely,

Lee C. Robinson, Ed.S.  
Chairperson

# BOARD INTERVIEW SUMMARY

Academy Name: **Bridge Academy**

Date: **December 9-10, 2013**

The following is a summary of responses, and is not intended to be all-inclusive.

**1. Do you feel the academy is accomplishing its mission? How do you know?**

- Measurable, need to be improved.
- Educate parents.
- Yes-to show improvement.
- Not where we need to be with regards to standards.
- Huge change in parents. Use to have 2-3 parents come to conferences. Now 60-70 parents come to the school. Many parents are 1st generation parents and “old school.” Old school parents do not approach education of their child like 2nd generation parents.
- Not reaching 100%. Could do better.
- School culture needs improvement. Starting late in implementing after school clubs.
- Management Company must do better job of educating parents.
- Yes, impacting community (positively).

**2. Are you confident that students are leaving this academy performing at a high level of academic achievement? Upon what evidence do you base your answer?**

- I want what’s best for my kids and all kids. We need help from parents. We need a parent outreach campaign.
- Need to change parent’s belief that schools will take care of everything.
- Reading and language...we need to do more.
- Students are not performing at the desired levels.

**3. Tell us about your knowledge of the charter school contract with FSU. What do you believe to be the most important information Board members should know?**

- Board not clear on the contract between FSU and the board. Very limited knowledge.
- FSU expects an 18/19 score on ACT for graduation.
- Visits here probably been positive, but figures show that it is a “failing” school.
- Expectations need to be tempered.

**4. What are you most proud of at this academy? What could be improved?**

- The difference this Academy makes for the community is immeasurable.
- Friendly, safe, and family oriented.
- School is making a difference in the community.
- True community center.
- Proud of culture.
- Friendly, safe environment.
- Strong connection with parents.
- I could go on and on pride-see how hard teachers work.
- Community holds Academy in high regard.
- Dr. Najj earned parents trust.
- Education needs to be pushed harder.

**5. Does your Board have a strategic plan for the next 3-5 years? If yes, what is the main focus of that plan? If no, do you see value in developing such a plan?**

- Working on one right now/being trained.
- Areas of focus are staff retention, parental involvement, academic achievement, and enrollment.

**6. Why do you think parents choose to send their children to this academy?**

- Bridge is the “Mecca” for families and community activities and planning.

**7. How does the Board determine the allocation of funds for this academy?** (not asked due to time constraints)

**8. If money was not an object, what changes would you like to see made to the academy? (Example: building, curriculum staffing, etc.)**

- Need more after school activities: sports, etc., especially for older students.

**9. Anything for our attention?**

- The building of our split campuses has created a lot of new challenges.
- We need to “track our kids” through HS and beyond.
- The community would be devastated if Bridge Academy is closed.
- Bridge Academy is a major force in the community.
- Bridge was one of 1st charter schools in the community. It has helped public schools make improvements.

BRIDGE ACADEMY

REAUTHORIZATION

## I. Academic Programs

### a. Is the academy making academic progress?

- i. The stakeholders for Bridge Academy, (teaching staff, leadership, students, and board members) state that Bridge Academy is making academic progress. The stakeholders have reviewed all of the data attached as well as the narrative that details the results from the data to reach this conclusion. Now are the stakeholders satisfied, do we believe that the work is done – no our work is never done but we know that when a student is at Bridge Academy they will make academic progress.

### b. How does the academy compare academically relative to the State, resident district, and demographically comparable district? Discuss both criterion referenced testing such as MEAP, and standardized testing such as Global Scholar.

- i. **Note:** All of the data for the statements listed below are detailed in the attachments.
- ii. MEAP Data – For the first two years the MEAP data was in a decline, over the past three years the MEAP data has shown a steady increase in average. However there are some subjects that need to be focused on such as Science and Middle School Math.
- iii. Global Scholar Data - The Global Scholar data in aggregate shows a trend of growth in comparison to the goals as set forth by Ferris State University.
- iv. Local Comparison/State Comparison – When compared locally on average Bridge Academy Cohort students rank above their counterparts at the local district or at the same level. When compared again the state of Michigan average, Bridge does fall below the state average
- v. Growth – Over the past five year period, Bridge Academy and their management company focused on individual student growth, setting the bar for Global Scholar data to be at least a 1.5 years growth to now setting the bar for either an ACT growth to trajectory 24 average to a 18 average. This data shows over 80% of Bridge Academy students moving closer to the target and closing the gap
- vi. Therefore, Bridge Academy stakeholders can show through the data included in this report that Bridge Academy is making academic progress.

## II. PROGRESS TOWARD CONTRACTUAL GOALS

Contractual Academic Goals  
2008-2013

### a) Ferris State University Charter Schools Office Prescribed Goals

The Ferris State University Charter Schools Office (FSU-CSO) prescribes three of the set of Contractual Educational Goals: (1) MEAP/MME Goal, (2) Scantron Performance Series© Value-Added Achievement Goal, and (3) State Goal.

#### 1. MEAP/MME Goal

In order to ensure that academies authorized by FSU meet the requirements of the “No Child Left Behind” Act (NCLB), FSU requires that boards commit to achieving the following goal:

**GOAL 1: The Academy will increase student achievement in accordance with state and federal Adequate Yearly Progress (AYP) requirements in the core academic subjects of Reading, Mathematics and Science.**

The FSU-CSO will establish a 5-year MEAP/MME growth trajectory to include grade level goals for Reading, Math, and Science for the Academy.

**2. Scantron Performance Series® Value Added Achievement Goal**

The FSU-CSO requires the use of Scantron Performance Series® assessment which is able to track cohort (any student attending the Academy for three or more consecutive years) student growth. In accordance with this requirement, boards agree to administer the Scantron Performance Series® assessment during the FSU-CSO defined testing window in at least Reading, Mathematics, and Language Arts to students in grades 2 through 11. In order to ensure compliance with these standardized testing requirements, the boards must commit to the following goal:

**GOAL 2: The Academy will improve student achievement in accordance with the Ferris State University Charter Schools Office 3-Year Cohort Value-Added Achievement Trajectory in the core subjects of Reading, Language Arts, and Mathematics as reported on the Scantron Performance Series norm-referenced assessment. The percent of cohort students at or above grade level will meet or exceed the CSO established trajectory.**

**State Goal**

In order to ensure that academies authorized by FSU meet the requirements of the state accreditation system, Education YES!, FSU requires that boards commit to achieve the following goal:

**GOAL 3: The Academy will (achieve/sustain) a grade of (at least) a(n) (“A”/“B”) as a Composite Grade on the Education YES! report card.**

**III. DO THE CONTRACTUAL GOALS REFLECT SUFFICIENTLY HIGH STANDARDS**

The previously contractual goals at the time when they were developed reflected the standards that were established by the state and perceived to be high at the time. However, through the work that Bridge Academy and its management company Global Educational Excellence standards were developed that reflected the type of growth that is expected of Bridge Academy students.

**IV. WEAKNESSES IDENTIFIED**

A weakness that we identify is that our students are not used to reading such long passages and combined with the ELL population it is a weakness. But this weakness is one that we work on and have been over the past two years have a focused work with the paras and ELL department on reading with the students. Upon looking at the math trend over the past five years we did make a change from Everyday Math to Math Connects; which provides the support that the students need in terms of learning the concepts in a non spiraling manner. The spiraling manner created gaps in terms of content areas such as measurement and geometry. The middle school scores in Reading and ELA were not where we wanted them to be so 4 years ago we doubled the reading and writing time to a 120 minute block for all middle school students; this has shown growth over time in our scores.

**V. SCHOOL PROGRESS HAS OUTWEIGHED LACK OF PROGRESS**

The school has made progress academically over time. The improvement has been erratic with up and down years, but for the duration of the contract the Academy

does show academic growth. In Global Scholar the gains in ELA and Math have outgained the Reading over time. Reading is showing growth but it is inconsistent. The Academy has made ongoing progress in overall school operations since inception. The Academy has had stability in leadership since the school began. The Academy is well respected in the community demonstrated by strong parent participation and a waiting list of students for all classes every year. The Academy has increased staff size, increased sections at each grade level, and has expanded the facility. The Academy has met Adequate Yearly Progress objectives every year.

