

Eglin Air Force Base
Average Rating for 2019 – 2020 4.67

Response Scale: 1 = Poor; 2 = Marginal; 3 = Adequate; 4 = Good; 5 = Excellent; N = NA

Student Comments:

- This rotation was an excellent experience. Working with so many TBI and invisible wounds patients was rewarding and challenging. I was able to see many corneal fb. I saw coats disease and tb recurrent uveitis. Whole body health is emphasized, we often ordered labs for auto immune markers. The clinic has nice equipment and full staffing. The clinic works hard to provide access to care. We were encouraged to squeeze patients into our schedule . The doctors were all knowledgeable, yet flexible with treatment plans. The student was encouraged to act with autonomy. I felt like my efficiency has improved greatly this semester, I am more confident in my assessments and treatment plans. The patients are very respectful, and grateful for your service and appreciate thorough ocular health exams. Overall , great experience.
