Ferris was a private institute until 1950, when it joined the state higher education system. The college obtained university status in 1987.

Katke's award-winning practice facility features three regulation holes (19, 20 and #21), 100,000 square feet of natural grass teeing space, six target greens, a short game area for pitching, chipping and bunker play and multiple putting greens.

The Ken Janke Sr. Golf Learning Center provides a learning environment for students, members and guests, featuring four Trackman Simulators, three heated hitting bays for simulated golf and weekly league play. The center also houses "The Michigan Golf Hall of Fame".

The Katke Clubhouse sits at the highest point in Mecosta County with excellent views of the county to the west and of the FSU Campus to the east. The clubhouse provides full-service amenities including a fully stocked Golf Pro Shop, men's and women's locker rooms, Founders Grille, which features a variety of food and beverage options and a multi-Purpose Room with seating for up to 50 guests, perfect for business meetings or small parties. PGA Professional Staff are available daily, providing all the needed services for golf-outing events, tournament needs, golf instruction and clinics and custom club fitting. The golf course is conveniently located adjacent to the Holiday Inn Express Hotel.

THE MANUFACTURERS BUILDING (1905), GRAND RAPIDS
The 17 Fountain Street NW building was renovated in the early 2000s to provide KCAD's increasingly diverse and transdisciplinary community with cutting-edge resources and technology. New student commons areas and exhibition galleries were created to foster creative expression and a strong sense of community. Dedicated labs for printmaking, photography, digital art and design, audio recording, video production, interior design, woodworking, and more were equipped with the tools and technology needed to help students reach new levels of creative achievement. The building also includes retail space where students can both shop and sell their work on consignment—offering valuable, hands-on entrepreneurial experience that supports their growth as emerging professionals.

MCKESSY HOUSE (1989) - McKessy House, resembling an Old English cottage on Cedar Street, north of Williams Auditorium, was purchased by Ferris State University in 1989 because of a generous gift from Gerald McKessy, a 1929 graduate of Ferris's college-preparatory program who went on to graduate from the Detroit College of Law in 1933. Mr. McKessy was a charter member of the President's Club, a Board of Directors of the Alumni Association and a recipient of the Distinguished Alumnus Award in 1971 for the generous donation of his time and talents to Ferris State University. Mr. McKessy donated stock, the proceeds of which were used to buy the house, storage barn and two acres that are now utilized as parking and additional Arts and Sciences classroom space. Mr. McKessy's gift also made it possible to remodel the house, which is currently occupied by the Office of the Vice President and General Counsel. This division is responsible for legal affairs, equal opportunity and labor relations.

MICHIGAN COLLEGE OF OPTOMETRY (2011)– One of the twenty-six North American institutions to offer the Doctor of Optometry (OD) degree, Michigan College of Optometry occupies a state-of-the-art 87,000 square foot building that was the University's first to earn Leadership in Energy and Environmental Design (LEED) Gold certification. The first floor of the building is home to the University Eye Center, providing full-scope and specialty eye health, vision and interdisciplinary care for patients from the community and around the state. The Dow Interactive Eye Learning Center on the third floor has 40 fully equipped examination lanes for students to learn and practice their skills as a future Doctor of Optometry. The classrooms and seminar rooms on the second floor contain modern, modular learning and study spaces.

MUSIC CENTER (1962) - The Music Center is in the heart of the campus at the foot of the Carillon Clock Tower, between the FLITE Library and the Top Taggart Field football stadium. The Music Center features two large rehearsal rooms for several musical ensembles offered to students and community members. These musical groups include the Concert Band, Marching Band, Summer Band, Pep Band, Jazz Band, Chamber Orchestra and Concert Choir. These large rehearsal rooms are equipped with state-of-the-art video and sound technology for instruction of a large variety of general education music courses available to all students, such as Music Appreciation, American Pop Music, Music Fundamentals, Music and Culture and Music in Film. There are also three practice rooms, each equipped with an acoustic piano, that are available to all students for individual and small group practice. A keyboard lab, with 15 full-sized digital pianos, provides state-of-the-art instruction for beginning piano classes. Music faculty offices are also located in the Music Center. The Music Center houses the electronics that provide the music for the Carillon Clock Tower, and a keyboard that can play live music through it.

NATIONAL ELASTOMER CENTER FOR PLASTICS AND RUBBER TECHNOLOGY (1987) - The Ferris Plastics and Rubber program is one of the largest and most respected undergraduate programs of its kind in the United States. The Plastics B.S. program was started in 1982 and continues to fill a great need in the growing plastics industry for technically trained personnel. Ferris graduates gain immediate status as recognized technical leaders. This innovative program provides students with a background that includes topics such as processing, material testing and properties and mold and product design. Classes emphasize hands-on learning, using the same type of equipment that is currently used in industry. The plastics building was expanded in 1998 and renamed the "National Elastomer Center" to include educational space for the new rubber degrees. The rubber program is a unique educational experience with graduates being sought after by the rubber industry. Coursework follows the original plastics degree in processing, testing and design, but also includes rubber compounding. The plastics and rubber industry have shown support for the Ferris programs by sponsoring the construction of the Plastics Building in 1987 and the expansion in 1998 with funding for equipment and supplies, providing job experience by employing our students for summer internships and hiring our graduates.

SCIENCE BUILDING (1956) (Remodeled and expanded in 1967 and completely renovated in 1997) - This building provides teaching auditoria, classrooms and science laboratories for the College of Arts, Sciences and Education, as well as the Rawlinson Observatory, John and Rhea Smith Greenhouse and Reitz Reading Room.