### **III. Academy Mission**

#### **a. What progress has been made toward meeting the academy's mission?**

- i. Bridge Academy has established and maintained a transparent school culture, vision and mission statements that are embraced and supported by all stakeholders. The school has posters displaying the mission and vision in all hallways, classrooms and meeting spaces. The mission and vision are shared with staff during staff orientation in the beginning of the school year and in almost every professional development and staff meeting. The mission and vision are shared with parents at the beginning of the school year during open house and coffee with the principal. The mission is also shared with students during the assemblies and student activities. Each classroom develops their own mission based on the overarching mission of Bridge Academy.
- ii. Bridge Academy's mission can be broken down into three components; academic excellence, positive character and appreciation of cultures
  1. Academic excellence as discussed above shows the progress towards meeting academic growth and proficiency goals
  2. Academic excellence towards lifelong learning can be shown in the 10 to 15 days of professional development that the Bridge Academy teaching and leadership staff participates in during the school year and over the summer.
  3. Bridge Academy is a place where all visitors can observe a safe learning environment, positive atmosphere, friendly relationships and respectful cultures for all students and staff. In our effort to produce well rounded students that are intellectually and emotionally ready for college and life, we incorporate our positive character traits in daily class instruction. Bridge Academy focuses on one character trait every month as teachers and students participate in lessons and activities around that character trait. The traits are respect, responsibility, appreciation, commitment, cooperation, creativity, curiosity, empathy, integrity, and tolerance. The positive behavior intervention system (PBIS) put into place through a grant from Wayne RESA. The discipline referrals have decreased over the past 5 years. For example in the 2012-2013 school year there were only 3 in school suspensions and 8 out of school suspensions.
  4. Appreciation of cultures has been a heightened focus over the past five years at Bridge Academy to events that highlight various cultures to communications home in the primary languages spoken in the community. Bridge Academy has on a yearly basis held a mutli-cutlral event, Arabic Spelling Bee and other programs for the community and families. Bridge Academy has developed a very good relationship with the community. Our facility is available to the community as needed. For example, English classes are offered to parents and as of this reauthorization period over 100 parents/community members have

taken courses at Bridge Academy. In addition Bridge Academy has had a presence at all cultural events in Hamtramck.

**b. What changes are proposed (if any) in the Academy's Mission Statement or Vision for the new contractual period?**

- i. There are no changes proposed for the mission statement but the vision statement is one that is in the current stages of review with all stakeholders
- ii. Current Draft

## IV. Financial Stability

**a. Is the academy financially solvent and stable?**

Bridge Academy Board has competently and effectively managed the financial resources over the past five year. It is the philosophy of the board to maintain a fund balance at 5% of the current year projected budget. During the five year period the Board was able to use the fund balance that they accumulated to lease another location to expand campuses due to the demand of enrollment and the community. Despite state-wide budget cuts and crisis; Bridge Academy has been able to keep all staff including part time paraprofessionals. Bridge Academy board is committed to providing the best educational value for their students.

Over the past five years Bridge Academy has had various financial opportunities such as ARRA and participation in the MAPSA TEAMS grant that has allowed for investments to be made that go beyond the funding period. When the ARRA money was distributed from the federal government the school board, school leadership and management company worked together to leave a lasting footprint with the money. To leave this lasting footprint; SMART BOARDS and

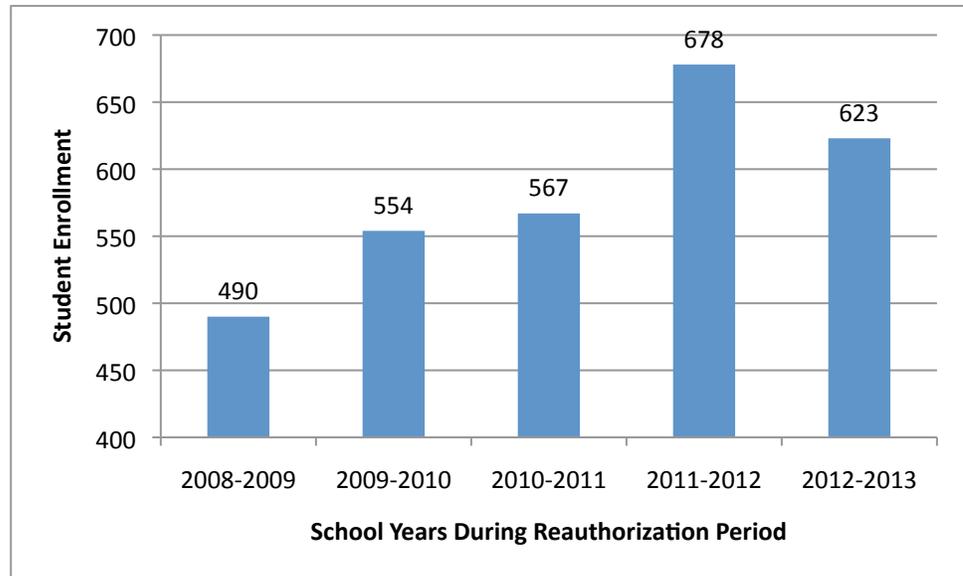

projectors were purchased and installed for all classrooms, computers for all classrooms and a second computer lab, fully furnished library, and furniture for not only the present but the future. The effective use of the ARRA money allowed for new site to have a fully function classrooms with computers and a lab for the online assessments. In addition both locations worked within the budgets to establish transportation between the campuses to help the families. The MAPSA TEAMS money has been used to provide professional development for teaching staff and the school leaders on best practices in literacy such as EBLI and school leadership practices such as Leading Urban Schools and Zing Customer Service Training. Through the leadership of the Bridge Academy board investments have been made over the past five years in technology, curricular materials and professional development to leave a legacy that goes beyond a five-year period.

The board has a healthy relationship with the school leadership and Management Company that allows for all parties involved to have an understanding of financial priorities when it comes to facility upkeep and allocation of resources.

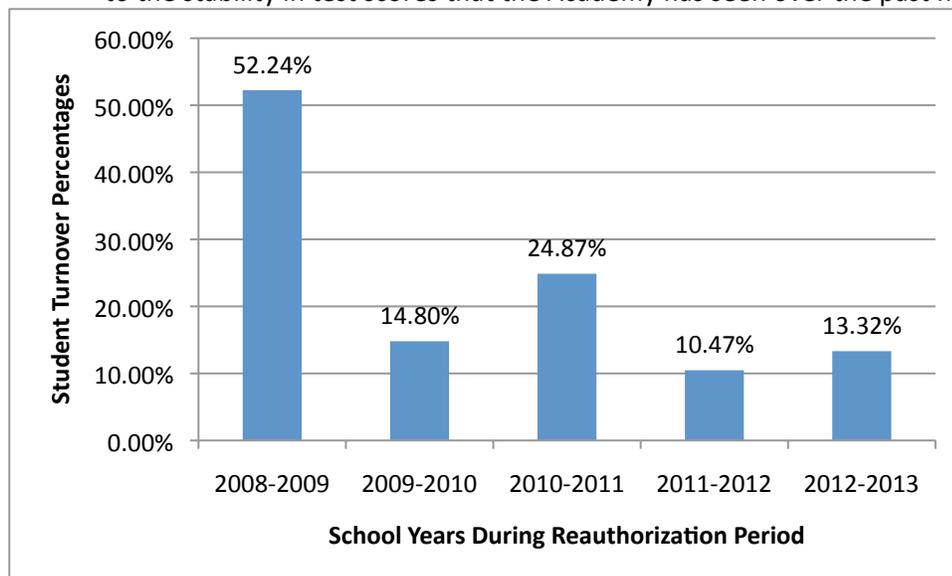

There have never been any reportable conditions on yearly audits; documentation attached.

**b. Is student enrollment stable and near capacity?**

- i. Over the past five years Bridge Academy has transitioned from one campus to two campuses. This transition occurred in school year 2011-2012; this allowed for more than 100 students to receive their education at Bridge Academy. While the enrollment for Bridge Academy did dip during the 2012-2013 school year due to the addition of new EAA schools and other public school academies in the area, the projection for the 2013-2014 school year is 715 students.

- ii. Student turnover has dropped dramatically over the past 5 years; and this leads to the stability in test scores that the Academy has seen over the past five years.

- iii. Teacher turnover has been below 30%, where some years the staff turn-over has seen larger with staff also being promoted or requesting transfers to other GEE Academies.

## V. Decision Making

### a. How does the academy (staff, administrators and Board) use assessment data to make decisions

- i. Data drives Bridge Academy; data from assessment scores to enrollment trends to parent involvement, data is consistently discussed at all school meetings that include all stakeholders. All decisions are made with data as the driving force; from where students live for transportation to student test scores for extra services to parent satisfaction surveys for extra parent classes. In addition all of these decision involve a team of stakeholders from the board members to management company to staff to students to parents to community members.
- ii. At the teacher level, common and formative assessments are aligned with the goals and mission of the school. The assessments are used by the staff on either a quarterly or end of unit basis and were developed by a team from the academy based on the standards and curriculum. The MEAP and Scantron results are used to create differentiated instructional groups in the classroom as well as to inform instruction. Bridge Academy takes the instructional groups to another level by sharing the data with the after school 21<sup>st</sup> Century program to create instructional groups after school with the most at risk students. In addition the ELPA is used to instructionally group the ESL students with either an ESL teacher or a paraprofessional. Reading scores are used to send students to reading groups with the reading specialists.

On a weekly basis the grade level teams meet to discuss data and progress monitoring of the students assessments and needs. The students are also tiered into a Response to Intervention program that has an in-depth progress monitoring system for those students in the higher tiers.

With all of this data it is easy for an academy to be data rich but not taking any actions with the data itself. Bridge Academy leadership team has ensured through various processes that this will not take place. The main process is by funneling everything through the school improvement plan. The school improvement plan is the key for any decision that is made at the academy.

When the plan is written, members representing all stakeholders are present and look at the data from all of the resources available. The goals are then written based on the data; this does not stop at the goals. The strategies and resources and then organized around the goals in the school improvement plan. While not every resource can be granted in the school improvement plan based on the budget from the federal dollars; it is up to the stakeholders to review the goals and ensure that the goals will be met. The school improvement plan goals are reviewed throughout the school year and at the beginning and end of the school year presented to the school board on whether the goals were met or not met as well as actions plans for next steps.

