

Degree Drop Down

If the student has declared multiple degrees, it will be necessary to view each degree separately using the Degree drop down.

- 1) Click the Degree drop down
- 2) The drop-down will display all the degrees a student has declared in Banner.
 - The “Degree” list will include any certificate the student has declared and the various degree levels: Associates, Bachelors, Masters, or Doctorate degrees.
 - Minors and Concentrations are not provided in this list, because they appear on the actual audit under the degree. So a Bachelors with a Concentration would show both the Bachelor and Concentration requirements under the Bachelors block.
