Ferris State University

December 1992

Dear Colleague:

The *Ferris State University Fact Book* is published for the students, faculty, staff, alumni, and friends of the University, who seek accurate information about our University. The project was conducted as a service to the university community by the Office of Institutional Studies. This second edition is a document that is designed to answer the most frequently asked questions about Ferris State University.

It is with pleasure that we share the information with you. As a result of your edits to the document last year, we have added student enrollment by program information in the document this year. We encourage you to review this work and solicit your suggestions for improvement of future issues.

Our appreciation is extended to the many offices that assisted us with the development of the information. Special thanks go to Sid Sytsma, who provided the computer hardware and software to desktop publish the book and to Maureen Brockdorf, who input the data, and designed and edited the page formats.

General Information

STATEMENT OF MISSION

Ferris State University is Michigan's polytechnic university. Its mission is to teach students in a number of applied technology fields and in other selected professional fields where there is sustained and significant career potential. Ferris educates its students to be employable and capable of professional growth, and further, to contribute to their profession and to a constantly changing, global society.

Our Students

We are committed to providing our students with strong curricula emphasizing practical, usable skills blended with a relevant general education foundation. This is accomplished in a caring environment with personal attention and close faculty-student interaction. We offer educational opportunity, with an "open door" admission component, to a diverse array of students, including high school graduates, transfer students from other colleges and universities, as well as some non-traditionally prepared students. We also foster positive co-curricular experiences leading to a fulfilling student life.

Our Programs

We are committed to keeping our educational programs and services responsive to the changing needs of manufacturing, business, health care, and other industries and professions which are critical to Michigan's economy. We achieve this by actively fostering beneficial relationships with those who employ our graduates.

Our Employees

We are committed to high standards of performance and pride in accomplishment, with the understanding that the strength of our organization is our people. We embrace the concepts of equal opportunity, affirmative action, and cultural diversity. We encourage teamwork, professional growth, acceptance of responsibility, and recognition for achievement.

Our Communities

We are committed to being good neighbors with full participation in community life and community service. We share local access to educational experiences, business opportunities, cultural events, leisure pursuits, and a variety of other activities with our communities.

Our State

We are committed to contributing to the economic vitality of our State by providing a well-trained and educated work force. We are actively involved in applied research relative to the transfer, application and management of technology, and its relationship to our society.

GENERAL INFORMATION

FERRIS STATE UNIVERSITY FACTS AND FIGURES

HISTORY

Ferris State University is named for its founder, Woodbridge N. Ferris (1853-1928), a respected Michigan educator and politician who served two terms as the governor of the State of Michigan and was elected to the United States Senate.

Begun in 1884 as a private institution under the name of Big Rapids Industrial School, the school soon changed to the title, Ferris Industrial School and then, in 1899, Ferris Institute. Ferris joined the state higher education system in 1950, became Ferris State College in 1963 by an act of the Michigan Legislature and was granted university status by the Legislature in 1987.

The University's founding concept of providing students with marketable skills, though intended at the time for individuals who had lost their jobs following declines in the lumber and mining industries, remains relevant in today's fast-changing society. A distinctive combination of academic programs and a continuing tradition of career-oriented education have made Ferris a nationally recognized leader in preparing men and women for useful careers and enlightened citizenship in numerous health, technical, educational, business and other professional fields.