## VI. Challenges and Opportunities

- a. **If the academy is reauthorized by the Ferris State University Board of Trustees, what are the biggest challenges facing the new authorization period?**
  - i. The largest challenge facing this new authorization period is the expansion to two site; while this occurred in this past authorization period the challenge is for now to create, develop and implement a uniform system between both campuses that families can view the programs as seamless
    1. Addressing this challenge
      - a. Having consistent messages to the community/stakeholders from both campuses
      - b. Monthly meetings between the administration team of both campuses
      - c. Shared administration staff between the campuses
      - d. Professional development together between the campuses
    2. Timeline for This Challenge to Be Met
      - a. Starting with the 2013-2014 school year the marketing team is meeting on a weekly basis with the stakeholders from both academies to ensure that parents see the same message communicated from both buildings
      - b. In addition to these meetings the school administration will continue the meetings that began in 2012-2013 to ensure consistency. In addition these meetings go beyond only the school administration to meetings with the school improvement plan and a uniform District School Improvement Plan
      - c. Starting with the 2013-2014 school year there are shared employees between both campuses for Business Managing, Student Data, and Parent Coordinator
      - d. Starting with the 2013-2014 school year staff from both campuses will participate in monthly Professional Learning Community meetings together
      - e. The shared resources and meeting times have been implemented in the school improvement plan as part of the District Plan.
    3. The Board of Directors will monitor the progress on this challenge during the monthly board reports as well as visits to the schools and attendance at meetings.
    4. It is the goal of the Board of Directors to have campuses functioning as one operating unit at the conclusion of the next reauthorization period. If this goal is met then all other goals will be met in the mission.
- b. **Describe how the Board of Directors has demonstrated growth as a governing body during this contractual period**
  - i. During the past contractual period the Board of Directors has grown in both number and involvement at the campuses. The board's involvement has

expanded from only attending board meetings five years ago to; attendance at campus events, meeting with community stakeholders, and helping with marketing campaigns. The board has become an integral part of the Bridge Academy Family and will continue their involvement over the next authorization period.

As reflected in Figure 23, for the 2012 MEAP Bridge Academy exceeded the state averages for Math in 3<sup>rd</sup> and 4<sup>th</sup> grades and fell below the state averages for all other grades. Bridge Academy did better than the Hamtramck Public schools in Math for grades 3, 4, and 5 and below Hamtramck Public schools in grades 6, 7,

and 8. When comparing Bridge Academy with another PSA which is also located in Hamtramck, Bridge Academy did better than Oakland International Academy in all grades except in 3<sup>rd</sup> grade. Bridge Academy exceeded Wayne RESA averages, the local county, in all grades.

As reflected in Figure 24, for the 2012 MEAP Bridge Academy fell below the state averages for all grades in Reading. Bridge Academy did better than the Hamtramck Public schools in Reading for grades 3, 4, 5, and 8 and below

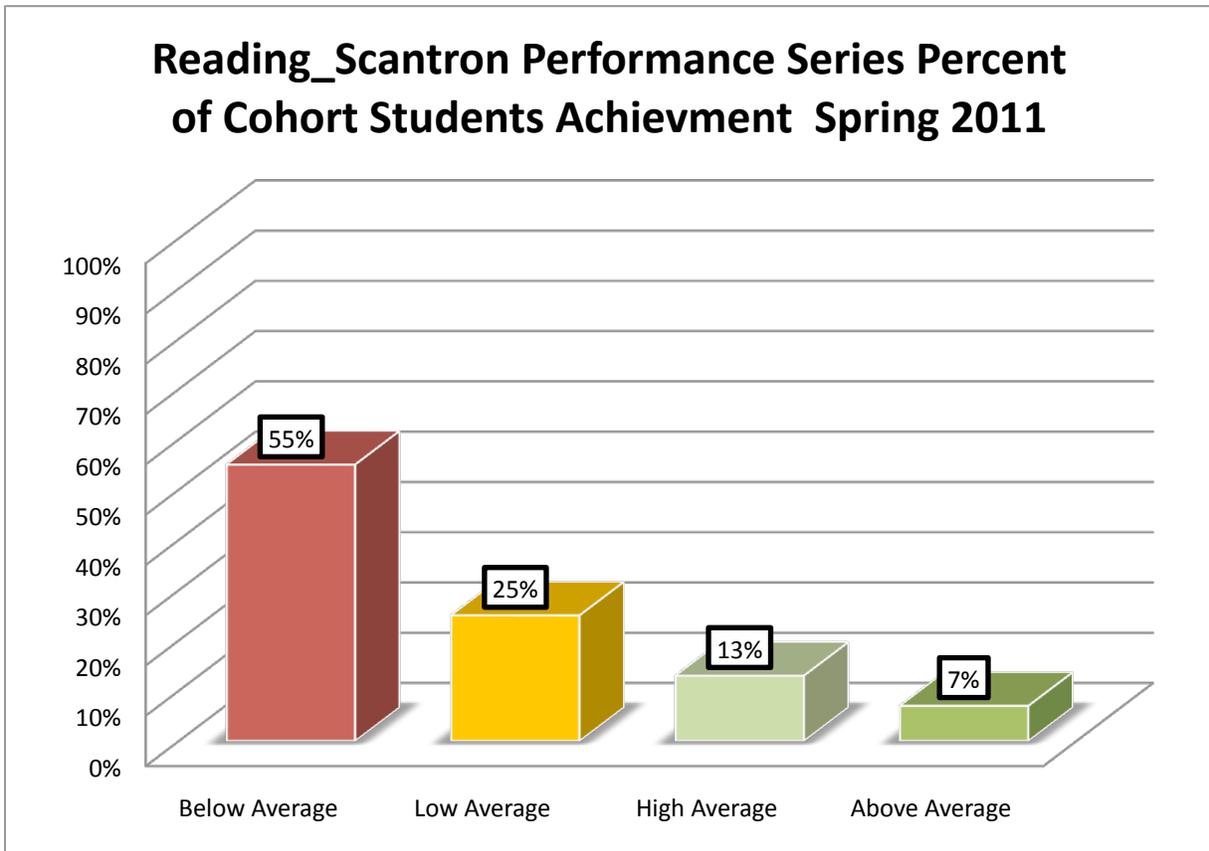

Hamtramck Public schools in grades 6 and 7. When comparing Bridge Academy with another PSA which is also located in Hamtramck, Bridge Academy did better than Oakland International Academy in all grades in Reading. Bridge Academy fell below Wayne RESA averages except in 8<sup>th</sup> grade.

## Scantron Performance Series Data

Scantron Performance Series Value Added Achievement Goal: The Academy will improve student achievement in accordance with the Ferris State University Charter Schools Office 3-year Cohort Value-Added Achievement Trajectory in the core subjects of Reading, Language Arts, and Mathematics as reported on the Scantron Performance Series norm-referenced assessment. The percent of cohort students at or above grade level will meet or exceed the CSO established trajectory.