It is FSU's largest general classroom building and, in addition to the classrooms, houses the Museum of Sexist Objects, Bulldog Radio and the Office of Transfer and Secondary School Partnerships.

STUDENT CONVOCATION CENTER/WINK ARENA (1999) - This 42,000-square-foot facility, located adjacent to the Ewigleben Ice Arena, seats 2,400 and includes prime sections of chair-back seating. The building complex features an expanded lobby that adjoins the Ice Arena with a pro shop, concession stands and a display for the Bulldog Hall of Fame. This center serves as the home for the FSU men and women's basketball programs and is used for commencement ceremonies, major concerts and special events.

STUDENT RECREATION CENTER (1998) (RENOVATED IN 2018) - The former HPE/Wink Arena building was remodeled and reopened August 30, 1998. The facility gives students, faculty, staff and community members a modern gymnasium, weight room, aerobic rooms, exercise machines, elevated track, 40- foot climbing wall and an indoor swimming pool.

SWAN TECHNICAL CENTER (1966) (COMPLETED RENOVATION IN 2018) - This building contains many classrooms and laboratories designed specifically for engineering and engineering-technology instruction. The building contains a large lecture hall in addition to the classrooms and laboratory spaces for the Architecture, Electrical, Computer Networking, Manufacturing, Mechanical, Product Design, Surveying, and Welding programs.

TIMME CENTER FOR STUDENT SERVICES (CSS) (1967) (RENOVATED 2002) - As the official "welcome center" for the University, the Timme Center for Student Services (CSS) serves as a one-stop service center in which students can register for classes, obtain financial aid and housing information, request transcripts and pay bills. Campus tours and visits for future students start and end here in the Timme Center. Highlights of Timme CSS include a glass atrium that extends the full height of the eastern side of the building and a second atrium facing State Street, providing natural sunlight and openness for the building. Formerly the campus library, the Timme CSS is a place of diversity, art, history and service. The first floor houses the Financial Aid and Student Financial Services offices; the offices of Admissions, Registrars, Enrollment Services, Academic Senate and Institutional Research are on the second floor. The third floor features a display of Ferris historical memorabilia, as well as houses the offices of the President, Provost & Vice
President for Academic Affairs, Vice President for Student Affairs, Vice President for Diversity, Inclusion and Strategic Initiatives, Vice President for Governmental and External Affairs, Vice President for Administration and Finance, and the Testing Center. VICTOR F. SPATHELF CENTER FOR ALLIED HEALTH (1979) - This four-level structure contains the Dental Hygiene Clinic, specialized classrooms, laboratories and offices for the students, faculty and administration of the College of Health Professions.

WOODBRIDGE N. FERRIS BUILDING (1911), GRAND RAPIDS

In the early 2000s, Kendall College of Art and Design (KCAD) began the long process of acquiring and renovating the Historic Federal Building, located at the corner of Pearl Street and Division Avenue in downtown Grand Rapids. A decade later, in the fall of 2012, the building's dazzling, LEED-certified renovation was unveiled to the public. The project preserved the structure's historic architectural character while transforming its interior to meet the needs of 21st-century learning. Today, in addition to housing KCAD's Art History and General Education programs, the building features a state-of-the-art sculpture studio and the Pamella Roland DeVos School of Fashion Studies. A $2 million grant from the Herbert H. and Grace A. Dow Foundation established the Dow Center FLEXlab—a transdisciplinary learning hub that explores the intersections of design, innovation, and technology. The FLEXlab serves as an open-source space where students gain hands-on experience with contemporary digital fabrication processes, including 3D printing, laser etching and cutting, vinyl cutting, large-format inkjet printing, CNC machining, and plasma cutting. Adjacent to the lab, the FLEXgallery hosts exhibitions by emerging and established artists and designers, highlighting both their work and creative processes. Together, the FLEXlab and FLEXgallery invite students to look beyond static images and objects, engaging them in a dynamic makerspace that fosters experimentation, scholarship, and creative growth.

NCAA Graduation Rates

Federal Graduation Rate (FGR)

Cohort Year	2013/14	2014/15	2015/16	2016/17	2017/18	2018/19
Federal Graduation Rate (FGR)	57%	53%	57%	60%	55%	58%

Federal Graduation Rate (FGR): Federally mandated calculation for all schools that offer athletic scholarships. Counts all transfers as academic failures, so essentially measures the percentage of students who complete a BA/BS from their initial school within six years.

DI Graduation Success Rate (GSR)

Cohort Year	2013	2014	2015	2016	2017/18	2018/19
DI Graduation Success Rate (GSR)	87%	87%	88%	91%	89%	82%

Graduation Success Rate (GSR): Division I rate that accounts for transfers in/out. Also tracks graduation over six years. In addition to accounting for likely transfers in/out, the GSR also includes mid-year enrollees and non-scholarship athletes at Division I schools that do not offer athletics scholarships.

DII Graduation Success Rate (ASR)

Cohort Year	2013/14	2014/15	2015/16	2016/17	2017/18	2018/19
DII Academic Success Rate (ASR)	65%	66%	65%	66%	67%	69%

Academic Success Rate (ASR): The Division II Academic Succes Rate (ASR) is calculated in much the same way as the Division I GSR. The primary difference is: The ASR includes all non-scholarship freshmen ("walk-ons"), whether or not the school or squad offers aid does not matter, and as a result, the ASR counts about 50% more student-athletes than the federal graduation rate.
