

Special Needs Vision Clinic
Average Rating for 2018 – 2019 3.83

Response Scale: 1 = Poor; 2 = Marginal; 3 = Adequate; 4 = Good; 5 = Excellent; N = NA

Student Comments:

- Overall I think it was a good experience, it is always tricky being at so many different locations in order to fulfill patient count. Ideally there would have been more patient encounters but with the weather, it was unavoidable. Overall it was a unique clinical experience.

Special Needs Vision Clinic
Average Rating for 2019 – 2020 4.67

Response Scale: 1 = Poor; 2 = Marginal; 3 = Adequate; 4 = Good; 5 = Excellent; N = NA

Student Comments:

- Each of the 3 offices contained a couple of pieces of equipment in need of minor repair/adjustment/maintenance, but were all useable and not detrimental to exam administration. Those seeking a rotation rich in fully immersive private practice optometry 2x/week and interaction with rarely seen patient demographics the remainder of the week should enroll in this rotation. I personally learned specialty exam techniques geared towards special needs patients that will easily be carried with me for the duration of my career. This rotation is highly valuable for anyone interested in caring for special needs patients in any clinical environment/mode of practice. I am highly pleased with my choice to come to this rotation.

Externship Office Comments:

Special Needs Vision Clinic
Average Rating for 2020 – 2021 5.00

Response Scale: 1 = Poor; 2 = Marginal; 3 = Adequate; 4 = Good; 5 = Excellent; N = NA

- This rotation was a great experience in gaining very useful clinical knowledge at how to appropriately manage some of the most difficult patients.
