

# Graduation Calculator

The GPA calculator allows the prediction of a student's grade point average based on the anticipated grades in the current semester. It can also present various options for raising the grade point average to a specific level. There are three (3) different types of GPA calculators available.

The screenshot shows a navigation bar with tabs: Worksheets, Planner, Plans, Notes, Exceptions, and GPA Calc. Below the tabs is a list of three calculator options:

1	Graduation Calculator	<b>Purpose:</b> Determines what is needed to reach the desired GPA when graduating.
2	Term Calculator	<b>Purpose:</b> Allows student to sets goals for specific classes in the current term.
3	Advice Calculator	<b>Purpose:</b> Shows how many credits of a certain grade are required to reach your desired GPA.

## 1. Graduation Calculator

The student's current GPA automatically appears in the top box. In the other boxes provided:

1. Enter the number of credits remaining to graduation
2. Enter the total of credits required for the student's degree program (EX: BA/BS = 120 credits)
3. Enter the students desired GPA (for example: 2.9)
4. Click Calculate
5. The average GPA, the student will need to earn in order to reach his/her desired GPA for remaining credits, will appear.

The first screenshot shows the input fields for the Graduation Calculator:

Current GPA	2.59
Credits Remaining	30
Credits Required	120
Desired GPA	2.9

Arrows labeled 1, 2, and 3 point to the input fields for Credits Remaining, Credits Required, and Desired GPA respectively. An arrow labeled 4 points to the Calculate button.

The second screenshot shows the output of the calculator:

Current GPA	2.59
Credits Remaining	30
Credits Required	120
Desired GPA	2.9

Below the table, the text reads: "You need to average a 3.83 over your final 30 Credits to graduate with your desired GPA." An arrow labeled 5 points to the Recalculate button.
