

FERRIS STATE UNIVERSITY

COLLEGE OF HEALTH PROFESSIONS

Attendance Policy

In the College of Health Professions (CHP), attendance is valued as an example of professional conduct that is reflected in the various disciplines represented in the College. Consistent attendance is an expectation for all scheduled classroom, online, laboratory and clinical/internship learning experiences within the CHP program. Consistent attendance demonstrates the student's commitment to learning as well as a sense of accountability to the professional program designed to provide them with the necessary knowledge and skills to prepare them as entry-level health care professionals. Based on this shared value among CHP faculty, each program has an explicit attendance policy to provide guidance for students as they progress through each individual professional program. CHP attendance policies and guidelines can be found in the student handbook for each CHP program.
