

# Hide Cross-List Child Courses

---

The X-LIST course is grouped with all your courses together. Look at the Full Grade Center in the XLIST course and you will see all the students in that one course. The children courses should not be used and you should hide them so that they do not confuse you.

## TO HIDE COURSES

1. Log into Blackboard.
2. Hover on the "My Courses" box.
3. Click on the Gear that appears in the upper left corner of the "My Courses" box.

▼ **My Courses** 

Courses where you are: Instructor

**FSUS-100-035-Fall 2015**

.....

**StrengthsQuest for the College of Business**

.....

**FSUS-100-041-Fall 2014**

.....

**dev-johns42\_1**

.....

4. Find the courses that are the children courses (it won't say child course, but you will know by the course name and the term date, i.e. Spring 2016) and uncheck the box on the right side. The screen shot below shows that I have unchecked the COMM boxes (though it is not a perfect example because they are not the same courses from the same semester... but you get the idea!)
