15	Because I really like the program. I did the Ferris program through Southwest Michigan College and I really liked that I didn't have to go all the way up to Grand Rapids for college. Going through this program is nice because if you have a family you don't have to move them to the college you want to attend and it is close to home for those who have family or can't leave their family to go off to college far away.	9/12/2019 4:38 AM
16	X	9/11/2019 6:21 PM

24	It has a great nursing program.	9/10/2019 10:44 AM
25	I would recommend Ferris for its academic excellence. I would not recommend Ferris for the pricing, the subpar on-campus conditions students are subjected to, and the mismanagement of students' tuition going toward frivolous projects instead of back to the students themselves.	9/10/2019 9:41 AM
26	It depends on the major they are looking into and what kind of campus they want to be on.	9/10/2019 6:06 AM
27	I would recommend Ferris (Grand Rapids) for those who live locally and don't have the funds to live in Big Rapids or have the time to commute back and forth.	9/9/2019 11:20 AM
28	It's a great program offered for those who are interested in the business world and very flexible with schedule.	9/8/2019 1:49 PM
29	Strong education for reasonable cost	9/6/2019 11:40 AM
30	depends on major. i liked the smaller classes sizes and extra help but to be honest Big Rapids is no good	9/4/2019 1:23 PM
31	I loved the caring faculty. I feel ready to start my job.	9/4/2019 11:46 AM
32	Being an African American student on Ferris's campus isn't always easy or welcoming. One of Ferris's core values is diversity and though it has made some progress, there's still much progress to be made.	9/4/2019 10:38 AM
33	I like most of the Professors and it did help me build skill and knowledge that will help me in a career whether in my major or not.	9/4/2019 8:56 AM

57	FSU GR and Lansing had great staff and partnerships with the local community colleges. Great prices and great experience.	8/5/2019 10:32 AM
58	Safe small town. Small campus - easy to get around. Small enough community where teachers/professors know each student by name and care about their education.	8/5/2019 8:58 AM
59	depends on what degree they want	8/3/2019 5:47 AM
60	Because Ferris allows you to complete some degrees from locations other than Big Rapids	8/2/2019 4:07 AM
61	I feel I have gotten a good education and have been supported by both my professors as well as my other students.	7/30/2019 1:02 PM
62	I would recommend Ferris to a family member that must juggle full-time work with evening classes. Ferris has been fairly accommodating to my scheduling needs in this regard.	7/30/2019 10:30 AM
63	Ferris State's HVACR program is very quality. Ferris itself is a very nice campus with good staff, faculty, and students.	7/29/2019 2:47 PM
64	Very Fun	7/29/2019 11:50 AM
65	For the right major it's a good price compared to bigger universities	7/27/2019 11:29 AM
66	I had a great experience here. I liked the downtown Grand Rapids small class size and my professors were very good too.	7/23/2019 4:48 PM
67	I had an academic adviser who signed me up for the same class I had already passed previously. I had an accounting teacher that never graded any of my assignments or test they just gave me a C. I was never told I was eligible to graduate. I had to have them change my degree to a bachelor instead of associates numerous times because I was not receiving enough financial aid. I had an adviser tell me that my degree "is just a little degree" . Some of the professors cannot teach and are down right rude, but yet nothing was done about it. I would not recommend people go here then have to take those classes and lead myself into embarrassment.	7/23/2019 4:23 PM
68	Best PGA Golf Management Program	7/23/2019 8:51 AM

71	Ferris isn't for everyone, but can be a good opportunity for some.	7/16/2019 11:30 AM

## 2018-19 Ferris State University/Kendall College of Art & Design Graduate Exit Survey

72	It is not just a college its a home where people can make friends and grow together, medium campus, large enough to feel important but small enough to know everyone.	7/16/2019 10:55 AM
73	Ferris has very good satellite programs through LCC	7/15/2019 5:23 PM
74	I recommend Ferris because it was good experience and the students do learn a lot	7/13/2019 11:58 AM
75	It's a great school with small class sizes and you really get to build relationships that way.	7/11/2019 8:56 AM
76	Mandatory internship program.	7/8/2019 5:56 PM
77	The top tier faculty are only in it for themselves. The city is pressuring the overgrown legal system to completely eliminate any and all college town experiences. Yes Ferris was known for a party school, and kids still graduated and got good degrees. Now it's easily one of the most boring schools in Michigan and your retention rates continue to decline. BUT YEAH NO CORRELATION THERE. Idiots. Find pride in your school somewhere other than academics because who cares how many successful nerds you can graduate if no one wants to come there in the first place? Stop scrutinizing Greek Life, tell the cops to chill out, and let kids party, they'll do better in school. Just watch. And enrollment will go up. Just. Watch.	7/5/2019 7:03 AM
78	Top notch education, great fit for me	7/2/2019 9:03 AM
79	It's overpriced for what it is. Faculty and Leadership is very poor, and greedy. They forget they work for the students.	6/26/2019 5:03 AM
80	Great Community.	6/21/2019 11:56 AM
81	It's a great transition from a small town to a bigger city.	6/18/2019 1:41 PM
82	The tuition was to expensive along with harsh housing options and rules and a program that is suffocating financially which heavily impacted the quality of an education. All 4 years were an absolute struggle and I was unable to get any scholarships.	6/17/2019 7:02 PM
83	Great School with the option to take classes in downtown grand rapids	6/17/2019 4:33 PM
84	Hands on learning	6/7/2019 11:00 AM
85	If esports becomes varsity it will be a huge draw for new students	6/5/2019 5:27 AM
86	They are a great University to attend and especially for criminal justice	5/28/2019 9:50 AM
87	Good atmosphere, great people. Teachers are mostly there for the students and want to see success from their students.	5/24/2019 12:29 PM
88	I have had some advising issues with Ferris that have frustrated me.	5/22/2019 4:31 AM
89	Small enough to make you feel you known and important while also big enough that you don't see the same face everyday. You get a great education for your money	5/21/2019 10:21 AM
90	Conveniently located around the state.	5/20/2019 9:39 AM
91	I would recommend Ferris to someone who knows what they want. I would not mislead a friend or family member to attend Ferris just because I did, I would instead try to give them the best advice possible for them in their current position.	5/17/2019 2:52 PM
92	Overall a very nice University.	5/16/2019 1:53 PM
93	Hands on learning, bang for your buck.	5/16/2019 9:39 AM
94	I don't usually recommend things	5/13/2019 5:05 PM
95	Depends on their major.	5/13/2019 2:14 PM
96	There is way too much busy work in online courses. Compared to other schools it is substantially more.	5/12/2019 9:05 AM
97	Literally, incompetence of administration has prevented my graduation by there semesters. Resulting in me working at minimal wage to begin repay my debt because the contract affiliation took too long to sign.	5/11/2019 11:33 AM
98	Ferris, like other university's, has its strengths and weaknesses. So it will depend on what they will be pursuing.	5/10/2019 5:39 PM

2018-19 Ferris State University/Kendall College of Art & Design Graduate Exit Survey

99	One of my core teachers was not up to par on the experience and knowledge she needed to bring to the table to fully impact her students. I'm a nontraditional transfer student. I stopped up to the main campus for a meeting with my advisor, and stopped into the financial aid office, was basically told to take care of myself and pushed out the door. This has NOT been my experience with other universities. My first year was paid entirely out of pocket because apparently, a single woman making under 20k doesn't qualify for any assistance either? This extends to other departments as well. My entire class has had issues with the aforementioned professor, as a class have on numerous occasions voiced concerns to our department head, and we were all told to essentially deal with it. At the end of the day, my tuition is paying peoples salaries. Not to be entitled, but the university as a whole ought to take better care to the students choosing to attend/pay astronomical tuition.	5/10/2019 11:34 AM
100	Too expensive and redundant for an older student with life experience such as mine. Ferris is all about the money and does not care what kind of experiences I already bring to the table.	5/9/2019 10:14 AM
101	I think it is a great school with great programs.	5/8/2019 12:14 PM
102	I believe that ferris is a good fit for people wanting to pursue a medical degree.	5/6/2019 3:57 PM
103	Because it truly was a fantastic experience	5/6/2019 1:30 PM
104	It is a wonderful school	5/6/2019 8:23 AM
105	auto and CTE	5/6/2019 4:38 AM
106	The partnership with Southwestern Michigan College helped save money and Ferris is a good school.	5/3/2019 1:33 PM
107	I feel Ferris has many opportunities it offers to students to properly succeed in any environment it places its students in. If I were to have a family and move to an area close to ferris campuses I would want them to attend Ferris unless other opportunities presents itself for my family.	5/3/2019 11:36 AM
108	Some of the teachers are absolutely awful and should not be representing Ferris state university due to there unprofessionalism during classes. Even when indicated to their higher ups of situations nothing is done therefore I am very dissatisfied with certain professors.	5/3/2019 12:00 AM
109	The work load was excessive and the semesters were too long for the program.	5/2/2019 5:23 PM
110	It was a great experience. One that I never received at my community college.	5/2/2019 1:04 PM
111	Program is convenient for non-traditional students	4/29/2019 6:32 PM
112	Bit pricey and "gen ed" requirements are a bit extreme.	4/29/2019 11:59 AM
113	I actually already have.	4/29/2019 11:47 AM
114	Good School	4/29/2019 6:07 AM
115	I had a very difficult time and was promised fully online or grand rapids campus. Later told otherwise and that happened with a few other things throughout the semester.	4/28/2019 5:23 PM
116	It's a good value for the money.	4/27/2019 11:19 AM
117	I had a good experience while attending Ferris classes.	4/26/2019 9:30 AM
118	I overall was pleased with my education, especially being a satellite student.	4/24/2019 7:31 PM
119	Because it was a good environment with a lot of good people.	4/24/2019 1:32 PM
120	The HIM Program is an outstanding program and would highly recommend it to other prospective students.	4/24/2019 11:59 AM
121	depends on what degree they want.	4/24/2019 10:03 AM
122	Depends on what they want to study.	4/24/2019 5:09 AM
123	I feel some people could benefit while others could not	4/23/2019 6:55 PM
124	The Construction Management program I went through is very good.	4/23/2019 7:37 AM
125	The Traverse City University Center is an extremely smooth transition from our local community college. Extremely cost effective.	4/22/2019 5:15 AM
126	I feel I could have gotten the same experience at another university for a better price and quicker grad time	4/21/2019 5:27 PM

## 2018-19 Ferris State University/Kendall College of Art & Design Graduate Exit Survey

127	I feel I learned many things and the more practical than theoretical approach was helpful, since I believe I learn by doing and not by looking.	4/21/2019 1:35 PM
128	I don't have friends or family at the college level age. If I did, I might say something similar to "Ferris is affordable and not a bad place to start classes."	4/20/2019 7:49 PM
129	For me it is somewhat legacy. My Great Grand Father came here. Two of my Great Aunts on my fathers side and one Great Aunt on my mothers side, as well as two of my Great Uncles. I was the first of my generation who went to college but I enjoyed my time.	4/17/2019 10:25 AM
130	I enjoyed Ferris overall. Ferris is priced well and I received a good education for the money. I met lots of amazing people at Ferris and enjoyed most of the staff members too.	4/16/2019 6:38 PM
131	It's convenient and the education is magnificent.	4/15/2019 6:03 PM
132	Very effective program	4/13/2019 10:50 AM
133	if ferris were to improve its budgeting/budget cut issues i would recommend, but if they continue to do the same stuff they've been doing the past few years i would not	4/12/2019 10:39 AM
134	night classes were a waste. hardly learned anything this whole time as most of us already knew a lot of this. Also, half of the stuff we were supposed to do we weren't able to do because we were GR students and don't have the resources.	4/11/2019 1:35 PM
135	Needs a lot of improving.	4/10/2019 8:24 AM
136	Depends on the degree they're seeking. I believe the education program is a great one. On the other hand, they don't treat their faculty very well.	4/9/2019 5:21 AM
137	Ferris is an excellent school with great teachers.	4/8/2019 4:56 PM
138	Helpful professors for the most part, but there were a couple that were pretty annoying or didn't really teach what they were supposed to.	4/8/2019 12:06 PM
139	.	4/8/2019 9:18 AM
140	I loved it here at Ferris. It was a great place for the small town feeling as well as what it feels like to be in a bigger city. I got to make some life long friends here through RSOs that I joined. Also the athletics here do not disappoint and are always fun to watch.	4/8/2019 8:40 AM
141	It all depends on what career path people are seeking.	4/4/2019 1:38 PM
142	It depends on what they would want to go into. I enjoyed my time at Ferris much more than at other universities.	4/4/2019 1:15 PM
143	The program was easy to complete with the help of your advisor. Professors were always available to help. I really enjoyed my experience at Ferris!	4/3/2019 8:35 PM
144	its a great school.	4/2/2019 9:40 AM
145	Not right for everyone.	4/1/2019 2:05 PM
146	I would highly recommend Ferris State University to family and friends. I have been very please with the graduate program. The professors were very knowledgeable, helpful, and flexible. The student to professor ratio was small and I was able to build a good rapport with staff and other students I collaborated with.	4/1/2019 8:58 AM
147	The diverse class attendance abilities (distance, hybrid, in class) made it easier for working adults.	3/30/2019 2:12 PM
148	Of the thousands of dollars spent I see none of it sent back in ways to improve student lives or abilities.	3/30/2019 1:36 PM
149	I would because of location, but I wouldn't for my program. the main teacher; professor Paula Koning teaches the majority of the program and is not very good. I would recommend going to another school for this program	3/30/2019 10:18 AM
150	I didnt attend the main campus so I can't determine how the true college experience would be.	3/28/2019 2:29 PM
151	It is a great college for the program I am pursuing and worked out very well for that.	3/28/2019 5:15 AM
152	The administration is great and feels like home	3/27/2019 8:22 PM
153	I enjoyed my time here	3/27/2019 11:34 AM
154	Great community	3/27/2019 6:56 AM

2018-19 Ferris State University/Kendall College of Art & Design Graduate Exit Survey

155	Truly helpful and made me feel like the professors cared about my education.	3/26/2019 7:53 PM
156	This school is in a boring location and I wish I had gone to a school with better advisors. I also wish the student body was more friendly. The dining halls need to be improved. Some can do really well here and it all depends on that person.	3/26/2019 4:20 PM
157	I think it all depends on what major they plan on going into. With the college of business I have only had a handful of professors that actually spoke to me, influenced me, motivated me, and genuinely enjoyed learning from them. I ran into multiple instances where faculty around campus were unhelpful throughout the years.	3/26/2019 2:50 PM
158	The DAGD program in GR made me work hard and prepared me for more than 3D art. I felt like all of my professors genuinely cared about me and supported me throughout the years.	3/26/2019 12:14 PM
159	If the family member or friend was interested in the Construction Management Program I would recommend Ferris. If they were interested in any other program I would recommend a different University.	3/26/2019 11:48 AM
160	N/A	3/26/2019 7:36 AM
161	because I go to Ferris.	3/25/2019 9:55 PM
162	Because it isn't overly priced for a good education and it is close to home for my family so it makes sense.	3/25/2019 9:18 AM
163	The People I met here in my program are all over the country and recognize that Ferris graduates are some of the top qualified for jobs in the field	3/25/2019 5:39 AM
164	The curriculum and teaching staff are very knowledgeable in current industrial environment requirements.	3/21/2019 10:34 AM
165	Because I have been able to find my home here and I would like everyone to have a similar college experience as me.	3/19/2019 7:10 AM
166	Program is no accredited and is quite easy.	3/18/2019 2:19 PM
167	The classes gave me practical knowledge about the work force.	3/18/2019 8:09 AM
168	Give the professors a contract	3/18/2019 7:23 AM
169	Affordable and beneficial	3/16/2019 10:36 AM
170	If you are looking to for a career focused in trades work Ferris State offers top tier programs that will set you apart from your peers and is nationally recognized for these programs, making it easy to find employment after graduating.	3/13/2019 2:20 PM
171	There are other online programs that are much shorter. Two clinical practicums and a portfolio for the masters in nursing was beyond what many other programs expect.	3/13/2019 12:17 PM
172	Great School	3/12/2019 9:47 AM
173	The Ferris campus is friendly and gives student the ability to connect with others. I do not believe, however, that Ferris fully prepared me for the real world outside of my education. I was able to learn more working than I ever did in a classroom.	3/12/2019 6:08 AM
174	I really enjoyed my time at Ferris in downtown Grand Rapids until my last semester. There was a lot of confusion of what was being asked of us in our last semester, and the communication from faculty to students was rather poor.	3/11/2019 9:27 AM
175	It is an awesome school and I had an unforgettable and valuable experience.	3/8/2019 11:06 AM
176	I come from a family of Ferris graduates I have two other brothers that have graduated, we have Bulldog blood	3/8/2019 9:32 AM
177	Because it was nice to be able to complete my Bachelor's Degree in Grand Rapids. I did not have to go to Big Rapids at all.	3/8/2019 4:54 AM
178	It would depend on whether or not Ferris is the best school they can get into.	3/7/2019 5:37 PM

2018-19 Ferris State University/Kendall College of Art & Design Graduate Exit Survey

179	I would not recommend Ferris for an Environmental Biology program (the program I completed). The design of the program is out of date. Labs are drab and rarely ever focus on more current applications of science and technology in the current field of environmental sciences. Most of the labs were repeating experiments that are 50+ years old. There is no field botany course, so most students don't even know how to identify or key out plants in the wild. Local resources like the Manistee National Forest and local state lands are rarely ever utilized. Rarely do labs participate in outdoor learning experiences, so not very much learning was correlated between the real world (the environment) and the lab. Course selection is poor for the program and needs to change in order to keep up with progression of environmental science. I chose Ferris because of it's location in MI and figured classes were going to utilize local resources for labs more often than not, but was left with extreme disappointment when that wasn't the case. By the time I realized what was really happening here (the lack of real world connection) it was too late to transfer somewhere else and start over, and believe me I wanted to.	3/6/2019 7:00 PM
180	Its a fun and safe experience	3/6/2019 5:40 PM
181	depends on the program	3/6/2019 9:25 AM
182	Its a small comfortable campus that isn't as outrageously expensive as others are that allows you to complete pretty much any major you could be interested while giving you the freedom of being away from home.	3/5/2019 4:20 PM
183	Great program and curriculum; Tuition cost is not too high	3/5/2019 2:57 PM
184	Ferris has been an amazing experience for me. My professors and advisors have helped me in every way to succeed. It's such a great atmosphere, and I would recommend Ferris to anyone.	3/5/2019 2:14 PM
185	well structure informative classes	3/5/2019 10:14 AM
186	Depends on program	3/5/2019 10:05 AM
187	Spring semester 2019 has by far been the worst semester I have experienced here at ferris. My professors seem stressed out, the school cannot locate any adjunct professors willing to teach MRIS 204 and 205 during regular class times. Now students must drive to Grand Rapids for a night class or take a Saturday class which is very frustrating as most students I know in the program are required to work weekends. The bookstore has been troublesome this semester as well, not ordering the correct edition of textbooks or not ordering enough copies.	3/5/2019 6:29 AM
188	Its a great place and has a great atmosphere.	3/4/2019 1:23 PM
189	Good student to facility ratio	3/4/2019 11:26 AM
190	not a bad place to go to school, classes fell together well.	3/4/2019 8:58 AM
191	This is a good enviornment to grow. The professors care and want you to succeed.	3/4/2019 6:49 AM
192	:)	3/2/2019 5:17 PM
193	It is a good school for engineering that doesn't cost an arm and a leg. The teachers are also quite helpful and the class sizes allow them to interact with their students.	3/2/2019 1:35 PM
194	The Ferris State Big Rapids students are treated far better and get a better education than the Ferris State Grand Rapids students. It is embarrassing.	3/1/2019 2:50 PM
195	Part of the pilot teacher/graduate M.Ed program. Then the recession hit. Then - no teacher jobs. Would have liked FSU to reach out to support the students with job support / transitions / options. Lots of travel, mixed media classes, etc to complete program. Advised to hold off on getting final credits for Master's degree (for better options to get hired) -- but for off-campus students not very much "love"	3/1/2019 12:31 PM
196	It might not be the first place I would recommend, especially for students who would be commuting.	3/1/2019 12:23 PM
197	Good bang for your buck, I feel that Ferris is underestimated by outsiders.	3/1/2019 11:26 AM
198	very helpful.	3/1/2019 11:25 AM
199	I actually already have to a few family members who may start on the next fall semester. The biggest thing for me was that Ferris worked with me and my community college to help me complete my degree. The consortium agreement really saved me.	3/1/2019 6:15 AM

2018-19 Ferris State University/Kendall College of Art & Design Graduate Exit Survey

200	Care more about the students money than the student. Ask the students what they would like to add to Ferris, and not just the white students. Ask local students, urban students, sheltered students, first generation students, international students, christian students, all minority students as well.	3/1/2019 5:56 AM
201	Poor living conditions, lack of activities, middle-of-nowhere, expensive for an isolated university.	2/28/2019 5:16 PM
202	Ferris State has one of the best Criminal Justice Programs in the Nation.	2/28/2019 4:01 PM
203	Overall, Ferris is a great university.	2/28/2019 12:56 PM
204	Students are not supported in the Early Learning Center by staff.	2/28/2019 12:52 PM
205	Very well knowledgeable professors and staff, always available to help you with anything with classes, internships, very nice and helpful.	2/28/2019 12:45 PM
206	This online FMAN Project Management Certificate has been terribly administered by professors. Dates for assignment entered incorrectly. Syllabuses not uploaded at the start of the course, due dates entered into blackboard incorrectly. This lack of detail may be acceptable for HS graduates but its not acceptable for working professionals continuing their education. As an alumni its also disappointing! Its crazy because the last two profs have copied the first profs work.	2/28/2019 12:35 PM
207	It was a very positive experience and I will be continuing my education for my bachelors.	2/28/2019 11:57 AM
208	It is great	2/28/2019 9:52 AM
209	I feel like I received a quality education at Ferris, but there is perhaps some dissonance between staff, faculty, and management. It seems like the staff is stretching themselves to tackle multiple duties, doing more with having less resources to work with. Sometimes this impeded upon my education as a student, but the faculty and staff at Ferris really do put in a strong effort to do their best. Some of my most formative experiences that have helped me grow as a student, professional, and as a person have been at Ferris, and I appreciate those experiences and hope to not take them for granted.	2/28/2019 9:35 AM
210	Many degree programs so it is easy to switch if interests change, good value and opportunities for academic scholarships, not right for everyone, very small town and few resources	2/28/2019 7:15 AM
211	CNS (Computer Networking Systems) and EEET (Electrical/Electronics Engineering Technology) degrees have been understaffed, under-equipped, and have had low student attendance for effective teaching/learning. Certain professors have been hindrances to education, namely [REDACTED], while others have been exemplary, namely Professor Johnson and Professor Most.	2/28/2019 6:06 AM
212	tuition cost	2/28/2019 6:01 AM
213	Certain professors, namely [REDACTED] should not be teaching if they find enjoyment in causing students to fail. We are here to learn and having exams that are particularly nasty for the sake of being nasty, not for the sake of learning, is not what COP professors should be about.	2/28/2019 5:46 AM
214	Great school	2/28/2019 5:41 AM
215	It was a good value	2/27/2019 4:40 PM
216	Very liberal campus that does not give in. If you aren't a liberal here you feel very unwelcome. Professors shove their values down your throat, in English class!! [REDACTED] in the business building. Very unprofessional. I come to class to learn the material I paid to take, I don't pay you to teach me that if I'm not a liberal I'm a racist or I have white privilege.	2/27/2019 2:34 PM
217	Did the partnership program. Loved it!	2/27/2019 11:00 AM