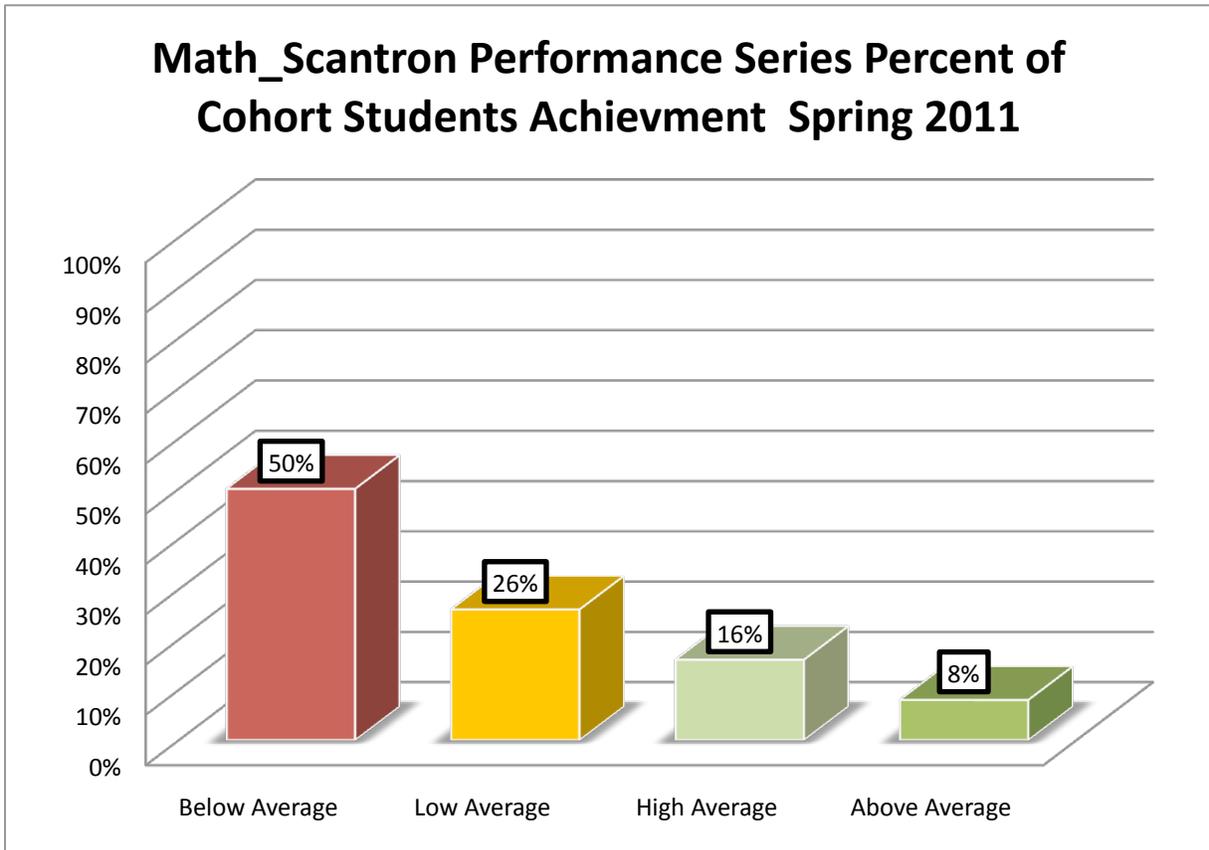

Figure 25

2011-2013

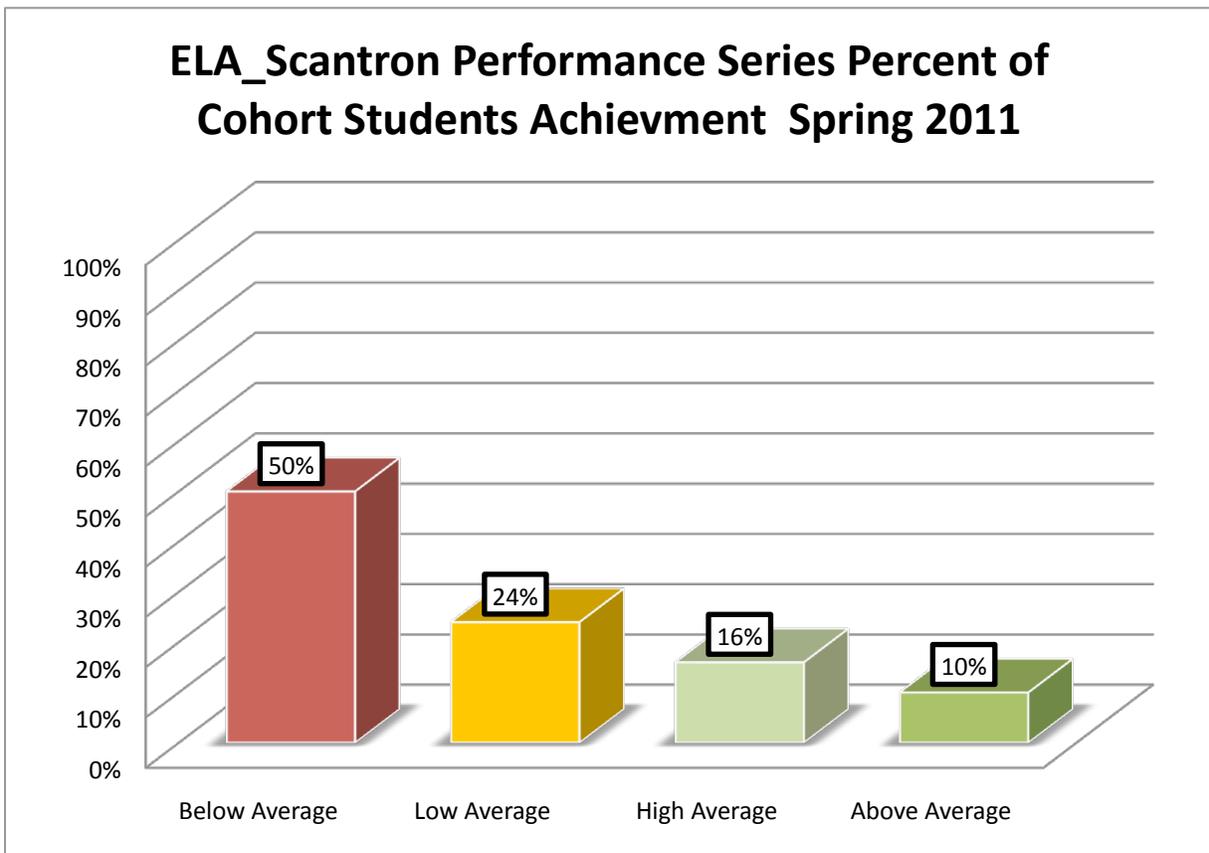

As reflected in Figure 25, 45% of cohort students were proficient in spring 2011 Scantron Reading.

Figure 26

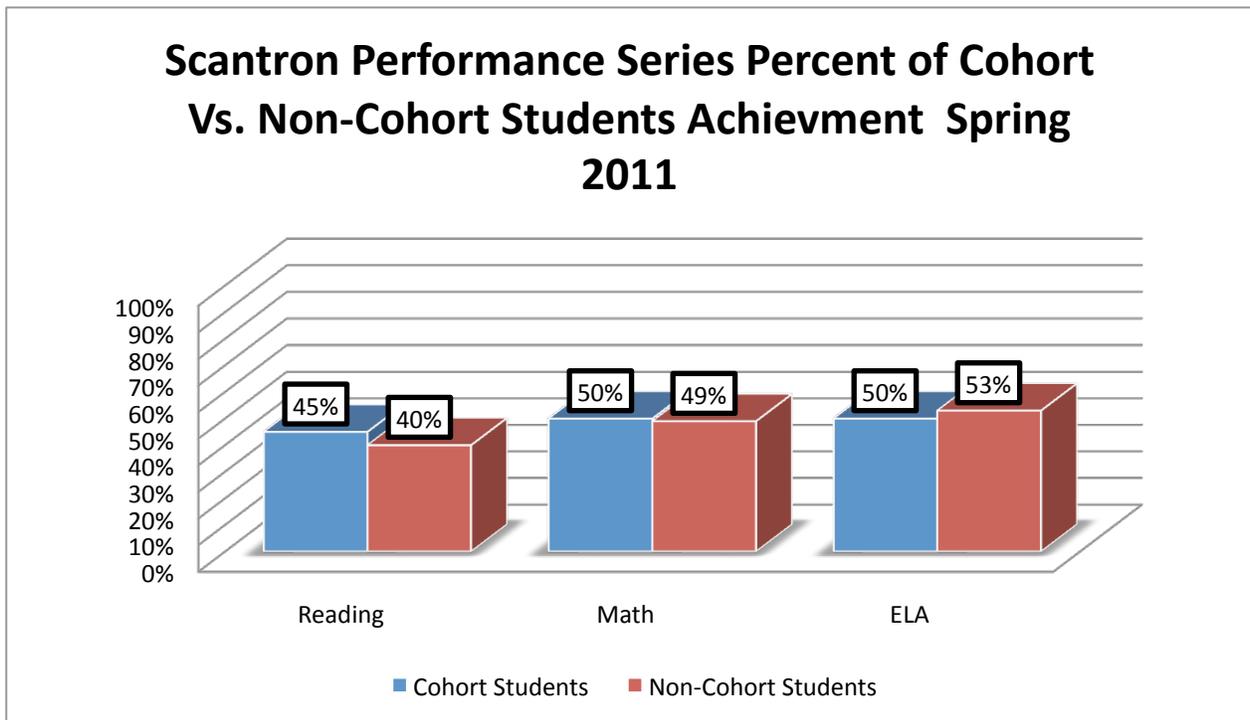

As reflected in Figure 26, 50% of Bridge cohort students were proficient in spring 2011 Scantron Math.

