

Qualification Policy for Radiography

2026-2027

Each of our academic programs has specific classes, grades, and GPA requirements which a student must meet to apply for the clinical phase of the program.

- All qualifying Math & Science courses must be met in two attempts. Any transfer courses equivalent to the FSU requirement is counted as an attempt.
 - *Example 1: A student takes BIOL 251 in fall and earns a C-. The student repeats BIOL 251 in following fall and earns a C- again. These both count as unsuccessful attempts and the student would need to choose a different program.*
 - *Example 2: A student takes BIOL 251 in fall and earns a C-. The student decides to try BIOL 109 in the spring and earns a C+. These both count as unsuccessful attempts and the student would need to choose a different program.*
- Unsuccessful attempts include not meeting the grade requirement listed below, receiving a “W” (withdrawal), or a grade of “I” (incomplete) not converted to the required grade or higher by the end of the next semester.
- Prerequisite courses are not tied to the grade or attempt requirement.
 - *Example: A student needs to take MATH 110 prior to taking MATH 115 and earns a C-. The grade for MATH 110 does not count as an unsuccessful attempt to qualify for the radiography program.*
- Qualified students must apply each February during the designated 15-day application window. Students not accepted must reapply in future cycles
- Placement into the clinical portion of the program is based on the following:
 1. Qualification semester (when required courses are completed).
 2. Number of earned Ferris credits
 3. Overall (GPA)

****Students who complete qualifying requirements earlier receive priority for placement.****
- Your program of study must be declared prior to or during your qualifying semester.

****Qualification semester may not be earlier than the first time you declared radiography as your major****

RADIOGRAPHY ADMISSION POLICY:

- The following qualifiers must be met for the student to apply to the program:
 - MATH 115 or 117-Intermediate Algebra/ Contemporary Mathematics, equivalency must be complete with a B- grade or higher; or proficiency (Math New SAT of 580 or higher)
 - **Preferred** - BIOL 251 – Human Anatomy, must be completed with a C or higher **OR** BIOL 109 – Basic Human Anatomy – Physiology, must be completed with a B- or higher
 - COHP 100 – Medical Vocabulary, must be completed with a C or higher
 - ENGL 150- English must earn a letter grade of a C-
 - A student must have an overall GPA of 2.5 at time of application
- Radiography Applicants must meet the requirements by the end of Spring semester to be considered.

FERRIS STATE UNIVERSITY

COLLEGE OF HEALTH PROFESSIONS

The clinical application opens only once a year for the upcoming academic year. The application window begins the first Monday in February and remains open for exactly 15 days. To keep your qualification for the semester, you must maintain the required GPA. Please note that we do not maintain a waitlist; if you are not accepted, you must reapply to both FSU and your specific program the following year for future consideration.

Once a student is accepted in the clinical program, they will have a new set of standards set for the clinical classes.
