Summary: Dr. Stephanie Gustman continues as chair of UGPC in the first meeting fall of 2023. UGPC held meetings each month of 2023-24 academic year; September 12, October 10, November 14, December 13, January 11, February 13 (canceled) March 11 (conflicting meeting & accreditations) and April 11 canceled.

Many policies were reviewed with great discussion including background, current practices, and future expected state. Discussed and voted on several program changes including the proper way to involve all affected programs influenced by the changes. This process should include program chairs and not necessarily the leadership such as Deans. Meeting minutes are available on Sharepoint.

Discussion of problems: This committee is cohesive and extremely collaborative in the decision-making process that promotes a comprehensive view of the processes being discussed and evaluated. There are no specific problems to note.

Recommendations: As a committee we will continue to review policies and any program changes brought forward for UGPC input. Fall meeting TBD.

Respectfully Submitted
Stephanie Gustman DNP, RN
Committee Chair.
