

### ABVI

Average Rating for 2019 – 2020 3.70

Response Scale: 1 = Poor; 2 = Marginal; 3 = Adequate; 4 = Good; 5 = Excellent; N = NA

#### Student Comments:

- I really enjoyed my time at AVBI. It was such a great experience and I learned a lot about low vision and was given tips to incorporate low vision into a routine exam. It was great that this office had social work, mobility services, and an OT all working together. It was a awesome being able to work in an multidisciplinary setting and get experience with that.
- The equipment was old (understandable due to funding) and the phoropter was in plus cyl, which is hard to learn when you're only there for a few days at a time.
- I enjoyed my time at the ABVI! it was cut short by unforeseen circumstances with another student so I was at the VA more. That being said, The quality of the rotation was great and I feel more comfortable with low vision exams/techniques/tools. They had a wide variety of tools to trial and show. The personal there were extremely friendly and welcoming

### ABVI

Average Rating for 2020 – 2021 4.92

Response Scale: 1 = Poor; 2 = Marginal; 3 = Adequate; 4 = Good; 5 = Excellent; N = NA

- Great site and learned a ton about how to do low vision in a real world scenario
- I really enjoyed this rotation. I saw a variety of different low vision cases. I feel more confident doing a low vision exam, as well as seeing these patients for primary care in everyday practice.
- Great externship site. It allows you to see an effective model for how multiple services can function under the same roof.
- As a non-profit I recognize that this site is working on a budget and they really make the most of what they have. Great variety of LV devices!