221	Great school	2/26/2019 1:54 PM
222	One of the better Digital animation/ game design programs in the country, and it does seem to be expanding and evolving, but there isn't as much a sense of community, as far as I participated in at least	2/26/2019 11:18 AM
223	Depending on the field of study.	2/26/2019 9:04 AM

224	If someone can afford the prices then yes.	2/26/2019 1:15 AM
225	It depends on the degree they are trying to get and the doors it will open. Student debt is crazy nowadays.	2/25/2019 5:56 PM
226	I like that I met so many different people from many different places in my time here and I think that everyone should have the same experience.	2/25/2019 1:58 PM
227	Ferris is a great college overall and the faculty to student ratio is second to none.	2/25/2019 10:15 AM
228	Competitive scholarship offerings	2/25/2019 9:08 AM
229	Great help from my advisors and feel prepared for the work force.	2/25/2019 8:41 AM
230	It's run as a business not a school. Emphasis on money and administrators who do not care about students. The professors are treated poorly when the administrators need to realize they wouldn't have a job micromanaging these professors if it weren't for said professors. It's obvious the administration does not care about students and I feel sorry for any professors who actually have to be subjected to work with these useless administrators.	2/25/2019 4:59 AM
231	It was a good experience.	2/24/2019 7:11 PM
232	Great faculty and support in not only school but life as well.	2/24/2019 7:05 PM
233	Getting involved in RSO's have taught me a lot about how life skills and how to work best with other people who share different interest than my own.	2/24/2019 6:45 PM
234	It would depend on what they expressed interest in studying. If they were to go for social sciences, I would probably not recommend Ferris, but if they were looking into something from one of the other colleges, then I would probably recommend it.	2/23/2019 7:13 PM
235	There are ups and downs to coming to Ferris.	2/23/2019 9:48 AM
236	I loved the social work program and its staff. Loved my field placement, wouldn't have wanted to completed it anywhere else.	2/22/2019 9:04 AM
237	incompetent administration. classes were fine, but as soon as you call or email a campus-wide department, even with critical questions or request for help, you don't get calls or emails returned for weeks	2/22/2019 8:19 AM
238	I feel that the experience at Ferris is very much directed towards small-town individuals, which may not be for everyone.	2/21/2019 4:09 PM
239	I love the Ferris campus and the small town of Big Rapids so I have recommended Ferris because of that reason, but also because I believe that there are very competent professors teaching my program (Mechanical Engineering Technology) and they have taught me a lot.	2/21/2019 11:51 AM
240	Ferris needs to pay its staff and have everything together on that aspect before classes started this fall of 2018. I was very disappointed in how my tuition money was being put to use. I expect a higher standard from a university.	2/21/2019 6:08 AM
241	I have a granddaughter that is during dual enrollment from her high school , at Ferris State. She is very proud of her education at Ferris.	2/20/2019 7:37 PM
242	Tenured professors receive no repercussions for their unprofessional actions.	2/20/2019 4:39 PM
243	It depends on the type of environment they are looking for.	2/20/2019 12:24 PM
244	I recommended FSU to my brother, and he decided to come and study.	2/20/2019 8:38 AM
245	Maybe if the administration wasnt led by a [REDACTED] [REDACTED]	2/20/2019 5:28 AM
246	I feel that the variety of programs offered and the multiple satellite locations to take classes at was very convenient. The staff was very knowledgeable and professional. They encouraged group participation, they challenged my intellect to see things in a more objective point of view and they were able to get answers to my questions that I may have had.	2/19/2019 1:34 PM
247	I enjoyed the overall experience, but I feel like I still don't know enough about my selected field to get a job or be successful. I shouldn't be able to get A's in most of my classes and still not know very much about what I just went through and tried to learn. I feel like I am no where near ready for my certification tests and I can't get a job without them.	2/19/2019 12:26 PM
248	The place is awesome	2/19/2019 11:30 AM

2018-19 Ferris State University/Kendall College of Art & Design Graduate Exit Survey

280	It is very disturbing to me that Ferris deemed me ineligible to receive the transfer scholarship through Phi Theta Kappa even though I earned it according to all merits. The sole reason Ferris discriminated against me and refused me this hard-earned reward was because I was not physically on Ferris' campus in Big Rapids! I earned this transfer award just as much as those who did receive it on campus! This was unfair and unscrupulous in my eyes.	2/7/2019 7:39 AM
281	I already have. The 3+1 program for elementary education (tied to a local community college) is a fantastic way to get the BIG college degree without having to leave home!	2/6/2019 5:55 PM
282	I personally believe FSU is a good college	2/6/2019 4:36 PM
283	Smaller sized classes, great academic resources, and many opportunity to join events/clubs/organizations.	2/6/2019 1:54 PM
284	It has a wide variety of specialized courses for a decent value.	2/6/2019 1:05 PM
285	Very good education that has prepared me for the world beyond college. Was a good value for my money.	2/6/2019 11:55 AM
286	The Master of Social Work program was the best value for my money and I felt that I gained useful skills.	2/6/2019 11:47 AM
287	Small classes, smart teachers, you feel important	2/6/2019 10:17 AM
288	Off campus learning. I appreciated the day classes as well as the evening. the evening classes are not always the best for those with children even if they do work during the day.	2/6/2019 8:21 AM
289	Loved my program	2/5/2019 4:46 PM
290	The tuition rates have been increasing for years and students have yet to benefit from their increase. Given how the price to attend Ferris keeps skyrocketing, future students are better off attending a more well-known and respected university for the same price where they may receive an even better education and college experience.	2/5/2019 4:34 PM
291	Great opportunity to stick close to home and get a great degree.	2/5/2019 4:08 PM
292	Overpriced, staff drama, some teachers are absolutely terrible (however they are the minority.) Ferris really seems to have its priorities messed up. We don't need \$16,000 nap pods. Instead why don't you offer more employment options, especially to students who weren't rewarded work study? Or honestly, anything else. The school says they are concerned with helping students pay for their education but then the school throws money away on silly temporal stuff. College is honestly becoming less necessary to get good careers these days, and I would encourage any youth who asked me to not spend an absurd amount of money on college (especially at Ferris) and instead consider a trade school or something.	2/5/2019 1:33 PM
293	It's a great school with great professors.	2/5/2019 11:59 AM
294	Ferris gave me the opportunity to meet so many people whom I can connect with in my degree and become close to so many people who I will forever be friends with.	2/5/2019 10:12 AM
295	n/a	2/5/2019 8:39 AM
296	The transfer scholarships I was awarded were the main reason I choose Ferris. Almost all of my classes transferred, and I was offered more scholarships than any other school I applied at. I felt accepted here from my first semester. It was easy to find was to get involved.	2/5/2019 5:54 AM
297	Because Ferris State University help students focus on their tasks not on any other things. Online classes are very helpful.	2/5/2019 3:50 AM

300	I think it's the biggest bang for your buck.	2/4/2019 1:51 PM
301	It is a local institution that is readily available to assist anyone towards meeting any particular goal.	2/4/2019 8:19 AM
302	I am a third generation Ferris grad and I think this is one of the best colleges in the country in terms of what you pay and what you get from the college experience.	2/4/2019 7:46 AM
303	Ferris has a long way to go before I could wholeheartedly recommend someone to attend here. I never felt like the staff cared about my education or my career and were merely shuffling me along to completing the degree program.	2/3/2019 7:03 PM

304	I would only choose to if I believed Ferris/Kendall could really help them as an individual.	2/3/2019 6:36 PM
305	I have had a wonderful experience. I have had many valuable experiences which have improved the care I deliver in my current position.	2/3/2019 5:55 PM
306	I transferred from a larger university and felt that Ferris was more personable and I got to know my professors much better than I did at the previous university.	2/3/2019 3:22 PM
307	Overall it's ok, but the atmosphere might not be for everyone. If the friend/family member was interested in a program that Ferris is well known for then I would recommend it.	2/3/2019 1:03 PM
308	I love the construction program and it is nationally accredited.	2/3/2019 9:50 AM
309	Its a good school with good faculty	2/3/2019 9:23 AM
310	Even though I took a fully online course for a certificate, I still felt pride in being part of this wonderful university.	2/2/2019 6:37 PM
311	Small class sizes.	2/2/2019 8:15 AM
312	The staff has been amazing and very supportive with accommodating my needs.	2/2/2019 7:57 AM
313	Ferris has its rough spots, and is from my understanding, was experiencing a teacher strike that was due to a disagreement between the teachers and the Dean of Ferris. This has nothing to do with the quality of education I have received, but I am skeptical to recommend this school, or any for that matter, where the people doing the teaching are unhappy with the administration of the school.	2/1/2019 3:49 PM
314	overall great college with caring professors	2/1/2019 2:38 PM
315	It really depends on what they are going for. No college is universal, neither is the person. If they are a good fit and the program is offered, I would recommend Ferris.	2/1/2019 1:33 PM
316	Program that Ferris provides that works with local community college made it possible for me to finish my college. Without online classes and local community college classes, I would not have been able to graduate.	2/1/2019 1:21 PM
317	Depends on the major and the type of environment you prefer. I like the small town vibe of Big Rapids, but others may prefer something more urban.	2/1/2019 1:13 PM
318	Depends on their major	2/1/2019 1:05 PM
319	Great school but it all depends on what you want to go to school for.	2/1/2019 12:57 PM
320	It's a reasonable priced University with great standards of learning.	2/1/2019 12:49 PM
321	Great campus and education.	2/1/2019 12:18 PM
322	Love it here	2/1/2019 12:00 PM
323	Great college with great instructors.	2/1/2019 11:17 AM
324	I was very dissatisfied with the lack of support that I received from my counseling department. They never really seemed to know what was going on or what I needed. I had to stay on top of them in order to proceed with my classes. There always seemed to be something that they had missed or forgot to tell me about. It was very very discouraging.	2/1/2019 11:01 AM
325	Faculty were very helpful and cared about my academic and career decisions	2/1/2019 10:54 AM
326	It's a great value for the education that you receive while at Ferris.	2/1/2019 10:53 AM
327	Dependent on career path	2/1/2019 10:48 AM
328	MSN program was very well organized. I always felt respected and had a good idea of what was expected of me. My one concern is the light focus on clinical competence. I have learned that other MSN-ed programs spend the first year of the program completing clinical courses with NP students. While this might be too much, more than one PPP class would have been nice	2/1/2019 9:54 AM
329	I enjoyed the size of the school. It was not to big or small. The professors are helpful and care about the students.	2/1/2019 9:07 AM
330	The faculty and staff are very communicative and willing to help students prior to enrollment at Ferris and throughout attendance at Ferris.	2/1/2019 8:40 AM
331	Great pharmacy program.	2/1/2019 8:11 AM

332	Already did recommend Ferris to my younger cousin.	2/1/2019 7:52 AM
333	only if they wanted to do HVACR	2/1/2019 4:44 AM
334	Online software operating system has major issues and although it is constantly being eworked and or patched, much of the time the operating system BlackBoard was interfering with my study efficiency ability in many ways. The electronic ideology that is culturally in motion requires a re-thinking of support activity processes to be more end-user effective in many ways where it is not at this time.	1/31/2019 7:05 AM
335	It's a great local collage with many career opportunities.	1/30/2019 11:51 AM
336	Was told I could take all of my classes in Grand Rapids which was not the case. I am thankful for the staff who have helped me and are making it possible for me to graduate but the hassle I went through to get where I am, I would never recommend the program to anyone.	1/30/2019 8:31 AM
337	It depends on the type of degree they would choose to go to school for.	1/30/2019 5:45 AM
338	I thoroughly enjoyed my experiences that I gained, but also very dissatisfied because of how much I had to pay for them.	1/29/2019 6:17 PM
339	The professors here are wonderful. I do not completely agree with all the classes that were mandatory for my major since a majority of them are ones that I cannot apply to my career. I also do not like the hassle that I have had to make to enroll in classes, take online classes, and the carelessness of some of the faculty members when it comes to registration and my education. I've had to work incredibly hard to just take online classes due to a "policy" that my major is not allowed to take certain classes online. I've also struggled with the fact that I've had to pretty much fight my way to register for classes even after my adviser would tell me that the classes that I an registering for should have no problem yet my adviser was unable to help me register for my classes since it was outside of her ability. I'm not a fan of how much being in an RSO has been pushed on me ever since my freshman orientation. Almost daily I receive emails about joining an RSO and have had time wasted in my lecture classes for students to come in and try to get us to join their RSO. It's clearly great for those who are not commuters and those who do not work full time while going to school full time. My adviser also sends me constant emails about joining an RSO that I have told her that I do not want to join. Honestly, the push for RSO and campus involvement is way too much here and I do not agree with it. Students feel like they have to join an RSO to be successful in college which is completely false. I'm glad that I will be able to obtain my degree but I personally feel like I have dealt with too much hassle here and that the faculty members are not as helpful or polite with student relations as they should be since it is their job. Yes, my education here has been quality and most of my professors have been nothing but knowledgeable and insightful in which I am grateful for. However, the process to just take classes here, dealing with careless faculty, advisers and annoying RSOs is a huge downfall. As well as the fact that we all pay \$100 for parking when it is almost impossible to find parking which makes too many students late or miss class because they would rather not get a parking ticket for parking in a faculty parking lot which always has open spots.	1/29/2019 12:44 PM
340	They have helped many students grow and have a good foundation to start a future.	1/29/2019 7:28 AM
341	Knowledgeable faculty and staff with real work experience.	1/29/2019 4:21 AM
342	Faculty to student ratio is great	1/28/2019 12:37 PM
343	Ferris allowed me to be more confident in my writing as well as my career skills.	1/28/2019 12:18 PM
344	The off site locations are not convenient for full time working adults.	1/28/2019 6:39 AM
345	Overall I have had an awesome experience. I really enjoyed my professors and what i have learned here at Ferris State. Also the friends I've made.	1/27/2019 4:36 PM
346	Great school i enjoyed my experience here and the school offers many great resources and groups to join	1/25/2019 8:23 PM
347	Based on my and others experiences, I don't believe that Ferris allocates its resources properly, has a good understanding of its students needs, or respects its teachers and faculty.	1/25/2019 12:40 PM
348	Ferris is a great school, it has a very good business program.	1/25/2019 10:20 AM
349	Ferris is a good campus for studying.	1/25/2019 9:28 AM
350	I think that the program that I chose was beneficial to me and could be to others who also want to study it.	1/25/2019 6:05 AM

353	I would recommend the University for only certain personality groups.	1/24/2019 9:24 AM
354	I had a great overall experience that I would recommend to others.	1/24/2019 9:20 AM

356	N/A	1/23/2019 11:04 AM
357	na	1/23/2019 9:06 AM
358	I would recommend Ferris to someone looking into any of the programs with the exception of the Education program. The Education department was inadequately staffed and poorly led, and I feel that the students were cheated out of an exemplary education. Aside from a few, the professors that I most often took courses with in the Education department were unprepared, unconfident, and did not provide students with a level of education that produces great teachers. I often found myself reaching out to professors for clarification on due dates, assignment expectations, grades, and information that should have been available.	1/23/2019 8:43 AM
359	Community, scholarships available, networking	1/22/2019 6:52 PM

364	I was able to still continue to work and work my degree without any complications.	1/22/2019 7:26 AM
365	It has been an absolutely amazing experience. I don't know if I would have been able to graduate and make it through these past few years without the amazing support from the Ferris faculty.	1/21/2019 5:15 PM

368	I had a great experience and I have actually already recommended it to friends before. The Statewide program is absolutely great.	1/20/2019 10:28 AM
369	With the high costs of a college education nowadays, I would recommend transferring to Ferris after 2 years at a community college.	1/20/2019 8:02 AM
370	I think it is good value for money as long as you know what you are going for the math classes are great along with the computer science class. Though the computer science classes you have to take when they are available as they are not always available.	1/20/2019 7:18 AM
371	The college offers great critical thinking skills that are underrated given it's state run nature.	1/19/2019 8:24 AM
372	It would depend upon their interests and education experience, but i probably would not recommend the program that i attended. This would partly be due to my experience of poor communication and support from my advisor, and partly because the program classes were not as engaging or as rigorous as classes that i took at other schools.	1/19/2019 7:45 AM
373	It is a great campus that provides many opportunities for students to succeed	1/18/2019 1:08 PM

383	There are plenty of majors to pick from. College of Engineering is well developed and prepares individuals for the real world adequately.	1/16/2019 11:10 AM
384	Do not like how the school operates. Seems like they just want money from students but will not do much for them.	1/16/2019 9:40 AM
385	I have no complaints, I was helped along the way and thought the university conducted itself in a professional manner.	1/16/2019 8:43 AM

387	I started very late as a transfer student, and everyone I spoke to was very helpful to get the process going to make sure I would be able to enroll on time.	1/15/2019 3:22 PM
388	I would recommend Ferris because I have gain a lot of knowledge from my learning experience, and I am a proud student of Ferris State University. I hope my son attend this college in the near future.	1/15/2019 2:39 PM
389	I received lots of knowledge and career based information which was super beneficial.	1/15/2019 12:53 PM
390	The statewide program is amazing! However, I am very interested in furthering my education and the guidance I have had is non-existent. I also had no idea about career resources. That would have been very helpful while I was job searching.	1/15/2019 10:00 AM
391	The Statewide program with Southwestern Michigan College is a great way to earn a four-year degree while keeping expenses low and enjoy the comfort of the small-school feel.	1/15/2019 9:57 AM

395	I really enjoyed every professor and advisor I interacted with, but alas, administration... needs work.	1/14/2019 2:34 PM
396	I would recommend Ferris to a family member or friend because of the small class sizes and good professors.	1/14/2019 8:19 AM
397	I choose not to respond at this time as I'm waiting for a response regarding a complaint that I filed.	1/14/2019 6:21 AM
398	With the state of online classes not being all available to students who meet the requirements makes me recommend other universities that actually care about their students.	1/13/2019 10:30 PM
399	The 3+1 program for Elementary Education is a fantastic program between GRCC and Ferris. And it's a HUGE money saver.	1/13/2019 7:51 PM
400	it provides a variety of programs and good core to make it an easier transition to another program if chosen	1/12/2019 11:56 AM
401	Quality education and great professional development experience. Customer Service was not always the best in some areas of the campus: Library services, Financial Aid, Writing Center. After a long period of being a student the services/offices mentioned above were NOT student friendly. Customer service training to serve students at all levels is needed.	1/11/2019 1:47 PM

405	I felt a most of my classes were very well organized and supportive of online learning. The only class I struggled with was Statistics. This class did not offer online lectures for assistance and the teaching learning center did not have assistance for statistics during the summer.	1/10/2019 5:53 PM

406	I have been pleased with the learning outcomes and the experience of being in a cohort setting. Very professional. Thank you.	1/9/2019 3:28 PM

410	Great school, and it has amazing programs and resources.	1/8/2019 5:26 PM
411	The cost is outstanding and when I ran into the blame game and took a while to work my issue out. It involved me losing money for a class that I had to drop and did not need and I lost a scholarship that was awarded to me and it was very disheartening.	1/8/2019 4:01 PM
412	Ferris State has a great community and the faculty helped prepare me for my graduate school studies.	1/7/2019 2:36 PM
413	Ferris State off campus option is a great opportunity for those that want to work on building their careers while living off campus. Attending school at the main campus was a great experience, but for my personal preference I had moved home to Grand Rapids to work towards excelling and building my career. Highly recommended for those with the same mindset as me.	1/7/2019 2:35 PM
414	The professors work towards aiming to ensure that all students are successful.	1/7/2019 8:40 AM
415	Very accessible programs. le night or online courses	1/7/2019 7:58 AM
416	The community feel of Ferris is perfectly between the monstrous size of MSU or UofM without being as small as the high school feel at division 3 universities. I met many wonderful people and was exposed to lots of great things, but I could still find a quiet corner where I didn't have to deal with a throng of people if I didn't want to. Professors at Ferris care about the success of their students (generally) and try to establish a connection over the course of a class. I won't forget my experiences there, including two national championship trips with the pep band. I would encourage anyone I know to get in while Ferris is a school on the rise.	1/6/2019 6:53 AM
417	While the vast majority of the faculty that taught were great, there was one that was such a horrible professor (and human being) that I absolutely will NOT recommend OR donate in any way until she is gone. [REDACTED]	1/4/2019 7:51 AM

422	Overall good experience	12/27/2018 11:35 PM
423	The statewide advising is terrible. I have had to go through the department chair just to get my registration for my final semester before graduation ironed-out. I have had ZERO response whatsoever from my actual advisor. That is completely unsatisfactory for someone taking classes off campus.	12/27/2018 9:23 AM
424	For sciences, I would recommend a university with access to better technologies.	12/26/2018 1:34 PM
425	I previously attended Grand Valley State University and had a much better experience. I would recommend GVSU before Ferris.	12/26/2018 10:53 AM

436	It's easy to make the experience what you need it to be at Ferris.	12/17/2018 2:50 PM
437	Though education is far overpriced, compared to other schools Ferris offers quality education at less cost.	12/17/2018 12:44 PM
438	I've been to college several times and never felt it was worth my time or money until coming to Ferris	12/14/2018 3:57 AM
439	The college of pharmacy needs some serious change in administration.	12/13/2018 11:44 AM
440	The school is mainly for technical degrees such as engineering. It is a decent for that, but otherwise the options are very limited.	12/13/2018 5:27 AM
441	I believe that FSU makes transfers easy and I have also learned a lot from my required courses while pursuing this degree. The instructors have also been great.	12/13/2018 2:31 AM

443	As an off campus student (Delta Campus) the class choices were very limited and there were no options for online courses to try and complete my degree faster.	12/11/2018 7:41 AM
444	It was convenient with the online availability and locations in Grand Rapids.	12/11/2018 7:32 AM
445	Ferris offers you a intimate educational experience where you aren't just lost in a crowd in large lecture halls. I know my teachers well. I feel comfortable asking them questions and seeking help from them, if necessary. What Ferris offers is access to well-educated professionals who happen to be great teachers and I couldn't be more grateful!	12/11/2018 7:06 AM

453	Ferris seemed to have sucked away all motivation, imagination, and spirit that I had. The campus is very beautiful but staff doesn't help much and always want the easy way out instead of pushing their students to do better. The students themselves are very negative and it's draining.	12/5/2018 9:00 AM
454	I liked the atmosphere here at Ferris and small class sizes.	12/4/2018 7:54 AM
455	I absolutely love living here and going here, I'd recommend to anyone.	12/3/2018 8:05 AM

457	I enjoyed my years at Ferris and believe I created both valuable professional and personal relationships.	12/2/2018 1:18 PM
458	Ferris is a good choice for your money. Although after I worked very hard to get a great GPA and was told I would receive scholarship money starting this last fall I never got it. It is still "pending" in myfsu and nobody can seem to tell me why or when I will get it. I am transferring because GVSU is giving me scholarship money for my hard work and high GPA.	12/2/2018 9:54 AM

460	I think it all depends on what the person wants to go for, I would definitely suggest it if Ferris offers what they are looking for.	11/29/2018 12:15 PM

