**Henry Ford West Bloomfield**  
**Average Rating for 2021 – 2022 4.89**

Response Scale: 1 = Poor; 2 = Marginal; 3 = Adequate; 4 = Good; 5 = Excellent; N = NA

---

- I really enjoyed working at this clinic. Even though a lot of the exams are routine, there are plenty of medical office visits that I got to see, which I haven't experienced much of at other sites.

- I absolutely loved my rotation at Henry Ford Optimeyes in West Bloomfield. At first it was challenging because of the patient load and because of how fast-paced it is but I was able to quickly adapt. I am thankful for the technicians working up every patient before seeing them as that helped a lot! I'm also thankful for seeing a lot of patients under the supervision of all optometrists and for learning so much! Thank you all for everything!
- The only thing I would've changed was perhaps having the externs do some of the extra testing for patient (VF, OCT), that way we are more comfortable with running the extra testing at other rotations. However, aside from that, this site was run extremely well and smoothly. Management and support personnel were more than helpful and really do deserve a standing ovation for all they do for the patients, the externs, and the doctors at HFOWB. The EHR was very easy to get a hand of and is definitely one of the best I have had experience with. All of the doctors, including those we are not able to write evaluations for (Dr. Wee, Dr. Balderas, Dr. Kim, Dr. Alhachami), were knowledgeable, supporting, and always ready to teach us something invaluable. I am very grateful that this was my first rotation of the year.
- I learned a lot of valuable clinical skills and knowledge during my rotation at Henry Ford. I saw a wide variety of patients and saw some interesting cases. All of the doctors were really helpful and they were greater teachers / clinical instructors. I enjoyed my time at this rotation!
