

# COUNTDOWN TO TIMECLOCK PLUS

## Benefits of TimeClock Plus

- TimeClock Plus does not use Java and is supported in all browsers.

*“Kronos does not work well with the updated versions of Java and is inconsistent with how it runs. Any program that reduces the stress and anxiety of my student workers will be a welcomed change.”*

**– Teresa Brown, Academic Support Center**

- TimeClock Plus reduces manual entry and streamlines the approval process. In turn, mistakes and keying errors will be minimized.

*“Streamlining the manual entry of time off into a spreadsheet at the department level and hand entering time in Payroll.”*

**– Erin Diehm, Student Financial Services**

- TimeClock Plus is replacing both Kronos and PurelyHR/Time Off Manager. As such, all employees (as applicable) will use TimeClock Plus to clock in/out, check their punches, acknowledge hours worked, request leave, and see projected leave balances.

*“Transitioning from two programs to one system is a big benefit.”*

**– Cindy Horn, University Recreation**

Pilot begins in  
April 2018

Go live is  
July 1, 2018

Training will be  
available online &  
in person

Training will be  
available in May  
and June

Additional training  
will be held in Fall  
2018

Thank you to  
everyone who  
completed the  
survey and  
congratulations to  
**Mary Bradshaw** for  
winning the  
drawing!