## 2018-19 Ferris State University/Kendall College of Art & Design Graduate Exit Survey

461	I simply don't have a lot of family for one reason and another reason would be that I am the youngest of my family. If I or anyone else have children in the future I would consider recommending Ferris if I felt it was appropriate.	11/29/2018 12:14 PM
462	I believe the AET program is falsely advertised. Waste of time and money but takes too long to figure that out. Many classmates agree.	11/29/2018 11:39 AM
463	It's a good university. If someone is looking for a smaller university that will result in a good education, Ferris is a good choice.	11/29/2018 9:52 AM
464	Made a lot of memories at Ferris State University, all the teachers were fantastic.	11/28/2018 5:13 PM
465	For my degree path, I feel that the certifications I can earn through Comptia have more importance. For most other degrees, I would suggest GRCC first.	11/28/2018 10:39 AM
466	Its the best	11/28/2018 10:19 AM
467	Terrible staff and advisors	11/27/2018 10:20 PM
468	Great professors	11/27/2018 7:37 AM
469	Way too expensive compared to SANS certifications in this field.	11/26/2018 4:51 PM
470	This is a great institution with many opportunities	11/26/2018 6:10 AM
471	Great nursing program and in depth learning	11/25/2018 11:35 AM
472	It was a good school to attend and the faculty seemed to really care about the students.	11/23/2018 9:58 AM
473	Great school, even better people. students and staff were amazing.	11/22/2018 8:28 AM
474	The campus is beautiful, not too big or too small. The professors are passionate about what they teach and there are so many on-campus activities and organizations to participate in.	11/21/2018 4:52 PM
475	It would depend 100% on what exactly they want, and if they are up to the challenge.	11/21/2018 5:37 AM
476	The small scale campus is nice as well as the atmosphere on campus. Big Rapids though is mediocre at best.	11/20/2018 7:23 PM
477	It is a great place to receive an education.	11/20/2018 6:26 PM
478	Education is top-notch and job opportunities are available after graduation.	11/20/2018 7:07 AM
479	Ferris did not cater to the non traditional student.	11/19/2018 8:44 PM
480	The teachers and community around ferris taught me so much and prepared me to jump into the industry.	11/19/2018 11:41 AM
481	Being an international student, the campus is in a remote location with connectivity and transportation problems. Also, there is a very small percentage of international students on campus, which has been on the decline for the last couple of years. However, the HVACR program was a good value for time and money.	11/19/2018 10:52 AM
482	I never recommend living in the dorms at Ferris to anyone. This is due to my exceedingly poor experience in the dorms.	11/19/2018 7:44 AM
483	I like that is a small campus and professors are able to actually know their students. This helps create a comfortable environment for learning and asking questions. I also like that most professors have worked in the field they are teaching.	11/18/2018 6:06 PM
484	Because the staff is very helpful and nice. The campus is small and easy to get to know.	11/17/2018 4:43 PM
485	The support from faculty that students receive is above exceptional.	11/17/2018 9:09 AM
486	This school is underrated by the high schools in Big Rapids. I attended Crossroads and didn't dream of going to Ferris until I found out about the Nuclear Medicine Technology program. Now that it is being suspended, I'm not sure of the quality of Ferris if it is willing to cut a program that personally changed my life and those of the students who knew about Nuc Med.	11/16/2018 6:32 PM
487	The BSN program online at Ferris was one of few when I started, now there are many choice which have shorter class timelines which enables the student to graduate faster with the same knowledge.	11/14/2018 4:38 PM
488	It is expensive and the internet connection doesn't always work.	11/14/2018 3:00 PM

## 2018-19 Ferris State University/Kendall College of Art & Design Graduate Exit Survey

489	I like the atmosphere of Ferris and I love all of the friends that I have made here. Some classes on certain curriculum are not worth paying for and I feel like I didn't need to take them to further my education.	11/14/2018 11:54 AM
490	Love the atmosphere that Ferris has. (Most) Professors are wonderful and would do anything and everything to help you out. Ferris is small enough to be personal which I love but large enough to be perfectly diverse. Proud to be a BULLDOG!	11/14/2018 7:10 AM
491	Cheap.. 3+1 program with community college is great	11/13/2018 3:47 PM
492	Great program; easily accessible and easy to follow	11/13/2018 2:39 PM
493	I am in the Nursing program and had a positive overall experience with almost all clinical staff and all professors.	11/13/2018 1:51 PM
494	Because of the endless opportunities.	11/13/2018 9:16 AM
495	too expensive	11/13/2018 7:54 AM
496	Great opportunity with a lot of helpful people.	11/12/2018 5:42 PM
497	I feel like the professors and faculty did not make an effort to reach out to their students early in their college careers. Over my last two years here, I really made it a point to connect with my professors and receive the most benefits I possibly could which was crucial to my college experience. I wish they would have made it more of a point to connect with their students at an early stage though.	11/11/2018 8:40 AM
498	It is a great school and a great program, how they participate and work well with Grand Rapids Community College.	11/11/2018 4:33 AM
499	I would recommend Ferris State University to a friend or family member because the faculty members care about their students as individuals. Because of the small class sizes, they take the time to get to know their students and can mentor them personally. Hence, I feel that attending Ferris would give them a quality education that is based on their individual dreams and strengths.	11/9/2018 10:00 PM
500	Good value for a good education.	11/8/2018 4:23 PM
501	We are a Ferris Family, just because my experiences weren't always pleasant when it came to college activities or how they conduct business the students I interacted with and drew close to made it worth.	11/8/2018 11:58 AM
502	Great small school atmosphere.	11/8/2018 11:38 AM
503	I might not because of my immense dissatisfaction for the College of Health Professions and the Dental Hygiene program as a whole. They were not only unhelpful but rude. The dental hygiene program is one of the most expensive on campus and the disorganization of the program is notable to anyone in it. I truly hope that someday that will improve.	11/8/2018 11:34 AM
504	Ferris has a good program for the non-traditional student. The co-operative program with the local community colleges is very helpful. The main challenge with Ferris was the cost of tuition.	11/8/2018 8:40 AM
505	Ferris works very hard to help its students enjoy their college experience and begin paving a path for a career.	11/8/2018 5:39 AM
506	The faculty and staff at Ferris care about their students. The professors make students know how important we are to ourselves, for the future and to them as well. In my opinion, Ferris is just as big as Michigan State or any other institution or university, but here students are more than just a number. Professors take the time to know every students' name that attends their class and that's what I love most.	11/7/2018 3:11 PM
507	Some of the classes are helpful and some of the professors are very encouraging. But there are also professors who don't care as much, specifically the one for my major.	11/7/2018 9:19 AM
508	Great university, enjoyed my time here. Stop raising tuition.	11/7/2018 8:38 AM
509	Has been a great place to learn.	11/7/2018 8:32 AM
510	inexpressive	11/6/2018 7:42 PM
511	It's a family at Ferris.	11/6/2018 5:37 PM
512	I enjoyed how the professors were previous business owners; and shared there own experiences and take on life.	11/6/2018 4:34 PM

2018-19 Ferris State University/Kendall College of Art & Design Graduate Exit Survey

513	Parking is a racket.	11/6/2018 11:38 AM
514	It is a great school with great education.	11/6/2018 9:31 AM
515	The education I received here was outstanding and I couldn't be happier that I chose Ferris State. Not only did I learn a lot of valuable information, but I also made life-long friends and had fun along the way.	11/5/2018 2:22 PM
516	satisfied all the around with the educations and experience	11/5/2018 9:08 AM
517	It's a great environment to help you discover what you want to do with your life	11/5/2018 7:29 AM
518	Very interactive courses and supportive teachers	11/4/2018 10:47 PM
519	Ferris State is somewhere I did my best when all the obstacles were against me.	11/3/2018 10:05 AM
520	I won't recommend Ferris if they continue to not pay their faculty a fair wage. I will recommend Ferris as a good school for Medical Laboratory Science.	11/3/2018 9:09 AM
521	The education I obtained prepared me to sit for the state and national board exams at a great price.	11/2/2018 9:41 PM
522	Ferris doesn't always have the interests of students in mind, especially when it comes to academics. I've had too many professors that should not of been able to continue to teach based upon their lack of teaching skills in general. Most of which were older and didn't want to adapt to changes in technology (ie: how to use blackboard correctly). Ferris also puts way too much emphasis on the first year experience (ie: North Hall), but never applauds students who stay on campus for years (ie: outdated residence halls). It would be nice if there was something to work towards as a long term Ferris Student (ie: discounts on Ferris amenities such as meal plans and housing). Lack of student involvement is also a common issue on our campus. Everyone seems to be "too cool" to go to events, whether they are put on by the university itself or by an RSO. I think the university is doing a good job informing students on many different sites, it's the motivation of the students that needs working on. In the end though, Ferris is my home, and I am proud of the university that I have attended. I grew a lot within my classes, Greek RSO, and job on campus.	11/2/2018 12:39 PM
523	It's a great school with quality education and I'm proud to be a Bulldog!	11/2/2018 6:57 AM
524	I was very happy with the classes that my program involed	11/2/2018 6:29 AM
525	It is very convenient for someone who is working full-time and has children.	11/1/2018 7:04 PM
526	I would recommend the experience of attending Ferris State University for the atmosphere and the people that I have met over my time here at Ferris State University.	11/1/2018 3:37 PM
527	Good value for their programs	11/1/2018 3:13 PM
528	Of course, it's a great school and I got a great education.	11/1/2018 11:58 AM
529	Ferris is a great university to attend and the atmosphere is amazing. Definitely recommend family and friends to come here.	11/1/2018 10:20 AM
530	Flexible with work schedule	11/1/2018 6:05 AM
531	Great school with a small town feel	10/31/2018 8:59 AM
532	The atmosphere of the culture around the campus is really positive and great. I have had the two best years of my life here and would recommend to anyone I come into contact with!	10/31/2018 8:54 AM
533	Its a good school	10/31/2018 8:38 AM
534	Ferris State University is a great place to learn, engage and prosper as a individual. This college helped me academically, mentally and physically. I would recommend it to anyone interested.	10/31/2018 8:38 AM
535	cause there good	10/31/2018 8:33 AM
536	The Univeristy was well worth the cost, I wish there was more campus wide activities for students to simply enjoy like a concert, or a fair. Classes I believed to be very good, but some classes did not require as much dedication as I would have liked.	10/30/2018 9:17 AM
537	Great experience at ferris	10/30/2018 8:47 AM
538	The professors for the social work program at the University Center are amazing!	10/30/2018 8:47 AM
539	I think this is a great university that is truly here for the students and their personal advancement.	10/30/2018 8:44 AM

## 2018-19 Ferris State University/Kendall College of Art & Design Graduate Exit Survey

540	Ferris is extremely diverse and offers opportunities in a wide variety of studies/disciplines.	10/30/2018 7:59 AM
541	As a working adult, the course offerings online and/or hybrid if I so chose allowed me the flexibility to complete my degree while still working. This made it much more convenient for me than a traditional classroom situation.	10/29/2018 9:40 AM
542	Although Ferris has some requirements for a BSN that other schools don't. I feel that the extra work I put into my degree has prepared me well for my role as an RN, BSN.	10/29/2018 8:13 AM
543	I enjoyed my experience here.	10/29/2018 8:12 AM
544	I have had a tremendous experience at Ferris.	10/29/2018 6:21 AM
545	I think the counselors and faculty are very helpful.	10/29/2018 5:55 AM
546	This is a great university with plenty of opportunities available after graduation.	10/29/2018 5:45 AM
547	Depends on what they want to pursue.	10/29/2018 5:17 AM
548	I felt the college prepared me for furthering my education and later when pursuing my career.	10/25/2018 12:35 PM
549	Good college	10/25/2018 5:22 AM
550	Because I enjoyed my experience.	10/25/2018 5:12 AM
551	Great education.	10/24/2018 6:27 PM
552	I had a good experience and I believe it is a good environment to be in for college	10/24/2018 3:25 PM
553	Most professors and administration were available and very helpful to me for instruction when needed. (thank you Karen Ottobre & Lisa Eshbach) Small class sizes and good curriculums are available.	10/24/2018 2:08 PM
554	For my program, at the satellite location, the information and availability to teachers and staff was spotty at best and indifferent at worst. Had I to do it over, I would opt for in-person classes or direct lines of communication with Ferris staff, not just at my local level.	10/24/2018 12:41 PM
555	Enjoyed my time here and the pre-pharmacy program was worthwhile.	10/24/2018 6:10 AM
556	Great construction management program and facility	10/24/2018 4:50 AM
557	Great school	10/23/2018 8:11 AM
558	You feel a sense of community within this campus. Student organization allow you to be involved and feel like you are engaged. Facilites such as the library, and the UC allow students to focus on academics in a comfortable environment.	10/23/2018 7:55 AM
559	I like how the campus was and town is small enough, yet there is still plenty to do.	10/22/2018 3:51 PM
560	The staff where all friendly and helpful. I never felt like I had to wait long to have an answer to a question I had.	10/21/2018 12:00 PM
561	The level of hands on training is awesome.	10/18/2018 3:05 PM
562	It was a very challenging experience and I have mixed emotions about my time here. There were ups, there were downs, and I will just have to leave it at that.	10/18/2018 11:38 AM
563	Good school.	10/18/2018 7:40 AM
564	Your Traverse City location is like being in high school and there are only four classes a semester and two of them (half) are completely awful. Those teachers being Michael Kelly and Pam Blue.	10/18/2018 5:18 AM
565	I have never been so supported through a program like I have been at FSU.	10/18/2018 4:55 AM
566	Ferris is a nice to school, and it has a nice environment. The people at Ferris make you feel very welcomed, and proud to be a bulldog.	10/17/2018 10:20 AM
567	Since I am the first of my siblings to graduate college I would love for them to experience Ferris also.	10/17/2018 6:52 AM
568	the education quality	10/17/2018 5:59 AM
569	I went to Ferris to get away from my hometown and I found another home. The people at Ferris are open and inviting and the majority of the staff go out of their way to make sure you succeed. Campus always has events going on and it is not hard to find somewhere to fit in.	10/17/2018 4:44 AM

2018-19 Ferris State University/Kendall College of Art & Design Graduate Exit Survey

570	I love the faculty/student ratio, but a lot of the faculty do not want to be here anymore. I also can't stand the parking or in ability to get from one side of campus to the other very easily. Placing North Hall directly in the path of the old road was a horrible decision. It is also unfair to all of the new students who aren't able to live in the "hotel", North Campus, and have to live in dorms older than them. Students might want to stay on campus if they were all updated. I should also not have to deal with disgruntled/picketing teachers, because the President decides to not to provide them with a contract, yet take a pay raise and increase tuition.	10/16/2018 5:10 PM
571	I believe it has the best hands on courses.	10/16/2018 4:29 PM
572	I like it here.	10/16/2018 9:44 AM
573	I currently am part of the Ferris Statewide Program as SMC. I feel that this program was a great value for the money and convenience that was given to me. I never felt like the education that I was receiving was less than that of any other Ferris Student even though I did not attend any classes on the main campus.	10/16/2018 8:22 AM
574	They have a nice variety of programs to choose from.	10/15/2018 4:32 PM
575	The program I graduated with is very well known in my field and being able to say I came from Ferris gives me a better opportunity to get a job.	10/15/2018 12:19 PM
576	The programs here at Ferris are unbeatable and that faculty are great.	10/15/2018 10:41 AM
577	It's great	10/15/2018 8:53 AM
578	Depending on what field of study they are looking for	10/15/2018 7:13 AM
579	Great school for engineering. Curriculum is very practical and useful in real life work situations, as opposed to more theoretical based engineering courses at other schools.	10/14/2018 9:53 AM
580	There's many opportunities here for all types of people.	10/14/2018 9:45 AM
581	I would never recommend anyone to live in big rapids and/or attend ferris and actively discourage people from doing so. ESPECIALLY with the ridiculous emails from the institution this year clearly showing they don't care about the teachers at all. Terrible experience.	10/13/2018 8:01 PM
582	Ferris has provided me with an education that is affordable and gives me the technical skills to perform in the industry. The overall value of the university is good.	10/12/2018 11:06 AM
583	Good school, small classrooms, the staff needs MAJOR work though.	10/12/2018 11:01 AM
584	It's an okay place. Ferris needs to relearn that its focus is to serve the students and not President Eisler	10/12/2018 9:56 AM
585	The Automotive Engineering Technology program is outdated and course material needs to be revised. We are not learning up to date and relevant material, especially when it comes to electrical diagnosis, automatic transmissions, and electric and hybrid drive systems. In addition, most teachers are catering the classes to the students. (making the classes easy so students can pass) I find this mostly with the engineering classes such as PDET, MFGE, and MECH. They walk the students through too much and make tests and course work too easy, causing students to not properly learn the material.	10/12/2018 9:13 AM
586	The sense of community that Ferris lives by and spreads makes you feel completely at home. The staff are always more than willing to help you in anyway they can. The campus is beautiful and growing. It's a small town university with nothing but attention, support, and encouragement to give.	10/12/2018 9:09 AM
587	Most instructors were incredible.	10/12/2018 8:37 AM
588	The faculty members here seem to want to help you through college. The ratio of professor to student is great as well, making it easier to learn, since they have more office hours available.	10/11/2018 6:30 PM
589	The cost if very affordable and the teachers are great and willing to give their time to help.	10/11/2018 5:15 PM
590	I think it was a little ridiculous that I basically repeated my associate's degree specialty classes. These classes should have further expounded on the knowledge I had already obtained. I felt that a few of them were just more expensive versions of my associate's classes.	10/11/2018 4:16 PM
591	The classes I took for the Social Work program were very educational and the staff were usually very helpful. The Social Work staff are all amazing people. I feel that they really helped me look at life from all different perspectives. The classes were interesting and I wanted to attend them.	10/11/2018 3:47 PM

## 2018-19 Ferris State University/Kendall College of Art & Design Graduate Exit Survey

592	Depends on what program they want to enter. There are some which Ferris is the best and others which another school might be better.	10/11/2018 3:47 PM
593	Because of the 6-month internship	10/11/2018 2:57 PM
594	I much enjoy the staff and how they teach each subjects.	10/11/2018 1:42 PM
595	The campus is great people are nice and friendly. Staff is very approachable and easy to talk to.	10/11/2018 1:25 PM
596	Depends on what career occupation they pursue.	10/11/2018 12:19 PM
597	good professors	10/11/2018 10:06 AM
598	Strong academic values, dedicated staff, and good value for money	10/11/2018 8:25 AM
599	Although tuition is expensive and the fact that the teachers currently don't have a contract is ridiculous, I received a lot of worldly experience, training, and opportunities that friends in similar programs at different universities do not have access to. But a lot of this comes from my professors, not the university specifically.	10/11/2018 5:37 AM
600	Ferris should start listening to their students about what they need on campus before spending more money on useless stuff like fields when the money could be used for parking	10/10/2018 10:27 PM
601	Expensive, constantly increasing tuition and fees, and poor job search help.	10/10/2018 8:27 PM
602	Ferris is a great option for working adults with many options for online learning.	10/10/2018 3:03 PM
603	I have enjoyed my time here and meet great people and I think others should be able to experience it.	10/10/2018 1:51 PM
604	its a nice university	10/10/2018 12:42 PM
605	I had a positive experience here at FSU	10/10/2018 12:05 PM
606	It is a great place to learn and grow and it allows students to be a big fish in a small pond.	10/10/2018 11:33 AM
607	Scheduling classes was always difficult. I would pick my schedule based upon my internship/work plans for the following semester, and have it planned out so that I was on campus for full days. Then 2-6 weeks before the semester would begin, I would receive emails stating that a class was canceled or I had to be moved to a different section of a class. Then I would have to rework my schedule to accommodate internship plans. I was surprised this was an issue at a University when I never had this issue at my community college, and students at other community colleges haven't had this issue either.	10/9/2018 6:00 PM
608	I liked how the school encouraged students to do volunteer work in addition to studies.	10/9/2018 5:48 PM
609	Most of the programs are updated and provide proper platform to students to establish their careers	10/9/2018 1:07 PM
610	It has a good program and is not overly expensive. The Teachers are very good at helping when it is need and they are all very nice.	10/9/2018 11:51 AM
611	It is a great school	10/9/2018 11:49 AM
612	My mom came here in the 80's and would like to keep up the tradition	10/9/2018 9:31 AM
613	Great education	10/9/2018 9:10 AM
614	I think it's a great school, but whether or not it is the best option for you depends on your major.	10/9/2018 8:07 AM
615	This school is an egregious assault on scholasticism.	10/8/2018 4:21 PM
616	Ferris faculty supported me throughout my education and have been incredible mentors.	10/8/2018 2:00 PM
617	Good school to attend, at a reasonable price.	10/8/2018 11:45 AM
618	It was a great experience in my first few years. I'm excited to continue for my bachelor's.	10/8/2018 7:41 AM
619	I appreciated that Ferris takes steps to foster success for their students, however I think that Ferris could do better with their current PR. (Faculty/Administration Drama.)	10/7/2018 4:19 PM
620	I also advocate for Nuclear Medicine Technology, and I also rave about certain professors.	10/7/2018 12:45 PM
621	I would consider my friend/family members financial resources and the degree they desire. I was equally satisfied with my education at community college.	10/7/2018 10:42 AM

625	Great experience!	10/4/2018 7:06 AM
626	I enjoyed the MSN program.	10/3/2018 6:34 PM
627	New DNP program. Overfocus on perfection rather than excellence; rigidity; not focused on student success; imbalanced courseloads/workflow. Lacks diversity in approaches to education; redundancy; overreliance on discussion boards and unilateral focus on written forms of productivity. Very poor faculty communication; delayed / partial/non-transparent information. Research and theory courses lacked not developed nor did they address content as described in catalog/course descriptions. No lectures or other meaningful presentation content provided. Need to use Zaccagnini & White textbooks to guide framework; be consistent regarding progression and development timelines for project. Faculty need to be consistent re: translational research/implementation science to avoid misdirecting students. Apply adult learning theory & scaffolding to integrate project topics into coursework. Use Rice University courseload estimator to evaluate requirements. If non-APRN students are admitted to the program, then focus of content should not be on APRN practice. This led to extensive confusion (much conversation) among cohort members. Again, consistency, clarity, explicit communication. Keep contract negotiations and faculty issues out of the classroom: Unprofessional conduct demonstrated during Fall 2018 intensive (not the pickets, but in the class setting).	10/3/2018 5:13 PM
628	It's an amazing, tight-knit, and cheap college. Best Bang for Your Buck.	10/3/2018 10:44 AM

635	Ferris State is the perfect school for a student looking to get a quality education taught by experts in their field of study. Also, it is just the right size to have the opportunity to get out of your comfort zone but still be able to call it home.	10/2/2018 10:25 AM
636	Some of the happiest memories were at Ferris	10/2/2018 10:10 AM
637	I think Ferris has good class sizes and the teachers are easily accessible when you have questions or don't understand anything. The campus itself I think is a good size and the location of campus is right where it needs to be.	10/2/2018 5:40 AM
638	I've seen too many people have to jump through too many hoops to get things done. I've had to deal with some very unprofessional faculty members through my time here.	10/1/2018 3:13 PM
639	Not a great school if you want to challenge yourself academically.	10/1/2018 9:26 AM

642	Good town, nice campus. Need some renovations to the Automotive Building.	10/1/2018 6:18 AM
643	I don't think I would recommend that anyone attend college unless they were looking to be a doctor, engineer, teacher, or anything of that sort. Everything else can be Googled and learned online. Often professors just had us Google things, making my education a waste of money.	9/29/2018 2:39 PM
644	Overall good school	9/28/2018 11:20 AM
645	I know they are totally different school but comparing on how grcc functions to Ferris I think its more reasonable. Not saying I hated Ferris because it was some of the best times I've had but in regards to financial aid and tuition.	9/26/2018 3:09 PM

## 2018-19 Ferris State University/Kendall College of Art & Design Graduate Exit Survey

646	I think it would depend on the person. Ferris Main campus is not friendly to non traditional students. To a high school graduate, I would probably recommend Ferris. However to anyone who is not the traditional college student and is returning, I would encourage them to look at whether or not the scheduling works for them. It is difficult to have a professional job working 8-5 and make most class schedules work on Ferris campus.	9/26/2018 6:01 AM
647	I was able to reach my goals here.	9/25/2018 8:07 PM

651	As a non-traditional student, it is very difficult to work a job in which I can support myself as well as get my degree. There were more than expected students in my classes who were more non-traditional than traditional and the program is not set up to offer those classes for students. I also noticed many traditional students seemed to drop than non traditional from the program as well.	9/25/2018 10:09 AM
652	I enjoyed my time.	9/25/2018 8:34 AM

