
Pleasant Optics
Average Rating for 2021 – 2022 4.86

Response Scale: 1 = Poor; 2 = Marginal; 3 = Adequate; 4 = Good; 5 = Excellent; N = NA

- The ODs and the entire staff at both Pleasant Optics and Alma Optics were helpful and kind. They made my first clinical rotation experience a great one.
- Pleasant Optics is an ideal site for those looking for experience in a private practice setting with much clinical knowledge and private practice knowledge to be gained. The doctors and staff made for a comfortable environment and were always willing to help.
- I learned a ton during this rotation and appreciated the support and challenges from the attending doctors.
- I cannot say enough good things about this rotation. I have learned so much and gotten such good exposure to patients of all ages. The doctors answer all of my questions and push me to improve as a clinician. Also working with doctors of various ages from various backgrounds has given me a good variety of treatment options.

Pleasant Optics

- Wonderful rotation site! Great patient experiences with ample learning opportunities!
- This has by far been my favorite rotation site! I am so happy that I had this as my last site and am leaving here feeling very confident in myself. I saw a large variety of patients here; everything from pediatrics to ocular disease to specialty contacts! The doctors truly care about the interns and want to push them to become the best doctors possible. The support staff is great and really make you feel like part of the "work family." Also the clinic in ran very efficiently, which makes for an excellent overall experience.
- Highly recommend Alma/Pleasant Optics. If you are considering private practice as a career choice this is SPOT ON to what real world optometry is. They have state of the art equipment and let you order any and all testing needed. Keep this rotation site as long as possible!
