

## Removing a Requirement from a Term

Requirements can be manually typed into the Plan; when using the “(+)” Add Requirement button. If for any reason you clicked the wrong “Add Requirement” type it is able to be deleted.

In order to delete the extra or unwanted requirement, simply

- A. Single-click the requirement you want to remove (until you see the class highlighted in blue, the best way get the course to highlight is clicking the empty space in between the boxes).

A screenshot of the "Student Planner" interface. The main area displays a table of requirements for a term. The table has columns for "Critical", "Hours", "Course Requirement", "Credits", "Minimum Grade", "Campus", "Delivery", and "Notes". One row is highlighted in blue. Two arrows, labeled "A" and "B", point to specific elements. Arrow "A" points to the empty space between the "Hours" and "Course Requirement" columns for the highlighted row. Arrow "B" points to a minus sign icon in the "Notes" column of the same row. The interface also shows a sidebar on the right with a "View Plan List" and "New Plan" button, and a bottom bar with "Create Block", "Add", "Refresh", "Delete", "Save All", and "Save" buttons.

- B. In the term header click the (-) “Delete Selected Requirement” button.
- C. The requirement will automatically delete, so please make sure you highlight the correct requirement.