654	Ferris provided me with valuable resources, contacts, and education.	9/23/2018 12:43 PM
655	Due to the decrease in programs and massive decrease in summer classes offered, Ferris is starting to slowly fit the lives of only a certain amount of people. No one could take night classes here while working full time or depend on a full course load for the summer because classes aren't offered.	9/23/2018 6:57 AM
656	I did not feel that most of the ISIN professors had a genuine interest in teaching or student success	9/21/2018 11:51 AM

18	Yes, I like the university and appreciate the experience. One of the best parts was having the opportunity of bringing my children with me on my undergraduate journey. Ferris makes it possible for student parents to purse their college education.	9/10/2019 2:47 PM
19	Ferris shows no respect to its students: it doesn't listen when they point out issues with curriculum or with the campus itself, and spends their tuition money on trivial matters instead of the students' well-being and education.	9/10/2019 9:41 AM
20	In the end, it's just another university.	9/10/2019 6:06 AM

37	Ferris needs to put more time and money into their satellite campuses. All classes for a specific degree should be offered at all campuses. Students on main campus have the ability to choose between certain social worker classes to fill a credit requirement, while students on the Traverse City location do not have this option. Technology on satellite campus (computers, printers, etc) is very out of date compared to main campus	8/13/2019 12:24 PM

128	Ferris has been exposed for covering up sexual and physical assaults on and off campus when committed by athletes as they wanted to get their championship titles or wins. This makes me ashamed to be a Ferris student, and fearful of being assaulted as a female.	3/5/2019 6:29 AM

## 2018-19 Ferris State University/Kendall College of Art & Design Graduate Exit Survey

136	I held a 4.0 in the program - but did not feel that there was a lot of support in job attainment, job search, or any follow up along the way. a lot of \$\$ invested (on my part), but not a lot of reciprocity for the student. I feel more nurtured by my continuing ed institution and my (initial) alma mater...	3/1/2019 12:31 PM
137	I feel FSU has acquired something of a negative reputation over the years, I'm not sure I would say I'm proud to have attended per se.	3/1/2019 12:23 PM
138	Great school and I really enjoyed how the capstones for CIS were done to give everyone a good idea of real world work.	3/1/2019 6:15 AM

143	It is a good college	2/28/2019 9:52 AM
144	While every place has issues that can always be improved, Ferris is a great environment to learn, if you are willing to put in the work. It seems that with the college experience, responsibility falls on the student to decide how their experience will be. Overall, I am satisfied with my education, though I am still uncertain if I am still fully prepared to face what exists after college.	2/28/2019 9:35 AM
145	For the cost of tuition, I did not receive the level of education satisfaction I would expect. The low student graduation rate in the CNS degree meant that one of the senior level courses was delayed by a year, forcing me to seek employment prematurely.	2/28/2019 6:06 AM
146	Good education	2/28/2019 6:01 AM
147	Great environment	2/28/2019 5:41 AM
148	The social work program and professors are great, the university's care of the campus is disappointing and embarrassing when others come to visit. Parking lots and roads completely covered in ice. My car got stuck so many times during my time here, it is ridiculous.	2/27/2019 7:13 PM

192	I did not appreciate how Ferris' president portrayed the instructors of Ferris. There are some extremely great instructors at Ferris. Ferris would not be the institution it is without these people, and without them, this president would not be where he is! I have no vested in this issue. This contract issue has been disrespectful of those who work hard to bring new and creative knowledge to so many students and, in my opinion, shows the true value that higher administration places on its staff.	2/7/2019 7:39 AM

227	I really enjoyed my experience, made some great memories, and got a great education.	2/1/2019 10:53 AM
228	Many of the programs are what you make out of it. Some students can just show up and pass courses. But, you will be very successful if you grasp your concepts and go above expectations.	2/1/2019 10:48 AM
229	Ferris has provided me preparation and experience in the professional field in which I wish to pursue. The knowledge-base has meshed nicely with my work environment as well.	2/1/2019 8:40 AM
230	I did encounter some political based issues while attending. It seems that money has taken far-to strong of a role in the educational system and this university is no exception to this debilitating condition with regards to what financial loads a student must endure to graduate. Debt is far to big of an issue for students to attain a degree today.	1/31/2019 7:05 AM
231	I am proud to be a bulldog.	1/30/2019 11:51 AM
232	I am somewhat upset with my time at Ferris. If you are going to bring a program down to a new location then you need to make sure that the program is fully developed and students can take ALL of their classes at the location the program is offered. I would have never signed up if I knew a majority of my classes were only offered at the main campus.	1/30/2019 8:31 AM
233	I am proud to be the first person to graduate in my family.	1/30/2019 5:45 AM
234	I love how close knit Ferris is as a whole, and the relationships and connections that I have made.	1/29/2019 6:17 PM
235	The professors here are wonderful. I do not completely agree with all the classes that were mandatory for my major since a majority of them are ones that I cannot apply to my career. I also do not like the hassle that I have had to make to enroll in classes, take online classes, and the carelessness of some of the faculty members when it comes to registration and my education. I've had to work incredibly hard to just take online classes due to a "policy" that my major is not allowed to take certain classes online. I've also struggled with the fact that I've had to pretty much fight my way to register for classes even after my adviser would tell me that the classes that I an registering for should have no problem yet my adviser was unable to help me register for my classes since it was outside of her ability. I'm not a fan of how much being in an RSO has been pushed on me ever since my freshman orientation. Almost daily I receive emails about joining an RSO and have had time wasted in my lecture classes for students to come in and try to get us to join their RSO. It's clearly great for those who are not commuters and those who do not work full time while going to school full time. My adviser also sends me constant emails about joining an RSO that I have told her that I do not want to join. Honestly, the push for RSO and campus involvement is way too much here and I do not agree with it. Students feel like they have to join an RSO to be successful in college which is completely false. I'm glad that I will be able to obtain my degree but I personally feel like I have dealt with too much hassle here and that the faculty members are not as helpful or polite with student relations as they should be since it is their job. Yes, my education here has been quality and most of my professors have been nothing but knowledgeable and insightful in which I am grateful for. However, the process to just take classes here, dealing with careless faculty, advisers and annoying RSOs is a huge downfall. As well as the fact that we all pay \$100 for parking when it is almost impossible to find parking which makes too many students late or miss class because they would rather not get a parking ticket for parking in a faculty parking lot which always has open spots.	1/29/2019 12:44 PM
236	They have room to grow as does everyone, but they have done a fine job with students I have met.	1/29/2019 7:28 AM
237	Ferris graduates well prepared students, ready for the workforce.	1/29/2019 4:21 AM

406	The staff isn't that good. Also, there are a lot of people that support and promote hate (racism, homophobia, etc.) on this campus. It's unfortunate because the surroundings play a huge part in the overall experience here.	10/12/2018 11:01 AM
407	It's an okay place. The professors are fantastic, BUT there is way too much petty [REDACTED] happening within different departments. It makes being a student more of a struggle than it needs to be. If an elevator is down in a residence hall that houses ADA residents who need it, that elevator should be fixed ASAP, not the next business day.	10/12/2018 9:56 AM

420	Political BS makes the experience very bitter-sweet. Teachers striking, No more Starbucks in the IRC, Grill-Pit shutdown the whole last semester, all things that contribute to very mixed feelings in regards to Ferris. Noticeable reduction of services and convenience factors weigh heavily on my impression.	10/9/2018 4:10 PM

32	I like that they work with Southwest Michigan College and other schools, so students have a chance to go to Ferris without having to drive or move up to Grand Rapids to go the school. All of the teachers for Ferris are really nice and really want the students to learn and find a good career once they graduate. They encourage students to ask for help if they need it and teachers try their best to make sure everyone understands the material. Ferris is a really good college and I really enjoyed the program they have through Southwest Michigan College.	9/12/2019 4:38 AM

35	I have made a family here. I have made friends and lost them, but through all of it I have felt like an important piece to the puzzle that is Ferris. Res Life helped me find myself, and the College of Health Professions gave me a purpose and a way to pursue my passions. I will forever be grateful for my experiences here at Ferris.	9/11/2019 2:52 PM
36	Ferris gave me so many opportunities that have helped growth me into the person that I am today. I was given great opportunities to get connected into the college, meet many people who helped me in my career, and I had many professors who cared about my success.	9/11/2019 2:51 PM

38	I feel the best thing about Ferris for me was the ability to get my degree at a community college. I loved that I never had to physically attend class on Ferris' main campus. Even though I went to a community college I still will receive a bachelor's degree from Ferris.	9/11/2019 11:48 AM

42	As a student parent, I believe that it is great that student parents can continue their education right here on campus with their families. West Campus Apartments was one of my deciding factors when it came down to choosing a school with adequate housing for my family.	9/10/2019 2:47 PM
43	For 2.5 of my 3.5 years at Ferris, I was able to be in a "single dorm." I appreciated this extra space to myself, because it helped me feel like I was living on my own and gave me practice at holding myself accountable for housekeeping, and separating a "safe space" (my dorm) from a "work space" (FLITE). If Ferris had more single dorm options, I think they'd see an uptick in students who are between commuters and on-campus livers, who just want a place to sleep a few nights a week without disturbing others or being disturbed.	9/10/2019 9:41 AM
44	I think the opportunities of getting involved with campus were good.	9/10/2019 9:08 AM

134	Wide selection of online courses. Makes it easy to work a full-time job and attend school.	7/8/2019 5:18 PM
135	The best thing is that Pi Kappa Alpha still lives on. While many look at us as the biggest nuisance on campus, we are far from that. I have come to find out that all the rumors of Pike are far from true, and they instill values that preach the opposite of our reputation. Even when the RA's and faculty continuously bash us through misinformation we persevere to make a better name for ourselves. If Greek Life goes under, so will Ferris. And let me tell you, Greek life is barely keeping its head above water. Your school will become the LAMEST school in Michigan if this happens. While we come to school to get an education, you have to be plain stupid if you think kids don't want a real college experience in there as well. Pike is the only institution still offering that type of experience. And we do it following the rules and complying with the university (most of the time). But if/when you decide to shut us down, watch how in the coming years enrollment continues to drop as it has since I came back in 2015. Do better Ferris.	7/5/2019 7:03 AM

423	The faculty to student ratio. I came from a small town so I was expecting to never have a faculty or professor know me by my first name, however I can say that was false. Just about each of my professors made an effort to learn my name and facts about myself.	2/15/2019 6:23 AM

425	Small campus	2/14/2019 9:48 AM
426	The people.	2/14/2019 7:31 AM
427	Personally, it has been how close Ferris is to home. I feel like Ferris has become a campus full of commuters. Which I would encourage others to participate in if a possibility. The biggest draw to me in applying to Ferris was that I was able to save money by not living on campus. While not the most "college-experience" friendly argument, cost is what most students are looking at.	2/13/2019 1:39 PM
428	Its college	2/13/2019 8:58 AM
429	The RSO's	2/13/2019 6:22 AM

445	The sense of family and unity that I got out of attending Ferris. I met so many interesting people I never thought I'd know and I'm so thankful for that. I think Ferris is kind of the under-dog of universities, but that doesn't mean it's great. Its taught me so much in valuing my relationships and the connections I make on campus.	2/10/2019 10:18 AM
446	Small class size, availability of professors to help explain difficult topics one on one when needed. Support for diversity of student run activities and groups. Ability to access building and equipment after hours for practice and study.	2/9/2019 4:20 PM

450	The relationships the professors grow with their students are the best thing about FSU. I can confidently say I had strong role models who have a range of experiences in the field of my degree to reflect on, learn from, and have guidance from. Even when I struggled in some of the gen eds. my social work professors were there to talk to and help set me up with tutoring opportunities.	2/8/2019 2:30 PM

454	I like the opportunity to have been able to continue my education close to home. Its nice that Ferris has so many off campus opportunities.	2/7/2019 1:41 PM
455	The faculty and the flexibility of the classes I could take as an English major. I felt supported and like I could ask questions and come to the English faculty for advice. They pushed me to become better and changed my overall look on college in general.	2/7/2019 10:52 AM

458	The academic advising is second to none. The instructors I had were very knowledgable, helpful, and encouraging. That is commendable!	2/7/2019 7:39 AM
459	The small classes and one on one contact with professors.	2/7/2019 4:19 AM
460	I love the fact that they collaborate with so many community colleges and that they offer a consortium agreement. It let's you work on classes at both universities at the same time rather than have to complete everything at one place before you allowing you to start at the other. This is SO much easier to do financially ... and when you have a family to take care of!	2/6/2019 5:55 PM
461	The amount of help some academic resources (teachers, advisors, etc.) are always willing to offer.	2/6/2019 1:54 PM
462	The class sizes aren't overwhelming. I felt most of my professors interacted with me on an individual level as opposed to as a generic student. Other universities wouldn't have given me the same experience.	2/6/2019 1:05 PM
463	The very affordable price for someone like me that did not want to spend a fortune going to college, while still receiving a good degree. I believe that Ferris has the best criminal justice degree in the state and I think that it comes at a great value for someone like me that decided to go with an off campus Ferris education. The staff was very helpful in all areas of the degree and I always felt like I was in good hands during the program.	2/6/2019 11:55 AM

470	small classroom sizes	2/5/2019 7:03 PM
471	I mainly went to grand rapids campus. I wish that there were far more resources at satellite campuses like a psychologist or therapist or people who can help manage the stress that goes around. Not everyone that lived in grand rapids had access to transportation for big rapids. While one thing I would stress is having areas that were open all night, I cannot tell you the amount of times I wanted to stay on campus due to the weather or because I had a lot of work to do. There were very few meeting places within the ferris grand rapids campus.	2/5/2019 6:43 PM

503	Small class sizes, it allows students and faculty to really get to know each other which allows students the chance to get a better grasp on their subject matter. This makes learning here much better, because any issues that are had can usually be resolved face to face.	2/3/2019 9:23 AM

515	The professors without a doubt. Most of them have a enthusiasm about education regarding their field that is admirable. I hope I can continue with my career with the same enthusiasm I was taught to succeed with. I also really appreciated the guest speakers that were allowed on to Ferris that were considered controversial. I believe that it is important for a person to hear other peoples points of view, even if it makes them unconformable. I think this is how a person grows, and develops a healthy view on the world, and to learn to engage in a productive way with people you disagree with, instead of just disallowing them a voice.	2/1/2019 3:49 PM

608	1. I was able to obtain my undergraduate degree as a transfer student using a 3+1 program because Ferris only required me to complete 30 credits. This afforded me the opportunity to take credits at a community college and save a lot of tuition money. 2. I was able to be a fully online student for both undergrad and my MBA program. This was beneficial as a full time employee and mother to six children. 3. I never had to set foot on FSU main campus to register, get admitted, or work out any problems. I was always taken care of with courtesy and respect.	1/18/2019 5:20 PM

650	It is a very neutral place to learn and be a part of. The area that Ferris State University is located is not most colleges that people attend. This, in my opinion, is one of the highlights of going to Ferris State University.	1/13/2019 10:30 PM
651	The accessibility to multiple campuses. If they didn't have a Grand Rapids campus I probably would not have chosen Ferris. This and their agreements with GRCC were the main reasons I chose Ferris. It makes so much sense and saves so much money. The quality of my education felt just as significant as anyone who would have only attended University classes for every class. Specifically for Elementary Education, I loved that we had the opportunity to be in the classroom prior to our last semester. Many other programs put you in the classroom your last semester before graduating. Getting 3+ semesters in the classroom with kids was an awesome experience and has really equipped me for getting a position after graduation. Another fantastic thing was class times. I have been a working adult throughout my entire college career. Having class times that are on evenings and weekends has helped tremendously.	1/13/2019 7:51 PM

1117	The best thing about Ferris in my opinion is that it's accessible and easy to navigate. The campus is a nice size and if you have a class in another building it doesn't take 20 minutes to get to the other side of campus.	9/18/2018 11:27 AM

6	Stop changing requirements.	9/17/2019 7:12 AM
7	That advisers would be more consistent and there would be more people available per student.	9/17/2019 7:11 AM
8	Honestly, keep doing what you are doing. I am more than satisfied with my education at Ferris and would recommend this school to anyone.	9/16/2019 3:54 PM

12	I think some of the programs could be a little more organized.	9/15/2019 4:30 PM
13	That Ferris would provide more funding to the criminal justice academy.	9/15/2019 2:35 PM
14	Give Criminal Justice program more funding!!	9/15/2019 2:33 PM
15	More online education.	9/14/2019 9:23 PM
16	I wish Ferris would put more money towards the criminal justice program. A lot of students come to Ferris for CJ with high expectations, but then drop because the buildings and equipment seem "old school." I think if Ferris put money towards the Criminal Justice Program's building and equipment, it would ultimately generate a lot more interest and money.	9/14/2019 11:37 AM
17	The parking situation	9/14/2019 7:26 AM
18	If I could change one thing about Ferris it would be to make the dorms up-to-date.	9/14/2019 6:33 AM
19	Less foreign instructors with accents who have different standards than the American professors.	9/14/2019 4:07 AM
20	nothing	9/13/2019 6:09 PM
21	If I could change one thing about Ferris it would be to have more opportunities for freshman and first year transfers to interact with upperclassman, for example I lived in Brophy my freshman year because I didn't just want to live with people my own age, I wanted to meet people of all different years and that was one of the best decisions I feel like I made while I was here.	9/13/2019 10:52 AM
22	I think there should be more food options in different areas of ferris rather than most in the UC. I also didn't like how the pricing of parking went up.	9/13/2019 9:04 AM
23	Plow the sidewalks better.	9/12/2019 4:11 PM

## 2018-19 Ferris State University/Kendall College of Art & Design Graduate Exit Survey

30	I can't think of anything at this moment that I would change about Ferris/Kendall. I really enjoyed the program at Southwest Michigan College and feel I have learned a lot that will help me in my career in the future.	9/12/2019 4:38 AM
31	I would improve the communication between admissions and the student's primary advisor. I was told one thing when I was initially accepted into Ferris. When it was time to take this class, I was told by my advisor that I did not have to take it but would get ahold of the correct people to fix it on my transcripts. I was then told I had to re-take the class as it stated in MyDegree as previously taken 10 years ago. That was my admission date at the previous college I was attending. When I stated that to the advisor, I was told I had two options: re-take the class or take the final for the class. I did not find it fair that I was told something on admission at Ferris and told something else when the time came for that class. I also did not think it was fair to have to take a final for a class that was taught by an instructor I have never had in the program before, the content is slightly different. Clinicals at Pine Rest was not a learning experience to me. We were able to talk to the patients and had to observe hour and a half long therapy sessions where we were refrained from talking during group therapies. Parking at Blodgett hospital during the weekday afternoon clinical rotation was confusing. We were told to park in the Calvin parking lot and the shuttle would pick us up and drop us off. One afternoon at clinicals, we were in Calvin parking lot and the Spectrum Health shuttle bus left while we were in sight of the bus. We waited for the next shuttle as there had been three shuttles within fifteen minutes. We waited for half an hour. We called the desk and they told us to park in Gas Light but we did not have badge access, so we were told to park in the parking ramp by the hospital. We were told by Ferris State University that we were not allowed to park in the parking ramp at Blodgett. Clearer communication would have helped.	9/11/2019 8:03 PM
32	X	9/11/2019 6:21 PM
33	I would get more involved in the numerous activities FSU had to offer.	9/11/2019 3:10 PM
34	I would add more parking for students and continue to update residence halls because of how important of an experience it is for college freshman.	9/11/2019 2:52 PM
35	One thing that I would change about Ferris would be the parking spaces as well as improve the landscaping around the buildings.	9/11/2019 2:51 PM
36	The cost	9/11/2019 12:55 PM
37	I wish the college would not switch technology as frequently.	9/11/2019 11:48 AM
38	The living experience/money	9/11/2019 9:16 AM
39	TUITION. LOWER TUITION.	9/11/2019 8:09 AM
40	I would have attended sooner in my college career. I stayed at a community college longer than I needed.	9/10/2019 7:10 PM
41	Communication between faculty	9/10/2019 2:56 PM
42	If I could change anything about Ferris, I would increase class options and add more programs at the graduate level. I would also request a bigger shuttle bus for students to utilize during class hours. In addition, I would extend the West Campus Community Center hours to 10 pm. People that are living in West Campus Apartments may want to utilize the computer lab or multipurpose room to study or maybe even get a snack from the vending machines. Finally, I would give student parents first choice at Tots Place, and make it available for children ages newborn to twelve year old again. Ferris has a daycare here on campus however, we have several families including my own that were not able to send their children to Tots Place because of the lack of space. Students attending Ferris should have priority.	9/10/2019 2:47 PM
43	Listen to your students. Respect your students. Do what is best for your students. Enough with the external care to make the university more appealing to outsiders - you have a student body that needs care and attention. Respect, listen to, and do what is best for your students, and you won't have to worry about drawing people into the university. It will happen naturally if you show that your students are your priority.	9/10/2019 9:41 AM
44	I think finding a better way to get information out than just spamming people with emails would be good because a lot of students probably don't check their email regularly.	9/10/2019 9:08 AM
45	It's not wheelchair accessible. And while that isn't a problem for me, I've my friends struggle with it and it's upsetting. The multi-cultural students often get ignored. Johnson Hall really needs some work.	9/10/2019 6:06 AM

## 2018-19 Ferris State University/Kendall College of Art & Design Graduate Exit Survey

47	I don't think I would change anything about the Downtown campus, I believe the location is perfect since I live close to the downtown area and I had the most outstanding professors along with advisors. They were really on top of their game.	9/9/2019 11:20 AM
48	I feel like if they had morning class or even afternoon class that would be great for some people because some people might have a back to back schedule so instead of waiting all day till your evening class starts you can just have a morning class instead.	9/8/2019 1:49 PM
49	Sense of belonging, a strong connection to Ferris just feels like it's missing	9/6/2019 11:40 AM
50	some of the professors need to go	9/4/2019 1:23 PM
51	More student events/ greater awareness of events	9/4/2019 1:22 PM
52	The commuter parking. It is terrible for commuters, the lots close to class are always full and faculty can park there without consequences. There also isn't a nice area for commuters. It would be better if the school would appeal to commuters as well as students who live on campus.	9/4/2019 10:57 AM
53	Involvement, I think if there were more joint events between departments, offices, and majors that would help students get to know resources as well as each other. I think the campus is still very divided. An incentive, whatever org collabs across campus the most should receive an award.	9/4/2019 10:38 AM
54	Some of the classes seemed harder then they should have been. I took Organic Chemistry with two different Professors and one was easier than the other. Maybe Professors could work together to see what works?	9/4/2019 8:56 AM
55	I wish I had better developed my creative skills.	9/4/2019 7:09 AM
56	better education on your opportunities on campus/ in degrees.	9/3/2019 4:39 PM
57	I wish the advisors to be more hands on.	9/3/2019 4:38 PM
58	More business degree options for online students. Ferris needs to invest more time and money in their online programs and students. I never received a welcome call from my advisor (as stated in my welcome letter) or anyone when I was first accepted into Ferris' online program. However, I had a better experience when I was initially accepted as a traditional student. Online students are typically a different demographic, but should receive the same level of support from staff.	9/3/2019 11:35 AM
59	the internship program	9/2/2019 12:20 PM
60	There is not anything significant I would change about Ferris.	8/30/2019 10:22 AM
61	Some of the levels of prerequisites for some of the programs	8/29/2019 12:25 PM
62	Diversity inclusion is not real	8/29/2019 9:47 AM
63	More involvement from Advisors. Sometimes hard to get ahold of.	8/29/2019 7:52 AM
64	Better facilities!	8/29/2019 6:11 AM
65	The careless spending on things such as nap pods and massage chairs. Also parking.	8/28/2019 3:56 PM
66	Student advisors being trained to better advise students	8/28/2019 8:41 AM
67	The only thing that I would change is adding more student involvement in business classes. I would've liked to see more real world examples and go out into the field.	8/28/2019 7:13 AM
68	I would make more of the human resources classes on campus.	8/28/2019 5:37 AM
69	My time at Ferris would have been more efficient if more of my required classes were offered in the summer semester.	8/26/2019 6:48 PM