Figure 27

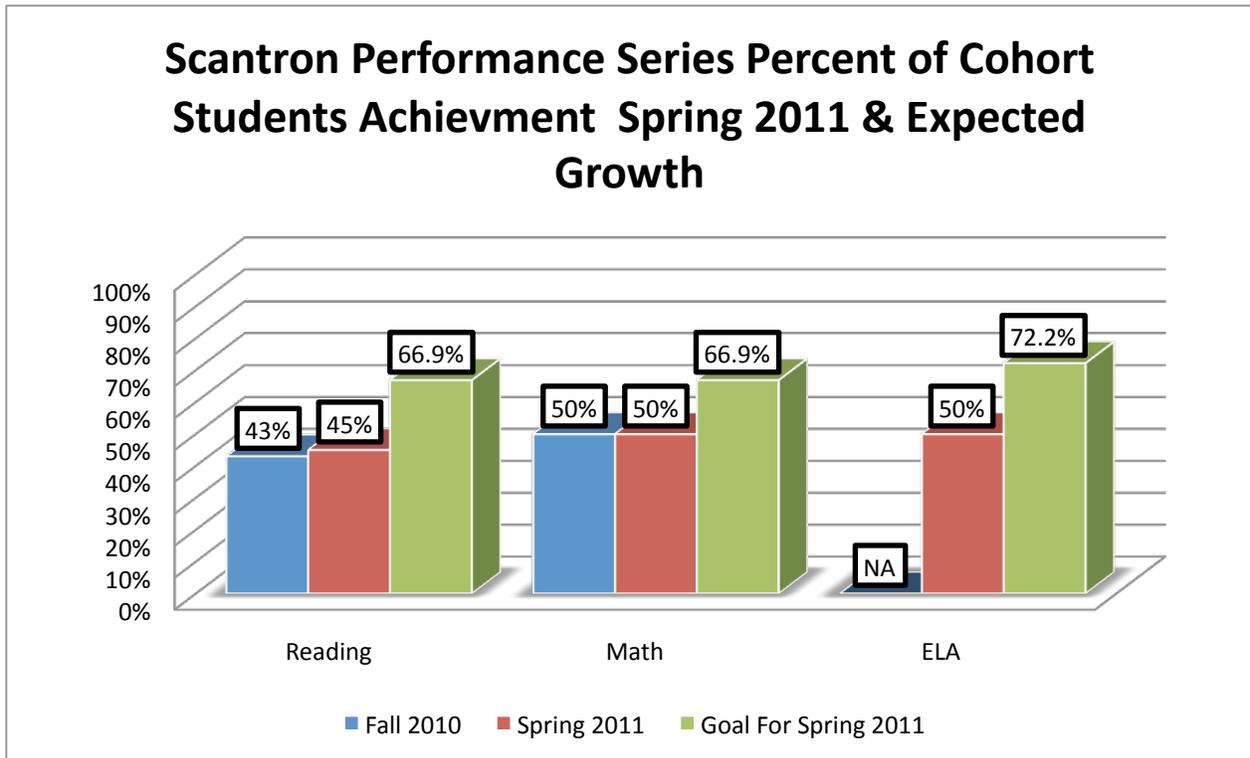

As reflected in Figure 27, 50% of Bridge cohort students were proficient in spring 2011 Scantron ELA.

Figure 28

As reflected in Figure 28. The above chart reflects the cohort vs. the Non-Cohort students at Bridge Academy. For spring 2011 the cohort and non-cohort students were very close in all subjects areas. The number of students for each cohort is very important when analyzing the two cohorts. For spring 2011, the cohort students outperformed the non-cohort except for ELA.

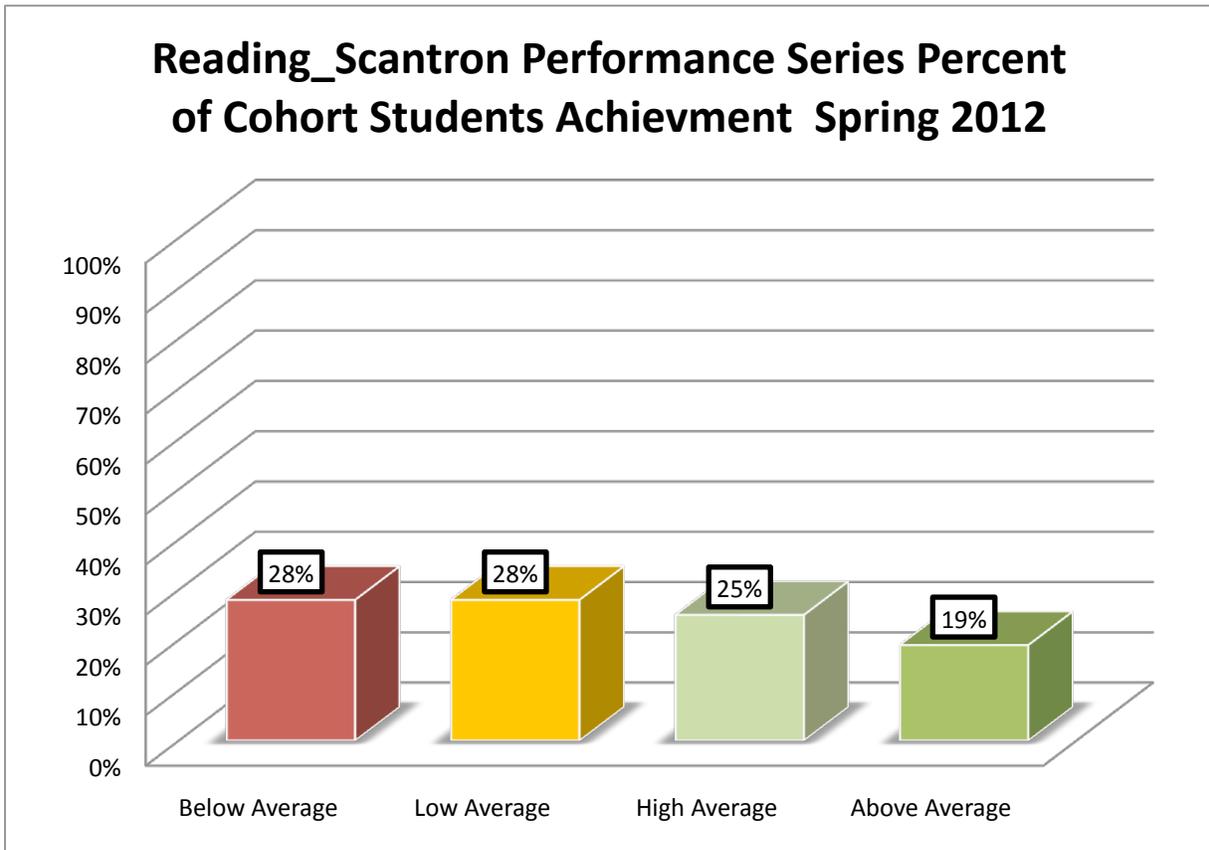

Figure 29

As reflected in Figure 29, students did not meet the FSU-CSO goals in spring 2011 Scantron.

