- I really enjoyed how many specialty CL fits I saw. The wide range of ages and spectrum of health care provided was of great benefit to my education. I feel much more confident seeing peds at this point. This has been and I believe will continue to be my favorite rotation.
- For the most part this was an awesome rotation. Sometimes we were a little short staffed, or the staff turnover made things a little more stressed/rushed than was ideal, but we made it work. The records system is good; a little frustrating at times when one mistake causes 5-10 more clicks to rectify, or when the computers/internet goes out, but overall, a wonderful place to finish off my externships experience.