74	Being an online student limited my actual involvement in campus life and such activities so I feel as if I don't really have room to talk in this category. If I had to change something however it would be conducting the business classes in a different format.	8/21/2019 7:47 AM
75	Take stats out of the curriculum. It is a waste and has nothing to do with many degrees.	8/19/2019 1:05 PM

76	Making more classes available (MA Degrees) at the Grand Rapids campus.	8/19/2019 5:55 AM
77	Dorm life was strict	8/18/2019 11:43 AM
78	Please bring back my professor [REDACTED]. He has been the best professor I've had throughout my college experience and helped shape me into the software engineer I am today. If it we're not for him, I would not have ever come to Ferris or obtain the degree I have today. We need good passionate people like him teaching future students that this university.	8/18/2019 9:18 AM
79	The classes in my specific major are dated and not aimed towards the advanced technology that we have.	8/18/2019 7:52 AM
80	I would like more online classes available and different professors.	8/17/2019 4:08 PM
81	Nothing.	8/17/2019 9:25 AM
82	bigger parties	8/16/2019 11:25 AM
83	Cost of tuition	8/16/2019 6:07 AM
84	Specifically, I feel that the MTH 114 requirement should be removed from the Accounting Program requirements. From my personal experience and knowledge of others' experiences, I felt that taking that class was a profound waste of time and money. I feel that it needs to either be improved or taught by a different professor. It felt as though I was retaking the college algebra class that I took my first year of college at NMC in Traverse City, MI. It was also strange to be taking a basic math class during my senior year of college (because I spent most of my time taking NMC classes in the beginning of my college career, I was forced to take it my junior or senior year - when I was enrolled at Ferris and therefore was forced to remember basic math skills that I had become rusty on due to taking classes that were centered around my program which is accounting/business). Also, during the class, we did not ever use the book (written by Ferris) that we were required to purchase. It seemed as though there was confusion regarding the professor and the course expectations. Again, I know that others in my class felt similarly to this. I thought this information would be helpful to know.	8/15/2019 1:10 PM
85	I would like to see more support with the athletics.	8/13/2019 11:27 PM
86	Better and prompt communication with online students.	8/13/2019 7:02 PM
87	Get a Chipotle.	8/13/2019 9:41 AM
88	BETTTER STAFFFFF	8/13/2019 7:07 AM
89	Nothing	8/12/2019 10:43 AM
90	Expenses.	8/9/2019 9:25 AM
91	My experience with advisors. My first advisor left my 12 credits of science courses of my check sheet. It took 2 years for my second advisor to catch that they were missing. Then my graduation was delayed a semester.	8/9/2019 7:43 AM
92	This is really nothing I would change. I believe that Ferris State really meets students needs and concerns.	8/7/2019 1:50 PM
93	I think that some of the on campus fees should be waived for online classes.	8/7/2019 1:10 PM
94	I would change parking options.	8/6/2019 3:43 PM
95	Lower tuition costs.	8/6/2019 1:47 PM
96	I'm not sure.	8/6/2019 9:13 AM
97	There does not appear to be a lot of coordination from other departments with the College of Education. For example, I have taken a few English courses that I did not feel I gained relevant knowledge to my studies for. I took a Linguistics class that was VERY challenging and frustrating, I feel that this class could have been very beneficial to my teaching career had it been taught in an educational light. I know this was a frustration for many students for this class and perhaps a few others.	8/5/2019 10:32 AM
98	Some of the general education requirements are unnecessary and unneeded.	8/5/2019 8:58 AM
99	No	8/4/2019 9:53 AM

## 2018-19 Ferris State University/Kendall College of Art & Design Graduate Exit Survey

101	Ferris should move entire pharmacy program to Grand Rapids. P1 and P2 should move to grand rapids theres more pharmacies, hospitals, and clinics in the regions so more opportunities to work and get real world experience.	8/1/2019 6:59 AM
102	I wouldn't change anything, I have had a great experience at Ferris.	7/30/2019 1:02 PM
103	The length of the required internship for my major was somewhat challenging at times because of my full-time work commitment. Because my day job is outside of the criminal justice field, I did not qualify for an alternative internship. In the future, I would suggest being a bit more accommodating of adult learners with full-time jobs.	7/30/2019 10:30 AM
104	I have no specific changes.	7/29/2019 2:47 PM
105	Better on campus living or even off campus living.	7/29/2019 11:50 AM
106	More extracurriculars related to music and theatre and support towards these programs. The theatre program was where I spent a majority of my free time and many of my friends are from that. It would be devastating if other students couldn't experience it in the future.	7/27/2019 11:29 AM
107	Create a structured plan/document, similar to a contract, that clearly defines a students graduation path. This will exercise transparency in case of any degree requirement changes. It will also give reassurance to the student that their graduation path can't change on them at the last minute. As students, we rely heavily on the advisors to guide us.	7/25/2019 11:24 AM
108	We need more parking!	7/25/2019 9:26 AM
109	I can't think of anything I would change.	7/23/2019 4:48 PM
110	If I could change something about Ferris it would be how the accounting teachers do not care and do not grade any of your assignments of exams that you worked hard on, how they try to sign you up for classes that you already passed, how they are rude to you, how no one wanted to fix anything, how they tell you there is nothing they can do when they mess up, how they leave you to struggle, and how overly complicated figuring everything out is.	7/23/2019 4:23 PM
111	Online programs/functions need to be adjusted. Some class information was unclear or confusing. There needs to be an overall protocol for every class online, so the Blackboard class layout is not different from the next.	7/23/2019 5:28 AM
112	Offer dual programs containing both Bachelors and Masters Degree.	7/20/2019 11:27 PM
113	Parking is a huge issue still and needs to be evaluated for the future.	7/18/2019 6:12 PM
114	The school itself was very expensive for what it offered, and the town didn't have much to offer to students. If I could change one thing, it would be to update the classrooms and learning curriculum for certain majors (business in particular).	7/16/2019 11:30 AM
115	I would change some of the professors. Possibly bringing cost down so more people can attend. Overall I am very happy with my experience.	7/16/2019 10:55 AM
116	There is nothing I can think of at this time.	7/16/2019 7:41 AM
117	No more homework	7/15/2019 6:18 PM
118	It was somewhat difficult to find a space in one of my final classes. Finding a way to open more sections for students close to graduation would be helpful.	7/15/2019 5:23 PM
119	Some how make more parking available on campus and make scheduling easier. Also only taking classes that actually are useful for our degree	7/13/2019 11:58 AM
120	Communication and expectations of the PROMOTED program. There were many times that I felt like I did not receive adequate information in a timely manner.	7/12/2019 8:31 AM
121	NA	7/11/2019 2:11 AM
122	I do feel some of the teachers and curriculums should be assessed. There were a couple classes where I felt there should have been more since there was lack of curriculum.	7/10/2019 4:38 PM
123	Nothing everything is fine	7/9/2019 11:26 AM
124	Remove mandatory internships and assessment classes.	7/8/2019 5:56 PM

## 2018-19 Ferris State University/Kendall College of Art & Design Graduate Exit Survey

125	I would add sororal housing to the campus as 1) an attraction for potentials to attend, especially girls; 2) New beautiful buildings for students and visitors to gaze upon; 3) A new source of revenue for the school; 4) on campus allows for checks and balances I would also try to connect Greek Life with Athletic life as they go hand in hand and yet their is a distance between the two	7/5/2019 7:03 AM
126	I wish Facilities Management certificate program was available as an on-line BS degree program.	7/2/2019 9:03 AM
127	Nothing	6/26/2019 11:55 PM
128	The leadership, they're very greedy and are only in it for the money, they could care less about the students.	6/26/2019 5:03 AM
129	None.	6/25/2019 3:49 PM
130	More classes should implement presenting information to an audience.	6/25/2019 3:03 AM
131	Better facilities.	6/21/2019 11:56 AM
132	Better Residence Halls	6/18/2019 1:41 PM
133	The way the university promotes diversity. As much as we state that we promote diversity, we really don't. As a student of color, there were multiple cases of not feeling welcome despite the 3 departments that promote multicultural students. It should be departments promoting diversity not just those that have to display it.	6/18/2019 10:52 AM
134	Better financing options for us who pay out of pocket, Seniority over new stuff on campus rather than the opposite, more funding to my program, more film study opportunities, cheaper housing, etc.	6/17/2019 7:02 PM
135	To be honest I can't think of anything of hand.	6/17/2019 4:33 PM
136	-	6/17/2019 11:20 AM
137	nothing comes to mind	6/16/2019 12:10 PM
138	Needing a parking pass to go to the rec center	6/7/2019 11:00 AM
139	A few live webinars for on-line courses.	6/6/2019 4:24 AM
140	Make esports a varsity sport	6/5/2019 5:27 AM
141	Very pleased	6/4/2019 1:24 PM
142	More school spirit/student involvement for off-campus students.	6/4/2019 8:20 AM
143	The availability of certain classes only offered at certain times.	6/3/2019 10:09 AM
144	Nothing.	6/3/2019 5:55 AM
145	I like how other colleges have gone to shorter semesters. Many of my fellow colleagues only have a class for 6 weeks. Yes, it is a faster pace but you complete the program quicker.	5/31/2019 7:31 AM
146	The requirements for the degree. Some of the classes seem lack luster or unnecessary.	5/29/2019 9:51 AM
147	The parking for commuter students.	5/28/2019 9:50 AM
148	More on campus activities	5/24/2019 12:29 PM
149	I think that the Cultural Enrichment and Social Awareness requirements are not needed and are very limited in the scope of classes that you can take. I agree there should be elective classes outside you major to provided a well rounded education, however forcing me to take classes in subjects like History, Psychology, or Anthropology seems far less useful to me and my career as opposed to a class like Basic Welding where you can develop a skill that will benefit me further in my career field.	5/23/2019 5:38 AM
150	I wish you were more transparent when it came to advising. I have had appointments every semester to make sure I am on the right track, and I have had problems with them trying to add more classes onto my degree.	5/22/2019 4:31 AM
151	Obviously the price, but I would also change the environment of the dorms. I hated staying in the dorms and could not wait to get out. I was expecting to make so many friends, but instead found myself walking the halls to make friends only to find closed doors with no people in sight. If I could change one thing it would be to make the dorms a more friendly and upbeat environment.	5/21/2019 10:21 AM

## 2018-19 Ferris State University/Kendall College of Art & Design Graduate Exit Survey

152	I would change the way advisers are trained/informed. I have had many advisers in my time at Ferris, and many of the experiences I have had were, to be put bluntly, terrible. That is not to say that some experiences were good since I have also had my fair share of good experiences with advisers. I simply would advise to better train the faculty of Ferris advisers in their position, or have them be better informed of what students may need assistance with and how to properly give aid to them.	5/17/2019 2:52 PM
153	No changes necessary.	5/17/2019 6:32 AM
154	Nothing.	5/16/2019 1:53 PM

163	Bottom line, administration should try to care about their students.	5/10/2019 11:34 AM
164	Count the training and life experience people already working in the law enforcement field have towards the requirements for the degree program. It's like your all about how much money you can squeeze out of a student. I'm sure I could have taught some of the classes I was made to take.	5/9/2019 10:14 AM
165	The staff needs to be more on board with their students. I feel that there was a lot of miscommunication with taking my prerequisites for my main course sequence for nursing.	5/6/2019 3:57 PM

172	Classes required outside of degree/interest.	5/3/2019 8:19 AM
173	Parking, get rid of the meters. It is infuriating that a student has to pay \$100 for a commuter pass and still is forced to pay a meter fee at times. Also, demolish taggart field. It's land locked and seriously needs to be expanded. It the size of a high school stadium and we are a devision two team. It's honestly embarrassing. It has the potential to be a huge parking lot. Ferris should provide a new stadium where the new turf has been laid. Lastly, who's idea was it to house students with disabilities on the second floor of north hall? That is so ridiculously outrageous. If there were ever a fire, freshman students that are in wheelchairs would have an extremely difficult time exiting the building. I would only hope that if a tragedy like that were to ever happen there peers would help them exit safely. However this should not be an issue. They should have been housed on the first floor. It's very disappointing to have attended an institution such as Ferris that does not see this as a priority. I'm sure if other students were aware of this situation they would be just as disappointed in Ferris's choices as I am in this manner.	5/3/2019 12:00 AM

180	I wish they gave more information and were easier to work with.	4/28/2019 5:23 PM
181	The success of what you were going to learn in the class depended so much on the professor. There were the responsible professors who had a syllabus and would stick to it no matter what, and even if they were not the most interesting professors you knew you had to take responsibility and stay on top of your learning. Then there were the professors in whose class everything goes. they would assign tons of assignments on line, and in class only go over the assignments and not actually teach anything. There was no initiative to learn anything either because its basically an open book class. I love the idea of an open book class but it was the carelessness of the professor which almost encouraged a lack of care from the students. They seemed to be doing that not because they cared and it was beneficial for the students but because it was easier for them.	4/27/2019 11:19 AM
182	I felt like there was not a lot of communication with the Big Rapids campus with the outer campuses and I didn't have the same resources to me as students on main campus.	4/26/2019 9:30 AM
183	The only thing I'd suggest changing would be to ensure materials online stay up to date. I had been checking the transfer guide only to find out it was the out of date one when I went in for my first advising appointment. It worked out, I'll only have a lighter summer semester but it would have been nice to have been on track from the start.	4/24/2019 7:31 PM

252	New advisors who genuinely care about their students. New professors who are up to date on current topics that pertain to the class. Create new classes that are more updated to what's going on in the world.	3/26/2019 4:20 PM
253	Better professors in the college of business. There are so many professors with bad reviews and students who receive bad grades. If majority of students are struggling, it's time to evaluate the professor. I think these professors are all qualified and are educated but that doesn't mean they can teach. These professors needs to know how to teach us as students and really understand how to get the concepts across to us.	3/26/2019 2:50 PM
254	If I could change anything I would have more students be allowed to fail. When it comes to skill based classes and projects, some students fall behind and can't quite catch back up in more advanced classes. It would also be nice if the DAGD GR program had a bit more funding for labs to be open longer. For students who cannot afford programs at home, the labs are crucial.	3/26/2019 12:14 PM

## 2018-19 Ferris State University/Kendall College of Art & Design Graduate Exit Survey

270	Amenities on campus living need to be better	3/16/2019 10:36 AM
271	The University should look to invest more into the programs that have continuous higher enrollment and graduating rates. The College was originally established as a school for trades and continues to excel in this area but some programs are not receiving appropriate funding and/or staffing causing them to lose the influence they once had. If this University continues to ignore these issues and put funding into unnecessary renovations, Woodbridge N. Ferris commitment to providing top tier education for the trades industry will be lost.	3/13/2019 2:20 PM

275	Get rid of some of the more problematic staff.	3/12/2019 5:31 AM
276	There were several classes that I felt could have been better served in an online format, but that option is not given to us. I also felt that the communication between the faculty and the students on what the expectations were was not represented clearly.	3/11/2019 9:27 AM

281	I wish I could do all of my Master's degree in Grand Rapids. I might have to switch schools to complete my Master's.	3/8/2019 4:54 AM
282	The curriculum. Although I did learn a lot, I could have learned it in ways outside of college that would have been cheaper and quicker.	3/7/2019 5:37 PM
283	There needs to be a revival between the science department board (or whoever runs this college) and the classroom experience. It really feels like there is a huge disconnect between the people running these biology programs and what is happening in the field of environmental sciences. It seems like these programs have not changed or adapted much since the 1990s. If enrollment is down in the biology programs the answer is to change, not to keep cutting classes and trying to fill classrooms by decreasing the amount of classes available. Take risks and change. The only way to excite student learning is to make the coursework applicable and relevant. I can honestly say I hardly feel more prepared to enter the job market with my education from Ferris. I always wanted more out of the classes. I was not here to attend classes and get a degree just because. I wanted to feel like I really took away a great learning experience here and feel prepared to enter the job market.	3/6/2019 7:00 PM

290	Instructor choices... instructors who have been fired once already should not be re-hired	3/5/2019 10:14 AM
291	The way the COHP expects students to either drive an hour for a night class in Grand Rapids or take a Saturday class, but does not offer any support in forms of transportation costs or decreasing costs of attendance. It should not be my responsibility to go to a night class an hour away or make arrangements to take a weekend class as these are not during regular class times. However, in order to graduate on time I am required to do so.	3/5/2019 6:29 AM

300	I do not know if this could be changed but decreasing the number of social awareness or general education classes for individuals that have already received their license (RN). I had graduated from an accredited nursing school and received my RN license. When I started at Ferris to complete the BSN program, I had to take quite a few general education classes that did not pertain to nursing specifically so I thought it was slightly unnecessary to take those classes when they were not needed.	3/2/2019 5:26 AM
301	I would change the way grounds keeping was handled, the side walks were disastrous and hard to get anywhere during the winter months.	3/1/2019 4:32 PM
302	The follow up with cohorts established - especially at the Master's level. (particularly when you have a pilot program or something new). Actually be aware of the money and potential that off-campus and mixed - format students can bring to you in terms of future endeavors. (Published papers, positive feedback for FSU, etc). Be sure to show those students the same kind of attention and attention-to-detail as on-campus attendees.	3/1/2019 12:31 PM
303	The culture - as a student that commuted, I often felt cut off from everything else that was happening on campus, and the assumption by the professors seemed to be that all or nearly all of the students lived on campus.	3/1/2019 12:23 PM

306	I would change how the University has lack of caring for students during Snow days. State emergencies should not be the only reason for school to close.	3/1/2019 10:23 AM
307	Having better, major-specific advisors assigned from the start to the end of your college experience. This would promote a better advisor/advisee relationship and would greatly reduce confusion and wasted time on the part of the student.	3/1/2019 9:11 AM
308	As part of the CIS degree, specifically the web design courses, I'd like to see full website creation with HTML, CSS, JavaScript front end and a Java back end. I'd like to see it go over API's and could even incorporate databases. I think it would really help with the capstone at the end of the degree. Even some frameworks could be thrown in like Bootstrap.	3/1/2019 6:15 AM
309	Program and people in charge of RSO Music take action PRss for invite speakers nobody cares about. The food served i was tired of the same nasty stuff every week. ## 2018-19 Ferris State University/Kendall College of Art & Design Graduate Exit Survey

316	I would eliminate Greek life and educate members about the dangers of being involved in these organizations. I would also change the courses in early childhood development to better support students that are in this program. The child life concentration needs to be better supported offering more class times available to students. The Early Learning Center needs to be more involved with their students, checking in with them and provide support. The director is threatening students that they will not pass if they do not do as they are told. If students do something wrong they are told that they are not meant for this program based on the lack of support that the Early Learning Center is not willing to give.	2/28/2019 12:52 PM
317	If there was one thing i would change about Ferris it would be having more advisors closer to our dowagiac campus that way we can have face to face meetings for help instead of relying on emailing back and forth.	2/28/2019 12:45 PM
318	If your going to charge full university prices... make sure professors are administering the courses at that level. This isn't community college level, so make sure its not CC level!	2/28/2019 12:35 PM

322	Give the faculty and staff their full share of the bargain and compensate them fairly for the work they do. Take the next couple years through honest and open leadership and tide down some of the cynicism that exists within the university. Prioritize the important things and don't make so many unnecessary decisions where the costs fall upon the students.	2/28/2019 9:35 AM
323	Better facilities for athletes. Weight rooms, locker rooms, and indoor facilities are abhorrent or nonexistent. Given the tremendous success of Ferris athletics, the student-athletes should be given proper facilities and equipment.	2/28/2019 7:15 AM
324	Add a class in the Computer Networking Systems degree that specifically aims at servers, server maintenance, and linux systems, and a second class specifically targeting modern networking devices and protocols, as well as modern developments and advancements in technology.	2/28/2019 6:06 AM
325	Cost	2/28/2019 6:01 AM
326	Having professors that are here for research have to teach when they are obviously not right for it, but can't be fired because of tenure.	2/28/2019 5:46 AM
327	Some of the professors were not the best	2/28/2019 5:41 AM
328	Maybe offer more summer classes.	2/28/2019 5:08 AM
329	The College of Pharmacy's appeal process and what defines extenuating circumstances as appropriate or inappropriate e.g. inclusion of problems in low-income populations and mental health conditions. Failure for a course when all the syllabus criterion are met.	2/28/2019 12:55 AM
330	Take care of the roads and sidewalks in the winter. I know people who have broken their arms and laptops slipping on ice. It's a serious safety hazard and it looks like the college doesn't care about its students. Also seriously fund the music programs. Pep Band, Symphony Band, Jazz Band, West Central Concert Band, and Orchestra specifically. They do amazing work and don't get enough support for it. Repair the Music Center please.	2/27/2019 7:13 PM
331	I would make it a requirement that all professors participate in Blackboard. Being a commuter it is not always easy to be on campus for study groups and professors office hours. At the very least all professors should set up a forum for the course so students can more easily get a hold of one another.	2/27/2019 5:30 PM

337	Some teachers do not use Blackboard, so we go the entire semester not knowing our academic standing in the class.	2/26/2019 6:18 PM
338	Create more parking for students who commute. At \$100 a permit, there should be more than enough parking spots for commuters. Instead, I often found myself circling a parking lot, even in the larger lots like lot 1, waiting for a spot to open.	2/26/2019 4:48 PM

349	nothing, everything was great	2/25/2019 10:29 AM
350	The only thing I would change about Ferris is updating the dorm rooms and classrooms. They are very outdated and could use some help.	2/25/2019 10:15 AM
351	Plow the roads more. And put salt down. Going anywhere on campus in the winter is a nightmare.	2/25/2019 9:27 AM
352	1- the parking situation needs to be fixed. If students are spending thousands of dollars on tuition and another \$100 for a parking pass, there needs to be a place for them to park. It is inexcusable to force students to pay to park, and not even provide sufficient amount of spaces. Many times at my time at Ferris I have had to wait/drive around the parking lot for 25+ minutes to find place to park. If students are actively trying to get to class, they should not be hindered from no available parking spaces. ESPECIALLY when they have PAID to park. 2- the print lab in the College of Business is inoperable. Any time I have had to print in this lab, it takes over 20 minutes for the computers to even turn on. Then it takes another 10 minutes to open access the internet. Then another 5 to open PaperCut. I have a hard time believing this is the best technology available, especially in the College of Business. Ferris should be embarrassed to offer this technology to PAYING students. I can not afford a printer at home, and this was a huge inconvenience my entire time at Ferris. This poor technology is an obstacle to students turning in their work and it needs to be addressed immediately.	2/25/2019 9:08 AM

Ex- you court ordered your professors to work because you wouldn't give them an adequate raise. That's pathetic.	2/25/2019 4:59 AM

374	More assistance for math students finding careers and preparing for careers. Based on experience, it seems that the university doesn't really care about their math program. More help with internships and jobs would be a lot better. Also, insuring that a student is adequately prepared for the workforce is crucial and I think a lot of the students in the math department are disappointed in how prepared they are.	2/20/2019 9:00 PM