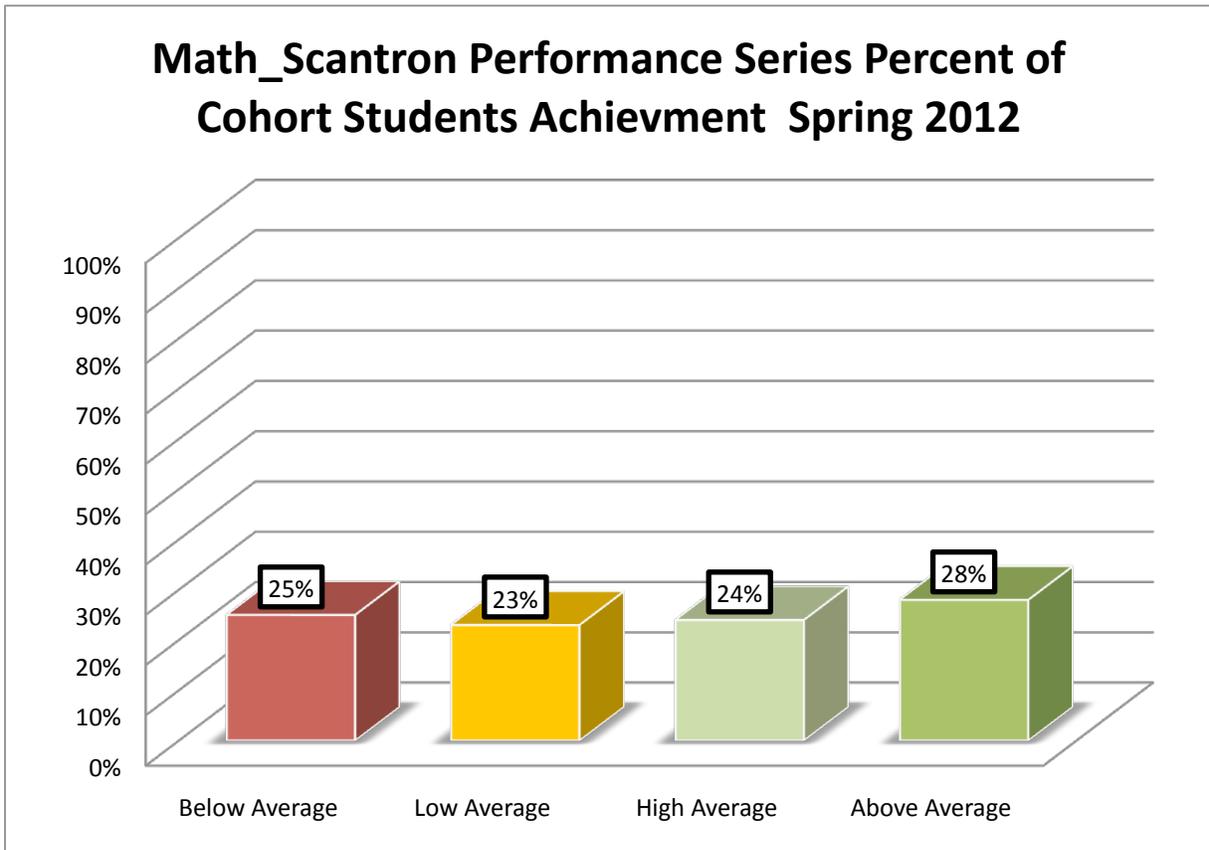

Figure 30

2011-2012

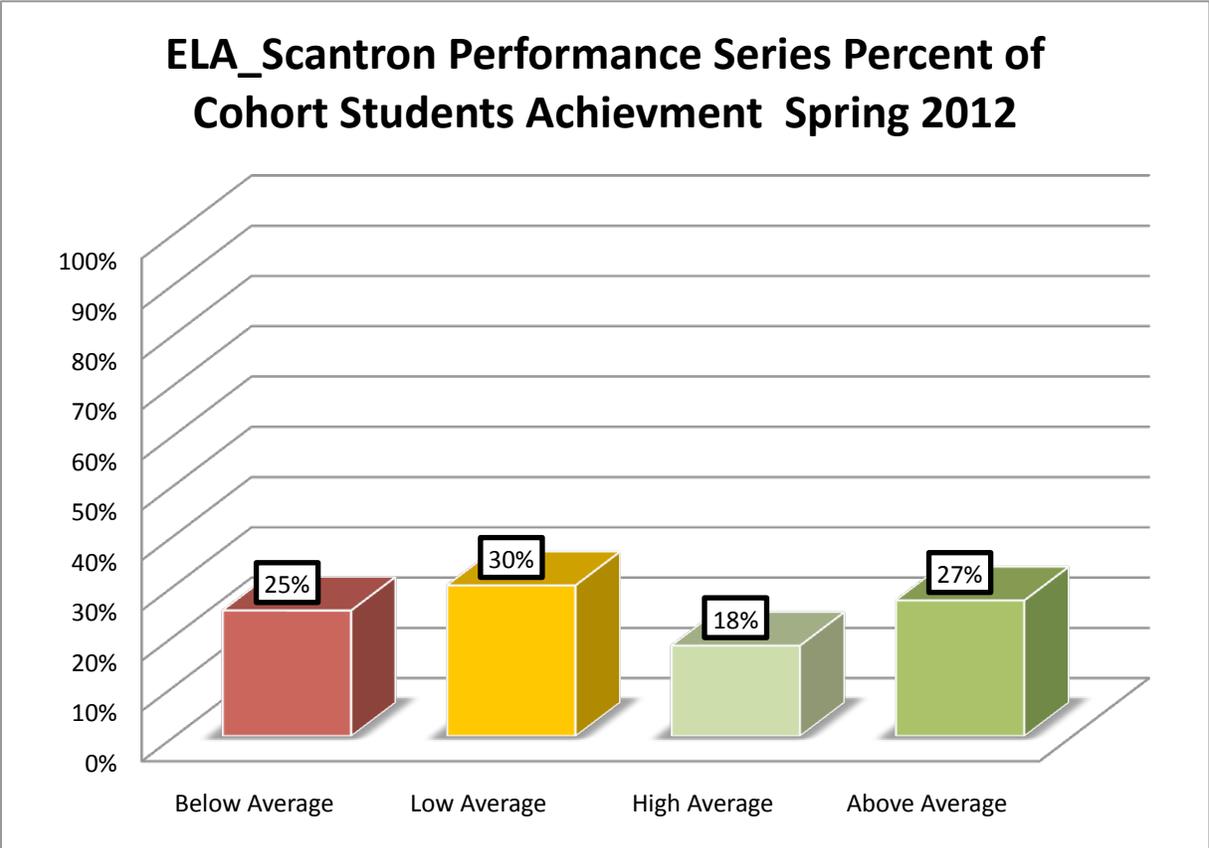

As reflected in Figure 30, Bridge Academy has significantly improved in reading from spring 2011 to spring 2012. 72% of Bridge students are proficient in Reading.

Figure 31

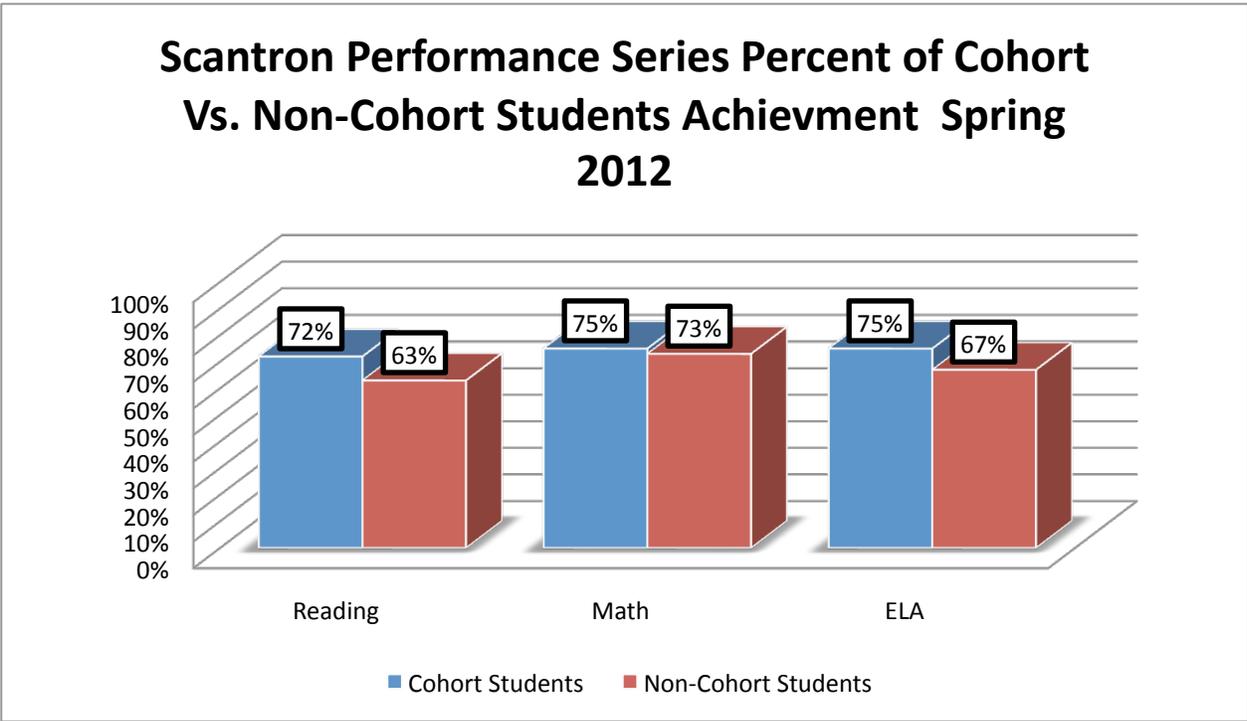

As reflected in Figure 31, Bridge Academy has significantly improved in Math from spring 2011 to spring 2012. 75% of Bridge students are proficient in Math.

Figure 32

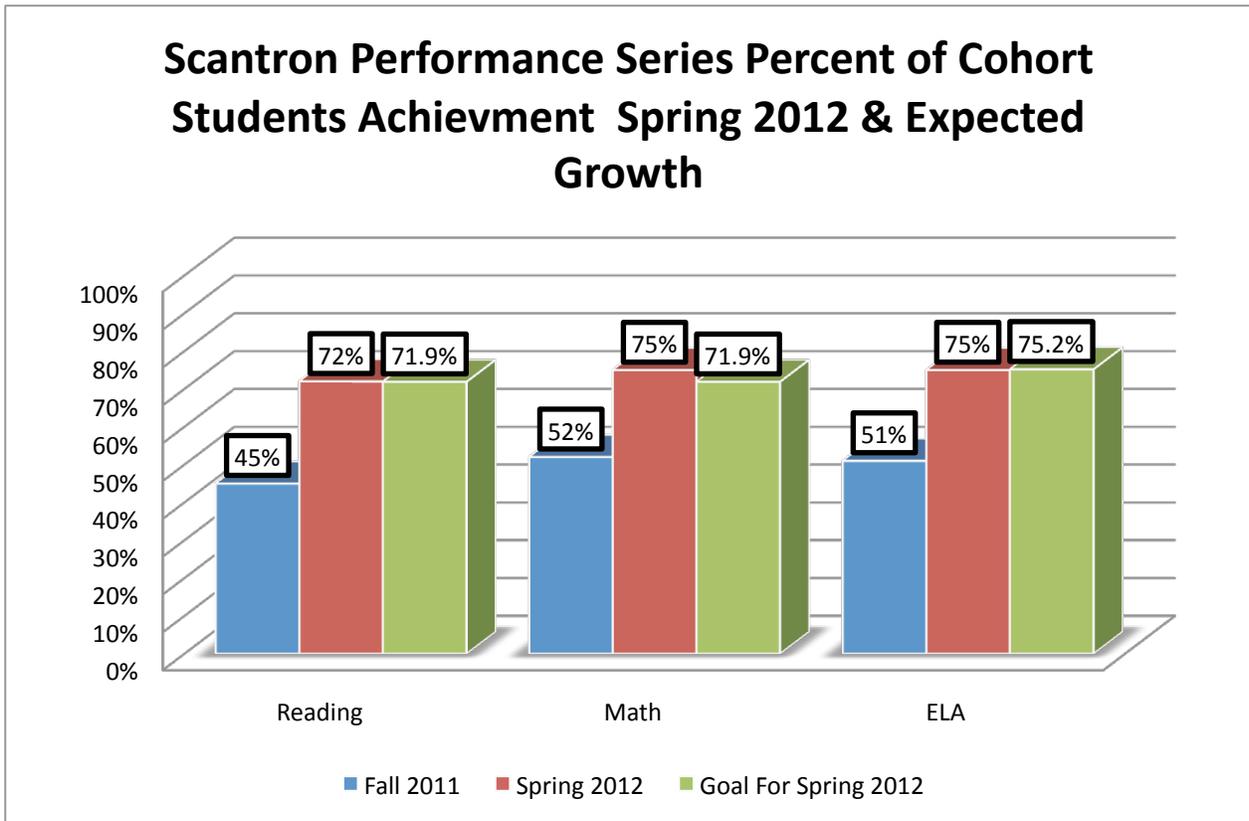

As reflected in Figure 32, Bridge Academy has significantly improved in ELA from spring 2011 to spring 2012. 75% of Bridge students are proficient in ELA.

