

North Coast Eye Care  
Average Rating for 2018 – 2019 5.00

Response Scale: 1 = Poor; 2 = Marginal; 3 = Adequate; 4 = Good; 5 = Excellent; N = NA

---

**Student Comments:**

- North Coast was an excellent site for my externship. I really enjoyed working in a private practice setting and seeing such a wide variety of patients. I truly feel that this site furthered my knowledge as a clinician and that I grew here significantly. I highly recommend it for students in the future.

**Student Comments:**

- I was really happy with this rotation site. The staff was welcoming, the office space was great, and there was useful equipment, such as OCT. What I liked most about this site is the variety of patient care we were able to see and getting to experience practicing in a private practice. I enjoyed being part of a team.
  - I highly recommend this rotation site. In a single day you will need to determine an Rx with retinoscopy on a child, fit a scleral lens on a 50 year old keratoconus patient, and monitor an 80 year old with glaucoma and ARMD. You never know what the next patient was coming in for and it always kept you on your toes. Vermilion is small town on a great lake with plenty of fun restaurants and things to do. I highly recommend this site to future students who are interested in private practice.