378	The sexism in the DAGD program seems to be passed off as a joke. I have seen and experienced sexist remarks and jokes from professors and students alike. The atmosphere is not set up to take women seriously and this is not helpful for their education. This is not entirely due to the staff, much of the student body in the program is to blame since they seem to not be self aware. Many of the male students are creepy towards their female classmates and it makes them feel unsafe, but there doesn't seem to be much anyone can do about this since it's not a crime to be creepy. It is an uninviting atmosphere to attend, or want to attend, class in. The presence of women professors has/does improve this issue. I have not experienced any single offense I feel requires reporting, this is based off of my experience as a whole. I don't think this experience is unique to the DAGD program or any other male dominated field. Directly confronting the individuals causing this issue does not prove to be successful, and often makes the problem worse as they see this as an attack.	2/20/2019 9:31 AM
379	It would have been nice to have the same break periods as other colleges.	2/20/2019 8:38 AM
380	I wish my teachers were more communicative and followed their schedules more closely.	2/20/2019 7:02 AM
381	As much as I appreciate the course for Criminal Justice being available every semester at the Harper Woods location, I would have liked to see it available at the Center Campus at Macomb Community College. There was a lack of study area, food/water, library, and bathroom facilities at Harper Woods. Macomb's Campus has a huge campus that could offer more variety, convenience, and bring in more revenue for the college.	2/19/2019 1:34 PM
382	The computer classes I went through. They need to be changed so you actually feel like you know something when you are done. Like I mentioned before, I shouldn't be able to get A's in everything and not know much in the end.	2/19/2019 12:26 PM

401	I know school pride is something that is self-motivated, but I found Ferris to be lacking in school spirit. For young adults and students that are looking to come to Ferris, one of the big factors is if you can take pride in your school. While I believe it has been an accomplishment in getting my degree, Ferris does not support the type of pride that I would achieve from getting my degree at a different university. I am not sure what can be changed to support this. Maybe a higher standard of learning or a higher standard of admission. Ideally, I would want to have made sure my degree came from an outstanding school that was well-known for producing some of the best students. I do not see that Ferris has achieved that for many degree programs.	2/13/2019 1:39 PM
402	BETTER WIFI!!!!!!	2/13/2019 8:58 AM
403	This was one of the worst experiences in my life. I'm convinced college is a scam, especially ferris and the managers of the DAGD program. [REDACTED] them. They lost credit records of mine. [REDACTED] suggested classes that did not apply to my degree... It was a joke and it almost pushed me into a terrible depression. Something needs to be done about how theyre managing the DAGD program. If the classes and credits are too hard for your trained professionals to navigate then how are we as students supposed to?	2/13/2019 3:56 AM

## 2018-19 Ferris State University/Kendall College of Art & Design Graduate Exit Survey

411	If I could change one thing about ferris, it would be that they could be better at getting students involved. I know that ferris has flyers everywhere and they email students but I think especially when we are freshman, they should make it mandatory for us to attend a meeting that explains every ROS or program that ferris has to offer and give great details about the groups they have on campus. Many students don't pay attention to emails, but if there was someone actually speaking to them and asking them to sign up for stuff, I think that would help.	2/11/2019 5:12 PM
412	If there was one thing that I would change the wifi. The campus wifi makes it difficult to complete homework assignments on campus. The biggest struggle to get wifi to work is at the library was very frustrating.	2/11/2019 5:09 PM
413	If I could change anything at Ferris I would provide an easier way for someone to find the right fit in a major when they are a freshman. It would be helpful because I know a lot of people change their majors after freshman year or during freshman year.	2/11/2019 5:05 PM
414	Getting a better Maker Space for the students.	2/11/2019 3:49 PM
415	Lower tuition costs and include textbooks in the fee. Save some college kids money. Become more business oriented. Treat students like employees, realizing that outside of the classroom we have jobs and a life we need to be able to still live. Endless amount of homework is not beneficial to anyone, and hard on students mental and physical health.	2/11/2019 2:31 PM
416	Less courses that depend on online assignments just as chemistry using mastering chemistry or OWL	2/11/2019 7:45 AM
417	Better campus transportation.	2/10/2019 1:58 PM
418	I personally think Ferris needs to reconsider its closing policies for winter/weather conditions, especially since a lot students are starting to live off-campus and commute. I'd rather see the school valuing my safety in these scenarios than my education, or whatever benefit they may have when keeping courses open.	2/10/2019 10:18 AM
419	Stop adding upgrades that we cannot afford at current tuition rates. This school is not MSU or U of M. It's a cross between a community college and a 4 year university. Keep it that way. It's good this way. Also, no one wants to live on campus so building new dorms isn't useful. Renovations, sure. Additional dorms? No	2/10/2019 6:36 AM
420	Better run externship selection.	2/9/2019 4:20 PM
421	n/a	2/9/2019 10:12 AM
422	Being more supportive to student staff members within the department of housing and residence life. Being a student staff member is one of the most stressful jobs a student could have, yet the university does little to support them.	2/9/2019 9:23 AM
423	There were several times that administrators were not on the same page on student policies, which was frustrating as a student. It is very important for the policies to be clearly presented and available to students and that these policies be followed in a consistent way. It was unfair to have these policies change at the last minute on multiple occasions in ways that negatively impacted my ability to balance my school life, future career opportunities, and family life.	2/9/2019 6:07 AM
424	There are instructors that aren't very skilled at using Blackboard for their online classes.	2/9/2019 5:15 AM
425	The professors in some of the unrelated fields (Economics/Business) were not well rounded and from my experience, did not respect students as much from other majors. I understand it is important for professors to be enthusiastic about the topic of their curriculum, but as someone who struggles with certain topics, I did not feel like I could come to some professors due to their judgement and uninterested attitude in students who struggled in their class/field.	2/8/2019 2:30 PM
426	If I could change one thing about Ferris it would be the lack of involvement the board has shown. The board needs to become more involved in student affairs and ensure every student feels safe and welcome on campus. From past events that have happened on campus, I was disappointed about the lack of involvement the school showed to their students.	2/8/2019 11:54 AM
427	Reducing the amount of administrators and implement better ways of informing students of their requirements in obtaining their degree instead of purely relying on advisers	2/8/2019 8:27 AM

## 2018-19 Ferris State University/Kendall College of Art & Design Graduate Exit Survey

428	I would change the lack of assistance and understanding for commuter/non-traditional students. Unfortunately, when it came to that a lot of professors were not understanding and the scheduling of classes did not make it easy either. I would recommend more online classes for the social work program where applicable. As well as more lenience in attendance for students that leave a far distance from campus to drive.	2/7/2019 7:59 PM
429	The opportunity to complete more on-line classes. This makes it easier for working individuals to gain or expand there education.	2/7/2019 1:41 PM
430	Healthier food options.	2/7/2019 10:52 AM
431	Some of the curriculum of the program.	2/7/2019 8:27 AM
432	The Phi Theta Kappa transfer scholarship requirement of having to be physically on campus.	2/7/2019 7:39 AM
433	Nothing that comes to mind.	2/7/2019 4:19 AM
434	I wish they offered a secondary program locally as well.	2/6/2019 5:55 PM
435	More class offerings (ex. FINC 375 is only available once a year and only one instructor teaches the course), allow on-campus students more access to online classes.	2/6/2019 1:54 PM
436	Students should be given significantly more career counseling before graduation. Moreover, these discussions should happen earlier than Junior/Senior year. A majority of us (especially in my program and related ones) struggle to carve a path for ourselves.	2/6/2019 1:05 PM
437	The financial aid office can either be easy or extremely difficult to work with. In my 7 years at Ferris, I have had to deal with this office at least twice a year. I always felt the secretary or whomever answered my phone calls before being connected with the financial adviser was too invasive in the questions she asked, and would always try to "solve my problem" instead of connecting me. This was a common practice not specific to any one person. I would change this by instructing the secretaries to simply ask the nature of the call and forward the student on to the appropriate adviser.	2/6/2019 12:06 PM
438	I can't think of anything I would change as I had a very nice experience my entire time here.	2/6/2019 11:55 AM
439	Add more commuter parking.	2/6/2019 11:47 AM
440	I would involve more then 2 streets.	2/6/2019 10:23 AM
441	Tuition is wild. There are not enough scholarships available for students who have good grades, don't qualify for FASFA, and don't have financial support from family.	2/6/2019 9:44 AM
442	Due to older students, it would be great to have someone on campus 24/7 that can answer a gamete of questions instead of calling big rapids. My advisor is great but he is often torn in many directions.	2/6/2019 8:21 AM
443	Nothing to the curriculum that I can think of.	2/6/2019 8:04 AM
444	The RN-BSN program. Eliminate the group projected required in every course. Eliminate the NSG portfolio. The portfolio is outdated and there is no need for it to exists. If I pass my courses successfully there should be no need to waste extra energy and time on an extra steps that serves nothing more than being ornamental piece of work. Passing the course is evident that I successfully understand and satisfied FSU Nursing outcome goals.	2/6/2019 4:37 AM
445	Update the Auto program	2/5/2019 7:28 PM
446	Addition of a parking garage in the college of business parking lot, or in the residential parking lot to the north of the football field. This would allow for all students to be able to find parking in the center-most part of campus. This should be open for commuter parking as well so they do not have to park a mile away from their class. This is well worth the investment and will increase the number of applicants, trust me I did a huge research paper on it...	2/5/2019 7:03 PM
447	More online classes for DAGD, it already has essentially a mixed delivery. I believe overall that it should allow it for people who are on full time jobs within industry within their final years at school.	2/5/2019 6:43 PM
448	more scientific understanding classes for other degrees	2/5/2019 6:32 PM

## 2018-19 Ferris State University/Kendall College of Art & Design Graduate Exit Survey

450	Get rid of all the professors who really don't give a shit about their students. A lot of the professors in the college of business are tenured and don't care about how they teach the class or even if their students learn. They have crappy lesson plans and their style of teaching needs to be reviewed. Hard to understand materials if the way they are presented is not in a way that kids today understand. For example, [REDACTED] was a lousy Professor. Barely could understand him, can barely write on the board. Class is just based on tests alone. Hard to understand the material when you can't read his handwriting and he doesn't stop or explain himself. Just need to get rid of the people that don't care, and plug in more young professors like Professor Madziar, and Dr David Brown.	2/5/2019 4:38 PM
451	Tuition costs and student fees need to be reduced, or at the very least used to benefit the students in attendance.	2/5/2019 4:34 PM
452	It would be nice to offer one or two classes more than once a week so there are some options, but understand with such a small program.	2/5/2019 4:08 PM
453	The way Ferris budgets their money. Help students, don't just try to appeal to people's shallow interests. Also, Ferris should get a petting zoo, or have a dog pound on campus where students can hang out and play with pups or cuddle with them while reading a book.	2/5/2019 1:33 PM
454	Sexual assault prevention and more parking.	2/5/2019 12:32 PM

458	There were less required classes that were unrelated to my major.	2/5/2019 6:10 AM
459	I would add more classes in each semester. I did not have any issue with not having a class full, but there was some classes not available in some semesters.	2/5/2019 3:50 AM
460	obviously, cost. Bring it down a bit. Damn.	2/4/2019 6:23 PM
461	Nothing.	2/4/2019 5:41 PM
462	The one thing I would change is allow people with a bachelors degree to become professors so long as they're pursuing a masters. I had a professor in the Criminal Justice program who was pursuing a masters degree but the change was implemented and the university had to let him go. That man had knowledge and experience that was invaluable but was ultimately lost to the students due to poor decisions among the university. The students could've learned a lot more from him and I truly hope that eventually the university hires him back along with an apology and a pay raise due to their error.	2/4/2019 5:31 PM
463	I know college in general is expensive, but parking and tickets are financially damaging to students. There isn't enough space on campus for vehicles. I spent a lot of money on meters, as well as parking passes. Meters were not giving a long enough time for students with threes hour classes, therefore I was ticketed often.	2/4/2019 2:37 PM
464	I really didn't enjoy blackboard with the way it's set up and user interface. Although most of the time I agreed, a lot of the classes I took which were psychology or similar to, were opinion based. Fortunately, I didn't have to pay for my undergraduate classes. If I were someone who was paying for some of the classes I took I would think they are a waste of money.	2/4/2019 1:51 PM

470	Just about everything. Ferris feels very unprofessional and the quality of education students get here feels much lower than at schools like CMU or GVSU. Student attitude is negative and it feels like students are here just to get a degree and not be a part of their school. Additionally, being a transfer student, I never felt like I was a part of campus culture.	2/3/2019 7:03 PM

471	Well other than getting more parking, I would like to see Ferris get more students involved in RSOs on campus. There are so many of them, but not enough participation.	2/3/2019 6:36 PM
472	Tuition rates. I will be graduating with over \$25,000 in debt after 2 years of attendance.	2/3/2019 3:22 PM
473	I would add a freshmen orientation. Some other schools have the freshmen come a week or a few days before school starts so that they can get to know each other and make some new friends. I know we have that class all freshmen have to take, but I think it would be nice to have freshmen orientation a week before school. I would also change the parking situations. Students shouldn't have to pay at the meter regardless of if they live on campus or not.	2/3/2019 1:03 PM
474	More online options	2/3/2019 10:40 AM
475	Focus more on the trades programs because they are the main reasons people come here.	2/3/2019 9:50 AM
476	Nothing.	2/2/2019 10:30 PM
477	More video lecture, where the professor is visible, for the online courses. Other than that I am quite happy with my overall experience.	2/2/2019 6:37 PM
478	Work on making Economics and public speaking online other colleges have those in that format.	2/2/2019 1:39 PM
479	I would change the parking arrangements at Ferris. I understand Ferris has a high walkability score, but during the winter months having to walk across campus for class can be a challenge.	2/2/2019 8:15 AM

483	Not necessarily Ferris' issue, but the technology at the University Center in Traverse City could use quite a bit of work. While I was taking my SQL class, we had nothing but issues. I sent multiple requests to both NMC and Ferris IT, and even sent emails to my adviser, and the College of Business office with no answer. Beyond that, the speed of the connection and reliability of the wireless network left a lot to be desired by someone that's pursuing an IT degree.	2/1/2019 6:26 PM
484	More flexibility regarding students that commute, and the attendance policy's that Ferris enforces. I understand that you have to be in class to learn the content, and context of the lesson the professor is trying to convey. However, I commute from Grand Rapids, and the weather here vs the weather in Big Rapids can be very different. If GRCC was closed for example, I don't think it would be unreasonable for students commuting from Grand Rapids to be excused from class for that day.	2/1/2019 3:49 PM
485	Lower tuition.	2/1/2019 1:42 PM
486	The Nursing Program is somewhat disorganized which was frustrating at times.	2/1/2019 1:42 PM
487	While I suppose the cost is out of the question, some secondary requirements seem a bit...superfluous. It's not as if I did not enjoy just about every one of the classes I took but some outside of my direct field that were general requirements or classes that wouldn't have much bearing on my future were more of a money sink than something I thought was making me a more well rounded individual.	2/1/2019 1:33 PM
488	Some hands on training programs put a lot of undue stress on the students. I've heard most of the seniors in the graphic design program are in counseling due to the amount of stress. That's a little extreme.	2/1/2019 1:13 PM
489	As I'm writing this you've actually gotten better about it, but please give snow days when the roads are terrible. I don't want to see a professor or classmate become injured while trying to travel to class, and I know you don't want to be related to that. I'm not saying snow falls, cancel, but please just be a little less strict. You did a great job this week, but this was all the snow days we've had in 4 years, and some of them I literally cried the night before about the fear of driving in. Thank you.	2/1/2019 1:05 PM
490	Which is already probably going to change but I would've liked all the classes to be online. Some were not offered online but the in class offering was not worth the in class activities you can not get online.	2/1/2019 12:57 PM
491	One thing I would change about Ferris is having more flexible class times for higher level students.	2/1/2019 12:49 PM
492	Less Chemistry classes for Biology programs. I felt like I was a Chemistry major throughout my education. I would like more classes offered on animals, biology, and environmental sciences.	2/1/2019 12:18 PM

497	Commercial Ferris more throughout the state of Michigan. I'm from Battle Creek Mi, and there are more people than not that don't know anything about Ferris let alone where the campus is located. Commercial more and visit high schools south of Grand Rapids. You might get more potential students than you'd expect.	2/1/2019 11:17 AM
498	Have better counseling staff when it comes to figuring out what classes you need and what the process is for figuring this out.	2/1/2019 11:01 AM

While this might be too much, more than one PPP class would have been nice. Perhaps instead of systems course, which was my least favorite.	2/1/2019 9:54 AM
503	Get rid of the teachers that don't actually care about the students, or their teaching methods are extremely dated. I had a few professors during 2018 that used information/examples that were from the 90's, and didn't tie in the information to current world situations, therefore resulting in not learning much of anything.	2/1/2019 9:51 AM

513	Update the buildings on campus, north hall is a great start but when you only allow freshmen to live there you limit your retuning students to live off campus. This seems to be obvious to keep getting better and have students wanting to enroll.	1/30/2019 11:51 AM
514	Don't offer a program in a new location if you can't promise all the classes will be offered in that location. Some of us don't want to drag out being in school longer than we have too because you're not going to offer a certain class till next year.. or it should be an option for a student to be all online.	1/30/2019 8:31 AM
515	The cost. The cost of classes, books, parking, housing, ect. can make it very difficult for students to ever enroll at Ferris. I would love to see costs decrease for the future or even things not costing student money like parking.	1/30/2019 6:42 AM

517	Bring the Starbucks back to the business building.	1/29/2019 6:33 PM
518	<p>MONEY. I have lived on campus for all 3 years that I have attended Ferris, and the only bonus I have gotten for that is a couple Bulldog Bucks and a free parking pass. For how much money I am giving to a University, I feel like the experiences I got back were not equivalent. Another issue I have is with classes and textbooks. I worked for a family owned textbook store for a community college back home so I completely understand the business of college textbooks, it is inevitable that they are expensive. My issue is that I pay around a grand per class (again, college is expensive, understandable) but on top of that grand I have teachers who have power to choose any form of teaching... whether that be through a textbook, through an access code or just through plain old lecture. Yet, the majority of teachers choose an access code. So suddenly, I am paying up to 1,500 for just one class, excluding class materials and school supplies. I strongly believe that access codes are a way for publishers to get a huge profit with little output. I do not find these helpful, I know a lot of classmates do not even challenge themselves because its just as easy to copy and paste the question to find the answer. Professors are getting a lot of my money to push me off onto an access code that is not tailored to my learning. Therefore access codes are a waste of money, and I can't even access them after the semester is over! There are so many textbooks that are in older additions (with very minimal changes) that are sitting on shelves collecting dust that could have kept family owned businesses open and running. Some professors are kind enough to let you use these, but the bummer is that I can't use financial aid to help me because I have to go get them elsewhere because the textbook store would refuse to carry a \$10 book on the shelf when they have the same one marked to \$100+ Another thing is that I have had some professors use their own printers to create booklets that we learn out of and fill out straight from lecture- these are the classes that I have found I have gained the most of my education from.</p>	1/29/2019 6:17 PM
519	The parking	1/29/2019 1:00 PM
520	<p>The professors here are wonderful. I do not completely agree with all the classes that were mandatory for my major since a majority of them are ones that I cannot apply to my career. I also do not like the hassle that I have had to make to enroll in classes, take online classes, and the carelessness of some of the faculty members when it comes to registration and my education. I've had to work incredibly hard to just take online classes due to a "policy" that my major is not allowed to take certain classes online. I've also struggled with the fact that I've had to pretty much fight my way to register for classes even after my adviser would tell me that the classes that I am registering for should have no problem yet my adviser was unable to help me register for my classes since it was outside of her ability. I'm not a fan of how much being in an RSO has been pushed on me ever since my freshman orientation. Almost daily I receive emails about joining an RSO and have had time wasted in my lecture classes for students to come in and try to get us to join their RSO. It's clearly great for those who are not commuters and those who do not work full time while going to school full time. My adviser also sends me constant emails about joining an RSO that I have told her that I do not want to join. Honestly, the push for RSO and campus involvement is way too much here and I do not agree with it. Students feel like they have to join an RSO to be successful in college which is completely false. I'm glad that I will be able to obtain my degree but I personally feel like I have dealt with too much hassle here and that the faculty members are not as helpful or polite with student relations as they should be since it is their job. Yes, my education here has been quality and most of my professors have been nothing but knowledgeable and insightful in which I am grateful for. However, the process to just take classes here, dealing with careless faculty, advisers and annoying RSOs is a huge downfall. As well as the fact that we all pay \$100 for parking when it is almost impossible to find parking which makes too many students late or miss class because they would rather not get a parking ticket for parking in a faculty parking lot which always has open spots.</p>	1/29/2019 12:44 PM

530	More in depth information regarding requirements for programs at the beginning of college career to make more informed/smarter/economic choices in your college years for a career path after graduation. Classes/informational meetings on what the perspective jobs/wages/demand will be..realistic ones... before you choose a program not, oh there is a high demand for this job field starting out in your program to...then you find out in your internship that the field you are going into is saturated and there are no sustainable jobs, (full time) jobs in the area or surrounding states. :(	1/26/2019 5:48 AM

546	The Education Department is a crucial point in any university, and should be treated as such. At Ferris, I have been repeatedly let down by the Education department and its professors. I have tried to file formal complaints against professors, but unfortunately without a department leader there is no one to report to. I would like to see the Education department improve it's faculty, and to more deeply observe and criticize the current tenured, associate, and adjunct professors. In my slightly biased opinion, teachers are one of the fundamental jobs in any society, and they must be educated as such. At Ferris, I have shared complaints and stress with my classmates about coursework and our professors. I can provide specific details if necessary, but I would hope to see the Education department at Ferris utilized and reformed to its potential, because the teachers that pass out the doors to their careers must be adequately prepared, and they currently are not.	1/23/2019 8:43 AM

All I ever got was an acceptance letter but I never got any information about what my email address was going to be or even how to access my MyFSU account. Let alone I was never emailed to my personal email about freshmen orientation days. I had to find out from a friend. I also feel that Ferris should do a better job in welcoming the Latino community and have more scholarships and resources. For example some on staff full time that speaks and is able to communicate with Latino parent. There is other things that Ferris could do but I feel like these are very important and easier to achieve.	1/17/2019 9:13 AM

584	Newer professors who are more knowledgeable about what is going on today. Many of the professors don't practice outside of teaching, so what they know is out of date. A move towards slowly turning over that aspect would be a great step forward, and better for the students in the future. Professors are also very stuck in their ways and wary of change and it can negatively impact the learning process for students. Many times the bad attitudes came from professors who are chairs and heads in their departments so there's not much that can be done to take care of it or address it without causing further issues.	1/17/2019 8:06 AM

589	I would warn Ferris about going too far to accommodate special groups of students, such as with the installation of the LGBT center. College is a place for individuals to learn how to deal with other people's differences, and by giving them safe spaces to protect themselves from conflicting ideas or people who disagree with them is a disservice to them. Students should learn to cope with things they don't like on their own, without getting special accommodations provided to them by the administration. I feel this is the purpose of college, and I don't want Ferris to go too far down this road where they start to do a disservice to some of their students by not providing them the experience of learning to deal with issues on their own.	1/16/2019 8:43 AM

592	How the main campus supports off campus students. Resources offered to students in Big Rapids were not available for students that attended in locations like Grand Rapids. I understand that we are using what is technically a GRCC building and services, but I still feel that there are a few commodities that should be offered for students that attend these classes and/or are dual enrolled with GRCC or another Community College. Services such as 24 hour laboratory use, especially for DAGD students, and community college tuition holding for consortium students are two particular services that I found to be frustratingly lacking during my school career.	1/15/2019 2:55 PM
593	NA	1/15/2019 2:39 PM
594	I would change the fact that there is little to no meters around campus available for parking especially around the allied health building and the optometry building. There is also very limited parking by bishop causing kids to walk in the snow and bad weather. The sidewalks around this area are extremely icy in the winter months which makes it very hazardous to students walking. They do not salt the sidewalks very well. I would also change the fact that students should be able to use and park outside of the gym if they are using the facility. You can do this by giving them a gym pass to park outside. I workout frequently all throughout the day and students shouldn't have to park all the way across campus just to use the gym that they are given. Besides parking, the school is great. It's a big issue for students that I feel has a lot more solutions than we are given.	1/15/2019 12:53 PM
595	I would make sure that there are advisors who can better guide you through your years at Ferris. That was the biggest downfall with my education. I would also say something about parking but it is something you have to deal with everywhere.	1/15/2019 12:13 PM