Figure 33

As reflected in Figure 33, although the cohort students outperformed the Non-Cohort students at Bridge Academy, they were very close in all subjects areas in spring 2012 scantron.

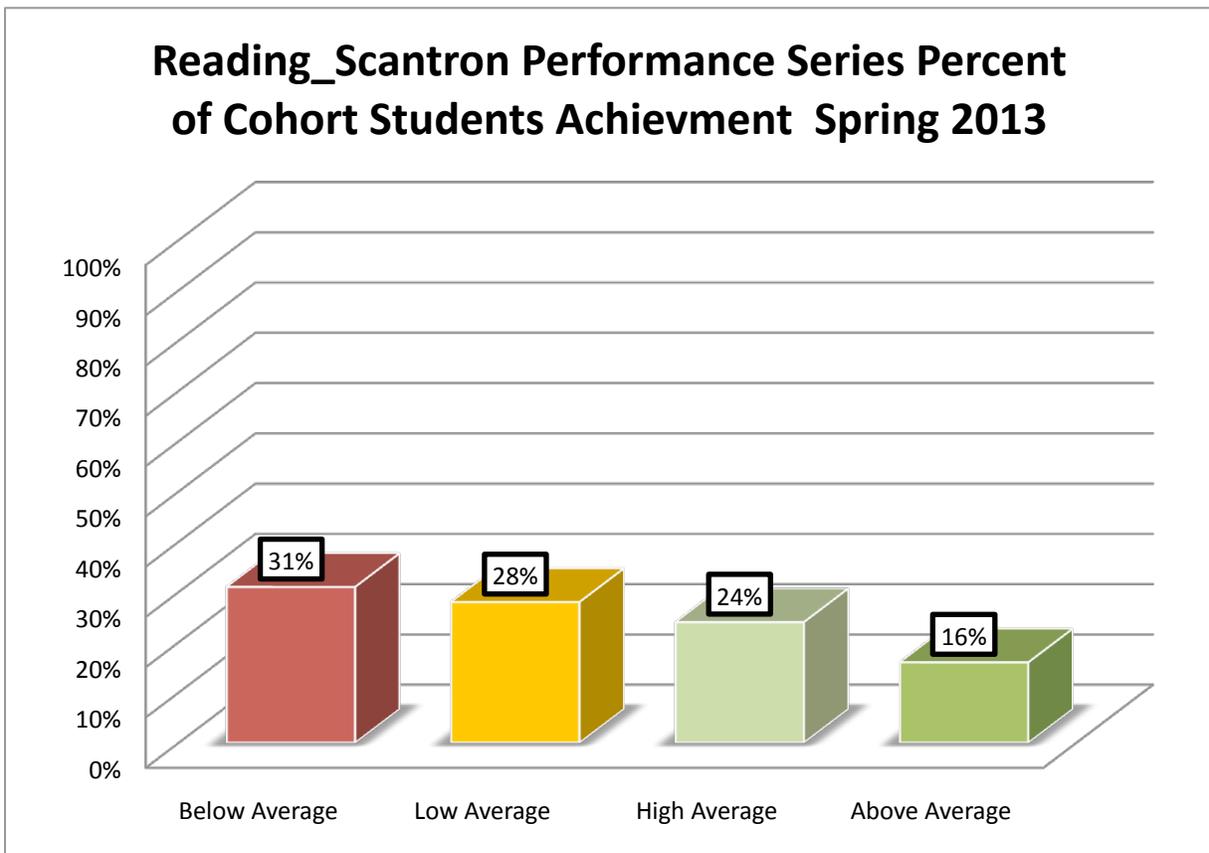

Figure 34

As reflected in Figure 34, Bridge Academy students met FSU goals in Math and Reading, but missed the goal in ELA by .2%.

