Student Comments:

- I loved going to Okemos Optometry! I am biased because that is my optometry office since I was little and I worked there in undergrad and optometry school but it was a great place to work. I saw a fairly steady amount of patients throughout the day and I know the staff did their best to fill my schedule. It was good for me to work with a new EHR and learn the system. I got to see contacts and pediatrics. I have no complaints!