Statewide and Online students may receive the same degree, but the amount of scholarships that are available is pitiful. We also do not receive the same amount of resources. 598	The advisor that I have now..	1/15/2019 7:56 AM
599	For me this was an excellent experience and I wouldn't recommend any changes.	1/15/2019 7:32 AM
600	I wish that we had better facilities for our athletes. Considering how good all of our programs have been the last couple years, I think that they deserve a better weight room, etc.	1/15/2019 7:04 AM
601	More class options/times	1/14/2019 8:53 PM
602	The professors overall, they lack communication skills in a few departments. The response time on emails and calls to their offices are tremendously long. When greeted with an opinion that differs from them the student is seemed as incompetent, and the student becomes undermined and treated poorly. The atmosphere on campus is depressing and makes students sad and less likely to attend. The residents halls and buildings in general are outdated and awful.	1/14/2019 5:39 PM
603	Could be more helpful in guiding what classes I need.	1/14/2019 3:12 PM

610	Allowing all students to have equal access to online classes offered by the university.	1/13/2019 10:30 PM
611	Often paperwork processes were slow. This was a usual pain, I am not sure if this is because I attend a remote campus in GR which is different from Big Rapids. Also some professor did not seem equipped to teach some of my classes, I felt on a couple occasions (not too many) that the person in the professor role did not seem fit for the job. And that was disappointing to me, especially considering how much money I pay for each class, I expect a high quality teacher. This most certainly was not the case for every class, but a couple. Also was not happy about the Outlook switch from Google Drive. That was irritating, but a small detail.	1/13/2019 7:51 PM
612	Nothing comes to mind. I have had a wonderful experience.	1/13/2019 8:58 AM
613	I had many courses regarding my major that were too similar, I felt like I relearned a lot of unnecessary information and would have liked to gain more new knowledge and scenarios.	1/13/2019 8:17 AM
614	lower the cost	1/12/2019 11:56 AM
615	Having your academic advisor be on the same campus that you are currently at as a pharmacy student would be a great improvement.	1/12/2019 11:07 AM
616	Online classes seem to have a lot of "group work" which is inconvenient for online students to organize and fully participate.	1/11/2019 8:08 AM
617	Stop pretending that you don't hold back money for improvements to the universities resources.	1/11/2019 6:59 AM
618	Get some new faces and professors. TO many professors don't do this because they love teaching..	1/11/2019 6:56 AM
619	If a course is offered, there should be help in the teaching center for that course. Also, there should be some bridge between the community colleges that have agreements with Ferris to allow alumni from the community colleges to return to their teaching centers for assistance (as long as they have it available) while taking classes at Ferris. Maybe allowing the student to choose if they will be using Ferris teaching learning center vs. a community colleges, and then somehow transferring funds to support using this.	1/10/2019 5:53 PM

## 2018-19 Ferris State University/Kendall College of Art & Design Graduate Exit Survey

620	I am/was in the Doctorate of Community College Leadership program. I thoroughly enjoyed my experience. One suggestion is when we had to travel to Grand Rapids for the weekend class, we had to pay to park. The cost to park needs to be built in some how in our fees. \$20 a day is expensive. Possibly get us a parking pass or something.	1/10/2019 5:46 AM
621	More consistent staff and student input when it comes to removing staff for unnecessary reasons	1/9/2019 2:06 PM
622	I think it would be wonderful if the study abroad option was free to the student. I think it is a wonderful opportunity for students but could not afford the trip so I completed the traditional practicum instead.	1/9/2019 12:13 PM
623	Curriculum in the college of Pharmacy. This is currently being changed.	1/9/2019 11:25 AM
624	I would not change anything about Ferris.	1/9/2019 11:01 AM
625	I think the DCCL program is exceptional and the variety of attendance options and the experienced instructors makes this program one of a kind.	1/9/2019 8:50 AM

636	I would like to see more faculty at the northern campus, but appreciated being able to form connections with my professors over multiple courses.	1/7/2019 7:58 AM
637	A good number of facilities feel outdated, despite the universities claimed academic success and apparent athletic success. Replacing those and seeing more appreciation and support for students across the university would be a step in the right direction.	1/6/2019 6:53 AM
638	Lower cost for online program	1/5/2019 4:45 AM

663	why separated the two collages. Im not a city person, but it seem if i wanted any creative class i would have to travel to another city to learn. 4 of 5 advisors i had, didn't care about me. They all just ignored me and left me with more question than answers. Staff do not need to force feed kids ideals. Promote multiply different view and let the kids to decide what they believe. the PC culture that is found in the staff and programs is chocking out all other options that students have. Pushing them just to remain quiet within class.	12/19/2018 8:49 AM
664	There is nothing I would have to say needs to change about Ferris. I loved being able to attend the University Center in Traverse City because of coming from such a small high school and community college I never felt intimidated by how large the classes may be which helped me a lot.	12/19/2018 6:08 AM
665	More research opportunities	12/18/2018 3:52 PM
666	More parking spots and actually paying professors decent wages.	12/18/2018 3:16 PM
667	I have serious issues with how the internship aspect of the program is implemented. I attended two separate internships prior to attending Ferris for six month terms at the Bureau of Alcohol Tobacco Firearms and Explosives and the Commodities Futures Trade Commission in Washington D.C. , additionally I have served nearly eight years in the United States Army deploying to both Iraq and Afghanistan, working in close proximity to international police forces. My primary complaint is that the Internship Program is only offered during the summer months and is what I would consider very inflexible with students issues concerning time and consideration to circumstances ranging from financial to internship requirements. I am extremely fortunate and have the GI Bill that covers many of my expenses, but working for free for 26hours a week during the summer months makes it incredibly difficult for working students to maintain employment with a company that is not overly supportive of an individual continuing their education. I understand that it is the students responsibility to continue or discontinue their education, but I believe the school could attempt to be more flexible in regards to such concerns with offering internships or an alternative project throughout the academic year. Due to schedule conflict and extenuating circumstances I had to put graduating off for a year due to this inflexibility, and thus putting my life and potential career opportunities on hold for an additional year, this may not be all that difficult or burdensome for many of the younger students but I am single twenty-nine year old father and a year means a lot when it comes to pursuing a new career path.	12/18/2018 1:55 PM
668	The nursing program does not prepare you for the real world. Some of the professors have no clue what they are even teaching about and honestly, I felt like it was a waste of money	12/18/2018 12:15 PM
669	Many of the things I wanted changed have been changed during my time there such as the rec and teachers stepping down.	12/18/2018 9:59 AM
670	Better wifi. Cheaper costs. Better plowing of side walks.	12/18/2018 9:48 AM
671	The advisors at Ferris are very 50/50 on whether or not they are helpful to the students that they are assigned. There needs to be more training for the advisors or the option to report the advisors for not really doing their jobs well if they are failing the students.	12/18/2018 8:16 AM

709	I did not like most of the team work. Because I was an online student, the time zones made it very hard to meet online or on the phone for team projects. Also there were some team projects that I and one other member had to do all the work for a four man team. We all got the same grade however only the two of us worked.	12/5/2018 11:48 AM
710	Doing away with hybrid classes in which students meet with their instructors only a handful of times. I found that in these classes the instructors were less involved with the students and I believe making those classes 100% online would be more beneficial for students.	12/5/2018 10:39 AM
711	The advisor system and the the FOOD IS TERRIBLE...	12/5/2018 9:53 AM
712	The staff needs to be more encouraging, and actually TEACH! I've taught myself everything after classes because there is a lack of understanding and good teaching ethic. Going over slides that were made years ago doesn't help anyone. I would also like to say that if a Professor has an ENTIRE class where students are failing exams...something needs to change and ALL classes should have some type of homework so students are actually learning after classes and it keeps them motivated and engaged. I also believe that exams should NEVER be a high percentage of your grade because students, like me, who can get 100% on the homework and study day in and day out but do horrible on exams due to anxiety...it isn't fair and does not define who I am, or anyone else struggling with this issue, as a student.	12/5/2018 9:00 AM

720	Making sure all professors are up to date with technology and are able to use blackboard. I believe that having professors who still don't use them to be outdated and unintentionally hindering the students. If you really wish to give us everything at our finger tips, then please make it to where each student no matter what program they are in, as the resources they need to be a great students.	12/1/2018 10:01 PM
721	Make sure the teachers enjoy the work they do.	12/1/2018 9:31 AM
722	The Wifi seems to have been an issue with me the last year of college, I have contacted TAC numerous times and nothing has been done. I do also think parking is an issue, I have received tickets for parking somewhere else, when staff has parked in a lot that I am supposed to park in, and don't receive a ticket.	11/29/2018 12:15 PM
723	I would look into the track that professors need to acquire tenure. Many professors who have tenure sacrifice their dedication to their students for other forms of work related acclaim. This makes professors busy with meetings and committees when they would otherwise have been an excellent resource for students. Additionally, professors who have tenure abandon their committee or meeting commitments without returning to being a resource to students in favor of free time during what could again be times better dedicated towards regaining some bond with students.	11/29/2018 12:14 PM
724	I believe the AET program is falsely advertised. Waste of time and money but takes too long to figure that out. Many classmates agree.	11/29/2018 11:39 AM

732	Parking and tickets is an issue as well as the WIFI	11/28/2018 8:55 AM
733	I wish Ferris had more to offer for the Forensics major. What I mean by this is, is that I felt like there weren't as many opportunities for Forensic students. There isn't a specific RSO (I know that students start them, so I'm not blaming Ferris on that, just stating my thoughts). I also wish there was more job opportunities/internships offered/available for Forensic-related majors. I went to the Fall 2018 job fair, and there were opportunities for criminal justice and science majors, but nothing for just Forensics. I also feel that there could've been events for forensics. Have special guests come and speak more often that relate to that field, just as an example. I attended two during my 4 years at Ferris. One last thing I wish Ferris offered/had for my major was requiring an internship. My advisers throughout my time here were never Forensic based/had experience in that field. Not until my fourth year here. They were just science professors, so they had an idea about the field, but I felt like they didn't always know or have the best answers for my questions pertaining to my major. By this, I mean that I wish the advisers for Forensics had a background in it, or that maybe the advisers for this major are the professors that teach these specific classes. I didn't find out until my final year that going into Forensics requires quite a bit of experience. Employers mostly want students to just job shadow and get an idea of the field. It gives them an idea of what different companies do, and gives experience rather than just classroom learning. I know a lot about my future career and what to expect because I went above and beyond my major requirements. I personally contacted businesses this fall, such as the Grand Rapids Police Department and the Mason County Sheriff's Office, to job shadow and get some experience/ideas of what to expect in those jobs, so that it can be included in my resume, besides just schooling. Overall, I just feel like Ferris could've put more attention and focus into Forensics. I felt like my major was forgotten about most of the time and I had to really put in a lot of effort to get somewhere with it. I felt like other majors, like the common engineering or pre-pharm/med/etc, are basically handed what to do and how to get there. Opportunities are around every corner for them here. I'm not saying I needed my hand held through the whole process, but I just think Forensics could've had more attention.	11/27/2018 7:26 PM

738	Understand that most of us in graduate programs have full time jobs and families and can not always complete practicums with 120 hours outside of current work place.	11/25/2018 11:35 AM
739	If I could change one thing about Ferris I would make printing at Flite free for the students.	11/23/2018 9:58 AM
740	change the ferris website. difficult to navigate. not user friendly.	11/22/2018 8:28 AM
741	I wish that Ferris would complete projects thoroughly before presenting them to the campus population. For example: North Hall was not finished before students started to move in.	11/22/2018 7:49 AM
742	There are some classes I wasn't able to take due to not enough time options or professors available to teach the course. If I could change anything, I would add a few more professors so students can take courses that interest them as well as courses that are required for their degree.	11/21/2018 4:52 PM
743	I think the programming branch of DAGD could use a bit more love. It would be nice to have more programming classes such as one focused exclusively on developing for mobile platforms or one focused on emerging technologies such as AR and VR. More recruitment of programming students would also be nice, since the ratio of artist to programmer is skewed more in the artist favor, making it harder to find enough competent programmers to craft interactive student projects.	11/21/2018 5:37 AM

[REDACTED] always walked the halls looking for someone to get in trouble and I seemed to be her target. [REDACTED] looked in my window from outside (I was on terrace level) and the hall director [REDACTED] told me I was lying but the facts were in the report. Awful experience and never will I recommend living in the dorms to anyone attending Ferris. I would also change how many commuters passes can be purchased because there never seems to be enough parking and there is not a large lot next to the science building which is very inconvenient for many students. I suggest implementing parking structures.	11/19/2018 7:44 AM
750	The price	11/18/2018 7:50 PM
751	I think there should be more incentives with the honors programs. After living in the dorms freshman year, there are no other incentives to keep students. I felt that it was alot of time and effort being put in with no money or anything being earned. I know other schools offer special study abroads and such for honor students.	11/18/2018 6:06 PM
752	Make campus less compartmentalized	11/18/2018 4:51 PM

756	The fact that the Nuclear Medicine Technology program is being suspended. This is a program that may not help hundreds of students every calendar year, but it gives a modality heavily trained students who know what they are doing by the time they actually graduate. It may only be about 16 students in the program graduating at a time, but those students are still important and should not be looked over simply because that number is not in the thirties or whatever Ferris may be looking for when they want money.	11/16/2018 6:32 PM

767	The support for learning disabilities is lacking, support for that department is lacking. Correct and enough rooms for test taking, staffing was not supported, process from initial interview through receiving services is cumbersome and outdated. 770	More hands on learning.. No more theories. Teach me how to do the day to days of a business job. How to sell a product, how to properly communicate, how to send emails, selling strategies, cost cutting strategies, etc.	11/13/2018 3:47 PM

772	nothing	11/13/2018 2:39 PM
773	Realistically i believe that the most immediate change should be the lack of parking spaces available at the various locations on campus. For a student driving to campus, it can take upwards of 10-15 min to find a spot to park that ends up being a 10 min walk to class. This is just causing students to park illegally or skip class altogether. I cant count how many times I hard a friend say they skipped class cause they couldn't find a parkig spot. This causes them to do poorly in the class and overall can affect the university.	11/13/2018 1:51 PM

783	I have had a professor that dropped the ball toward the end of the semester and I wish I could have known some final assignment grades for homework and final presentations. I also would like to see a couple more options for class offerings for the Grand Rapids location. Some of my last few classes were only offered by one Professor and only at one available time.	11/11/2018 4:33 AM

790	Management is very out of touch with students. Why would you ever build a new dorm with AC for only freshman? If anything it should be restricted to upper classman to try to keep them on campus so you can keep getting that check coming in. Also why move all your dorms as far as humanly possible from the vast majority of the academic buildings? Living in Helen Ferris when it was still there was the best thing ever in undergrad due to it's immediate proximity to all of the college services I would ever need.	11/8/2018 11:58 AM

2018-19 Ferris State University/Kendall College of Art & Design Graduate Exit Survey

792	I would change the way that the dental hygiene program is structures. I have paid for over \$4000 worth of supplies for the program not including tuition. The program also doesn't follow the university sent out schedule that has your class times on it and as a result a working student can't schedule work; and in order to pay for the extremely expensive program I need time to work. Overall, it truly saddens me to feel this way about the program that I was initially so excited to be a part of.	11/8/2018 11:34 AM
793	I wish there was better communication across the entire campus. I feel like there's a disconnect between different departments which can be really frustrating for students.	11/8/2018 5:39 AM
794	I like everything the way it is.	11/8/2018 3:42 AM
795	In the Computer Information Systems program, there aren't enough professors who teach the same course. There aren't many resources to go to for help, the Tutoring Center does not have tutors for the degree either.	11/7/2018 3:11 PM
796	Better preparation for work.	11/7/2018 3:10 PM
797	I would change the parking they have here at Ferris, I pay \$100 for a parking permit that does not guarantee a spot for me to get to my classes, resulting in multiple \$20 tickets. Absolutely not worth it.	11/7/2018 9:42 AM
798	I would change the way professors go about teaching. A lot of professors seem to not care about you or how you wish to do. Me being a student who cares about doing well and my grades, I would like to have professors that are willing to work with me and understand that my grades are important to me. I have had gone to too many professors bringing up my concern on my grades and ways I can improve and so many have brushed it off and had a "It's not my problem" attitude.	11/7/2018 9:19 AM

807	The parking situation and how tickets are issued. More actives.	11/6/2018 11:38 AM
808	Freshman students or students entering a new major need to be sat down to talk about the application of their degree. Some degrees are four year degrees with a guaranteed job after graduating while others need more schooling afterwards. I was not aware that my degree needs further schooling until I was a year from graduation. I did not expect anyone to "hold my hand" as is so often the excuse of superiors when a student is unaware of something, however it would be nice to be told one thing throughout the program. I stopped seeing my advisers and started meeting with adjunct professors because I never got the same answer from my advisers about my future. Several times when I approached my advisers or other faculty, I left discouraged because I was not going into the field they wanted to me go into. This should never be acceptable when speaking to a student about his/ her future. I was not impressed with my advising over the last four and a half years, particularly because I have had five advisers in that time span, each of which told me different things about my degree and future.	11/6/2018 10:40 AM

820	The racist atmosphere will never change but it should be made aware and really not tolerated because money is green and not black and white. This college is an institution that make money and teach individuals how to make money. That should be the main focus.	11/3/2018 10:05 AM
821	I would change how Ferris chooses to spend its money. Construction and building new facilities are only short-term attractions for students. What gets students through college is strong teachers and using money towards educational resources. Take it from me, I'm tutoring a class where all of the students are struggling tremendously, only because Ferris lost one of its strongest professors and had to hire someone who has never taught an already challenging class before. My opportunities were built on the relationships I was able to develop with an amazing faculty and Ferris will start to see this disappear as they continue to selfishly place money on material things.	11/3/2018 9:09 AM

828	If I could change one thing about Ferris State it would be the parking situations around the science buildings and I would also change the parking pass prices. I think the prices are way overpriced for the parking situation around campus.	11/1/2018 3:37 PM

846	Some course come off as too easy and seem to have little effort put into in regards to measuring a students progress. I also wish the school would have provided more college level social experiences for the students. I feel as though there could be a lot more the school could do to help students socialize and have a good time outside of class.	10/30/2018 9:17 AM
847	I would like to see more variety in the classes offered in the college of business and more options for the same class.	10/30/2018 8:47 AM
848	In the math department, not all professors are up to standard and it makes it very heard to learn an already tough subject. I think the college needs to pay real attention to professor ratings, the feedback that students have given, and the professors' DFW ratings and take action on that when they are doing poor teaching.	10/30/2018 8:44 AM
849	Update old and outdated buildings and laboratory equipment.	10/30/2018 8:24 AM
850	I would like to see more transparency by the administration. Students are 'customers' and they deserve to have a clear understanding of what is 'behind the scenes.' 859	I believe all colleges and universities charge too much for degrees but I believe that is a political and societal issue that will need to be addressed]. Many of the courses I was required to take had repeating topics. I realize in order to achieve a BSN there have to be requirements, however those requirements were getting ridiculous in the end. I'm willing to remain open minded and assume the reason these topics are reiterated is due to the need to ensure the information is absorbed.	10/29/2018 8:13 AM
860	I would advertise around campus more ways for students to get involved in the community and on campus.	10/29/2018 8:12 AM
861	If I could change something about Ferris, it would be the advisor to student interaction. I had many different advisors which made it hard to get on the same page for my four years here and it felt like all of them told me different things and it made it harder for me to get straight what I need to get done before graduating.	10/29/2018 7:44 AM

It has gotten substantially better since my first year in 2014 but there are still a couple changes that could be made. Specifically the library parking lot and the the parking lot by Burger King. ALL students, not just ones living in dorms should be offered some sort of free printing. Make a limit of 30 pages a semester that is offered to every student. 898	This semester there were several problems starting out with the professors not having a contract, I would want problems such as these to be solved before the return of the students.	10/17/2018 5:59 AM
899	The dynamics between club sports, RSOs, and varsity sports. I was apart of the Ferris State Athletics Dance team and there were many times where the Basketball team, Softball, Volleyball, and Baseball got the gyms over us. This past spring tryouts the Basketball team kicked us out of the gym in the middle of our tryouts when they could have gone to the REC center. I know the Dance Team is not huge and amazing, but thats because we are looked at as a joke by other sports. But there are a lot of people who go to the games just to see us perform. It is not fair that some sports are treated more important than others, we are all here to do the same thing; represent our school and put on a show.	10/17/2018 4:44 AM

910	The main thing I would change is within my individual degree. The Manufacturing Engineering Technology program has a large focus on the machining processes. While I understand that this is one of the easier processes to get students hands-on experience in, I believe that these processes are slowly being phased out in industry. The future is in more efficient, less wasteful processes. Also, the majority of work performed in the manufacturing program at Ferris is done using metals. While metals are great, fairly cheap, and easily accessible engineering/manufacturing materials, they are again being slowly phased out of industry. The future is more in composites and plastics than it is metals. That being said, the core manufacturing classes that do not have a machining project associated with them do a pretty good job of preparing the student for industry. I also believe that the hands-on experience with machining processes is not all that important to our career. I understand it for the two year Manufacturing Tooling program, but it is not as relevant to the four year Manufacturing Engineering program. A company hiring a MFGE graduate probably doesn't really care that we have hands-on experience running mills and lathes because we won't be operating machines for our job. If they saw more extensive knowledge of processes in general, it would look better on a resume, in my opinion.	10/14/2018 9:53 AM
911	The only thing I would change is to have more opportunities to get involved on the weekends. I would have liked activities other than sporting events to participate in on the weekends.	10/14/2018 9:45 AM
912	Some of the instructors that seem not to be very organized	10/14/2018 6:13 AM
913	Not have my tuition increase by 1000x every year just to get it spent on idiotic things that no one uses or cares about. Also, this is a huge business making tons of money in a tiny and poor town. There should be some kind of community fund that the school is footing the bill for to make the town of Big Rapids less unappealing to everyone. Also advisors that have a clue.	10/13/2018 8:01 PM
914	It's hard to say. I think the worst part honestly is just the fact that Big Rapids has nothing to do, compared to other college towns. I would change the location.	10/12/2018 2:13 PM
915	I do not believe that enhancing my problem solving skills was a priority in my Ferris education. I watched many of my fellow classmates get through classes with the professor guiding them step by step through processes, not encouraging the growth of their problem solving skills.	10/12/2018 11:06 AM
916	More diversity/inclusiveness, MORE PARKING/LESS TICKETS. The financial aid office staff are terrible.	10/12/2018 11:01 AM

2018-19 Ferris State University/Kendall College of Art & Design Graduate Exit Survey