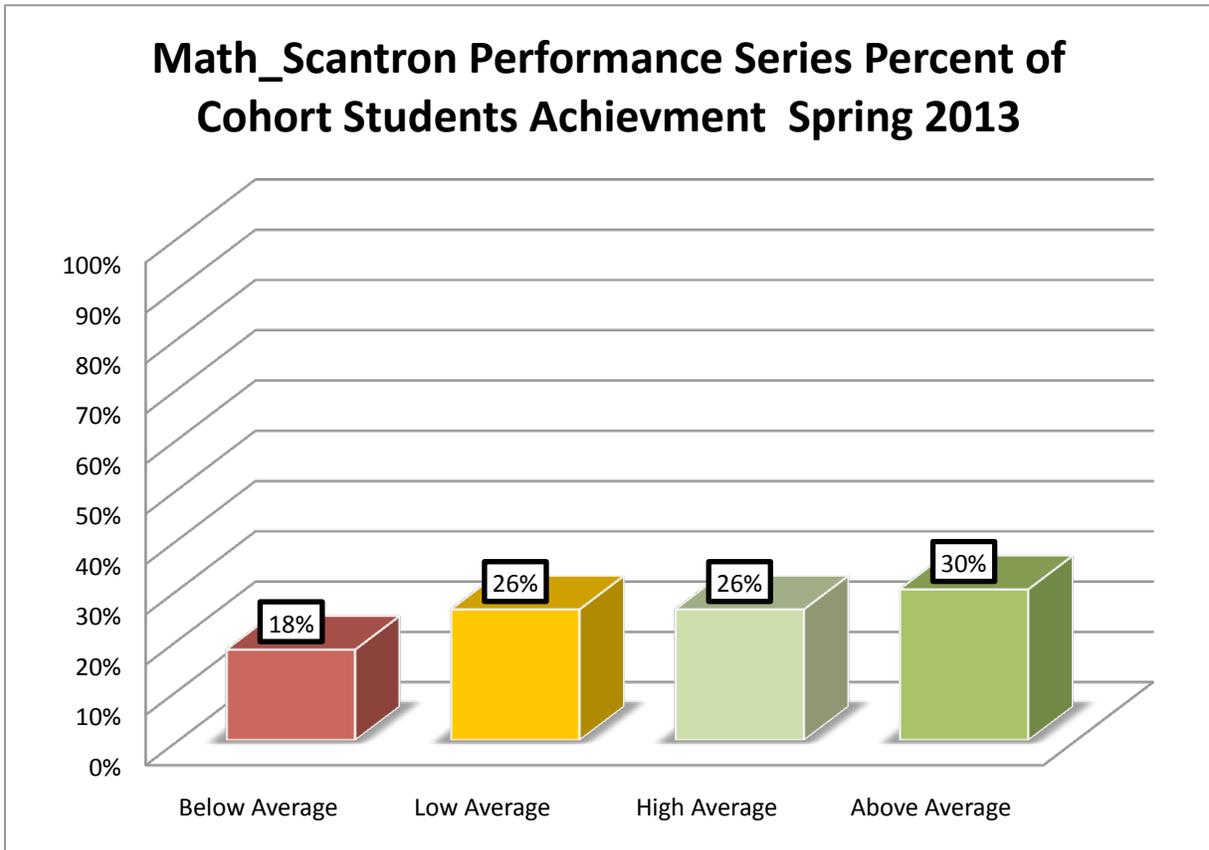

Figure 35

2012-2013

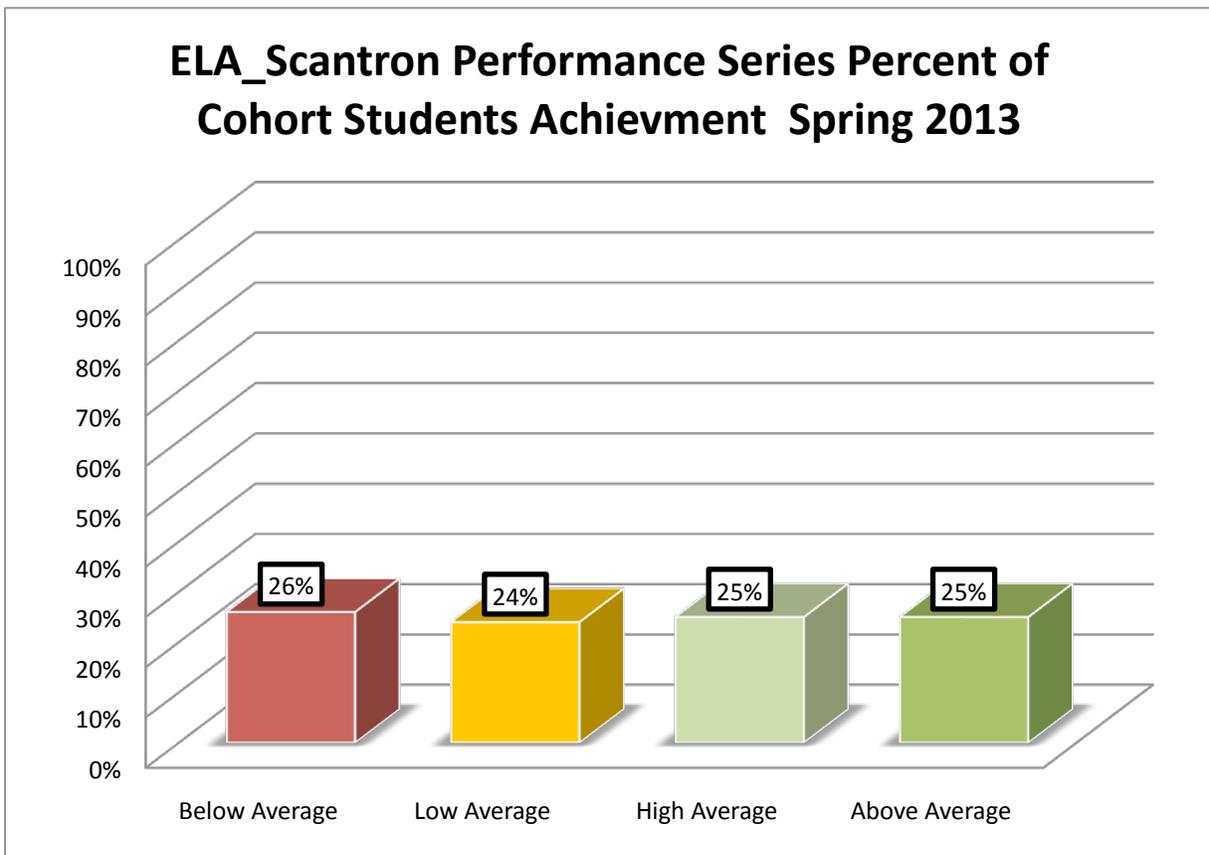

As reflected in Figure 35, Bridge Academy has significantly improved in ELA from spring 2012 to spring 2013. 69% of Bridge students are proficient in Reading.

Figure 36

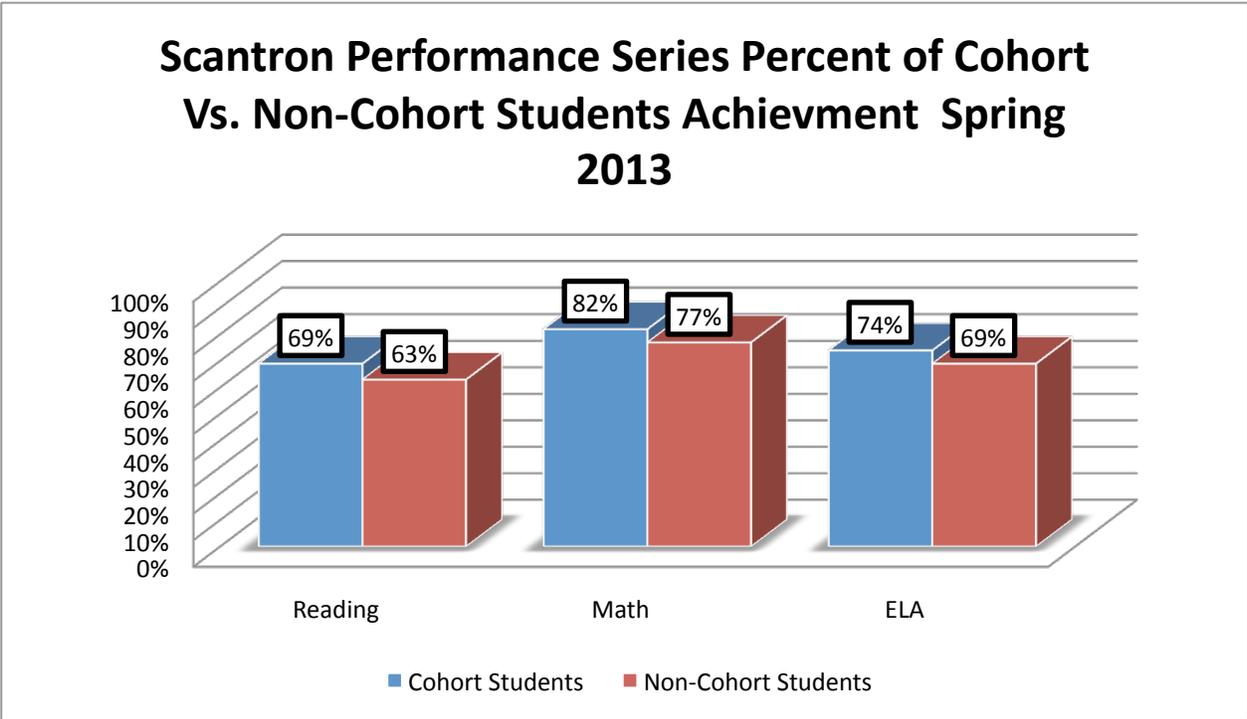

As reflected in Figure 36, Bridge Academy has significantly improved in Math from spring 2012 to spring 2013. 82% of Bridge students are proficient in Math.

Figure 37

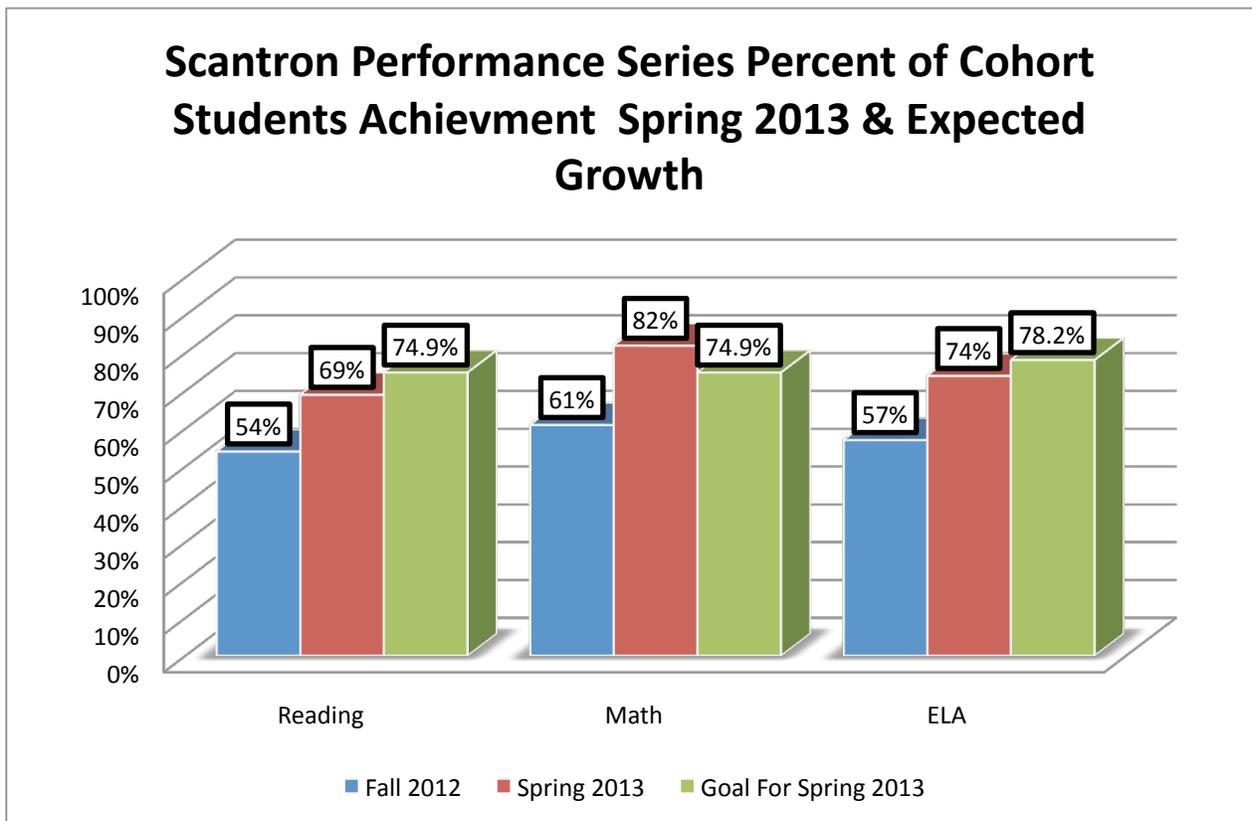

As reflected in Figure 37, Bridge Academy has significantly improved in ELA from spring 2012 to spring 2013. 74% of Bridge students are proficient in ELA.

Figure 38

As reflected in Figure 38, although the cohort students outperformed the Non-Cohort students at Bridge Academy, they were very close in all subjects' areas in spring 2013 scantron.

Figure 39

As reflected in Figure 39, Bridge Academy students met FSU goals in Math but did not meet the goals in Reading and ELA.
