

Michigan Eye Institute
Average Rating for 2021 – 2022 4.63

Response Scale: 1 = Poor; 2 = Marginal; 3 = Adequate; 4 = Good; 5 = Excellent; N = NA

Student Comments:

- Nearly everyone at this site was extremely pleasant to work with. I am a big fan of Nextech. This record keeping system is easy to learn, and it contains the backbone of Compulink, the records system used at MCO. The environment is fast paced. As long as you can keep up, you'll learn a lot. Although some of the equipment in the extern rooms is outdated, the vast majority of the clinic is outfitted with new technology. The techs are easy to work with and create a fun and lively environment. This site exceeded my expectations.
- GREAT medically oriented site.

Michigan Eye Institute
Average Rating for 2020 – 2021 4.56

Student Comments:

- Loved this site. We were able to see a great variety of diseases and worked with many different optometrists and ophthalmologists. I feel like I took a lot away from this site and I learned how to become more efficient. The docs here are excellent teachers and if you do not understand something they will happily explain it to you. It was a little difficult at first because it was a new site and some things were determined on site, but overall, I would highly recommend this site! There is a ton of disease/ PC optometry here.
