- This rotation site is very valuable! Dr. Becker and her staff are all very kind, helpful, and they run a great practice. The skills and knowledge I gained at this rotation have helped me to become a better clinician and provided me with a more solid understanding of low vision exams and working with low vision patients.
- The doctors and staff at W&B really took pride in their practice. Everything was up-to-date and the layout of the office was incredibly efficient and aesthetically pleasing. The space was something that any private practice would envy. The support staff were always willing to go above and beyond to help with each patient encounter. I was also very lucky to work with Dr. Nielubowicz for a few days and I am very thankful that she was willing to pass on some patient care insight to me as well.