917	Make sure that the staff and faculty here really want to be here and serve the STUDENTS. Being an RA for the last three years has changed my life, but this school needs to start communicating within itself much better.	10/12/2018 9:56 AM
918	nothing	10/12/2018 9:24 AM
919	Update the Automotive building.	10/12/2018 9:13 AM
920	I would pay the professors more money for the incredible work that they do.	10/12/2018 9:09 AM
921	Better professors for statewide classes	10/12/2018 8:40 AM
922	Due to my last answer, this may seem a bit confusing; however, a few of the (many) instructors I encountered at Ferris were horrific. I found them to be crude, unethical, and unprofessional. I dropped classes with these instructors if I was able. I think having instructors like these does not represent Ferris well since most of the instructors I had were absolutely remarkable.	10/12/2018 8:37 AM
923	The dorms and some buildings are well behind other D2 universities of similar size, maybe continuing upgrades on that.	10/12/2018 6:31 AM
924	There's not really anything I can think of to change Ferris.	10/11/2018 6:30 PM
925	I would bring more activities to the campus.	10/11/2018 5:15 PM
926	I would change the core classes slightly. Instead of repeating classes that were already taken at a 2-year college, give credit for them and allow higher classes to be included in the degree.	10/11/2018 4:16 PM
927	If I could change something about Ferris, it would be the price per credit.	10/11/2018 3:47 PM
928	Some of the degree requirements for Political Science Program - GIS is not necessary and there needs to be more Poli Sci and Law classes.	10/11/2018 3:47 PM
929	The colors	10/11/2018 2:57 PM
930	More parking/ allow meters to go for more than 2 hours	10/11/2018 2:48 PM
931	Updated dorms for not just the freshman and newer technology in the labs.	10/11/2018 1:42 PM
932	Updating some of the dorm halls. I would update a few of the older dorms because the window casings are old and need an update and the building does have some damages that need repairs since I've been in the architecture program I've seen some desperate need for some changes that need to happen in the dorms. also the WIFI in some halls don't work as well as others on campus they may need an update or reboot.	10/11/2018 1:25 PM
933	The location from Big Rapids to a full 3 years in Grand Rapids.	10/11/2018 12:19 PM
934	more face to face sessions for the masters classes. more lab activities also	10/11/2018 10:06 AM
935	I would push Ferris to rebuild the UREC pool and make it a full sized collegiate pool.	10/11/2018 9:47 AM
936	tuition cost	10/11/2018 9:16 AM
937	Nothing	10/11/2018 8:25 AM
938	More funding needs to be allocated to education, and not just the "popular" majors either. And there needs to be more resources for the less "popular" majors as well. Neither of my degrees are ever represented at job fairs or any other similar events. Any opportunities I've had have come from my own hard work or extra efforts from my dedicated professors, not via aid from the university.	10/11/2018 5:37 AM
939	First definitely the parking arrangements so that you don't have to worry about being late looking for a park. There needs to be more inclusive activities to bring the different cultures and races together especially since diversity is one of the core values and they should really start paying their teachers then maybe they'll be a little more enthusiastic to teach us	10/10/2018 10:27 PM
940	I wished my program (Music Industry Management) would receive more respect and financial assistance from the administration. As much as everyone likes to complain about not receiving enough money, we seemed to always get the short end of the stick.	10/10/2018 10:13 PM
941	Cost, clinical rotation expectations, class requirements, feedback options for professors, discourse between the students and administration, etc.	10/10/2018 8:27 PM
942	I only wish that the campus was closer to where I live (Lansing) so that I could have attend a couple of traditional classes.	10/10/2018 3:03 PM

## 2018-19 Ferris State University/Kendall College of Art & Design Graduate Exit Survey

943	I would create more parking for the students because it is hard to find parking spots and that causes commuters to be late.	10/10/2018 1:51 PM
944	updated class rooms	10/10/2018 12:42 PM
945	Better advising/advisors to help me select my classes and make sure I was on track to graduate. More parking	10/10/2018 12:05 PM
946	The parking.	10/10/2018 11:33 AM
947	Lower the Gen Ed requirements or offer more that are industry specific. I enjoy certain classes, such as Psych because it pertains to human interaction that can be applicable in the real world. English classes are also helpful due to the fact you can always sharpen your writing ability. Outside Gen Eds such as those, however, there is no point in attempting to learn content that does not interest me or does not give me an upper hand in my career. I'd rather not suffer through the geography of Michigan to fill 3 credit hours of a Math 115 class since my ACT score was high enough that I did not need that course. Furthermore, having knowledge on the geography of Michigan will not give me a leg up on my competition from other schools when it comes to finding a career in the Marketing field.	10/10/2018 6:22 AM
948	the COST. My Goodness! its is outrageous and this teacher and faculty strike is pathetic.	10/10/2018 5:48 AM
949	the payment way.	10/10/2018 3:55 AM
950	The tuition cost.	10/9/2018 7:51 PM
951	Most of the dorms (residency halls) are outdated and could use remodeling.	10/9/2018 5:48 PM
952	The head of the Surveying Engineering Department. He is running the program into the ground and professionals in the field are very unhappy with him.	10/9/2018 3:47 PM
953	Keep updating the MBA program to make it more competitive.	10/9/2018 1:20 PM

955	Overall campus look.	10/9/2018 12:21 PM
956	If I could change something about Ferris it would be the way it manages it's teachers. Their motto is students are first but teachers are treated negatively and this sometimes causes conflict in the classroom for the students.	10/9/2018 11:51 AM
957	I believe the criminal justice academy could use some improvements however the education in this field is the best	10/9/2018 11:49 AM
958	Nothing overall it was great experience.	10/9/2018 10:16 AM
959	Scholarships. There needs to be more resources for students to have money to attend the university.	10/9/2018 9:10 AM
960	List of things I would change in regards to Ferris State University: 1.) Everything	10/8/2018 4:21 PM
961	parking and diversity.	10/8/2018 3:30 PM
962	I wish the university did more to support its part time and full time teaching faculty so that they could hire new and retain the top quality teaching staff that they currently have.	10/8/2018 2:00 PM
963	I want Ferris to spend their money more wisely.	10/8/2018 1:26 PM

984	I would have a more diverse staff.	10/3/2018 5:45 PM
985	Streamline curriculum; present offerings from a more professional standpoint and not use jobs focus (community college) approach. Confusing, causes delays. Allow flexible, open enrollment for working students in DNP program. Life happens: Lack of options caused loss of valuable students.	10/3/2018 5:13 PM
986	More athletic funding, better athletic director	10/3/2018 12:25 PM
987	The office employees in the FinAid office are often very rude when I come in with questions. Maybe they need a bit more training on dealing with valid questions about what I'm paying for.	10/3/2018 10:44 AM
988	Have more student activities	10/3/2018 9:19 AM
989	If I could change something about Ferris, I would change the amount of non-degree related courses you are required to take. Often times I felt that I was wasting money due to the amount of classes I was required to take that did not relate to my major. I understand the necessity of requiring general education courses, but taking three science classes as an Advertising major not only felt like a waste of money, but it brought down my overall GPA as well.	10/3/2018 8:39 AM
990	If i could change one thing about Ferris it would be; The parking. I pay money every year for a parking spot, yet somehow a lot of the time finding a spot to park is nearly impossible.	10/3/2018 8:10 AM
991	nothing	10/3/2018 5:17 AM
992	The classes did not push me to work as hard as I was expecting. I would have benefitted from a more rigorous curriculum in some of the business classes.	10/2/2018 6:26 PM
993	Some of the professors are not open to criticism when wrong, and are not open to feedback from students. A classroom should be an open learning environment and shouldn't be cut off for the students. This especially shouldn't be a matter of race when it comes to student preference by the professor, and be equal treatment.	10/2/2018 5:54 PM
994	not being required to take cultural and social enrichment classes	10/2/2018 5:42 PM

997	Cost	10/2/2018 12:55 PM
998	I do not feel all of my profs cared about coming to teach, I would have liked better profs.	10/2/2018 12:39 PM
999	As a member of (PAVE) Peer Advisors for Veteran's Education, I would like to see the credits that veterans have from the military prior to enrollment be used in a better way. Right now most of the credits are seen as general credits and do not really help toward gaining your degree. Also, in similar regards, because veterans are coming in with credits from the military they are enrolled as a Junior or Senior based on credit hours and have to pay more than your typical Freshmen.	10/2/2018 10:25 AM

1000	More interactive things in business classes. For example in bus 499 class I have this program called BSG and I think if more classes would use this program I feel like our business students would understand more if we did this program in other classes like marketing or retailing because it shows you numbers and you have to work it out in a group which is awesome.	10/2/2018 10:20 AM

1002	More parking	10/2/2018 8:48 AM
1003	N/A	10/2/2018 5:40 AM
1004	If I could change one thing I would change, Nothing because I did not really have many issues.	10/2/2018 5:35 AM
1005	figuring out issues that hinder the students learning before the semester starts, I.e. the strike. I feel the school could do a better job marketing for degrees that don't get as much attention around campus, like the social sciences.	10/2/2018 5:23 AM
1006	Parking or the wifi.	10/1/2018 11:58 AM
1007	Keep the specialized programs that bring kids in from out of state. For the average degree like chemistry or English, I don't think ferris has a whole lot to offer over other schools.	10/1/2018 10:16 AM
1008	Make classes more challenging and invest in teachers who are actually willing to teach the material rather than those simply regurgitating what's in a text book.	10/1/2018 9:26 AM
1009	The professors deserve raises.	10/1/2018 8:39 AM
1010	The amount of idiotic college kids.	10/1/2018 6:18 AM
1011	I think that I might change some of the communication. During my last few years here at Ferris, the communication between my professors and us was not great. Those of us that are currently in our student teaching basically went in blind because there was such a lack of communication. I am still not totally certain as to everything that we are supposed to. I feel as if it was just kind of thrown at us without any real explanation. I just wish that department of education was a little bit more inviting and better with communicating.	9/30/2018 3:55 PM
1012	Utilizing skype has assisted me in working with assigned teams. This technology would be great to use directly from blackboard when instructors prefer online lectures.	9/29/2018 6:38 PM
1013	Bigger commuter parking spots.	9/29/2018 4:30 PM
1014	I would change the prices of courses. I would establish a way for the students to not have to go hungry who try to save money by not buying a meal plan. I would re-evaluate the degrees offered at Ferris and decide if they are really worth having or if they are just a money sucking lie to screw over individuals who are interested in the subject matter.	9/29/2018 2:39 PM
1015	For Information Systems, cut back on the amount of business core requirements (i.e. Economics, Finance) and include more ISYS classes that focus on different computer skills to give more readiness to the future graduate.	9/28/2018 5:24 PM
1016	Nothing	9/28/2018 4:50 PM
1017	some professors had little effort to teach and expected you to already to know the material which was not helpful trying to learn for my future.	9/28/2018 11:20 AM
1018	Not a thing	9/27/2018 11:48 AM
1019	how tuition/billing is handled	9/26/2018 3:09 PM
1020	I would make more parking	9/26/2018 1:03 PM
1021	Class time options.	9/26/2018 8:25 AM
1022	There needs to be more diversity.	9/25/2018 8:07 PM
1023	The food options and PARKING. More commuter parking and being less strict about where people and guests park.	9/25/2018 6:44 PM
1024	The evaluation of some of the Tenured Professors. I had some really terrible professors that did not teach us well and then gave us tests over information not given in the book or in class. Some of them appear to not care simply because they are on tenure. For the most part, my instructors were great except for those 1 or 2 per year.	9/25/2018 2:13 PM
1025	Update the rest of the dormitories and the remaining floors of the Swan Building.	9/25/2018 10:09 AM

## 2018-19 Ferris State University/Kendall College of Art & Design Graduate Exit Survey

1026	PARKING. Invest in your students and give them spots to park. They are paying tuition plus paying \$100 to park and then not having any parking is ridiculous. Also, some professors are there just for a paycheck and it is highly disappointing. I am lucky enough to say I had one professor who actually check in on me and really cared about me as a person and advocated for me. I don't think I would have been able to make it through the program without his care. Having REAL people teaching who challenge you in all the right ways, yet respect you as a person is key. Lastly, because of the location of Ferris in a rural setting, I truly believe investing into some non-traditional programs would be a great thing. I know I would have excelled better and would have been able to support myself better if I had better options for classes. In a growing world many young adults cannot NOT work anymore. I STRONGLY encourage better class options and non-traditional programs for working students.	9/25/2018 10:09 AM
1027	Do not close the quad eating center during events.	9/25/2018 8:34 AM

1032	advising	9/24/2018 11:29 AM
1033	More online class offerings	9/24/2018 9:26 AM
1034	The price, it is very expensive compared to other colleges. The business professors do not do a good job at teaching their topics.	9/24/2018 8:40 AM
1035	More work doesn't always mean more learning. Shorter assignments graded more critically could be beneficial.	9/23/2018 12:43 PM
1036	I'd like to take this opportunity to express how deeply disappointed I am with the way Ferris officials are handling the politics around campus right now. Pitting students against professors by sending out propaganda-filled emails is childish and unnecessary. Professors are working without a contract at the present moment, and would like to make enough money to be above the cost of living in Michigan. Don't make students feel as though they have to take sides, especially when a large majority of the student body are education majors, because they will never seek employment at Ferris State University after witnessing the horrendous details of the negotiations.	9/23/2018 6:57 AM
1037	ISIN faculty having a genuine interest in the material they teach and having a desire to help students be successful	9/21/2018 11:51 AM
1038	More parking!	9/21/2018 8:46 AM
1039	That they would work with other universities to become more respected in their education program. I think the education program could be more organized also. They either need to run a block schedule or they need to offer classes more than every other year only in fall or spring. Its absolutely ridiculous to have students missing classes that they cant take again for 2 more years. Ferris needs to ensure that all students that need the class can get in or are forced in.	9/21/2018 7:26 AM
1040	West Campus Apartments is in poor condition	9/21/2018 3:38 AM
1041	I would change the mandatory classes that we have to take and I would rather take more classes that pertain to my major.	9/20/2018 8:12 PM
1042	not have writing class as a requirement for students in pharmacy school	9/20/2018 7:46 PM
1043	Nothing that I can really think of. I was lucky that Ferris was a great fit for me. A smaller school, with a nice and contained campus, along with a great program for my career, is just what I needed.	9/20/2018 5:43 PM
1044	Nothing!	9/20/2018 3:41 PM
1045	Budgeting for the plastics program, students should be able to work in with lab equipment to get real hands on experience on how to repair, and maintain heavy machinery. The plastics program should not have to rely almost entirely on donations from industrial interests to obtain their equipment.	9/20/2018 7:31 AM
1046	The adviser program. I have heard and been a part of advisers setting students back. They should be trained and trusted. One adviser even gave false information to some students on purpose. Completely uncalled for.	9/20/2018 6:37 AM

1055	the number of classes offered for cultural enrichments and social awareness. there should be way more diverse and entertaining classes if the university requires students to pay for classes not necessarily needed towards their programs. More information on how to receive credit for independent classes and credits.	9/18/2018 4:32 PM
1056	Put more money into the resources and facilities for nursing students.	9/18/2018 12:50 PM
1057	Have more efficient parking space	9/18/2018 11:53 AM
1058	I found it difficult to communicate with faculty and staff on a consistent basis. In the past I've tried to reach my supervisor and other College of Business personnel to no avail. I feel as if I have been ignored when I have asked questions in the past and there have been a few times of great frustration when attempting to improve my academic experience. So my change would be better the listening/answering ability of faculty and staff for student problems.	9/18/2018 11:27 AM

8	I first came to Ferris with a sense of "coming home" to Big Rapids. My first two years were peaceful and enjoyable, but when I started talking to professors and students who knew more about what was really going on at Ferris, I began to not only lose interest in continuing my education here but I lost respect for Ferris. The only reason that I am finishing my education at Ferris and not transferring to another university is because I finish what I start; I'm dedicated to my education, and to the professors who have dedicated themselves to shaping me as an individual and a professional. The Ferris I am graduating from is not the Ferris that Woodbridge envisioned. If Woodbridge Ferris were still alive, he would have finished what he started: ensuring that the students were the number one priority, not the college's cosmetic appeal. I had hoped for a long time that it was a fluke and that Ferris would collect itself to refocus on its students, but it didn't. I'm glad to be leaving sooner than anticipated, because I feel like I will be out before things get even worse. Ferris has a fantastic reputation for its students, specifically in its health-related fields, but if Ferris could start focusing on the students it has in ALL fields, maybe Ferris' reputation would change for the better and attract more people on its own. You don't need nap pods and massage chairs; you don't need a new freshman-only dorm hall that sets up a false pretense of life on campus; you don't need new learning centers, and you don't need to replace a whole sign for one tiny crack. Instead, all of that money could have been spent on removing the mold from Bishop; renovating Williams Auditorium so students can actually enjoy going to and being in performances; bringing dormitories to handicap accessible standards. Ferris, your students have mentioned all of this multiple times - why don't you listen?! I'll say that I graduated from Ferris; I'll say I enjoyed my time here; I'll say that I got the best education for the positions I apply to. However, I will not say I am proud to have attended Ferris State University until it starts listening to and respecting its students.	9/10/2019 9:41 AM

17	I have had the pleasure of working with Dr. Manley for the past couple of years, and I have to say what a great influence she has had on me and my abilities as an instructor. She gives 100 percent to the class and it shows, the classes that she teaches and the assignments that she grades all reflect how much she cares about a students success. I have not been actively filling out the class reviews at the end of each class, but I really only have great things to say about Dr. Manley.	8/7/2019 1:10 PM

38	I would like to see the Accounting program offer/require more accounting specific classes and fewer "elective" classes. I don't feel 100% prepared to perform accounting duties upon graduation. For example, including an audit practicum would be very useful. On the other hand, I don't feel that taking both micro and macro economics will enhance my proficiency as an accountant. I understand that only a limited curriculum is available at the satellite campuses and that you can only offer the best general classes.	4/11/2019 12:38 AM
39	The reason that I am extremely unsatisfied with my ability to work in groups was in no way any fault of Ferris. My teacher helped me as much as she could when I had to be a part of a group, but the rest of my group just didn't work with me. More accurately, they lied to me a few times and tried to coerce me into doing work that they had agreed to do. My professor was helpful through that whole ordeal, so it's not her fault. Still, I learned that I shouldn't trust someone who has lied to me before, and doesn't get things done when we agreed to have them done.	4/8/2019 12:06 PM

72	I was very disappointing in the administering of online courses by FMAN department. Deadlines entered incorrectly, communication sent out day before making an announcement about an exam expressing that the exam will only be available that day, assignment tabs not organized. 91	Sometimes Ferris can take itself too seriously and get caught up in the bureaucracy of itself. This was reflected when the University mandated that all screen printing materials involving clothing/Ferris must be in only gray, black, red, white, or yellow. This ruling came through so suddenly and affected many RSOs for minor event planning. This occured in 2014, and may not still be the case, but I remember it fitting in with how Ferris can make rules with great intentions, but it hurts more people than helps. I think it is important for Ferris to remember how small it is, and how every administrative action can directly affect students. Ferris is an excellent school that I would recommend everyone, as long as it continues to value its small size and great value.	2/6/2019 12:06 PM

I don't know where I would be if it weren't for the Elementary Education program Ferris has here in Grand Rapids. The opportunity to receive my education but not go into an exceeding amount of debt because of university costs is phenomenal. I am so, so thankful Ferris recognizes that and has made effort to create degree programs that work for working adults, for first generation college students, and for some one like me who wants to learn and receive a quality education while not going into an increasing amount of debt.	1/13/2019 7:51 PM

I work for GRPS. Ferris and GRPS was suppose have a program to help staff get their Bachelors degree. The pilot group feel apart and I was stuck with a more traditional school, which was not was suppose to happen. I have had many up and downs with Ferris. The latest down was when I received the Athens scholarship and was a transfer student at GRCC. My adviser told me what course I need to graduate in December, but she did not take in to account that the codes was different at GRCC and I ended up in the wrong class. 161	I dont have any complaints about Ferris specifically. Ferris offered me a fantastic program that was flexible and allowed me to work and take night classes.	11/13/2018 3:47 PM
162	The honors dorms is too highly competitive. It was honestly the worst thing for my education. Pressure to use study drugs is high and you are put down for bad grades or changing to a non-science major. Coming in as an honors student was the worst mistake I made at Ferris. Giving us our own rooms was a good idea, but putting us all in the same dorm is not a good idea in my opinion.	11/13/2018 2:46 PM

164	I have appreciated the opportunity to take all of my classes either online or at the Grand Rapids location. This is the only way I could have attended Ferris and received my degree from such a great school. Thank you.	11/11/2018 4:33 AM

165	I feel that the abundance of RSOs on campus enhances the student experience by provide social, professional, and educational experiences beyond the classroom. These organizations need to be encouraged!	11/9/2018 10:00 PM
166	Thank you for my education.	11/8/2018 4:23 PM
167	The reason I chose Ferris besides my family connection is that I am a country boy from the middle of nowhere. Ferris is in Big Rapids not a giant city. That is something easily capitalized on to bring students to your campus besides all the great programs you offer and blah blah blah.	11/8/2018 11:58 AM
168	I'm so incredibly grateful for the friendships and relationships I've made while at Ferris because I know I have found people I'm going to know forever. Another great thing Ferris does is creating opportunities for students to meet new people and try new things :)	11/8/2018 5:39 AM

172	I was a transfer student and it was not a good time transferring at all. The 3 and 1 program with off campus and Delta college has some issues and has hopefully been fixed since I had to last deal with it.	11/6/2018 1:50 PM
173	I have enjoyed my time here at Ferris because of what I have made out of it. There are a lot of opportunities on campus as well as off where I found friends and connections that will hopefully help me in the future. As far as schooling goes, I appreciate the knowledge I have acquired and the skills I could build with it but, the amount of stress I had unrelated to schooling was paramount compared my experience. Between dealing with professors who simply don't care, to being here one semester later even after having completed my degree because I "needed to fill credits" really speaks to college being about money and not the student. I hope that, in the future, Ferris can tie its knots and fix this issue for students in the future.	11/6/2018 10:40 AM

## 2018-19 Ferris State University/Kendall College of Art & Design Graduate Exit Survey

191	There are a few professors who stood out to me personally and I just thought they should be recognized. David W Marquard was my English 150 and 250 professor and he was ASTOUNDING. He worked night and day to grade our papers so we could have the best paper possible. I was always told I was a great writer in high school but he really brought out my ability to write during those classes. Toni Windquist was my professor for many classes and she too always does her best to bring out the best in her students. I have been to her in tears before and she has always been there to put me back on my feet and figure out the academic predicament I was in. I have also been to Sonya Knoll in tears for more personal reasons and she is by far the most compassionate professor and person I have ever met. She is not the best lecture professor, but when it comes to the hands on labs and any question that I might have, she is there and she has the answers and the information we need. I feel as though she greatly prepared me for my internship and I am so thankful to have had her as a professor and adviser.	10/17/2018 4:44 AM

194	Do better. Pay your teachers. Give back to this awful community. Put the students' money where it matters and not in areas just to try to woo high school seniors. STOP CUTTING SUMMER CLASSES. I really wish I could've enjoyed a college experience where I was actually proud of the school I went to, instead of always having to answer "so how's ferris" with "well... I kind of hate it. Definitely don't ever go there if you don't have to." If this is not anonymous then I'm sorry. If it isn't, though, you guys really need some truth spoken to you that isn't sugarcoated seniors just kissing up because they're glad to be done. By the way, why are the roads never plowed? And super nice that the rec is finally usable after all that time of paying for it and not even being able to use it. Wow, I really can't express how dissatisfied I was with my Ferris experience. Some of the few good parts were some of the amazing professors I had here. All right, don't be sore and withhold my degree for this, it's tough love.	10/13/2018 8:01 PM

211	While attending Ferris I have never felt more alone in my entire life. My creativity has been ripped from me. I am constantly depressed. I have no idea how to meet people anymore, how to befriend people. When I try people are uninterested or nothing ever works out. Everyone is out for themselves, yet I see people who have made friends. Then I feel more alone. Ferris has prepared me for a life of loneliness, debt, and depression.	9/29/2018 2:39 PM

212	Thank you Pete Hector for always believing in me and pushing me to be my best while taking care of my emotional well being. You always advocated for me even when I was being stubborn. You should really be more of a therapist than an advisor, specifically for social work students. Actually, that is a fantastic idea for social work students to have access to a therapist/counselor. With how much we learn and challenge our views and change as students, professionals and within our personal lives it is a lot to take in. I strongly encourage looking into that idea as well.	9/25/2018 10:09 AM
