When it’s not convenient to go to the doctor, bring a doctor to you.

**What is virtual care?**

Virtual care gives you access to board-certified doctors on nights, weekends and even holidays for health issues that aren’t an emergency. Virtual care connects you with a doctor over the phone, through video, or simply by filling out an online questionnaire. Depending on your condition and the type of virtual care you choose, a doctor can:

- Prescribe a medication and send it to your preferred pharmacy
- Develop a treatment plan
- Notify your primary care doctor with current information
- Make follow-up recommendations, including referrals to see a specialist

**What conditions can it treat?**

Virtual care is great for non-emergencies, like:

- Cough, cold and flu
- Fever, nausea and vomiting
- Sinus problems
- Pink eye
- Allergies, bites and stings
- Rash, hives and more
